

HE SKIPPED BY LIGHT OF MOON.

"Come Back to Salt Lake" is the Grand Chorus Now Being Sung With Vim.

C. L. CHESTER WAS A ROLLER.

He Scattered Checks as Chaff and They Came Back Like a Theatrical Snow Storm.

C. L. Chester, a young man who spent the past summer in Salt Lake, living at the Knutsford and cutting quite a swath, has shaken the dust of this city off his feet, leaving behind him numerous creditors who mourn over certain losses they are alleged to have sustained at his hands. Two letters received from him yesterday stated that he was in St. Paul, Minn., but didn't say anything about his coming back.

If evidence strong enough to secure a conviction can be presented to County Attorney Westervelt today an effort will be made to bring him back to answer to the charge of obtaining money under false pretenses. Gen. T. P. Steffy, who is one of Chester's victims, will lay the facts before the county attorney today. The general is out several hundred dollars through the young man's wiles.

Chester came here last April and claimed to have been in the government employ as a photographer. He is a young man about 30 years of age, smooth shaven and smooth spoken, one of the kind who neither smoke, chew nor drink, but whose principal idiosyncrasy was a weakness for dry-laid candy as a good team, in consequence of which a certain lively stable keeper is among his victims.

Soon after his arrival at the Knutsford he bought the interest of J. E. Rayford in the new photograph gallery on South Temple street just east of the Temple building.

When the deal was consummated Rayford gave him a check for \$200, assuming the mortgage against Chester for \$1,000, the amount of the purchase price in the deal between Ray and Chester. This was Aug. 20. Soon after this Chester gave Cummings & Neilson, who were erecting the gallery a mortgage for \$600 on photographic material already mortgaged, and about the same time had a \$200 draft cashed by the Knutsford hotel people on a St. Paul bank, which came back dishonored. Criminal proceedings were threatened and shortly after a check, one day Chester, in a great hurry, called on Gen. Steffy and asked for his check for \$200, giving him one of his own in return, saying the banks were closed and he could not get his own check cashed. (Gen. Steffy never got his check back until after Chester had cashed it and he still has Chester's check and the \$200. About six weeks or more ago Chester left the Knutsford and rented a furnished house out on First South street, employing a Chinese cook. The landlord of the premises is looking for the rent Chester didn't pay and the Mongolian is sighing for his wages.

Chester was also a liberal patron of some of the stores to whom he gave checks which they still hold. Taken together he was as plausible a "hot-air" artist as Salt Lake has seen in many a day. If the facts are sufficient an effort will be made to extradite him.

FOUR TO ONE.

University Training School Boys in Role of Escorts.

At the university training school last night the critic teachers tendered a reception to the fourth-year normals. There are 65 girls and 15 boys. The boys were called into one of the rooms and it was explained to them that each boy had to have to escort four girls. There was considerable objection at first to this plan because nearly every boy had a "best" girl and didn't like the idea of having any superior number chosen upon him. A compromise was finally effected by the professor agreeing to see that the male teachers would help the boys out.

The large assembly hall was tastefully decorated and an enjoyable time was had. At 10 o'clock the teachers served luncheon and then dancing was indulged in.

"MORMONS" NOT WANTED.

Columbia Law School Students Exhibit Decided Prejudice.

The "Mormon" question came up in a peculiar way, in Columbia law school, Washington, D. C., the other day. There was to be an election of class president in the senior class and the candidates for the place were J. B. Raper of Oregon, J. J. Lightfoot of the District of Columbia and Israel Emerson Willey of Utah.

It was charged against Willey that he was a "Mormon" and he did not deny that he was a member of that

MILLIONAIRES POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often the subject of the public prints as a horrible example of the evils attendant on the possession of great wealth. But millions of people are not the ones who are afflicted with bad stomachs. The proportion is far greater among the farmers, the business men, and the laboring men among these people, and they suffer far worse tortures than the millionaires unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower restores the liver, thus creating an appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what the condition. Trial bottles, 25c; regular size, 75c. at all drug stores.

Church. Before the charge was made he seemed to have the inside track, but this was enough to prevent his election. Several ballots were taken and there was considerable excitement, but no result was reached. The election went over and the question whether being a "Mormon" shall disqualify the young man will probably be settled at the next meeting.

BAD MONEY IN TOWN.

William Fairchild, who was a fruit stand at 163 south Main street, was the victim of a fraud yesterday. He is blind and has a young woman in his employ to assist him. During the afternoon a well-dressed female came to the stand and purchased some fruit giving the attendant a \$5 gold piece, which she accepted and gave her the change. When the gold piece was deposited in the bank the receiving teller immediately detected it was a very poor counterfeit. The girl said she did not know the woman's name, but thought she would recognize her if she ever saw her again.

WHEEL THIEF CONFESSES.

Winnie George, who is serving a sentence in the county jail for stealing a wheel at Bingham Junction, has confessed to Sheriff Emery that he stole two wheels in this city and two in Ogden before he was caught in the act at Bingham Junction. He said that he sold one of the Salt Lake wheels to a second-hand dealer and the other to a farmer for \$3. He sold one of the Ogden wheels to a second-hand dealer there and the other he sold for \$8 in Kaysville.

BEAUTIES VEXED.

Lady Candidates Do Not Like New Government "Mugging" Edict.

The bureau of insular affairs has issued an order compelling applicants for civil service appointments to furnish a photograph of themselves to the local examining board. The order is perplexing the female mind, but they will no doubt fall in line and submit to the edict.

The fair sex is registering a mild kick against the order but it will do them no good as it is imperative. One young lady said it reminded her of a sort of regatta's gallery. She said she had thought about going to the Philippines but since the issuance of the order she didn't know whether she would go or not. She said she understood all good looking lady teachers got married soon after they got over there and that maybe if the examiners got to see the photos first they might not let them pass. The order is perplexing the female mind, but they will no doubt fall in line and submit to the edict.

OUT AGAIN

What Powerful Food Can Do. It is evidently a scientific and powerful food that can take confirmed invalids out of bed and make them well again.

"After doctoring two years for terrible stomach trouble I concluded that it was incurable," says a young woman of Elmhurst, Ill. "I was confined to my room all the time and expected to be an invalid the rest of my life, having given up all hope of ever being well again and yet I recovered entirely and quickly by eating a few spoonfuls of Grape-Nuts food every meal in place of improper food that had ruined my stomach."

"An aunt recommended this food to me so highly I finally decided that to be honest to myself I should give it a fair trial and the result has certainly been marvelous. At the time I began eating Grape-Nuts I weighed 105 pounds but now I weigh 159, a gain of 54 pounds. My strength and activity are wonderful and I have truly found the way to get well and keep well."

"As a strength giver for both mind and body the action of the delicious food Grape-Nuts is so quick and certain that it seems like a miracle." Name given by Postum Co., Battle Creek, Mich.

There is no miracle about it. There's a reason. Look in each package for a copy of the famous little book, "The Road to Wellville."

IMMIGRATION TO UNITED STATES.

Greater by 105,043 Last Year Than Any Previous One in the Country's History.

GRAND TOTAL WAS 921,315.

The Greatest Number Came from Italy, Being Nearly a Quarter Of a Million.

Washington, Oct. 23.—The annual report of Commissioner-General Frank P. Sargent of the bureau of immigration, shows a large increase of steerage immigration over that of the preceding year, the aggregate for the fiscal year of 1903 being 857,046, an excess over that of last year of 208,303, or 32 per cent. The statistics show an increase of immigration from all foreign sources, suggesting as the chief cause of the influx of aliens into the United States during the year the inducements offered to settlers here rather than any special cause of discontent in their own countries. Of the total steerage immigration there came from Europe 814,507; from Asia, 29,966 and from other sources 12,573. If to these figures are added those representing the total arrival of alien cabin passengers, 64,269, the result will show that the total immigration of aliens to the United States during the year aggregated 921,315, or 105,043 more than the greatest number heretofore reported for any one year.

The greatest number of immigrants, 220,627, came from Italy, an increase of 52,427 over last year. Last year Austria-Hungary furnished 206,011, an increase of 34,022; Russia, 136,050, an increase of 28,746; Germany, 40,085, an increase of 11,708; Sweden, 46,028, an increase of 13,134; Ireland 35,310, an increase of 12,644. Of the oriental countries, Japan was foremost, with 19,644, an increase of 5,689; while China contributed 2,209, an increase of 660 over last year.

The total number of steerage aliens 613,146 were males and 343,900 were females, of whom 102,431 were less than 14 years of age. There were of these 3,341 who could read, but could not write, and 18,067 could neither read nor write, leaving a remainder both unable to read and write of 668,038. The total amount of money brought by them into the United States was \$16,117,573. Exclusive of those denied admission at the land boundaries of the United States, 8,769 alien immigrants were rejected for various causes, the number of rejected aliens being nearly double those of the preceding year. Of these 5,912 were paupers; 1,773 were afflicted with disease, 1,089 were contract laborers.

WATTERSON ON "SOCIETY."

In the Finest Vein of Angry Sarcasm He Gives it "Fits."

Pittsburg, Pa., Oct. 23.—Henry Waterson delivered his lecture on "Society" tonight in Carnegie music hall, Allegheny. He said:

"Something over a year ago a most lamentable tragedy, taking for its scene the very vestibule of the temple of fashion—the sanctum sanctorum of the Four Hundred—led me in the line of my duty as a writer for the press to say some exceedingly plain and, it may have been, very harsh things about the nouveau riches—the idle rich—the idle forgetting, world-defying, pleasure-seeking rich—who set themselves as a law unto themselves, who submit to no restraints except those fixed by nature and the surgeon's knife, who have no intellectual perspective except that the longest purse brings down the biggest titles, nor rule of conduct except that of the law of the jungle, who drink and are merry, for tomorrow they may be someone else's turn; a code which I am told became altogether the rage in Babylon some centuries ago."

"They say,"—Has Caliban grace? Has Tom Thumb manhood? Must the monkey and the swine be accepted as interchangeable types, alternating measurements of human breeding and beauty? Indeed, one would think so, reading some of the reports that come from most inner circles of that apotheosis of boredom, that incarnation of stupidity and affectation, which takes its cue from Leicester Square and the Corinthian club in London—which emulates the demi-demi-monde of Paris—which eddies round the abodes of luxury and alimony at Newport, and thinks no more of running down an ordinary pedestrian in an automobile than you and I would think of brushing away a spider on a fly.

"Lift up your hearts, I, at least, have never wasted my thoughts, or nursed any serious fears about such cattle, nor shall I do so until monkey dinners become a popular fashion in Pennsylvania as they seem to be in Rhode Island."

"By society I mean not merely those who, by their character, their genius and good fortune have earned the right to dwell in great houses without the suspicion of the ostentatious display of wealth—but behind them the great army of the well-bred and well-to-do."

Mohonk Indian Conference.

Lake Mohonk, N. Y., Oct. 23.—The leading address at the Mohonk Indian conference today was made by B. Henderson of the Indian bureau, on the problem how to secure from lands allotted to the Indians in severalty a revenue by taxation for the maintenance of the schools, highways, etc.

The white population of the Indian territory, the speaker said, was at a lower moral and intellectual status and more in need of schools and other institutions of civilization than the Indians, and these can only be maintained under some system of land taxation. He did not believe that Indian citizens generally should be excused from taxation, the argument that they might easily become victims of unscrupulous whites being accepted.

The school population of the Indian territory was stated to be about 60,000 whites and 80,000 Indians, and the children of whites were fewer advantages than the Indian youth, and are growing up in gross ignorance and vice.

Miss Alice Robertson of Muskogee referred to the deplorable condition of the insane and other dependents in the territory for whom no provision could be made under territorial laws.

A resolution was adopted asking that Congress make some provision as soon as possible for extending school privileges to whites of the territory.

MANAGER AMERICAN TEACHERS' ASSOCIATION

SAYS:

"Pe-ru-na is the Greatest Medicine Manufactured."

Prominent Educators From all Over the United States Praise Pe-ru-na.

From the East and West, North and South Come Letters of Endorsement.

Prof. Powell of Washington, D. C., Recommends Pe-ru-na.

Prof. W. B. Powell, of Washington, D. C., is one of the best known educators in the country. For fifteen years he has been Superintendent of the Public Schools of Washington, which is considered the best school system in the United States. Professor Powell is the author of a number of school books which are used throughout the United States.

This well known gentleman does not hesitate to recommend Peru-na to his countless friends and acquaintances all over the United States. In a recent letter from 1410 N. Street, N. W., Washington, D. C., to Dr. Hartman, he says: "Persuaded by a friend I have used Peru-na as a tonic, and I take pleasure in recommending your remedy. Peru-na is indeed a good medicine and should be in every household."—W. B. Powell.

Such straightforward evidence cannot be overlooked. What the common people say carries weight, but when a man of national prominence says, "Peru-na should be used in every household," it is a significant fact to the increasing prominence and undoubted efficacy of Peru-na.

A Well Known College Man Restored by Pe-ru-na.

Mr. John W. Meng, 51 Jefferson Ave., Indianapolis, Ind., State Representative of Indianapolis Business College, writes: "I firmly believe that I owe my fine health to Peru-na. Constant travel and change of food and water wrought havoc with my stomach, and for months I suffered with indigestion and catarrh of the stomach. I felt that the only thing to do was to give up my occupation which I felt very reluctant to do. Seeing an advertisement of Peru-na as a specific for catarrh I decided to give it a trial, and used it faithfully for six weeks, when I found that my troubles had all disappeared and I seemed like a new man. I have a bottle of Peru-na in my grip all the time, and occasionally take a few doses which keeps me in excellent health."—John W. Meng.

Peru-na is of national fame as a catarrh remedy. It is the only internal systemic catarrh remedy known to the medical profession. It makes diseased mucous membranes healthy, whether it be the mucous membrane lining the nose, throat, lungs, stomach, kidneys or pelvic organs. It cures various diseases of all these organs, because two-thirds of the ills of mankind are due to catarrh. With healthy mucous membranes climatic diseases lose their terror, the system is enabled to throw off contagion, and health follows inevitably.

If you do not derive prompt and satisfactory results from the use of Peru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

J. L. Graham, L.L.D.

J. L. GRAHAM, L.L.D., Manager of the American Teachers' Association, in a letter from 44 Randolph Building, Memphis, Tenn., endorses the famous catarrh remedy, Peru-na, in the following words:

"I take great pleasure in stating that Peru-na, in my opinion, is the greatest medicine ever manufactured. I was nervous, worn-out and completely exhausted, but after taking six bottles of Peru-na was restored to my usual health. When I began taking Peru-na I weighed only 155 pounds, but in six months' time after I began to take it, I weighed 225 pounds, and have retained that weight ever since."—J. L. Graham.
