President Cabral of St. Domingo has fled to Venezuela. The southern forces have entered the capital. There are thirty deaths from cholera daily in St. Domingo city.

Halifax.—The debate on the resolution to repeal the confederation concluded yesterday. An address to the Queen embodying the resolution was sent to the Lieutenant Governor, to be submitted to the Queen.

Washington.—At twelve o'clock the Clerk of the House appeared in the Senate and read the resolution of impeachment passed yesterday, which was received in silence, and no action taken.

San Francisco, 25.—The Union State Convention for the election of Delegates to the National Republican Convention at Chicago, will be held at Sacramento, March 31.

The Mexican government has declared Puerto Angel, situated on the Pacific coast, of the State of Oajaca, a port of entry for foreign and coasting commerce.

Special Notices.

President Heber C. Kimball understands that there are many in this city and in other places adjacent, who have wool to card. He has put up a store and has the place where his two double carding machines work, in the 19th Ward, near Pugsley's mill and the Ward Meeting House, fitted up so that carding can be done occasionally when the weather moderates. He also has David Le Baron to work them—a man whom the people know to be honest, for he has been well known among them for many years. He can cheerfully recommend Br. Le Baron as an honorable man, who has always given satisfaction to his customers when running machines for him. People bringing wool can have it done when they bring it, if there is enough at the machines to run a day. Bring grease as usual, say one pound to seven.

If the people will not bring wool along to be carded, the place will be closed.

Mrs. White has arranged to prolong her stay in the city for a little time longer, and those who desire to rapidly obtain an acquaintance with music should see her, for she communicates a knowledge of the science, by "Robbins American Method," so quickly as to astonish those unacquainted with it. We think our musicians who wish to fully understand Harmony or Thorough Bass, applied to the piano, organ, &c., ought to make themselves acquainted with the system soon, as she will remain here but a short time. She can be found at the Townsend House.

References to and letters of recommendations from the most eminent Professors of Music in the East, all concur in its praise.
