About fifty boys, girls and women attaged the two proves do consta

bridge, Mass. The family is in com-fortable circumstances. So far as the tragedy is concerned, while in moderately good spirits, she does not take a very sanguine view of the is-sue. The State prison seems to hang over her mind like an immense shadow. Among her other peculi-arities she is pretending to be very religious, and is reading the Bible and Episcopal Prayerbook constant-ly. It is said that she even had the temerity to attend the funeral

seven dollars from the minimum price on Saturday, opening at 103 and closing at 93. About fifty, boys, girls and women attacked the express wagons loaded with Chinamen on 3d street, near Howard, and peited them with stones and clubs and dragged the baggage out of the wagons despite ly. It is said that she even had the temerity to attend the funeral of her victim, and that she went up near the hearse and touched the coffin. The police are still on the lookout for Roscoe. Kate Stoddard declares ahe does not know and has never seen him, while the woman Armstrong is positive that she saw them together. One of the jurors hinted yesterday that there was a good deal more in this Goodrich magody than has yet been given to the public, and he added, "There is an important link still want-ing." baggage out of the wagons, despite the blowing of whistles and cries for the police. No officers came to quell the riot. These infamous affairs are of almost daily occurrence

The contributions are made small that the poorest may become ers. Where such small paynts do not aggregate the migratment cost of a large mily, it is suggested that the fund may come in to help sway those families. It is also proposed to establish banking agen-cies on the company's lands, to issue dollar or labor notes, and thus estab-lish an independent medium of es-

If carried out honestly and eneretically, this scheme might benefit dreds and thousands of families in the Old World, by furnishing a ans of effecting their transfer to ew country where there is more m and opportunity for the devel-ment of their energies.

LONDON.-In the Chamber Peers Lord Cranmere read the Arch bishop's reply to the Church Asse dation should be the church Asse HONOR TO LIVINGSTONE .- At a ing of the Royal Geograhop's reply to the tion, showing a tendency in the hurch of England towards Cathol-ism, and moved that a committee be appointed to consider what legislation is needed to check the He supported his motion by e Frere, President, said the King Italy had intrusted him with a ald medal for Dr. Livingstone, to aded to him if Sir Bartle should Zansibar or elsewhere. Bartle alto read a letterannouncng that Quien Victoria had approvetdr, in recognition of his vices in Central Africa, those Popish practices which the Reformation had abolished. He wanted to know by what casulstry English clergymen, holding such doctrines, retained their position in the Church. at it would be paid to two trus-es-Mesers. ay on bond being given for their opraised value. It required three arge trucks to remove the goods om the custom house to the own-'s mansion in Brooklyn. The official investigation into the use of the wreck of the City of takington was opened vestorday They were immediately transferred to the steamer *Somerset* and sailed to Boston. Captain Phillips, his officers and some of the crew re-Washington was opened yesterday by Captain Scott, of the royal navy. Captain Phelps was the first witness. He testified that af-ter the first three days from Queenstown he was unable to make astronomical observations, and the wind was a westerly headined to give testimony at

be used. The capacity of the great balloon will be 600,000 cubic feet of gas, but it will be inflated with but 400,-000 cubic feet, which, at the height of one mile and three quarters, will expand sufficiently to fill the bal-loon. The lifting power of illumi-nating gas is about 35 pounds to the one thousand feet, so that the bal-loon will have a lifting capacity of 11,600 pounds. The pressure will be 1+ pounds to the square inch. The weight may be summed up as follows: of men, provisions and coal. On leaving Liverpool it was well found in all respects. The general in-structions of the company are that the meridian of Cape Race is to be passed at about latitude 42. I an-

Captain W. J. Hammond, a pas-senger, testified that he never saw a bettar disciplined steamer; there was no confusion in lowering the was no confusion in lowering the boats; he never saw an officer is been was the first officer.
