# Assembly Divided into Three Parties-Reports Submitted-Motion to Dismiss Matter as Inexpedient.

Philadelphia, Pa., May 23 .- The im- | reports before any motions were presented portant question of revising the creed, Dr. McCall said he made the motion which for the past two years has been agitating the Presbyterian church came

in the interest of fairness. The main issue, he said, was the appointment of a committee whose instructions were to come later and he believed that by before the general assembly today and to come later and he believed that by adopting the first recommendation the assembly would have the whole report in better shape for consideration. Rev. Dr. John DeWitt, of Frinceton, sprang to his feet and addressing Dr. McCall, said: "How do you know we want to ap-noint a committee". Suppose we want a lengthy debate on the question is expected. Last week the report of the special committee on revision, of which

the Rev. Dr. Charles Dickey, of this city, is chairman, was made the order

for 9 o'clock today with the additional condition that the discussion should not be interrupted by other business sitil

"How do you know we want to ap-point a committee? Suppose we want to dismiss the matter?" Mr. Moffat moved a substitute mo-tion to adopt the whole of the majority report. Several amendments were of-fered, but there was so much confusion that Dr. Nichols withdrew his motion. Dr. Moffat then moved to adopt the majority report. An amendment was offered to substitute the minority re-port.

The controversy regarding revision has led to the formation of three groups among the 640 commissioners to the port.

Before the last motion was put Dr. George B. Baker, of Philadelphia, of-fered the following:

"Whereas, the vote of the presby-teries on creedal revision indicates an utter lack of unanimity as to what should be done in the matter; and, "Whereas, this lack of unanimity means a protracted period of contro-versy and unrest in case the movement for revision he negative in and

for revision be persisted in; and, "Whereas, the disturbance of the con-

fession of faith would be in the way of union or re-union with other churches now holding this symbol unimpaired, which union is earnestly desired and

rayed for; therefore, "Resolved, That this general assem-bly deems it inexpedient to proceed fur-ther in the matter of revision at this time, and it hereby dismisses the whole matter.'

The reading of the resolution brought forth considerable applause. There were loud calls for Dr. Dickey to speak on the resolution. Before he got started on his subject.

however, a point of order was raised against discussion of the resolution to against discussion of the resolution to indefinitely postpone. To expedite mat-ters, Dr. Baker changed the wording of his resolution as originally written by striking out the words "indefinitely postpone" and substituted the word 'dismisses.'

Fully an hour before the doors of Cal-yary church were opened crowds Fully an hour before the doors of car-vary church were opened crowds thronged the entrance, and when the devotional exercises began the galler-ies were filled to overflowing. The debate on revision was delayed by the report of the committee on bills and overtures and other matters. on the part of some one. He denied the assertion and said he had never be n imposed with a more serious duty than that which the last assembly placed upon him. In appointing the committee he did what he thought was best for the peace, prosperity and progress of the church. Dr. Dickey told how he pleaded with several ministers to When he members of the committee. When he referred to the declination of Dr. John DeWitt, of Princeton seminary, the latter interjected "And you pleaded most eloquently." In speaking on the question of dis-missal he said: "Now is the accepted time to settle the matter." Dr. Dickey made an eloquent appeal to the assembly to settle the question finally. He was followed by Dr. Mc-Kibben on behalf of the minority report. At the conclusion of the latter's address the assembly at 12:20 p. m. took a recess until 2:30 o'clock. Dr. McKibben said it was certain that a majority of the presbyteries favored a creedal change, but in his opinion the church is determined that no change shall be made which shall touch a single fundamental doctrine. No new creed is desired, he said, as only fourteen presbyteries had voted for that proposition. McKiuben said the confession Dr. should be made clear on the subject of event infants. It should be demonstrated to this generation, he said, that God's grace lays hold in the act of death and glorifies the infant into transformation when it takes the child from its mother's heart. Dr. McKlöben asked that the resolution be voted down, and made a passionate appeal against the adoption of recommendation B of the majority report. This recommendation calls for a brief summary of the reformed faith, bearing the same relation to the con-fession which the shorter catechism bears to the larger catechism, and formed on the general model of the con-census creed prepared for the assembly of 1892, or the "articles of faith" of the Presbytenian church of England. He strongly urged recommendation of which asks for the preparation of amendments to several chapters of the confession of faith, either by the modification of the text or by declaration so as to more clearly express the mind of the church with additional statements concerning the lave of God for

He communicated with the war department and informed Secy. Root that the five young men had called upon him in a contrite and repentent state of mind, asking for his advice and assistance in shaping their future. They stated that no turpitude was involved in anything that was charged against them, and Gen. Greene apparently was of the same opinion, for, after hearing their story he pro-posed to Secy. Root to employ the men in the service of the asphalt com pany.

Secy. Root promptly responded that the war department had no objection and that it was true there was no charge touching the integrity of the boys, but only a technical viola-tion of discipline. So one of the young men will go immediately to Venezuela, Gen. Greene having taken them into his service, and the others will be disposed of according to the engineering needs of the company.
