THE MORMON COAL BED!

COAL! COAL!! COAL!!!

A DISCOVERY has been made of several extensive seams of COAL in SANPETE COUNTY.

FIVE MILES FROM FAIRVIEW,

By H. Carlson, of Springville.

The discoverer has commenced to work those mines, and is prepared to supply the people in the surrounding counties with an excellent article of Coal at \$6 per ton at the coal-bed, to which there is a good wagon road.

The bed is 32 miles from Springville, by the Spanish Fork Cañon Road, which is expected to be in travelling order in a short time.

There is a road now open to it by way of Salt Creek Canyon. w32-2m

NOTICE!

In the Supreme Court for the District of Utah.

In the matter of GEORGE D. WATT, ROBERT G. SLEATER & Wm. AJAX, doing business as partners under the name and firm of Watt, Sleater & Ajax; Bankrupts. In Bankruptcy.

NOTICE IS HEREBY GIVEN That on the 5th day of October, 1889, a Warrant in Bankruptcy was issued out of the Supreme Court for the district of Utah against the Estate of George D. Watt, R. G. Sleater and William AJAX, of the city of Salt Lake, County of Salt Lake and Territory of Utah, in said District, who have been duly adjudged Bankrupts upon the Petition of Walker Bro's, creditor of said Bankrupts; and that the payment of any debts and the delivery of any property belonging to said Bankrupts, to them, or for their use, and the transfer of any property by them, are forbidden by law. A meeting of the Creditors of said Bankrupts, to prove their debts, and to choose one or more assignees of their Estates, will be held at a Court of Bankruptcy, to be held at Salt Lake City, in said District, on the 11th day of November, A.D. 1889, at 10 o'clock, a.m., before R. H. Robertson, Esq., Register, at his office in Salt Lake City, in said District.

J. M. ORR, U.S. Marshal and Messenger in Bankruptcy By N. P. Woods, Deputy. R. N. Baskin, Attorney for Petitioners. Salt Lake City, October 11, 1889. w37-4

NOTICE

IS hereby given, that I, Israel Evans, Mayor of Lehi City, Utah County, Utah Territory, have, on the 30th day of June, A.D., 1889, entered at the United States Land Office at Salt Lake City, Utah Territory, in trust for the several use and benefit of the inhabitants thereof, the following described tract of land, namely: Section 17, south-west quarter of section 9 south-east quarter of section 8, south-east quarter of section 18, and north-east quarter of section 19, township 5 south, range 1 east, containing 1,280 acres. Any person or persons having claims in the lands above described, will file the same with the Clerk of the Probate Court for Utah County, as prescribed by law.

ISRAEL EVANS, Mayor of Lehi City. w22-3m

REWARD OF INDUSTRY.

I do not propose to enter into any arguments, or great amount in order to convince any one of the merits of the Emerson Saw. I will only say that it performs just what the inventor, J. E. Emerson, claims it will perform—it will cut faster, and smoother lumber, and with less power than any other moveable toothed saw. At the same time it is cheaper than any other make of saw, either solid or moveable toothed. In short, the Emerson Saws can recommend themselves by the quantity and quality of lumber they can cut when operated to full capacity.

I will say that if any one wants to purchase an Emerson Saw, or any information concerning them, they can be accommodated by applying to me in person, or addressing to Post Office Box 115, Salt Lake City.

I will furnish the public with a price list as soon as practicable.

JOSEPH LANCASTER, Consulting, Practical and Mechanical Engineer. w37 2

NOTICE

IS HEREBY GIVEN to whom it may concern that you are forbidden to work, improve or purchase any interest in the quartz vein or lode, claimed as the Webster, situated in the Ohio mining district, Piute county, Territory of Utah, as there is a prior valid claim.

JOSEPH S. WING. Oct. 16th, A.D., 1889. w38-3

NOTICE!

In the Supreme Court for the District of Utah.

In the Matter of WILLIAM DALLIN and A. G. SUTHERLAND, late partners under name and firm of Dallin & Sutherland, Bankrupts. In Bankruptcy.

No. 12.

NOTICE IS HEREBY GIVEN, that pursuant to an order made by said Court in the matter of William Dallin and A. G. Sutherland, Bankrupts, on the 13th day of October, A.D. 1889, a hearing will be had upon the petition of said Bankrupts, heretofore filed in said Court, praying for their discharge for all their debts and liabilities, proveable under the Act of Congress, entitled "An Act to establish a uniform system of Bankruptcy throughout the United States," approved March 2nd, 1867, and for a certificate thereof before said Court, on the 17th day of November, A.D. 1889, at 11 o'clock a.m., at the United States Court Rooms in Salt Lake City, in said district, at which time and place any Creditors of said Bankrupts, or any other person in interest, may appear and show cause, if any they have, why the prayer of the said Petition should not be granted.

Notice is further given that the 2nd and 3rd meetings of the Creditors of said Bankrupts will be held before R. H. Robertson, Esq., Register in Bankruptcy for said District, at his office in Salt Lake City, at 10 o'clock a.m., on the said 7th day of November, A.D., 1889.

W. I. APPEBY, Clerk of said Court in Bankruptcy. Salt Lake City, Oct. 13, 1889. w38 4

ESTRAYS.

I HAVE in my possession the following animals—

One Pale Red 3-year old STEER, some white on forehead, branded J V on left hip, underbit on right and swallow fork on left ear.

One Brindle HEIFER, 3 years old, branded CO on left hip, underbit in left ear, bush of tail white.

If the above animals are not claimed within 20 days, they will be sold at public auction.

JOSEPH EGBERT, Kaysville City Poundkeeper. s35-2w17-1

It is reported in London that the son and daughter of Mrs. Leigh contemplate bringing a libel suit against Macmillan for publishing Mrs. Stowe's article against their mother.

A German farmer at Mokelumne, Cal., being congratulated upon the abundance and quality of his Bartlett pears, replied, "Oh, yes, dey make such good food for de cows."

Gen. Sheridan was called upon for a speech at the Wisconsin State fair, and said: "Ladies and gentlemen, I know you do not expect me to make a speech, and so I will only make my bow." He bowed, but was again called for, and came forward, bowing, and said: "Ladies and gentlemen, I repeat my little speech, and give way to others."

ACOUSTIC TELEGRAPH.

A series of experiments with the newly-invented Acoustic Telegraph were made on Thursday last, at the Fulton Ferry Houses, Brooklyn, in the presence of a number of gentlemen, who were as much astonished as gratified at the accuracy of the general messages that were transmitted by the acoustic telegraph through wires connecting two houses 150 yards from each other. The first message sent was that of the Rev. Dr. Deems: "He that hath ears to hear, let him hear." The Rev. Dr. Hall asked: "How long before the new bridge is to be built, and what about stock in it?" Mr. Samuel Orchard inquired: "Can a man be held responsible for the place of his birth without having been consulted by his parents?" The Tribune reporter asked: "What is the time at the ferry?" and Dr. Boscowitz inquired "the relative diagnosis between rubella and scarlatina." These messages were all transmitted safely and much more accurately rendered than ever could have been anticipated. The invention is a battery that works without electricity through a wire that does not call for the protection of insulators, nor tall massive poles, and that delivers a message through wire of any length, one-eighth of an inch in diameter, submerged in water, buried in the ground or suspended in the air. The battery consists of a solid iron cylinder one foot long or more, and four inches in diameter in facial and general, but toward the other end, which becomes conical and tapers like a minnie ball, in an aperture, admitting the entrance of a metallic wire, the medium of communication, the whole supported by solid iron frame-work, and weighing not more than 100 pounds. At the facial end of the cylinder is a hollow hemisphere of iron, whose interior surface is covered with silver plate, constituting an elliptical mirror, having a solid rim one inch in diameter. The face of this rim is ground so smooth that when it is placed in contact with the face of the cylinder, no air can intervene, and it is held and kept in this position by a strong spring 12 inches long, arched above and supported by the frame work and curved below, so as to form the signal key, by which the battery is worked and made to evolve sounds from the organic atoms of the air which surround and press upon the face of the rim and of the cylinder, with a force equal to fifteen pounds on the square inch, the moment one face is separated from the other. The distance of this separation is graduated by two metallic bars, which constitute the Diatomic Staff and from each bar a different order of sound is created called the vowel and the consonant sound respectively. By uniting in regular order the first and second order of sounds, the Fulcimen or third order is produced. By uniting the second and first order, the Biforcimen or fourth order is generated, and in commingling together the first and second primary orders, the Valorem or fifth order of sound is created, and together they represent and express any specific symbolic formula of sounds, each letter of the English Alphabet, and each Arabic Notation; and each one is so characteristic and expressive of itself that no mistake can occur in translating a message. The inventor is Dr. Lancelot Hope Everitt of New Orleans, Louisiana, who was elected a member of the Royal College of Surgeons in Edinburgh some years ago. The Doctor's theory is that sound is a triune molecule of matter—silent inertia, simple force and explosive sound—and exists in all the organic atoms of the world. That he can evolve these molecules from the organic atoms of the air in such a way, by means of the Acoustic Battery, as to collect them into two dissimilar units of sound which he converts into two primary orders. When thus evolved the hemisphere mirror reflects them through the solid cylinder, which then inducts them into the cone of the wire, through which it passes with great velocity to the distant end of the wire. This end is at the time in contact with a glass bell for the purpose.

When a message is about being sent a tattoo is sounded by the battery and this rings the bell so loud you can hear twenty feet off. The message then follows in symbolic order, and as the chime their intonations upon the bell they are easily interpreted by the receiver of the message.—New York Tribune.

Mr. Kinglake, the author of the history of the Crimean war, has lost his seat in Parliament because he obtained it by bribery; and he is threatened with a criminal prosecution besides.
