DESERET EVENING NEWS: SATURDAY, MARCH 17, 1900.

THE BURLINGTON HEADED THIS WAY

Ogden Electric May Form Part of System.

TO CONSTRUCT THIS SUMMER

strong Probability that an Understanding Exists Between the Burlington and Utah Company,

It was learned definitely this morning that P. J. Qualey and those assiciated with him were preparing to push the building of the electric railroad between Salt Lake and Ogden, and that the line would be in operation before the end of the summer.

In this connection it is learned from the most reliable sources that although the line will be operated by electricity at first that the road is to be constructed in such a manner that it can at any time be operated by steam, the object being to utilize it as a means of reaching Utah's capital by the Burlington, winch is now pushing its surveys in the direction of Ogden. The informant of the "News" would not say that a deal had been consummated between the people and the Utah com-Burlington pany, but that there was at least an un. derstanding between the two corpora-tions. There seems to be little doubt among those on the inside that a new line east will enter the city before two years pass by.

Say They Cut Rates.

The New York Times today says: Freight agents in this city are discussregint agents in this city are discuss-ing the success of the Lake Shore in se-curing the contract for moving 490,000 pounds of gun motors from the Sandy Hook proving grounds to Fort Wilson, in the State of Washington, which success, it is said, is entirely due to the cutting of the rate by from 3 to 5 cents.

The contract was secured by the representative of the color line of freight at Philadelphia. His original bid, it is said, was two cents below the regular rate, but when this became known and new bids were asked for, he cut the rate still further. The motors will be moved via the Jersey Central, Philadelphia & Heading, New York Central, Lake Shore, Chicago, North-western and Great Northern. All of these roads excepting the Lake Shore and possibly the Chicago Northwestern. it is claimed, will get their full propor-tional shore.

Passenger Agents Give Up.

New York, March 17 .- General passenger agents of the Western Passenger association, who undertook to carry into effect the decisions reached at the recent meetings of railroad presidents in New York in relation to additional rules to prevent the payment of commissions are understood to have abandoned their efforts to secure the assent

Nebraska railroads by Attorney General Smythe for violation of the Nebraska maximum State law.

It is reported that the Burlington people are headed for Ogden. Rumor has it that a surveying party are only 100 miles out and will survey down to Ogden canyon to join the survey made some years ago by C. N. Bannister.

A novel folder has recently been is-sued by the Chicago and Rock Island people. By means of light and dark helts on the map it shows the sections of country traveled by night and by day on their through train from San Francisco to Chicago.

Both the Rlo Grande Western and the Oregon Short Line are preparing for the conference travel. All the adver-tising matter is under way and will be distributed the beginnig of the week. The Oregon Short Line have made the rate of \$10.40, \$9.55, \$9.45 and \$9.25 from Anthony, Rexberg, La Belle and Rigby respectively.

SOCIAL AND PERSONAL.

San Diego Evening Tribune, March 10. At the Fifth Avenue, on last Wednesday evening, Mrs. O. T. Carlson, of Salt Lake City, and her niece, Miss Dale, of Nebraska, entertained a number of friends by giving a musical in honor of Mr. and Mrs. W. L. Pickard of Salt Lake City. The parlor was beautifully decorated for the occasion with flowers and smilax and the musical program was one of unusual excellence. Too much cannot be said in praise of Mrs. Carlson's rendering of captivating vocal selections. Her voice is one of rare purity and compass and is a great addition to the musical circles of San Diego. The plano portion of the program was furnished by Miss Nyhan, Miss Dale and Mr. Lillicrap, Miss Nyhan's interpretation of classical and difficult composition being especially enjoyable, and not the least attractive part of the program was Miss Kinney's violin playing. It was far beyond the average amateur performance one usually hears at social performance one usually hears at social gatherings and was highly appreciated by those present. A dainty collation was served. Among those present were Mr. and Mrs. Pickard of Salt Lake City, Judge and Mrs. Leland of Kansas City, Mo., Mrs. M. T. Beatty, Miss Bartlett, Judge and Mrs. Kinney, Mrs. Hender-son, Mr. A. E. Lillicrap, Miss May C. Nyhan, Miss Mamie J. Kinney, Miss Campbell, Miss Evelyn Carlson and Mr.

ampbell, Miss Evelyn Carlson and Mr. . S. Kinney. Last night the Woman's Democratic club gave an elaborate social affair at the residence of Mrs. J. L. Rawlins on First and B streets. The entertainment was cards and handsome prizes were awarded, the first for both ladies and gentlemen being a stering silver spoon with gold bowl with the inscription "King 1960" engraved thereon. The winners were Mrs. H. J. Hayward and J. M. Cohen. The consolation prize was a water color picture of an Indian and was won by Mr. Beatty. After the contest a short musical program was ren-dered by Miss Olive Gray, Miss Bessie Edmonds, Miss Ruth Wilson, Mr. Geo. D. Pyper and Mr. Edward Scrace, Re-D. Pyper and Mr. Javard at the close of freshments were served at the close of the pleasant affair. Mrs. Rawlins was assisted by Mrs. W. H. King, Mrs. Wil-liam Dale, Mrs. Geo, H. Wood, Mrs. Cohen, Mrs. Horne and Mrs. Wilson. On Thursday evening Mrs. A. W. Mc-Cune gave a delightful reception to the general and local boards of the Y. L.M. I. A. The rooms were handsomely decorated and an enjoyable program was rendered followed by a delicious supper. Amongst the guests were the First Presidency and other Church officials besides the members of the association boards, * * *

mannen BUSINESS NOTES.

The action of the boards of two prominent local concerns in advancing their rate of dividends has had the effect of stimulating transactions in local stocks during the past week. Home Fire, whose annual dividend was advanced from 6 per cent to 8 per cent, jumped from \$103 per share on Wednesday to \$112 this morning, with no sellers. Utah Sugar, whose dividends was advanced from 10 to 12 per cent, sold as low as \$14,30 early in the week, but after the action of its board it ad-vanced to \$14.75 today with upward tendencies. The stock is offered at \$14.85; from 1,000 to 1,200 shares have changed hands during the week. The following are the latest quotations:

The period is at hand when all the insurance companies doing business in Utah are required to file the annual statements of their condition with the secretary of state, and to pay the 1¹/₂ per cent taxes on their premiums re-quired by the State of Utah for the privilege of doing business within its borders. The State's revenues from this source is a very homesome one that this source is a very handsome one, the total fire insurance premiums written here alone being from \$300,000 to \$400. 000, while the life insurance premiums are much more. Under the law the companies are also required to publish their statements, and many of them appear in today's News.

Speaking of insurance, it will be a matter of interest to business men to learn that the year 1899 was a very unsatisfactory one to the insurance companies as a whole; the reports made to the commissioner in New York State show that the losses by fire were \$91,000,000 against \$134,000,000 premium receipts, a loss ratio of 67% per cent. The expenses of operation were 36 3-10 per cent making a total expense ac count of 104 per cent, which means that the insurance business of the country, as a whole, was conducted at a heavy loss during 1899. This occasionally oc-curs during hard times but is very unusual during a prosperous year like 1899. Inadequate rates in some sections, and unusual conflagrations are set down as the reasons. On the Pacific coast, business was done at a profit, the premiums being \$10,200,000 and losses \$4,500,000, a ratio of 447-10 per cent. The figures for Utah have not

WITH THE JUSTICES.

The preliminary hearing of Joe Miller in Justice Nielson's court on the charge of grand larceny yesterday afternoon, resulted in his being held to the district court. Miller introduced six wit-nesses to prove his innocence but all to no purpose. In default of \$500 ball he was turned over to the mercies of Jailer

Thomas.

"A Cheerful Look Makes a Disha Feast." "Cheerful looks" depend just as much upon physical well-being as upon natural disposition and temperament. If the blood is disordered, the brain is starved, and no "dish is a feast," for the reason that the vitalizing ele. ments do not reach the proper spot. A step in the right direction is to purify the body by the use of a natural

A drummer for one of the leading sastern houses which deals in general merchandise throughout Utah, this morning stated to a News reporter that the country trade of this State was not at all in a satisfactory condi-. The open winter, he said, had the country merchants with their tion. fall and winter goods on hand, spring purchases were very light. Many of the merchants had asked for exten-sions on their bills, owing to the un-satisfactory winter trade, and as they would have to carry their fall goods over until next season, the prospects for sales throughout the year were no very favorable. The exceptions would be of course, in favored localities like Salt Lake county, Utah county and the wool districts, where trade was good.
