FIFTY-FIFTH YEAR.

NORWAY—SWEDEN UNION DISSOLVED

The Storthing Declares the Tie Between the Two Countries Severed.

OSCAR NOT NORWEGIAN KING.

Address Adopted Asking Him to Cooperate in Selection of Young Prince as Of House of Bernadotte.

HE MAKES A STRONG PROTEST.

Desire for Separate Consular Systems and Divergent Commercial Interests Cause of Trouble.

Christiania, June 7.—King Oscar's refusal to sanction the bill passed by the storthing providing for a separate consular service for Norway culminated today in the passage of a resolution by the storthing declaring the dissolution of the union of Sweden and Norway, and that the king had ceased to act as king of Norway. Although the king was anticipated, it caused considerable excitement in this city on account of the anxiety as to what action the king would take. The crisis became acute May 25, when his majesty, after three months' rest, during which the regency was confided to Crown Prince Gustave, resumed the reins of office. The council of state immediately submitted to him the consular bill, which he, May 28, refused to sanction, arguing that any action must receive the sanction of the mixed council. The Norwegian council of state thereupon resigned, and the king refused to accept their resignation, as in view of the state of public opinion it was impossible to form a new government. Demonstrations were held throughout the country, endorsing the action of the council of state. The consular bill, while apparently of little importance, was designed to open the whole question of foreign affairs which Norway desires to manage independently of Sweden.

The storthing declared the union between Norway and Sweden under one king to be dissolved and that the king had ceased to act as king of Norway. The storthing further empowered the present state council to act as a government of Norway until further notice and exercise the power heretofore pertaining to the king.

An address to the king was adopted declaring that no ill feeling was entertained against his majesty, his dynasty, or the Swedish nation and asking him to cooperate in the selection of a young prince of the house of Bernadotte to occupy the throne of Norway.

At the opening of the session the government informed the storthing that it relinquished office from today. The storthing thereupon unanimously and without debate passed the following resolution:

"Whereas, all the members of the council laid down their offices, and whereas, his majesty the king, has declared himself unable to establish a new government for the country, and whereas, the constitutionality of the power thus becomes inoperative, the storthing authorizes the members of the council of state who retired today to exercise until further notice as the Norwegian government the power pertaining to the king in accordance with Norway's constitution and existing laws with these changes which are necessitated by the fact that the union with Sweden under one king is dissolved in consequence of the king having ceased to act as a Norwegian king.

M. Michelen, the retiring premier, accepted in behalf of the government the honorable and difficult task which the storthing has entrusted to him. Five social Democrats dissented from the address to the king.

It is expected that the storthing will issue a proclamation to the people regarding the detronement of the monarch.

The dissolution of the union between Sweden and Norway has been pending for some time and had its growth in the desire which grew stronger as time passed for the establishment of separate consular systems for the two countries.

King Oscar recently ceded to him by the council of state providing for separate consular representation for the Norwegian crown. Should the king refuse, there is a possibility that the throne may be offered to Prince Waldemar, the third son of King Christian of Denmark. The people of Denmark largely sympathize with the Norwegian demands.

ST. OSCAR PROTESTS.

Stockholm, Sweden, June 7.—King Oscar has sent a telegram to Premier Michelen as follows:

"I have received the communication of the council of state, and I have most decidedly protest against the method and action of the government."

CAPT. NEBOLSIH HAD SEVERAL NARROW ESCAPES

Manila, June 7.—No doubt has been reported among the Russian officers or sailors of the Philippine law mariners that they have captured the three cruisers commanded by Rear Admiral Enquist.

Among those who had narrow escapes from the Aurora, on which vessel Enquist hoisted his flag after the Olga

Later he left the bridge of the Aurora in charge of the first officer and went to the main deck in order to supervise the work of subduing the flames. The Aurora being on fire, and of caring for the wounded and killed. On his way to the main deck another shell exploded near Capt. Nebolsin, and he was severely wounded. He then returned to the bridge and continued to command the Aurora without receiving any surgical aid. He never gave up the command of the vessel at any period of the fight or while on her way to sea. Chief Surgeon Kravtchenko praised the captain highly for his courage and endurance.

Atlantic City, N. J., June 7.—Two boys had a horrible death by cremation today. The boys, who were named Order J. Delaney and William Jeffrey, both of this city, aged 7 and 5 years respectively, were found dead on the beach near New Hampshire avenue, which trees were to be used to build a jetty. They had crawled under the pile and crawled under it. It is believed they had matches, for soon the brush was ablaze, and before the boys could crawl out, they were cremated. Their charred bodies were scarcely recognizable.

Whereas, his majesty the king, has declared himself unable to establish a new government for the country, and whereas, the constitutionality of the power thus becomes inoperative, the storthing authorizes the members of the council of state who retired today to exercise until further notice as the Norwegian government the power pertaining to the king in accordance with Norway's constitution and existing laws with these changes which are necessitated by the fact that the union with Sweden under one king is dissolved in consequence of the king having ceased to act as a Norwegian king.

J. A. HYDE'S INTERESTS.

Gov. Herrick of Ohio has not bought them.

Columbus, Ohio, June 7.—Gov. Herrick, who returned from New York today, has not bought out the interests of James H. Hyde, first vice president of the Equitable Life Assurance society, who has been formally or officially offered the chairmanship of the board of directors of the Equitable. When seen today he said that there was nothing in the story that such a transaction had been made.

"It is true," he continued, "that I was asked whether, if such an offer was made to me, that is, the chairmanship, I would accept, but my reply was that owing to the circumstances under which I am placed in Ohio, having been but recently nominated for governor, I could not consider such offer, however flattering it might be."

RUSSIAN PRESS IS RESENTFUL.

Bitter Against United States Because of Enforcement of Twenty-four Hour Rule.

CALLS HIM "MR. ROOSEVELT."

Charges that He Takes Advantage of Russia's Powerlessness to Do More Than Protest.

St. Petersburg, June 7.—The Russian press, notably the Novoye Vremya and the Russ, the latter frequently reflecting the views of the foreign office, displays a great deal of resentment against the United States for enforcing the 24 hour rule in the case of the three Russian cruisers at Manila. The Russ quotes the American neutrality regulations and contends that President Roosevelt in applying the principle that only injuries received during a storm and not in battle can be repaired in American ports not only narrows the American regulations but infringes recognized principles of international law. This paper declares it has official warrants for the statement that representations have been made to Washington to have the 24 hour rule rescinded.

The Novoye Vremya exceedingly sarcastic. After a slap at Great Britain for the alleged manner in which her vessels treated the Russian fleet from the time it left Cronstadt and for trying to force all the powers to accept her interpretation of the rules of neutrality, the Novoye Vremya declares that President Roosevelt "contains" to "Mr. Roosevelt," declares that England's example, arbitrary, and in violation of the rules in a sense favorable to Japan, adding:

"Mr. Roosevelt takes full advantage of the fact that Russia is helpless and powerless to do more than protest. The Japanese minister at Manila has boasted to express his gratitude to America for this act of impartiality which is in violation of the rules in a sense favorable to Japan. We trust Mr. Roosevelt is satisfied with his success."

The admiralty, it can be stated, is reconciled to the interfering of three Russian cruisers at Manila but opposes on principle the rule that warships injured in battle cannot repair their machinery and boilers at neutral ports. The official add that friction over this minor question would be exceedingly unfortunate just at the time when the United States is assuming the delicate role of trying to bring the belligerents together.

PREMIER ROUVIER DIRECTS FRANCE'S FOREIGN AFFAIRS

Paris, June 7.—Premier Rouvier, as minister of foreign affairs, took up the active direction of the foreign office today, conferring with the chiefs of departments upon various pending foreign questions. Premier Rouvier has not yet assumed the portfolio of finance and gives his undivided attention to the foreign situation. Either former Minister of Public Instruction, Education and Fine Arts, or former Minister of Public Works, Baselin, will probably succeed M. Rouvier as minister of finance. Important diplomatic changes are also thought likely to be made as a result of the cabinet changes. One report is that the Marquis de Berthelet, ambassador at Vienna, will succeed M. Ribot as ambassador at Berlin, and that Jules Cambon, who transferred to St. Petersburg. The officials do not confirm these reports, saying it is too early to forecast the changes resulting from the new regime.

Temper in at the Niama, B. C. The center of interest at today's session of the convention of the Western Federation of Miners is a little town away beyond the borders of America, where the bonds of nationality make no common interest, but where a decree that a 10 per cent reduction shall be made in the wages of a small company is being put in force. The action which affected only one member of the convention, was heartily discussed by all, and the cheers and good wishes for his fellow miners were given with all the fervor of a religious ceremony.
