TWENTY COAL MINERS Wanted at once, by the Rocky Mountain Coal and Iron Company, Evanston, W. T. Good wages, prompt pay and steady work.

W87-4

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

OBSEQUIES.—This afternoon the funeral ceremonies of his Excellency J. Wilson Shaffer, late Governor of this Territory took place at his late residence on the State Road. Out of respect to the departed, flags were floating at half mast from Zion's Co-operative Mercantile establishments, *DESERET NEWS* office, the Deseret University and the public buildings and chief stores in the city. The University adjourned out of respect to the deceased and the principal stores and business places were closed during the ceremonies.

The following programme was observed on the occasion, Rev. G. M. Pierce, officiating.

PROCESSION:

Band of the 13th U. S. Infantry.
Three Companies 13th U. S. Infantry, commanded by Brev. Col. A. L. Hough, U. S. A.
Masonic Fraternity: J. M. Orr, Marshal.
Major D. S. Gordon, Commanding 2d U. S. Cav.
PALL BEARERS. PALL BEARERS.
Gen. H. A. Morrow, E. P. Volum,
Dr. A. Fowler, John Chislett,
Gen. P. E. Tanner, J. H. Wickizer,
R. H. Robertson, R. M. Taskin.

Clergy.

Family.

Governor.

Federal Officials.

Judiciary.

Members of the Bar.

Territorial Officials.

Municipal Officials.

Religious Societies.

Citizens.

M. T. PATRICK, Marshal.

Assistant Marshals:

Col. W. M. JOHNS,

MAJ. W. H. BIRD,

ANTHONY GODBE.

NEW GOVERNOR APPOINTED.—An extra special dispatch, received this afternoon, by the Western Union Telegraph line, from Washington, D. C., says:

"The President to-day, appointed Vernon H. Vaughan, of Alabama, to be Governor of Utah, and Geo. S. Black, of Utah, to be Secretary of that Territory."

INFORMATION WANTED.—The *Millennial Star*, of the 11th ult., says that any information of the whereabouts of Thomas Wise, who emigrated from the London Conference in 1865, on the ship *Belle Wood*, would be thankfully received by William Capell, of 21 Crown St. Hindpool, Barrow-in-Furness, Lancashire, England.

SEXTON'S REPORT.—The Sexton's report for October is as follows:—Males 24, Females 23. Of these adults 12, children 35. Causes of death as reported:—Teething and bowel complaint 14, fevers 9, congestion of brain 3, congestion of lungs 3, convulsions 2, heart disease 2, liver complaint 2, spinal affection 2, croup 2, still born 2, died at birth 2, consumption 2, chronic asthma, 1 old age 1. Total interments 47.

Jos. E. TAYLOR, Sexton.

HOME INDUSTRY.—Bro. Gregory called this morning and showed us some specimens of wire weaving, of his own manufacture. He carried on business in this line in London, England, for many years. The articles shown us display excellent taste and workmanship. They consist of sieves, strainers, dish covers &c. Brother Gregory can now make all kinds of wire blinds, meat safes, fire guards, fancy baskets, flower stands and almost every kind of useful or ornamental wire-work that can be made by hand. He purposes soon to import machinery, when he will be able to enter into the business in every branch and to compete, in the matter of price as well as quality, with any market extant. We would like to see this branch of home manufacture encouraged. Orders will be attended to by him if left at the tin store of W. Harrison, East Temple St.

ORGANIZATION.—To-night, at half-past 7 o'clock there will be a meeting in the room, over Faust's stables, for the purpose of effecting an organization, preliminary to the establishment of a Merchant's and Miners' Exchange, Club Room, etc. All interested therein will do well to attend and lend their aid in furthering the object of the meeting.

PRESIDIGATEUR.—Remember Signor Bosco, who gives exhibitions daily at the Museum and Managerie, at twelve, two, and four o'clock, of his wonderful feats in *leger de main*, or sleight of hand. Signor Bosco has achieved great fame as a professor in this line of art; and his feats are performed with such exceeding celerity as to mystify the most penetrating. The price of admission is, children ten cents as usual.

IRRIGATION SCHEME.—It will be seen by a dispatch from Omaha, that the Union Pacific R. R. Company have in contemplation plans for irrigating the millions of acres of land lying along the line of the road. It may be expected that those lands will soon be covered with flourishing productive farms and that in a few years, upon the now arid plains between Nebraska and the Rocky Mountains will be a continuous string of prosperous towns, cities and villages. This is not too much to expect in this "lightning express" age, yet who would have imagined such a thing a few years ago.

MADAME SCHELLER.—This lady, so well and favorably known to the Salt Lake public, had a benefit at Omaha on the evening of Friday last. "La Sonnambula" and "The Conjugal Lesson" were the pieces produced. She has returned to Omaha after an absence from that place of three years. So says the *Herald*.

THE MILLENNIUM.—We understand that there is a gentleman in this city who wishes to lecture to the people here on the end of the world, the millennium and kindred subjects. These topics have formed, and still form, a never ending theme among the various religious sects; but the ten times ten thousand discourses they have called forth have elicited little or no light, and they are still enshrouded in mystery to the whole of the religious world. The Latter-day Saints, guided by modern revelation, have been enabled to form correct ideas and conclusions as to the *modus operandi* which will usher in, if not the end of the world, the great millennial period; the idea therefore of a gentleman belonging to any of the religious sects of the day lecturing to them, and making that his subject, is extremely novel.

EARTHQUAKE.—A dispatch per Deseret Telegraph Line, received at about 11 this morning, and dated 10:40 a. m., Nov. 1st, says:

"There was a heavy shock of earthquake at San Francisco, about five minutes ago, which lasted 30 seconds. The operator threw open his key and ran out into the street. No further particulars as yet."

NATURAL WONDERS.—Our northern exchanges contain descriptions of the extraordinary natural wonders, which are said to have been discovered by an exploring party in the Yellow Stone Country. Volcanoes, huge geysers and immense waterfalls are among the curiosities mentioned. The descriptions given of that region have more the semblance of a fairy tale than of reality. The newspapers in which they appear, however, vouch for their correctness. According to these accounts that part promises to be as interesting a field for scientific exploration as the Colorado.

A NEW VISITOR.—Sangiovanni walked into the sanctum to-day accompanied by a live porcupine. The latter came in a little in advance of the former and, as the visit was quite unexpected, the hair of one of our reporters nearly stood on end.

FROM WEDNESDAY'S DAILY.

MERCHANTS AND MINE OWNERS EXCHANGE, CLUB AND NEWS ROOM.—A second meeting of gentlemen interested in establishing the above organization was held last evening, in the hall over Faust's livery stable. A form of prospectus was submitted and approved, and a committee appointed to wait upon citizens and others and obtain their signatures and approval. The meeting adjourned until Tuesday next the 8th inst.

THAT EARTHQUAKE.—If yesterday had been the first of April there might have been some appreciation of the joke of sending the telegraphic dispatch from San Francisco about the earthquake. But, it being the first of November, we fail to see the point. However, we were not fooled very badly by it. The Atlantic and Pacific Telegraph Line cannot startle us much with anything it may furnish; we have had all the startle knocked out of us by the Western Union. The latter company is too long established, and had too much experience in telegraphy, to allow any new company to get the start of it in the sensation business. It was only a few days since that we were told, and gravely published it as a telegraphic fact, that Bazaine had emerged from Metz in such strength and fury as to kill, wound and capture thirty-two thousand Prussians; 9,000 only of that number having escaped wounds and death. And then how many times we have published about his escape! McMahon we were told so often had been killed, that deluded into the belief that it was so, we wrote for him a very elegant obituary, in which we set forth in proper terms, the valor, virtues and pedigree of the chieftain whom we were informed had departed, a copy of which we hope by this time the Marshal has seen. We did not call the attention of our readers the next day to the dispatch which stated that he was still alive; we left it to their penetration to find out. We mentally resolved we should be satisfied that these fellows who go to the wars were very dead before we should write any more of their obituaries. Now the Atlantic & Pacific is doubtless a very smart line; but unless it hires employees that have been on the Western Union, we think it will be a long time in achieving the distinction which the latter has achieved. It did pretty well yesterday, though; that earthquake, we heard, fooled somebody.

CALLED.—J. H. Wilhelm, Esq., who is on his way from Chicago to San Francisco, called to-day. Mr. Wilhelm is correspondent of several eastern journals. He expressed himself highly delighted with the garden appearance of our city.

A TRIBUTE OF RESPECT.—A meeting of the Federal Judiciary, and the members of the bar was held in Faust's Hall, yesterday, at which resolutions of respect to the memory of the late Governor Shaffer, were passed.

Speeches were made by Hon. J. B. McKean, Governor Vaughan and others.

FINED.—C. A. Lashbrook and Michael Fagen were yesterday brought before Alderman Clinton for indulging in a rough and tumble fight, and the former fined \$10 and the latter \$15. Fagen, still feeling wrathful towards his opponent, or not satisfied with the smallness of the fine he had paid, afterwards entered the store of Lashbrook and attempted to demolish the goods, for which he was fined in the sum of \$15.

RAILROAD ACCIDENT.—We have received the following special to the News, per Deseret Telegraph line:

OGDEN, Nov., 2nd.—On Saturday last, a U. P. Train, of seventeen freight cars and engine, ran off the track, near Peterson's settlement, in Weber Valley. It appears that a bolt was removed, by some unknown cause, from the switch, and the train pressing open the rails, ran on the side-track and became a wreck. Only two of the cars were set up again; the remainder, with the engine, were badly damaged. There were five men on the train but, strange to say, no one was materially injured. Efforts are being made to ascertain the real cause of the affair, but, up to this morning, nothing satisfactory has been ascertained.

MARRIED.—In this city, Oct. 31st, by President D. H. Wells, Mr. Edwin Parker to Miss Catherine Cox, both of Hooper City.

FROM THURSDAY'S DAILY.

DISTRICT COURT.—The case of Englebrecht & Co., against Jeter Clinton and others is still proceeding.

FATAL ACCIDENT.—An inquest was held yesterday on the body of a gentleman named Martin Winch, who, on the evening previous, had fallen down a flight of stairs in the Omaha House where he was a guest. He died from the effects of the fall in a few hours after the occurrence. The Coroner's jury returned a verdict in accordance with these facts. Mr. Winch was lately from Massachusetts.

ACADEMY.—In company with Presidents B. Young, Geo. A. Smith, Professor A. Carrington and Elders B. Young, Jr., and John W. Young, we lately visited the Academy kept by Miss Mary E. Cook, assisted by her sister Miss Ida I. Cook, in the lower story of the Social Hall. We remained while the classes were exercised in reading and in geography, and were much gratified at the manner in which the lessons were conducted. The reading especially was excellent, and Miss Cook's method of training cannot fail to develop the qualities of her pupils as readers and elocutionists; particular pains being taken to impress upon them the necessity of entering into the spirit of what they read, and of expressing it naturally and in tones adapted to convey the full force of the sentiment to the listener. We judge that as teachers these ladies will be very successful. They come here highly recommended. Miss Mary E. Cook has had several years' experience as a teacher in a first-class Academy at St. Louis. We understand that she declined an advantageous offer of salary to come here. Her sister, Miss Ida I. Cook, after receiving a training in an Academy and a Grammar School at St. Louis, graduated at Oswego (New York) Normal College, having enjoyed every advantage which one of the best training colleges in the country affords, to prepare her for the profession of her choice—teaching. From the satisfaction which we have heard has been expressed by parents at the progress of the pupils placed in their Academy we conclude that it will not be long until their classes will contain all the scholars which they can conveniently teach.

PROFESSOR BOSCO.—We witnessed some of the amazing feats of this celebrated illusionist, yesterday. His skill is most marvellous, it is no wonder that he gained such great celebrity, in his profession, in England and on the Continent of Europe. Parents who wish to provide their children with a couple of hours harmless amusement cannot do better than send them to the Museum, that they may get ten cents worth of fun. The tricks of the Professor are comical as well as clever and keep the little ones on the *qui vive* and in perpetual laughter. Good humor is excellent medicine for children and they should have suitable recreation that they may "laugh and grow fat." We understand that the Professor's engagement terminates on Saturday, so now is the time to see his wonderful performances.

THE SWISS AND ITALIAN MISSION.—We are in receipt of a letter dated Neukirch, Switzerland, Sept. 30th, from Elder Chaucey W. West, who is on a mission in that country. He states that the gospel is spreading in that region, and frequent additions are being made to the church. He and Elder Schonfeld were, at date of writing, traveling in company. Brother West feels blessed in attending to the duties of his mission. He has made sufficient progress in acquiring the German language, to be able to address the people in public meetings.

IN A SWEAT.—The Editor of the *Ely Record* is in a very bad way. He is exceedingly indignant because he has heard that Mr. Parkinson, who was lately engaged in surveying the boundary line between Utah and Nevada, had an interview with President Young, who offered him (Mr. Parkinson) every assistance in his power and gave him valuable information. The *Record* man is evidently on the look out to get something to say about the "Mormons." He says that he blushes to think Mr. Parkinson should apply to a Mormon source for information. We would advise him to keep his blushes until he becomes conscious of his own folly and ignorance and then blush for himself.

An intelligent member of the Connecticut Legislature, in addressing his constituents by letter in reference to a new section in a bill, says: "This act shall not effect any sate now pendin."

The different watering places of Germany, which were suddenly deserted at the beginning of the war, are gradually filling again with a gay crowd, in a measure, as all danger of invasion of Germany disappears.
