STREET-CAR PEOPLE RECEIVE ATTENTION

Buckle Offers a Resolution Criticizing Salt Lake City Company.

RAPID TRANSIT IS INCLUDED

Matter Referred to City Attorney as to Whether Companies Cannot be Made to Give Better Service.

The Salt Lake City and Rapid Transit street railroad companies received attention from the members of the City Council at last evening's meeting. President Buckle Introduced a resolution censuring the Salt Lake company for an alleged unsatisfactory service on the east Second South setreet line, and Councilman Thomas offered an amendment which included the Rapid Transit company, referring more particularly to the east Seventh South street line. Both the amendment and resolution carried by a unanimous vote.

BUCKLE RESOLUTION.

President Buckle's resolution read as "Whereas, The Salt Lake City railroad is not giving satisfaction in its service to its patrons on the line operated by them on east Second South street, by not running enough cars during certain hours for the convenience of the public as the following two specific cases will testify: 'On Thursday, January 25, 1860, car No. 31, leaving Main street at 6:18 p. m., going east on the street above named, had forty-one passengers, and on Saturday, January 27th, car No. 14, leaving Main street at 5:54 p. m., going east on same street, had forty-two passengers. Both these cars have a seating capacity of eighteen pas-sengers. Therefore be it

Resolved, That this resolution be referred to the city attorney for an opin-ion as to whether the said railroad company cannot be compelled under its franchise to give satisfactory service for the convenience of its patrons and the public."

SAME CONDITIONS ELSEWHERE.

Speaking to the resolution, Buckle said the same conditions existed on the other roads of the company. The public, he further said, viewed it as an outrage. Frequently ladies were forced to ride on the rear platforms, notwithstanding the fact that notices appeared on each car, reading. "Passengers are forbidden to stand on the rear platform." South Temple street residents, he believed, were receiving a little hetter savetee. but the receiving a little better service; but the people re siding in that part of the city ought to understand it was not due to any particular love for them on the of the Sait Lake company; the Rapid Transit company, its competitor, had forced it to give better accommoda-

the use of vacant room on first floor of the city and county building, formerly used by the city janitor, for laboratory purposes. Referred to committee on control.

TAXES COLLECTED.

City Treasurer Morris, in response to the resolution introduced by Thomas, reported that the amount collected to December 31, 1899, on city property tax for 1899, was \$190,504.80. The amount lected to same date on water tax was \$48,718.41. These taxes, with other re-ceipts, Mr. Thomas said, were placed in general fund, and the amount on hand in that fund December 31, was \$43,711.20. Referred to committee on finance.
City Sexton Carter recommended con-

necting the cemetery park with the cemetery for burial purposes. Referred to committee on cemetery.

SPEAKS FOR HIS CLERK.

City Auditor Reiser called attention to the "very low amount" allowed the auditor's office for clerical assistance. "Previous to the year 1896," Mr. Reiser said, "the auditor was allowed a deputy at a salary of \$100 per month, but in the above year the office was abolished and the auditor left without any assistance whatever." The salary of a clerk is now \$40 per month, and Mr. Reiser gave it as his opinion that the work in his office was just as important as that of any office in the city's government. The recorder, treasurer, attorney and police justice, he said, "are allowed assistants at salaries ranging from \$75 to \$125 per month," and he asked for an increase in the salary of his clerk, and suggested the sum be fixed at \$60 per Referred to the committee on UNION DEPOT QUESTION.

Councilman Thomas, chairman of the laws and streets committees, notified the Council that he had instructed City Attorney Stephens to draw up or-dinances granting the Rio Grande Western and Oregon Short Line fran-chises for the proposed union depot. Mr. Thomas said the same would be presented at next week's meeting for

PARLEY'S CANYON SPRING CLEANING

Land and Water Commissioner Westerfield Given Extra Help.

PURER WATER LOOKED FOR.

Action of Council-Fernstrom Suggested Vaccinating the Stream-Reports of City Officers.

Land and Water Commissioner S. B.

Westerfield, in a communication addressed to the City Council, and which was read at last evening's session, drew attention to the befouling of Parley's canyon and tributary streams, by numerous sheep herders and campers. He requested that he be given authority to employ two additional men so that a general clean-up of the canyon could be made before the spring thaw sets in. One of the men, Mr. Westerfield suggested, should be vested with police powers to enable him to arrest parties violating the law with respect to the befouling of public streams. Canning said sheep herders were as

a rule just as clean and particular in their habits as other people. The befouling of the streams was to him all bosh and he opposed the employment of more men for the purposes stated.

Beauty said it was absolutely necessary for the city to take steps to prevent further befoulment of the stream; the cost should not be considered. Filth had found its way into the waters of Parley's creek and he knew it. Smallpox existed in a large camp of railroad men in the canyon, a fact that made it doubly imperative for the city to take effective means and prevent refuse from finding its way into the water. Fernstrom caused a laugh by asking if the stream had been vaccinated yet. There was further talk, and on mo-tion Mr. Westerfield was given authorito emply an additional man.

IMPROVE WATER SYSTEM.

The waterworks committee, in the matter of the report of Engineer Kel-sey, recommended that the board of public works be authorized to advertise for bids and proceed with the following work: To take up the water main in City Creek canyon and replace same with a large pipe; also that bids be asked for wood stave, cast iron and riveted steel pipe. On motion the re-port went over one week. Part of the report of Mr. Kelsey was withheld for future consideration by the

City Engineer Kelsey reported that agreements had been signed by owners of Big Cottonwood creek water, whereby it was stated they would enter into a contract with the city, at any time from February 9, 1899, change of Big Cottonwood creek for water from the Jordan and Salt Lake City canal. Mr. Kelsey recommended favorable action. Referred to committee on irrigation. The Committee on waterworks

gineer in appropriating additional water from Utah Lake, on behalf of the city, notice of which was filed a couple of weeks ago, was approved.

CRIME COMMITTED.

Land and Water Commissioner Westerfield reported that certain parties, who are know to him, had taken im provements from the city's real estate without authority or right. Mr. Westerfield said there was no question that a crime had been committed by such acts and he recommended the matter be referred to the city attorney. It was
