

EDITORIAL NOTES.

A new case of cow-hiding is reported in Colorado. A poor woman having but one cow from which she drew her main support, hid the animal under her bed to save it from taxation.

Owing to the ravages of the Brazilian war, there are in Paraguay 2,089 women to every 1,000 men. Polygyny ought to be legalized in that province if there is any justice or humanity in its rulers.

Mechanics are in great demand in some parts of England, and a number of carpenters have recently sailed from New York, to work under contract in Manchester, at wages equivalent to \$3.50 per day of eight hours, with half holiday on Saturdays.

Beware of oxidized zinc. A stove dealer in Hartford, Conn., while handling a piece of the ordinary kind cut one of his fingers slightly. The poison entered the blood, affected the whole circulation, and in a few hours, in spite of competent medical aid, he expired from the effects of that little wound.

"Larrikism" is a newly-coined word in Australia. It is equivalent to the Californian word "hoodlumism." Youths just between the ages of boy and man are called "Larrikies" and as there are many of them addicted to numerous vices and much rowdiness, their depredations are designated by the term above mentioned.

Another Charley Ross has been found. This one was in the possession of a woman at Springfield, Ohio, who could give no proper account of the boy. He closely resembles the lost child in every specified particular, and will be forwarded to Philadelphia for identification.

The Sacramento Record-Union and the San Francisco Chronicle of the 3rd inst., have each a very correct and well-written account of the obsequies of President Brigham Young. Their speculations, however, are like many others of the press of the country, very wide of the mark.

ADMIRER BY ALL.

Every person who has used Dr. Price's Unique Perfumes admire them. His Pet Rose is charming—the fragrance of sweet blossoms; his Alisto Bouquet, delicately delightful—the odor of dainty buds; while his Floral Riches surpass in rich, fresh, flowery odor any Cologne or toilet water ever made. 3

Decay's Effacing Finger

Will never mar the teeth that are brushed daily with odoriferous SOZODONT. It lends a floral fragrance to the breath as well as protects the teeth from corrosion and decomposition. dsw

No ORDINARY Observer can fail to have been impressed with the fact that a majority of the patients who resort to the city dispensaries labor under chronic cutaneous diseases in their worst forms, and that those diseases occasion the chief cost incurred in the treatment of outdoor patients. It would be an economical policy for the authorities to make a distribution of Glenn's Sulphur Soap among the poor, and secure them exemption from cutaneous affections.
