

OATH TAKEN IN THE PHILIPPINES

Judges Do Not Swear to Support the Constitution.

IT WOULD BE IMPROPER.

So Says Judge Ide—Gov. Gen. Taft Gets Bailed Up on Question of Fine Following Constitution.

Manila, June 18.—(Correspondence Associated Press.)—The passage today by the Philippine commission of the act organizing the courts of the archipelago was preceded by two interesting incidents, both of which brought out authoritative statements from President Taft.

The first was in reference to the wording of the oath of office to be taken by judges. Support of the constitution of the United States (which all officials in the United States subscribe to in their oaths of office) was purposefully omitted from this oath, but recognition of the supreme authority of the United States was included.

Judge Ide, author of the judiciary bills, held that swearing to support the United States constitution when it had already been decided that at least one feature of that instrument—uniformity of duties clause—does not apply in the Philippines, would be improper.

He considered that discussion of the meaning of the constitution as affecting powers and duties of United States officials in the Philippines would be of no service here, since these questions are still in process of settlement in the United States Supreme Court.

Replying to a question by Senator Paterno, former secretary of state in the McKinley cabinet, as to whether, since it was generally assumed that the constitution followed the flag, the oaths of office of Philippine officials should not include support of the constitution, Judge Taft said:

The oath to support the laws of the Philippines, if the validity of these laws depends upon the constitution of the United States, is an oath to support laws enacted in accordance with the constitution of the United States. There has been so much discussion of the issue presented in this form: "Does the constitution of the United States follow the flag of the United States?" that it was thought best not to invite discussion by changing the form of oath from that which had originally been adopted by the military government when the commission came here.

Personally, I think that statement of the issue is exceedingly misleading. Every person who comes to these islands accredited as an officer or agent of the United States government derives his authority from some officer who was appointed under the constitution of the United States; therefore, it seems to me that to say the constitution has no application in these islands is to say something which logically cannot be sustained, and the real question is not whether the constitution extends to these islands, but what clauses of the constitution affect the government in them.

In other words, the real issue is whether Congress or the political agent, under the President in asserting the authority of the United States in these islands, is restricted by certain limitations in that constitution which certainly apply to the action of the President and apply to the action of Congress in dealing with the state.

Now, the constitution contains a clause which requires all duties on importation to be uniform throughout the United States. The Supreme Court has, in a recent decision, news of which came yesterday, decided that that clause of the constitution does not apply to government employees of Congress in Porto Rico and these islands.

The statement that the constitution is in operation in these islands may thus mean one thing to one person and another thing to another. Why, therefore, introduce into an oath of office a form of statement which might lead to misinterpretation? Why not follow the old form which serves every purpose?

WANTS MACLAY REMOVED.
Congressman Mudd of Maryland Urges Secy. Long to Act.

Washington, July 25.—An effort has been made to secure the removal of Edgar S. MacLay, the author of the history of the Spanish war, containing the criticisms of Rear Admiral Schley. MacLay is a clerk in the Brooklyn navy yard. Representative Sidney E. Mudd, of Maryland, a member of the committee on naval affairs in the last house, called on Secy. Long and represented to him the impropriety of MacLay continuing to employ of the government in view of the language which he made use of in reference to Admiral Schley. The secretary promised to give the matter his early attention.

TO BAR OUT NEGROES.
People of Chicago Suburbs Strongly Opposed to Their Coming.

Chicago, July 25.—While residents of Maywood, Melrose Park, and Bellwood waited along the tracks of the Chicago Junction railway during the early hours of the morning to bar out the much-sought train was sidetracked at Blue Island.

The Illinois Central road turned the special train over to the Junction railway at 12:30 a. m. When Blue Island was reached it was decided not to proceed to Melrose Park till morning. The negroes were told in their protestations that they would not have come north and they knew such a tempest was brewing.

All day yesterday the reports that reached them of the greeting that awaited them at Melrose Park grew more threatening. Early today it was declared on the train that the men had deserted at Fulton, Ind., and

MARTIN LOSES A DIAMOND.

While taking in the horse races at Calder's park yesterday afternoon Herman Martin of Provo lost or was relieved of a diamond pin upon which he placed a value of \$250. Mr. Martin believes that the stone was taken away from him by some fellow who was officiously "making room" for ladies on the grand stand.

WEYNICK ROBBED—PICKPOCKETS AT THE FAIR—GRATERS CAUGHT—BARGE BY FIRE.

A. G. Weynick was last night held up at West Temple and Third South streets, where and when he was robbed of \$45. Not only was he robbed, but the thugs sandwiched him before rifling his pockets. The thieves jumped out from behind a big billboard at the corner named and struck Mr. Weynick two heavy blows upon the head, rendering him unconscious. As soon as the victim regained his senses he reported the occurrence and Officers Williams and Pratt attempted to locate the hold-ups, but so much time had elapsed that the numerous thugs had ample opportunity to make their escape.

PICKPOCKETS CAUGHT.

A couple of pickpockets were arrested at the Midway last night, and a charge of assault was lodged against them. They were apprehended while prowling about under the stand near the midway, where they had been attempting to obtain money from the pockets of the people.

GRATERS STOPPED.

Officer Smith, with virtuous prepossession, yesterday took in three despicable fellows who are credited with the practice of robbing drunken men in the rear of saloons. They were Tom Kelly, Dave Jenkins and John Connors. It is said by the officers that the game of these men for a week past has been to get men drunk and then "go through them."

OUTSPED BULLETS.

"You'll have to hurry!" was apparently the thought which was uppermost in the head of an unknown negro that was being pursued by Officers Smith and Bush last night. The colored man had entered the second-hand store of S. Samuelson on East Second South and was ordered out by the proprietor, who suspected him of watching for an opportunity to steal. In a struggle between the proprietor of the store and the negro the latter's arm went through a glass door, when he broke away and ran rapidly east. The bullet pierced several shingles over the fugitive's head, but he kept going like the wind and got away.

DAMAGE BY FIRE.

Last night, while the members of the family were at Calder's park, the residence of Ben Siegfus, formerly of the police force, was visited by fire, which seemed to have started in a closet under the staircase. No alarm was made the run to the house, No. 527 south Twelfth East street, and put out the blaze with the chemical engine. Damage of \$150 was done.

PROMINENT ENGLISHMAN.

John Thompson of Cardiff Visiting Friends in Salt Lake.

Joseph Davis, editor of the Preston, Idaho, Standard, is in the city accompanied by John Thompson of the Brookfield house, Cardiff, Wales. Mr. Thompson has been touring the United States and is now making his way east en route to Wales. He will go by way of Niagara Falls, and will visit the Buffalo exposition. He expects to spend a week in Salt Lake visiting the parents of young men whom he has entertained at his home, while they were performing missionary labors abroad. He has a son who is fighting in the Boer war in the English ranks. Mr. Thompson is a prosperous stirring man of affairs and is possessed of a decidedly interesting personality. He visited Salt Lake this afternoon and found the residents of the lake to be delightful.

MISSIONARIES DEPART.

Large Crowd Bids Good-Bye to Apostles Grant and Associates.

About 200 people went to the depot last evening to bid good-bye to Apostles Heber J. Grant and Elders Louis A. Kelsch, Morace S. Ensign and Alma O. Taylor, who are now speeding on their way towards Japan. They go to Vancouver and embark from that point. They will more than likely be here in three years and the prospect of so long a separation caused a most depressing feeling to come over some of the nearest relatives of the missionaries. Among the prominent officials of the Church who were at the depot were President Joseph F. Smith and Apostles John Henry Smith, M. F. McMonis and A. H. Lund. As the train moved out of the depot the crowd on the platform gave three cheers and waved hats and handkerchiefs.

DELIGHTFUL CLUB OUTING.

Members of the Salt Lake Glee club are looking forward with pleasant anticipation to an outing which is billed for the near future. It has not been definitely decided whether Saltair or Lagoon will be the theater of the celebration, but the indications are that Saltair will be chosen. The glee club has been practicing assiduously on Dan Prather's "Crusaders," and conductor Arthur says that the club has got this beautiful selection down to a fine point of perfection.

NEWSPAPER MEN ARRIVE TONIGHT.

Are Traveling Leisurely Along the Union Pacific Railway.

A MIRAGE AT GREEN RIVER

Lomax Promises One Specially Made For the Scribblers of the Press.

On the Union Pacific Press Special, Sherman Hill, Wyo., July 24.—All being well the fifty-five newspaper men, guests of the Union Pacific, will arrive in Salt Lake tomorrow night. At the present time they are taking in the scenery of Wyoming, talking shop and making periodical assaults upon the commissariat department with an abandon that is as refreshing as the cool breezes that cavort through the open observation car ahead of the engine.

By way of response to the invitation sent out by General Passenger Agent E. L. Lomax, of the Union Pacific, two weeks ago, the invasion of the peaceful states of Wyoming and Utah was inaugurated by the gathering of the clans at the Brown Palace hotel, Denver, at 10 o'clock Tuesday morning. Here, under solemn oath to observe any approach to talking "shop" during the trip of inspection of the "Overland" improvements, all concerned threw the keys of Denver City to pluck the wild flowers and harken to the spiel of the gentleman who paints word pictures from the rear platform of the "Big Boy" train. The orator in dulcet tones intimated that he was addressing "a very intelligent audience." His subsequent efforts, however, were somewhat marred by the Missouri contingent asking to be shown. Whenever these interrogation points were sprung, the look of pained expostulation on the face of the lecturer as he turned back to the last paragraph in his address and retraced his steps through the glittering maze of epigrams was pathetic.

Prior to the departure of the Union Pacific press special from the Union depot at 11 p. m. the boys indulged in a tally-ho ride around the city park and down Fifth avenue—the Brigham street of Denver.

This happy thought on the part of Mr. Lomax was duly appreciated by the noble half hundred who endeavored to look unconscious when the scribbler in the shining the reached for an upper note on his four-foot horn. Every time the blast from the artist at the back of the car was heard, the noble blue ether, with due apology to James Barton Adams, a miracle was performed which discounted Lot's several hundred per cent—the entire procession up to the city park was an imposing one. In the van rode fifty strangers from as many leading cities of the country; absorbing statistics and other things like veritable human sponges. In the immediate rear followed haphazard samples of Denver's juvenile crop—armed with impotent question and withering sarcasm. Then came a body-guard of automobiles, steel traps drawn by prancing steeds with docketed tails and a host of you-know-buggies in squads and rubber tired rigs in batteries. The newspaper crowd felt overcome by the warmth of the reception until they later learned that the same procession of Colorado's horny-handed millionaires nightly drives to and from the Park. Incidentally the band also plays on the island each evening, likewise do the butler's of fashion and the hardy braver winners congregate on the banks of the lake to listen to the music, consume cream and exchange the small talk of the hour. They would have been there just the same despite the tally-ho, nevertheless the pencil pushers felt to rejoice and were exceedingly glad.

The grand parade, however, until hours after the special pulled out for Cheyenne, when the Iowa State Register went to press and outmarched the big band of the front end, which was pounding the rails at a fifty-mile gait. It goes without saying that when the Union Pacific undertakes to play host no stone is left unturned to make the occasion a red-letter one. This trip promises to be a distinctly an oasis in the average newspaperman's daily round and common task.

Children who drink FIGRONE thrive and grow strong.

The perfect food drink for growing children is FIGRONE. It is made from carefully selected California figs, prunes and sound, well ripened grain.

Looks like coffee. Tastes like coffee. But—there is not a grain of coffee in it.

Boil from 5 to 10 minutes only.

ALL GROCERS SELL FIGRONE CEREAL.

ent Park's private car, three Pullmans, a dining car, and Mr. Lomax's private car. This was the train which left Cheyenne at 8:07 o'clock this morning in charge of Conductor R. W. Rich with Mike Cline, the veteran Union Pacific engineer, at the throttle. Tonight the party will lay over at Green River, where Mr. Lomax has ordered a mirage at daybreak for the exclusive benefit of the pilgrims. From there on the run to Salt Lake will be made by daylight.

A Cure for Summer Complaint.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of the scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time.—Lansing, Iowa, Journal.
