Partly cloudy tonight and Wednesday; maximum temperature, 35-40; minimum, 20; visibility, 10 miles; wind, variable.

L. H. MURDOCH.

Sectional Director, Weather Bureau.

## LOCAL BRIEFS.

The City Council will meet at 8 P.M. this evening and give consideration to the communication from the Board of Trade workers committee with respect to furnishing the city with a more adequate water supply.

A great many citizens are inquiring why temporary arrangements cannot be made for silencing the dust until the new paving system is put in operation. In effect, we have less than one month to get rid of the dust in Salt Lake as at the present.

The lecture on "Outlines of Agriculture" has been delivered by Prof. W. H. Stewart, principal of the State normal school, was called off last night because of the bad weather. The lecture was to have been given at the Salt Lake Educational club failed to materialize.

A new school bus was launched yesterday under the name of the "Deseret" and given to the Deseret school in its honor. A. W. Smith, president; Arthur Brown, vice president; Nels Johnson, secretary; Miles Allard, treasurer; Clarence Cushing, captain and Charles Hunter, lieutenant.

The following officers were elected last evening at the annual meeting of the Deseret school parents' association: George M. Purman, junior warden; Dr. F. H. Brown, F. J. Frasch, H. E. Lane, and Dr. G. W. Wood, trustees; Dr. George T. Wallace, J. H. Woodward.

The printing of the Deseret parents' annual has not yet begun. It will be another week before the Deseret parents' association of the Deseret school receive a copy of the winter pages will come up for consideration. On account of sufficient time, this will, it is claimed, have to do.

On a report from the Elko city marshal yesterday, Sheriff Burdett wired to Capt. A. W. Alling, a missand, and told him to arrest the man. Alling wired that this morning, Alling, who is said to be a player in a Elko house of ill repute if accused of appropriating a \$10 bill belonging to one of the inmates.

An individual bearing the cognomen of Capt. John Bettom, but more widely known as "the Weather Lawyer," is here to attend the trial of the man. He is a man of physical strength and skill. He makes a cause heard from a seat in the dock with a gavel in his hand. A private exhibitor in the courtroom of the press.

Jay Lambert, son of H. J. Lambert is laid up in Park City with an attack of mumps. He is expected to make a full recovery in about three weeks.

We found the snow from twelve to fifteen feet deep there, as the snow had been falling since the first of March. It was very hard upon the trees. Mr. Lambert will open on the Brighton main road in June.

Lionel D. Davis, who returned from Mineral Hill, where he had been very sick at his home in this city. His physician has entertained some doubt as to his health. Davis has been here in state for more than a month, where he had been looking after the interests of a New York mining firm. He is well now, but his health is not good. The news of his illness will cause sorrow among his many friends.

John Whipple, an Indian native who had been here for a number of years, died yesterday afternoon. The result of a disease in a tunnel in which he was working, incurred him to the point of unconsciousness, completely out of funds. This morning the poor old fellow received upon his deathbed the services of the Methodist Church. He had spent over \$100 in the city, and his wife, Mrs. Whipple, and the news of his illness will cause sorrow among his many friends.

CROP CONDITIONS  
OVER THE STATE.Scarcity of Water in the Extreme  
South and Southeast.

## OTHER PARTS FAVORABLE.

Planting and Seeding Progressed  
Rapidly During the Week—Fall  
Wheat and Cotton Well Up.

Salt Lake City, Utah.

April 11, 1899.

Clear weather has prevailed during the past week. The early precipitation reported was due to the passing of the cyclone of April 6th. The days have been warm and the nights cool, giving a mean temperature about the same as the previous week. In the extreme southern portion of the State there has been a great scarcity of water, therefore the dry weather of the winter has been a blessing. In other portions of the State the winter was just what the farmers wanted, giving a good deal of rain and the condition of their fields had the delayed spring work. Planting progressed rapidly. Considerable spring wheat and cotton have been sown. The planting of sugar beets was commenced in Utah County. Fall wheat has been planted in all sections. The soil is in fair condition. Laramie Valley has turned out a good crop. Fall wheat is in fair condition. —J. G. Whidle.
