CRAND CLIMAX IN SCHLEY CASE.

Mr. Raynor Concludes a Brilliant Argument.

ADMIRAL MOVED TO TEARS.

Audience Surged Forward to Shake Hands With Him Lealy Also Offered Congratulations.

Washington, Nov. 6 .- The climax of the Schley court of inquiry came this afternoon when Mr. Raynor, the chief counsel for Admral Schiey, concluded a brilliant argument of over three hours with a peroration so eloquent and impassioned that all within the sound of his voice were profoundly touched. This remarkable trial, he said, sought to condemn the man who had brought to a successful termination as great a naval triumph as was ever won.

In vivid colors he painted the picture of the Brooklyn, with Commodore Schley on the bridge, fighting the entire Spanish fleet until the Oregon appeared out of the smoke. The thunders of the Brooklyn, music for the ears of his countrymen, he said, aroused Admiral Schley's envious foes,

He pictured the victorious sailor suffering as few have suffered for three long years while the fires of persecu-tion leaped around him, and now awaiting the hour of his vindication in the verdict of the court.

RAYNOR'S PERORATION.

"And when it comes," he concluded, he can, from the high and exalted position that he occupies, look down upon his traducers and maligners, and with pride exclaim: 'I cire not for the enomous gossip of clubs, drawing rooms and cliques, and the poisoned shafts of envy and malice. I await under the guidance of divine Providence the verdict of posterity.""

The scene in the courtroom as he finshed with those words, was thrilling. The attendance had been large all day, and at the morning session a lady had fainted from excitement.

As Mr. Raynor began his euolgy of Admiral Schley, those in the audience many of whom were ladies, leaned for-ward in their seats. The spell of his oratory was over them, and when he described the admiral's gallant deeds and the long persecution to which he had been subjected, many of them broke down and wept.

ADMIRAL' SCHLEY MOVED.

The members of the court displayed evidence of emotion, and Admira Schley himself was painfully moved. He sat leaning back with his hands behind his head. His chin twitched, and as his counsel said he could afford to await the verdict of posterity, two big tears down his cheeks. He moved unisily to conceal his emotion, and under he pretense of adjusting his glasses,

Mr. Raynor referred satirically to the cause it is my duty. testimony of Lieut. Bristol, saying, among other things: "His vision was a divine inspiration. Sextants and stadi-meters, compass bearings, governmen his statements. measurements and hydrographic plats were all dim and obscure in comparison with the miraculous power of his un-aided vision, which lit up and illumin-ated the entire harbors of Cienfuegos and Santiago, with the unerring pre-cision of the morning sunbeams. He made a plea for the consideration of questions from what was at that time Commodore Schley's point of view. "Let us." he said, "put ourselves in his place and see what the circumstances were. We all know now what it would have been

wise to do." Discussing dispatch No. 7, known as the "Dear Schley" letter, Mr. Raynor contended that the order conveyed in that message made it incumbent upon Commodore Schley to remain at Clen-fuegos. He declared that this was the

key to the whole case, and that it did not admit of any other contruction than that Commodore Schley should re-main at Clenfuegos. In support of this contention, he read the department's orders to Admiral Sampson. He then took up the McCalls emproceeding the took up the McCalla memorandum, the message delivered by the Eagle to Commodore Schley, and the testimony of Lieut. Hood, and declared that Admiral Schley was the victim of an un-

fortunate combination of circumstances that left him in total darkness as to the location of the Spanish fleet. Concerning the question of coaling at sea, Mr. Raynor read the testimony of several witnesses to prove the gi difficulties such a task involved.

He said that all they wanted to prove was that Admiral Schley was honest when he informed the department of his inreased anxiety regarding the coal supply, and that he acted according to the dictates of his own conscience. He was prepared to prove that one ship would sat down.' not have followed the Spaniards six hours and have had enough coal left Potts as "that precoclous child of the kindergarten who confessed that he was always scared when he was in

Coming to the reconnaisance of May 31, Mr. Raynor contended that it had been Commodore Schley's chief inten tion to develop the Spanish land bat-teries, and in this, he said, he had been eminently successful. He claimed

that the man who was in command at such a time should be given great discretion, for he must necessarily know more of the situation than the gentleman who made out battle plans at home on charts with compass and ad pencil, and direct other people thousands of miles away how to fight battle

SUCH VIENNA'S IMPRESSION

New York, Nov. 7 .- The Vienna correspondent of the London Times and the New York Times says well in formed circles in the Austrian capital are a shade less confident than the press on a favorable issue of the French naval demonstration against Turkey. It is believed Russia has not been consulted by France in regard to the step now taken by the latter coun try and there is an impression that St. Petersburg does not approve it. The Russians at first pooh-poohed the French grievances but M. Constans the French ambassador to the porte did not allow even Russian interests to be considered before the interests of France.

complications. There is no probability that the British government considers itself liable under Lord Beaconfield's Cyprus convention to defend the Ditoman empire against a French seizure of the revenues of Mytilene. It is, however, an open question whether the foreign office may not be embarrassed by some secret arrangement with Germany respecting the near east. A moment afterward the court ad-journed, the judge-advocate pleading that he could not well go on today. Then another remarkable thing hap-pened.

WANTED TO SHAKE HANDS.

As soon as the gavel fell, the entire audience surged forward to shake the hands of Admiral Schley and Mr. Ray-nor. But the oncoming spectators fell back a moment as they stw Admiral Dewey and his two assistants move around the table, as if by a common impulse, and congratulate Admiral Schley and his counsel. Even Capt. Lemly, the judge-advocate, came for-ward to join in the congratulations. Then the public had its inning, and for fifteen minutes after the court ad-journed Admiral Schley and Mr. Raywere kept busy shaking hands.

Mr. Raynor's argument consumed the whole day of the court, except for half an hour at the opening, which Capt. Parker, his associate counsel, occupied in concluding. Mr. Raynor took up the those relating to the retrograde move-ment until the last. So far as he was able to do so, he used the testimony of the department's witnesses to prove his

With regard to the retrograde movement, which he discussed with greater seriousness than the other specifications, he adduced in justification not only all of Admiral Schley's reasons for only all of Admiral Schey's Pasons for believing the Spanish fleet was not in Santiago, but he argued that every of-ficer charged with the responsibility of command, necessarily must be clothed with discretion in carrying out instruc-tions.

CAPT. PARKER CONCLUDES.

Capt. Parker concluded his address talked for lwenty-five minutes. He intained that the blockade of San-aro was effective. He detended Com-odore Schley's reconnaissance of May saying he had acted wisely in de-rmining the actual conditions. In his line of policy he said that Com-podore Schley's conduct was paralleled y that of Admiral Dewey in Astatic vaters, when the latter remained for everal days in Mirs bay,

Regarding the loop made by the Brocklyn, Capt. Parker declared it was the wisest move that could have been made. All talk about the Brooklyn's roing to the southward, he characteriz-ed as "mootshine." "If the Spari'h gunners could have shot as the Americans did." declared Capt, Parker, "Ad-miral Schley, instead of being on trial as he is today, would be in a sailor's

grave." Referring to the Hodgson controver-sy, Capt. Parker said that he really be-lieved Hodgson desired to tell the truth, but unforumately he had told a different story every time he had opened his mouth. Capt. Parker said he did not know how the alleged controversy over the danser of colliding with the Texas started, except from the story which had been told by the captain of the Iowa. The speaker was very marcastic in his allusion to Capt. Evans grave.

SAMPSON-SCHLEY INTERVIEW.

Mr. Raynor next came to the con-sideration of Admiral Sampson's inter-view with the commander of the flying squadron, especially referring to Ad-miral Schley a testimony relative to the directions of Admiral Sampson with reference to attacks upon land batteries. He also referred to Capt. Chad-wick's testimony in this connection, and said that Admiral Schley's stateentitled to credence than was Capt. Chadwlock's, which was negative.

He said that Capt. Chadwick had given testimony as to only one state-ment that was made in that interview which could have been uttered in thirty seconds, while Chadwick himself had admitted that the interview lasted nearly twenty-five minutes, and Ad-

hearly twenty-five minutes, and Ad-miral Schley had placed the time at three-quarters of an hour. Mr. Raynor said he thought that Capt Chadwick had been forgetful, but that no charge could be made against him on that score. Admiral Schley, however, who had given positive tes-timony, would be guilty of perjury if his statement was not true. "They must have talked about something." he said, "and what would they be more likely to have discussed than the guns on the south coast of Cuba, whither Commodore Schley was then bound?"

On Saturday next at 2 p. m. in room 206 of the Latter-day Saints' business college, the first session of the training class for kindergarten Sunday school teachers will be held. All intending to take the courseare urged to be present at the first session. Two eathers from each Sunday school Salt Lake, Davis, Granite, and Jordan Stakes, have been especially invited. The instruction will include the general theory and practice of kindergarten work, especially adapted to the teaching of the youngest pupils in the Sun-day school. A course of instruction for the whole year has been laid out, so as to harmonize with the seasons and to keep in touch with nature in the work of instruction. This order of the work imparts interest to the instruction and is very suggestive and entertaining to oung pupils. The methods of the

kindergarten are such that primary Sunday school teachers will profit al-most as much by taking the course as will the teachers of the kindergarten grade. Teachers in the ward Primary associations also, will find this course exactly what they need for the management of the children in their care. It is advised that each association or Sunday school that sends one or more representatives to take the course, will pay the small fee that will be charged
