

Ex-Gov. Frank R. Gooding, on be-half of the town of Gooding, offered the choice of several 20 acre tracts at this place for the school. Gov. James H. Brakly in speaking of the location of the school said: "The board unanimously decided to place the deaf and blind school at Gooding. It was found impossible to agree upon either Boise or Weiser. A proposition was made to give 20 acres of land and to pipe city water to the building, should the institution be located in Gooding. Gooding.

Gooding. "A condition attached to this de-cision is that the site shall be satis-faviory in every way. The board will visit Gooding within a few days, and, if it is not, another will be chosen.

INCREASE IS SMALL.

So far as the official returns have-been received from the various count-ies of the state, there is but little in-crease in the valuation shown. Four-teen out of the 28 counties have al-ready been heard from and these re-port an increase of only \$540,000 over the equalized valuation of the same counties for 1908. The total assessed valuation of all classes of property of the state including railroads for 1908, was \$115,680,056. Indications are that this year's valuation will not exceed this figure over \$5,000,000. It should be remembered, of course, that property in this state is never assessed at 50 per cent of its real value and general-ly much below that. So far as the official returns have
