

COLONISTS WILL FLOCK THIS WAY

Railroad Offices Receive Many Inquiries About Utah.

HEAVY CONFERENCE TRAVEL

Is Expected—Livestock Men and Woolgrowers Coming During Conference Week.

Oregon Short Line and Rio Grande Western officials are continuously in receipt of letters of inquiry as to agricultural conditions in Utah and Idaho. As high as a hundred of such letters have been received in one day and they come from all parts of the eastern and middle States. People in these sections are looking for homes and they naturally turn to the west to find them. Utah and Idaho appear to be the especial favorites among prospective settlers, the fame of these two States having spread since irrigation is bringing so much new land under cultivation. It is anticipated that the movement of colonists in this direction during the present summer will be of unusual proportions.

Conference Traffic.

The Utah Woolgrowers' association and the Utah Livestock association will hold meetings here on April 6th, 7th and 8th, and these being days included in conference time, the special low rates offered will apply to members of these associations as well as to conference attendees. For these reasons the Utah lines expect heavy traffic in the first part of next month.

Beach Manager.

It is expected that the Salt Lake Beach company will in a few days elect a manager for the beach for this season. When this official is selected he will confer with the railroad management and formulate a program for the year. The present and prospective fine weather is encouraging to all resort managers in that it promises favorable conditions for opening, although it is questionable now if that will occur any earlier than usual, Decoration day.

Cannot Reduce Fare.

A Detroit, Mich., dispatch this afternoon says: Judge Swan, in the United States district court today rendered a decision which denies the validity of an ordinance passed some months ago by the city council requiring the street railway companies to reduce rates of fare to three cents. The court says there is nothing in the charter of the city which authorizes such an ordinance and allows an injunction to restrain the city from enforcing it. Said Judge Swan:

"To enforce this ordinance would be an act not of regulation but of spoliation. The police power includes the general management as regards the protection of life and property and the accommodation of the public but the legislature itself could not affect the fares agreed upon. It might be for the welfare of the public that fares should be abolished and the city might as well confiscate and could not be tolerated."

"A contention of the city, in defending the injunction suit, was that since the ordinance provided that rates of fare 'not exceeding five cents' could be charged that the city had power to regulate the rates at 'reasonable figures.' The court holds that the substance or meaning of all these ordinances permits five cent fares, which privilege cannot afterward be annulled."

K. C. P. & G. Sold.

A Joplin, Mo., dispatch this afternoon says: The Kansas City, Favorable and Gulf railroad was sold at public auction in this city this morning by E. H. Stiles, master in chancery, to satisfy a twenty-three million dollar mortgage with one year's accrued interest, held by the State Trust company of New York. But one bid was made, that by Silas W. Pettit, chief counsel of the Philadelphia reorganization committee of \$12,500,000, the upset price. The purchaser has to assume \$24,680,446 of indebtedness representing the principal of the bonds and interest thereon and the interest on the defaulted interest to date of the decree. All the bonds of the road have been filed with the reorganization committee with the exception of \$73,000 and the purchasing committee will immediately apply to the secretary of state at Jefferson City for a new charter assigning its business to the Kansas City Southern railway the new name previously agreed upon for the property. It is announced the road including the Kansas City Suburban belt and the Fort Arthur Terminal Dock Company, will be bonded immediately for \$20,000,000. The company expects to take charge on April 1, one year from the date that the property was placed in receivers' hands.

Sale Approved.

In the United States circuit court at Springfield, Ill., today Judge Allen entered a decree approving the sale of the St. Louis, Peoria and Northern railway and Madison Coal Company made last week by Special Master in Chancery Wilson in this city under a decree of foreclosure in favor of the Central Trust Company, of New York, for \$2,960,000.

Receiver for Another.

At New York today Judge Lacombe, at the request of the Loraine Steel Company, of Ohio, appointed H. J. Grant temporary receiver of the Forty-second street, Manhattanville and St. Nicholas avenue railroad. Mr. Grant gives an additional bond of \$100,000. The Loraine Steel Company claims to be a creditor of the defendant corporation to the amount of \$119,984 for materials furnished.

RAILROAD NOTES.

Mr. Bancroft is out on the Short Line today.

Salt Lake will eventually be an important station on the Chicago & Northwestern.

Mr. S. W. Eccles of the Short Line reached home this morning and Mr. Burley came yesterday.

An indictment has been issued by a New York grand jury against W. J. Blase, accusing him of having forged Colorado Midland railway tickets.

The railroads are preparing for a rush of business during conference days. Prospects are that the attendance at this spring conference will be very heavy.

President Cameron of the Rapid Transit street railway has gone to Denver to examine the new cars being constructed for the Calder's Park line of his system. The cars will be completed in about a month.

A fast freight train ran into the rear end of passenger train No. 4 on the

Rio Grande Western early yesterday morning. The accident occurred near Grand Junction and resulted in considerable damage to the rear Pullman car and in the painful injury of the porter of the car.

The Market Street Railway company of San Francisco, according to the Street Railway Review, of Chicago, has decided to give a special bonus for the faithful service of its employees. The men who have been with the company for five years receive one cent per hour, for ten years two cents, for fifteen years three cents, and for twenty years four cents per hour.

T. P. Smyth, car inspector for the Oregon Short Line at Pocatello, has invented a coupler guard which practical tests have shown to be very effective. In the event of a coupler pulling out the guard prevents it from falling to the tracks and ripping up ties and smashing car trucks. So effective has the new guard shown itself that the Oregon Short Line people are contemplating the equipment of all their cars with the appliance.

A San Francisco dispatch this morning says: J. C. Stubbs, William F. Herrin and William Sprout, of the Southern Pacific, and William A. Bissell of the Santa Fe, have gone to Phoenix, Ariz., to be present at a meeting of the Inter-State Commerce commission in that city on Wednesday. They will then accompany the commissioners to various cities in Southern California, where meetings will be held to consider matters of importance to California shippers.

The street railway system of Boston for two years has been operated by the Boston Elevated Railway company, and rather oddly the most costly portion of its road was the tunnels under the business section of the city, known as the "subway." Now, however, the elevated structure, which has given its name to the entire system, is well under way. According to the Street Railway Review there will be six miles of the elevated road and two-tenths of a mile of inclines to connect it with the surface tracks and subways.

B. H. Eastman, who returned to Boston Thursday night from the East, where he conferred with Mr. Harriman concerning the main line project, yesterday afternoon met the railroad committee, says the Statesman. He detailed the construction had by the Harriman, and stated that the railroad magnate had promised to give a final answer on April 16th. It is expected Mr. Harriman will be here at that time, as it is his intention to come West shortly. Mr. Eastman was not in a position to say that Mr. Harriman would be here then, but he stated positively that his final answer would be. Members of the committee declined to confer with him on details of the report beyond what has been published.

A large force of graders who have been working on the Hartville spur came down from the North to Cheyenne Sunday morning, having struck. They say they have been compelled to pay for the use of a hospital, but have not been given any return for the money. The Italian laborers were continually fighting them, and when appealed to the contractors would do nothing. The men also say that contractors De Rener and Olson owe them for work done several months ago. Superintendent Butler of the Fuel and Iron company was in the city this morning en route to Kansas City, and some iron property, and said that the grievances of the strikers will be investigated, and if found to be true the contractors will not receive a cent on their job until all the men have been paid.

BISHOPRIC CHANGES.

They Were Made in the Fourth and Sixth Wards Last Night.

There were three ward conferences held in this city last night in the Fourth, Fifth and Sixth wards respectively. All were well attended and an excellent spirit prevailed at each. The conferences were attended by the Stake presidency. President C. W. Penrose was present at the one in the Fourth ward, where some changes were made in the bishopric. Elder Madsen, who was the second counselor, was made first counselor to Bishop Harrison Sperry, while Heber C. Cutler was made second counselor. These changes resulted from the fact that Elder John C. Cutler, who had previously been first counselor in the bishopric, had been appointed an alternate High Councilor in the Salt Lake Stake.

President Joseph E. Taylor attended the conference in the Fifth ward, and no changes were made in any of the existing organizations. The Sixth ward conference was attended by President Angus M. Cannon. In this ward Elder Alexander B. Brown was made second counselor to Bishop James C. Watson in place of Arnold G. Glaugue, who has also been appointed an alternate High Councilor in the Salt Lake Stake.

RECEIVED PENSIONS.

Washington, D. C., March 19.—Pensions granted:
Utah—Original, John Beatty of Salt Lake, \$12.
Increased—Stacy Williams of Bingham canyon, \$6 to \$10.
Wyoming—Increased—Joseph Brown, of Lander, \$8 to \$12.

"To Do Ill Costs More Than To Do Well."

This might properly read, "It costs more to BE ill than to BE well." The source of all health is rich, strong blood. It is to the body what the mighty streams are to the earth. If the blood is pure, the body thrives; if the blood is weak or impoverished, then every pulse-beat carries weakness instead of strength. The only perfect blood purifier and vigor-maker in existence is the world-famed Hood's Sarsaparilla. It brings good, perfect health.

Catarh and Deafness—"I am 68 years old and suffered from catarrh for many years, becoming quite deaf. I took nine bottles of Hood's Sarsaparilla to effectually cure me. I can hear quite well now." John K. Houk, Hamilton, Montana.

Rheumatism—"I was worn out with rheumatism, but took Hood's Sarsaparilla and I now have a good appetite and am as well as any woman." Mrs. H. H. Gray, Emporia, Kan.

Hood's Sarsaparilla
Never Disappoints

Hood's Pills cure liver ills, the most important and only cathartic to take with Hood's Sarsaparilla

A RARE ENTERTAINMENT.

Salt Lake Citizens Attend Their Sympathy for Benevolent Institution.

Rev. Father Cashman Delivers a Splendid Lecture on the Emerald Isle—Large Audience Present.

Rev. Father Cashman must surely have felt highly flattered last Saturday evening, as he arose in the Theater and was greeted by an magnificent audience as he would come to face in his life. The seating-capacity of the large auditorium was almost exhausted up to the fourth gallery and the enthusiastic audience was thoroughly appreciative and sympathetic. It must also have been a source of satisfaction to the friends of the benevolent institution for whose benefit the entertainment was being given, and which received its life from the generous purse of Mrs. Thomas Kearns.

The crowd was eager and ready to applaud every appreciable thing, the audience of the lecture by Judge Powers, the soul stirring melodies and the lecture itself, which abounded in graphic description and brilliant wit.

Although Catholic Festival day, was chosen for the occasion, people of all creeds joined in, and the citizens of Salt Lake City, demonstrated again Saturday night, as they have done in times past, that when their charity is appealed to, their religious creeds are relegated to the rear, and the generous impulse of their hearts carry them to a common plane.

St. Patrick cannot take all the honor to himself of Saturday evening's splendid tribute, for the hearts throughout this fair young State pulsate warmly for the fatherless and motherless, and there are plenty of ready hands to assist in the amelioration of the condition of the waifs.

The music did its part in the exercises, and it was on an equal plane with the rest of the program, which was opened by Irish melodies rendered by Mrs. Kearns, Mrs. McDermott, Roy Williams and Miss Nora Gleason, which was received with deafening applause. Judge Powers, in one of his happiest vein introduced the lecturer of the evening, and in a few words described St. Ann's church, where the "Bells of Shandon" are, and at this juncture George D. Pyper sang "The Bells of Shandon." On leaving Cork for Killarney the famous Blarney Castle is passed and the wonderful Blarney stone, that gave to the sons of Erin their unrivaled "gift of gab." The lakes of Killarney and the castle are reached, and the graphic description and beautiful pictures held the audience in a spell, the climax of which is reached when Mrs. J. Hal Moore sings "Killarney" in such sweetness of voice and simplicity of style that the great audience must have it repeated.

Father Cashman being an Irishman, is a fine interpreter of Irish wit and humor, and being a scholar is capable of giving an excellent exposition of Irish and Gaelic legends and customs, and cause for which many of them, like the noble and youthful Emmet laid down their lives. The affair was a success. No one was disappointed. Neither the promoters of the entertainment nor its patrons.

CEDAR CITY CONCERN.

Coal Creek Meadow and Northwest Field Irrigation Company.

Articles of incorporation of the Coal Creek Meadow and Northwest Field Irrigation company were filed with the secretary of State today. The company was organized at Cedar City, Iron county, having for its object the irrigation and reclamation of arid and other lands, and the acquiring of water for domestic purposes. The limit of the capital stock agreed upon is \$2,000,000 of shares at \$1 each. The officers are: Levi W. Jones, president; Andrew Corey, vice president; John Chatterley, secretary; and Edward P. Corey, treasurer, who, along with John P. Henry, Leigh and Thomas Thorley, also comprise the directorate. The company is owner of certain water rights, ditches and canals in Iron county.

AS TO BICYCLE RACKS.

"Aix" Argues for Their Retention—There are Worse Obstacles.

To the Editor:
I have reported a councilman argued last Monday evening against the sidewalk bicycle racks because he stumbled over them. It may not have occurred to him that there are a good many other and worse obstacles on the walks. In one street on one side of a residence block there were, this morning, nine gates open out upon the sidewalk. There were hundreds of open ditches across sidewalks and hundreds of others with board covers projecting above the surface, where the ordinance requires all such water ways to be entirely covered level with the surface. Let the city begin with enforcement of wise ordinances before starting new ones. The bicycle racks not only do no harm but save room. They are as necessary to the city as the racks for horses, and the city should require every business house to provide at least a narrow one in front of their place of business. Bicycles are taxed and registered and their owners are of the greatest blessings of modern times. Moreover the city is accumulating abundance of material for expensive damage suits by reason of its defective walks and streets.

EXPLOSION AT STATELINE.

William Leamaster is Seriously Injured—Loses His Left Eye.

William Leamaster, a miner, was the victim of an explosion Wednesday, in which he suffered very serious in-

juries. He was engaged at the Grand Central Tunnel near the Johnnie mine, at Stateline. Leamaster was working day shift and was all alone. At noon he put off a round of five holes, and feels positive that he heard five reports. After lunch he returned to his work and began drilling another round of holes. He was working with a bulldozer, the ground being very soft, but he had not proceeded far when the explosion occurred. As soon as he became conscious he groped his way out of the tunnel, and rolled about 100 feet down the hill. He could see nothing, but wandered around and soon his cries attracted Mr. Ritts, blacksmith of the Johnnie, who took care of him and sent to Deer Lodge for Dr. Forrester. The doctor found him in a very serious condition, he had him sent to Salt Lake to the St. Joseph hospital. The man's body was badly bruised, and his limbs were lacerated. His face was cut up and his left eye entirely destroyed. An operation was performed at the hospital this morning in which the left eye was removed, and although the right eye is in a bad condition, it is thought that it will be saved. The injured man is resting well, and recovering as rapidly as could be expected.

AMUSEMENTS.

"The Old Homestead" with Denman Thompson himself in his original creation of Uncle Josh Whitcomb will be seen at the Theater tonight. There has been a good advance sale and without doubt the opening night will be a large one.

At the Grand this morning the house was reported as almost sold out for tonight's opening of the Grand company, and there is much heavy inquiry for seats each night of the week.

TO CURE A COLO IN ONE DAY.
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c

HOTEL AND PERSONAL.

Phil Sheehan of Salmon City, Idaho, stopped at the Knutsford last night.

Harry R. Wood, representing a big hat house of the east, is at the Knutsford. Mr. Wood has many friends here, having once been in business in Salt Lake.

Elbridge Thomas has gone to the Idaho ranch of his father, Postmaster Thomas.

E. J. Conrad of Chester, Sanpete county, came up yesterday for the purpose of attending today's meeting of the State fair directorate.

L. V. Rice, manager of the big Perle wheel of World's Fair fame, and which is still in operation in Chicago, put up at the Knutsford on his way west.

Judge Lochrie, who formerly lived here, is up from Copper Gulch, Beaver county. He has great hopes of the mineral possibilities of that part of the State.

AN UNWARRANTED LIBERTY.

There is strong objection on the part of many persons to having their names paraded in the public prints as members of committees for various purposes without their knowledge or consent. They think that the least they should have would be to ask their permission to thus make their names so prominent. It is a piece of impertinence to say the least to connect individuals with aims and purposes with which they may possibly not be in sympathy, or even if they are they would prefer to support without such unwarranted publicity.

THE STAR MEETING.

The Annual Takes Place This Afternoon—Financial Report.

At 4 o'clock this afternoon a meeting of the Star Gold & Silver Mining company was being held for the purpose of hearing the annual reports and electing a new board for the ensuing year.

The financial report, copies of which were printed and distributed among the stockholders is as follows:

RECEIPTS.
From sales of product, . . . \$2,233.30
From Assessments 6, 7 and 8, . . . 11,451.65
From other sources, . . . 10,285.67
Total, . . . \$23,970.62

DISBURSEMENTS.

Wages, . . . \$13,138.32
Expenses, . . . 1,016.59
Office rent, interest, stationery, etc., . . . 1,045.65
Mine supplies and tools, . . . 2,521.20
Team expenses, . . . 412.79
Salaries, . . . 1,965.05
Mill construction, to date, . . . \$11,658.94
Amount reported, . . . \$43,722.05
Last report, . . . \$43,722.05
Balance representing cost of crusher, new ore house, counter-shaft, pulleys, etc., . . . 2,025.12
Total, . . . \$87,444.10

John Brown swore that he was not drunk yesterday, and Officer Barlow swore that he was. The latter's testimony was accepted, and John paid \$5.

James Murray, who was caught in the act of sending whisky up to the prisoners in the city jail, will tarry with them for 30 days for his little indiscretion.

Chas. Roach looked exceedingly sad as he pleaded guilty to intoxication, and was fined \$5.

James Davis, James McBride, J. Pat Farrell and Frank Pinner, four of the toughest looking hobs ever "pinched," tried to work on the feelings of the court and succeeded, to their sorrow.

Davis is a new comer, but he is undoubtedly a bad one, for he had in his possession a skeleton key. All four were charged with vagrancy, and several witnesses testified that the men were begging last night. They will be incarcerated for the next 30 days.

Peter McGill and James Ryan were charged with vagrancy, but the court thought the evidence insufficient to warrant a conviction, and discharged them with the admonition to get work or get out of town. Ryan had in his possession a skeleton key, which the court said would be retained here, as it was too handy for a certain class of people.

The docket ended.

LOWER COURT AFFIRMED.

Supreme Court Decision in a Wasatch County Water Case.

The supreme court handed down an opinion today in the case of the Center Creek Water and Irrigation Company vs. James Lindsay, appellant, affirming the judgment of the court below.

The plaintiff sought by injunction proceedings to prevent the defendant from diverting the waters of Center creek, Wasatch county, in excess of that amount he was entitled to as a stream riparian. The case was argued by Judge Dunsberry, before whom the case was tried, a decree enjoining the de-

SHOE SENSE COMMON SENSE.

See here! Suppose you learned to do a thing well when you were a boy, don't you suppose you could do it just as good or better when you got to be a man? That's common sense, is it not? Well, we learned to build good shoes when we were boys and we've been learning to build them better and better when we grew up. Now we are building the best \$3.00 shoes on earth for men—That's Shoe Sense. We're building the best shoes at another price you want to pay for man or boy.

ROBINSON BROS. CO.,
SHOE BUILDERS, 224 Main St.

POLITICAL POINTERS.

Hon. James T. Hammond and Mr. George A. Smith drove into town from Pocatello yesterday afternoon. Both cities are highly pleased with the outlook in the "Little Republic."

Hon. Alma Eldredge and W. B. Livingston have returned from a stumping expedition in Carbon county.

Hon. H. H. Roberts will spend the next two days on a political rostrum in Cache Valley.

Judge King and Fisher S. Harris are now on the hustings in Sevier county.

Democrats who attended the Thomas reception at Ogden Saturday night are very much pleased over the speech delivered by the distinguished Coloradoan, who is regarded as one of the best political speakers of the West.

The reception that is to be tendered at the Kenyon hotel this evening to Hon. James T. Hammond promises to be a numerous attended function. The affair is under the auspices of the Woman's Republican club of which Mrs. Jones is chairman. Mrs. Jones states today that the reception would be entirely informal in its character and that no invitations had been issued, but that the public generally was invited. The reception will be from 5 until 10 o'clock. Governor Wells will be the first speaker and will introduce Mr. Hammond, after which Hon. George Sutherland will speak. The remainder of the time will be occupied in social conversations, must be rendered at intervals throughout the entire evening by Olsen's orchestra. The ladies having the matter in charge have worked hard for its success in every way.

Neither Democrats nor Republicans have political meetings tonight in Salt Lake City or county. The nearest approach to a rally is the Hammond reception at the Kenyon.

JUDGE TIMMONY'S COURT.

From Chris Deihl's point of view, today was a good day in the police court. Besides an unusual assortment of "vags," drunks and other ordinance smashers, five gentlemen who make a living by keeping gambling houses, enriched the city treasurer's office in the sum of \$250 by reason of their not having answered to the roll call.

A. G. McKenzie forfeited the sum of \$100. He is the man who used abusive language last evening to the night watchman.

Chas. Wittenberg was on hand to answer to the charge of assaulting a Chinaman. The prosecutor asked that the case go over until tomorrow, as the Mongolian in question was not present. "The order will be made," said the court, "and the case will be disposed of tomorrow."

"It can't be tried without the complaining witness," ventured Deihl. "If the complaining witness is not here, the defendant will be discharged," replied the court.

James McKinney—"Yes, Judge, I was a little drunk, but the first time in many years, and if you will let me go I'll never come back again."

Quoth the court: "We'll just try you on that proposition." With a happy smile Mac ambled out.

"Barney Wittenberg, you are coming too often; it's \$5 or five days," in the manner in which the charge of drunkenness against him was disposed of.

"Roger Monnie." As the name was called, there was a scramble among the spectators, and a burly individual staggered up to the judge's bench. "Judge, sir, will you 'scuse me, please?" said he. "You'll go back to jail until sober," said the judge.

Mike Dempsey tried to beg off, but it was Sunday when he was drunk, and the usual \$5 was assessed.

Joe Cook, colored, and Arthur Olsen, two plain drunks, were assessed \$5 each.

John Brown swore that he was not drunk yesterday, and Officer Barlow swore that he was. The latter's testimony was accepted, and John paid \$5.

James Murray, who was caught in the act of sending whisky up to the prisoners in the city jail, will tarry with them for 30 days for his little indiscretion.

Chas. Roach looked exceedingly sad as he pleaded guilty to intoxication, and was fined \$5.

James Davis, James McBride, J. Pat Farrell and Frank Pinner, four of the toughest looking hobs ever "pinched," tried to work on the feelings of the court and succeeded, to their sorrow.
