FRUIT GROWERS' MEETING

Taking Radical Measures to Exterminate the San Jose Scale at Plain City.

In the District Court—Jurors Excused—Estate of Christine Christensen—Released from Custody.

On Wednesday evening a meeting of the board of horticulture was held at Plain City. There were present President Judd and Secretary Wright, also County Fruit Tree Inspector C. A. Hickenlooper. The meeting was largely attended by the fruit growers of Plain City and adjacent settlements. The topics of discussion related to fruit culture and the San Jose scale. These subjects were extensively dwelt upon by the gentlemen of the board, explaining the great importance of thorough study so that they may obtain the greatest measure of success in their orchards. Stress was also laid upon the necessity of the people being united with the board in their endeavor to exterminate that most pernicious insect, the San Jose scale. The board were highly complimented for their able endeavor to exterminate the scale. The pest had already caused much damage in the county. Between one and two hundred trees had been dug up and burned in trees around Plain City in order to destroy the pest. A committee of three, consisting of Geo. W. Bramwell, Abraham Maw and Wm. H. Hickenlooper, was appointed to call upon Governor Wells, and to use his influence to get the next legislature to make an appropriation for the purpose of paying poor people and widows for their trees when condemned because of the San Jose scale.

Chicago, April 5.—Terry McGovern, the featherweight champion, has finally decided to leave his class and on April 17th at Tattersalls, in this city, will meet Tommy White, the 115-pound champion, in a six-round go. Articles have already been signed. White is training at Mount Clemens, Mich.

"TIPTON SLASHER" WINS.
Knocks Out Frankie Noel at Chicago in the Second Round.

Chicago, April 5.—Benny Fanger, the "Tipton Slasher," knocked out Frankie Noel of St. Louis tonight in the second round of what was to have been a six-round contest. Noel made a plucky fight, but was completely outclassed and was badly hurt before he finally received his quietus, being sent to the floor eight times in the deciding round.

The card consisted of six bouts in all. The first was between George Stead of Chicago and Walter Burton of Boston for six rounds at catch weights. Stead got the decision. Sammy Harris and Kid Abel, bantam weights of Chicago, fought every second of six rounds, the decision being a draw. Morris Rauch of Chicago was given the decision over Jack Madden of Brooklyn at the end of six rounds. They fought at 115 pounds.

Art Sims, the clever Akron, O., 130-pound man, gained the decision over Dick Green of Chicago, at the end of the sixth round. Middle weight Barney Connors of Baltimore won over Jack Beaushotte of Chicago in six slow rounds.

THE HIGH SCHOOL WINS.
Defeated the Bankers Yesterday at Baseball by a Score of 2 to 0.

A swift game of baseball was played yesterday afternoon on the University campus between the High school and Bankers. The game was a lively one from start to finish and at the end of six innings the score was two to nothing in favor of the High school. Not a run was made until the fifth inning.

WHEN HE WOULD FIGHT.
All of the fighting qualities for which Senator Beveridge came to Washington with a considerable reputation seem to have entirely disappeared. It may be, though, that he will show them if occasion requires. It is certain now that his whole attitude is one of peace. A very good time is told and retold here about one of Beveridge's friends who went to him and told him that whenever he had any political row to come on his support. The gentleman himself tells the story, as follows:

"Senator Beveridge's face assumed the most bland and childlike expression when he replied in very gentle voice: 'My friend, there is not going to be any row. I won't have any row with anybody. If anybody wants to have a row with me, I will run away from him; not only that, but I will run hard.' But," added the Senator, with a glint in the eye, 'if anybody catches up with me there will be trouble.'"

Who Will Escort Them Over the City, Show Them the Sights and Entertain Them Generally.

The party consists of 100 persons and travels by special train, headed by the famous engine No. 9, which has made the fastest long-distance time in the world. The train consists of three Pullmans, a dining car, and the party live all together on board.

They left New York on the 20th of March and have so timed the layovers along the route that the time consumed in the trip will be just one month from the time of starting. A RUMORED BREACH.
Huntington and Speyer Interests Said to be Disagreeing.

A New York dispatch this morning says: "The Herald prints the following: 'There are rumors of a breach between the Huntington and Speyer interests in Southern Pacific. Stock market plans of the Speyer contingent have not worked smoothly because it is asserted, obstacles have been placed in their path by President Collis P. Huntington and some of his friends. It is thought that the Speyer contingent started in to advance Southern Pacific's price, having arranged a strong pool for that purpose. But when it got the stock around 42, the pool found that it was getting entirely too much stock.'"

"Investigation showed that certain inside interests were marketing big blocks of stock, which they had acquired prior to the time the board of the company closed for the annual meeting, which was held yesterday. Mr. Speyer tried to convince these interests, that by holding off while his pool worked, they would be able to get much better prices for their stock, and more ago the Speyer contingent started in to advance Southern Pacific's price, having arranged a strong pool for that purpose. But when it got the stock around 42, the pool found that it was getting entirely too much stock."

"It is now disclosed that when Southern Pacific was selling at 42 Mr. Huntington gave to some of his friends in the management options on large lots of the stock as low as 40. One of these blocks contained 20,000 shares. It was partly this stock which the Speyer pool was obliged to buy."

"At the annual meeting of the Southern Pacific, held in San Francisco, some of the charges made were entirely unexpected, and it is noted that no direct report of the Speyer interests has a place on the board. Vice President J. C. Rutledge and J. Kruttschnitt, who have been directors for several years, are out, and William E. Dodge, who has been a director for only a few months, is also dropped. In the place of these appear Messrs. Hawley, the assistant traffic manager, Probst and Haggin. August Belmont appears on the board, succeeding E. H. Pardee."
