Conditions at Martha Washington-

Horseshoe Shipment-New Sau-

pete Company-Mining Notes.

The Columbia Mining company of

Bingham will probably purchase the

Dewey mill in Bingham for the treat-

ment of its copper ores. While the

proposition of the present owners of

the mill could not be learned in detail,

it is a fact that they have made an offer to the owners of the Columbia,

which will probably be accepted. Mr.

J. A. Cunningham, who owns the on-

trol of the mine, went out to Bingham

today in company with Frank B. Cook,

to inspect the Dewey mill, and it is

considered very probable that the deal will be consummated in the next few

days. Mr. Cunningham went out to the mine earlier in the week to examine

a mill site, but it is said to be unsatia-factory. The eyes of Mr. Cunning-ham were then directed to the Dewey

mill, which is right on the Copper Belt railroad. The road also passes under

the Columbia bins and affords an eco-nomical way of getting the Columbia ore to the mill without any particular

changes being made. Then again, the

location of the mill is such that it is said that it will always pay big inter-

est on the investment if the company should decide at any time to treat cus-

tom ores. The success of the leasers

who have been milling Columbia ores in

Cunningham that, with the installation

f a couple of more tables and some

minor changes, the Columbia can be

made to give a good account of itself

through the Dewey mill, and those who know say that the deal is next thing

to consummated, in spite of the fact that John T. Hodson declined to say

New Sanpete Company.

The Viking Mining company is the name of a new company which his now practically organized to develop four claims in Sanpete county. Herman Bamberger expects to go south tomor-row for the purpose of putting the last touches on the incorporation when pa-pers will be filed with the county clerk. The company is made up of men from Salt Lake and Ephraim. Among the men from Salt Lake who are interested in the company are Herman Bamberger, A. E. Welby and others. The company owns four claims in the hills west of Ephraim which have been par-tially developed by a shaft about 80 feet deep. Some good lead and silver ore is deep. Some good lessaid to be in sight.

Morgan County to Organize. Articles of incorporation of the Croft

Pembroke Mining company were filed today with the county clerk.

The office of the company is to be in this city. It is capitalized for \$50,000, divided into 500,000 shares of the par value of ten cents each. W. H. Croft president, and holds as trustee 199. 000 shares of the stock; John Croft is vice president, with 1,000 shares: H Pembroke is secretary and treasurer holding 198,000 shares as trustee, who with S. J. and E. R. Pembroke, each holding 1,000 shares, form the board of directors. The company owns the Sunshine

Highland Dell, Shamrock, Pembroke No. J. Pembroke Extension, Croft No. 1. Dickinson, Lady Victor, and Lady Victor No. 2, all situate in Arbuckle canyon, Morgan county, which it proposes to exploit and develop.

The Red Wing of Bingham had 6 cars of ore on the market today.

A very marked improvement is reported on the 600 level of the Emerald at Tintic.

A body of good ore is reported to have been uncovered in the old Tiewaukee at Bingham.

Centennial Eureka had another lot of ore on the market today, consisting of a number of cars.

The Utah of Fish Springs has another car of high grade ore on the way to market today.

F. C. Richmond of the mining de-partment of the Salt Lake Hardware company, is back from an extended trip to the east. H. J. Faust, well known in connection

with Deep Creek enterprises, expects to leave for that section today. W. C. Dodge, who is operating the Wheeler group on Gold Mountain re-ports a nice quality of milling ore in the new strike 210 feet from the mouth of

Mining Excitement in Box Elder.

The recent developments in Park Valley and other parts of Boxelder county is evidently causing an epi-demis of mining fever. The Brigham City News alludes to present condi-

Immediately following the denial is the statement that the men will be put to work again at the Daly in a short time, which is exactly what the "News" said. Perhaps no more can be expected from one who writes a front page article in which he says that the vast limestone ledges of Parley's canyon assay \$7 in gold, this great discov-ery having been recently made at the cement works.
