MINING, BUSINESS AND STOCKS.

AMONG THE STOCK BROKERS

Wabash Was a Feature on 'Change This Morning.

LOWER MAMMOTH HIGHER.

The Daily Stocks Were Also in Good Tone—Trading Was Brisk and Volume of Business Large.

There was another brisk mining stock market today. The volume of business was large and prices held up to strong figures. The real feature of the day was found in Wabash, which made some striking advances. The stock seemed to be in big demand and sold up to 31 ½; but when the orders seemed to be about all filled the bidders relaxed and the close registered a bid of 28 cents, with no offerings. The Daly stocks were again in good order, as was Con. Mercur, which was transferred at $1.73. Lower Mammoth was also on the list of the strong ones and advanced to 70½ in thte sales. The stock was in big demand and the sales were quite heavy.

The closing quotations and sales posted were as follows:

New York-Tonopah.

Resumption of operations in the New York-Tonopah, says the Tonopah Bonanza, will continue the work of dropping the big working shaft from the 650-level. It was the intention of this company from the start to sink 1,000 feet before beginning the work of crosscutting the great extent of ledge-bearing ground covered by its claims, whether or not ore bodies were encountered. The mineralized blue porphyry, commonly forming the wall rocks of Tonopah ledges, has been penetrated, together with inshoots of a denser character, all of which are indications of the proximity of a regular contact, aside from the quartz interspersed.

Con. Mercur Velvet.

The Con. Mercur will distribute its regular February dividend of 3 cents per share, or $30,000, next Monday.

REVIVAL ON THE COMSTOCK

Old Virginia City May Enjoy Prosperity Again.

DEWATERING THE MINES

Of the Famous Lode—Success of Pumping Association—Cheap Electrical Power.

A revival has come to the Comstock lode of Nevada and the once famous camp of Virginia City, appears to be on the eve of better times.

The Comstock Pumping association, which was organized several years ago, has conducted its operations quite successfully; for nearly three years the water level of the district has been kept 450 feet below the great Sutro tunnel, which is familiar to all old time Comstockers. This tunnel drains the mines of the district to a depth of 170 feet.

A factor which has contributed to the success of the dewatering process, was the installation of hydraulic elevators.

In the meantime, the Consolidated California and Virgina company, has been carrying on, almost unnoticed by the public, a vigorous campaign of mining and exploration and has produced no less than a million dollars from the sale of ores during the past few years.

Another element which has brought hope to the mine owners of the Comstock, is the advantages derived from cheap power for mining purposes. From a plant installed on the Truckee river in California, the electric fluid is conveyed a distance of 37 miles, and delivered to the mines and mills at an expense of about $7 per horse power per month, as against $12 or more under previous conditions.

The current issue of the Pacific Coast Miner contained an interesting article on the subject of the mines of the Comstock lode, from which the following is an extract:

"The detailed story of the Comstock lode is the greatest romance in the world's mining history and one that is quite fairly familiar to the mining world. Of most current interest are the plans and developments that are now being carried out, at great cost, in the way of rejuvenating the Comstock lode as a mining proposition.

"The period of glory for the Comstock was characterized by the spirit of gambling which ruled all its marvelous mining operations. In the heydey of the Comstock, stockholders and managers cared little for the theory and practices of legitimate mining and for the mining efficiency of the facilities and management provided. In San Francisco alone 10,000 people were regular or occasional customers of the mining stock brokers during the boom days of the early '70s, and stocks went up and down and operations went forward or ceased, according to the demands of people who cared not directly for dividends but for the fluctuations of the stock prices. Under this stimulus, and with the aid of either dividends from bonanzas or assessments freely declared and paid, some of the boldest mining operations the world has seen were carried on.

"As the world knows, the Comstock passed into a long period of industrial lethargy. It is the awakening that has come that concerns the present. The awakening began in 1899 when the controlling interests concerned with the leading properties agreed that the time was about ripe to resume active mining operations in the Comstock, but mainly on the lines of a legitimate mining enterprise, the policy of which was not to be governed by the stock market but by the principles on which a great mining enterprise should be carried on with a view to the greatest possible efficiency under existing conditions."

WILL SEE THE MAJESTIC.

Eastern Shareholders of Beaver Bonanza Arrive Today.

During this afternoon a special car will arrive in the city containing a large party of shareholders in the Majestic Copper company, and their friends. The crowd will proceed to Beaver county this evening piloted by President A. B. Lewis and Ed F. Freudenthall, the latter manager of the Manhattan properties at Pioche.

The party will probably remain in Beaver county several days.

The Daly Annual.

The annual meeting of the Daly Mining company has been called to meet in the company's offices, in the Masonic block, this city, on Monday, the 16th inst.

To Change Incorporation.

A special meeting of the shareholders of the Franklin Gold Mining company, has been called for the 12th inst. at which time it is expected thtat the articles of incorporation will be changed so that the capital stock will be made 500,000 shares, of the par value of $2,500,000.

Dugway Incorporated.

The Dugway Mining company, of this city, filed its articles of incorporation in the county clerk's office today. Its capitol stock is $60,000, divided into shares of the par value of $1 each. Angus M. Cannon is president; John M. Cannon, vice president; E. M. Cannon, treasurer; M. C. Chamberlain, secretary. The company owns a group of 26 lode claims and an interest in six other claims, all located in the Dugway district, Tooele county.

IN THE INTERESTS OF DEEP CREEK

Important Meeting Will be Held Tomorrow Night.

AT THE COMMERCIAL CLUB.

Reports of Committees Will be Heard—Strong Efforts to be Put Forth for The Building of a Railroad.

The friends of Deep Creek, Utah's great undeveloped mining region, will hold an important meeting at the Commercial club rooms tomorrow night.

Several weeks ago new interest was aroused among the business and mining men of Salt Lake over this vast mineralized country and steps were taken towards the formation of a Deep Creek association; the purpose of which is to bring about some united action by the representative citizens of this city to foster the building of a railroad into the district and to otherwise open up the mines of the camp.

At this meeting John Dern was selected as the president and J. P. Gardner was named as secretary.

Various committees were appointed at this time and at tomorrow night's meeting reports from them will be read. Further steps will also be taken to promote the welfare of the Deep Creek country.

The building of a railroad into this district is all that is needed to bring it in close touch with Salt Lake. The lack of transportation facilities has been the drawback in the past which has prevented Deep Creek from becoming one of Utah's principal mining camps.

MINING CONCENTRATES.

Judge W. I. Snyder, manager of the California mine of Park City, is in Coalville today on legal business.

Willard F. Snyder of the Western Exploration company expects to depart for California tomorrow.

The new hoisting plant for the New York Bonanza has been unloaded from the cars at Park City.

Manager John J. Daly of the Daly-Judge mine, and O. J. Salisbury, visited that Park City bonanza today.

Manager Boggs of the Oil City Oil company returned this morning from Desert Switch, where his company's property is located. The well is cased up to a depth of 800 feet and orders have been given to continue it another 400 feet.

President John Dern of the Consolidated Mercur is expected home from Colorado this evening.

A car load of Utah ores is reported at Oasis and, will reach the smelters within a few hours.

Fitz Rittich, owner of the old Crown Prince and Frederick mines in Alta has come down from that camp to remain until the backbone of the winter is broken.

The high grade ore in the bottom of the shaft of the Montana-Tonopah has widened out to five feet on the north side. The north drift at the 400 level is all in good pay ore. Sinking continues at the rate to two feet per day. The first car load of rich ore will be ready about the 10th of February.—Bonanza.

A school of mines is to be located in Texas. El Paso is offering strong inducements to have the institution located there.

The ore and bullion settlements made yesterday afternoon amounted to a total of $108,800.

P. J. Donohue has returned from the hills after conducting an examination for the Western Exploration Co.

Manager Tony Jacobson, of the Columbus Con. expects to visit that property next week for the purpose of inspection.

The Daly-West will distribute its February dividend on the 16th inst.

A trial shipment from the property owned by the Franklin syndicate, in the Gold Mountain district, will be on the market in a few days.

Several cars of Tonopah ores were sold in today's market.

The smelter at the Golden Reward mine, at Deadwood, S. D., has been closed down indefinitely.

The Horseshoe Mining company is constructing a large cyanide plant at its Black Hill property, which will have the capacity of from 800 to 1,000 tons daily.

PERSONALS.

J. S. Cameron, formerly president of the Rapid Transit company of this city, is now in Tennessee, where he is building a line of railroad.

J. C. Gladden has returned from a trip to Tonopah. Mr. Gladden was much impressed by the opportunities open to enterprise in the matter of transportation for the 65 miles between Sodaville station on the railroad and Tonopah. He was one of 11 passengers on one stage, while there were 12 on a second stage, and four men walked with their grips. The fare is $15 for the round trip, or $8 one way. Mr. Gladden claims that a man with a motor car capable of carrying 20 or 25 people would make money, and run the regular stages out of business, as he could make the trip in four hours. A motor car might cost $2,500, but it would be money well invested. There are people going into the camp continually, and it is steadily growing.

J. H. Calthorp, a Meeker, Colo., merchant, is a guest at the Cullen. He reports the feeling in his section of the state as very good on account of the surity of the advent of the Moffatt road.

R. W. Crockett of Price is stopping at the Cullen.

Judge Jacob Johnson of Spring City is a guest at the Cullen.

Griffith Jones, superintendent of Tooele schools, is stopping at the White House.

W. L. Dodson of Minersville has returned from a trip to Texas, and remarked this morning that he was rejoiced to exchange the rain and the mud of the Lone Star state for the cool, dry and invigorating atmosphere of Utah.

LOWER PRICES FOR SECURITIES.

Hitch in Venezuelan Negotiations Affected Market.

TENDENCY WAS DOWNWARD

Opening Quotations Were Lowest, Buying Orders on Decline Causing a Rally, Everything Reacting.

New York, Feb. 6.—The hitch in the Venezuelan negotiations caused some anxiety on the London stock market this morning and lower prices for securities were reflected here at the opening. There were heavy offerings of the Erie, St. Louis & San Francisco fell 1¼. One or two stocks showed slight gains, but the general tendency was downward to the extent of a fraction. Opening prices proved to be the lowest as enough buying orders came in on the decline to rally the market. Losses were quite generally made up and a few stocks sold substantially over yesterday's close. Amalgamated was bought heavily and touched 69⅝ with some slight effect on other metal stocks. Some isolated weak points developed, including Anaconda, which lost ½.

The whole market re-acted sharply during the second hour. The selling apparently was prompted by the promise of a poor bank statement. New York Central fell 1⅜ under last night and Colorado Fuel 2½. Of the strong stocks, Reading, Wisconsin Central preferred and Wabash preferred re-acted 1 to 1¼. Anaconda rallied 2¾ and St. Louis & San Francisco 2¼. The market steadied and became very dull.

Bonds were irregular at noon.

Room shorts bought some of the transcontinental stocks, but as soon as the demand ceased prices slipped off lower than before. St. Paul fell to near 178 and a few specialties dropped sharply.

Large sales of the steel stocks started prices downward and there were freer offerings of other speculative favorites. United States Steel and Illinois Central fell about a point below yesterday and Lake Erie & Western preferred 4. Selling slackened before 1 o'clock but the market showed no inclination to harden. General Electric and Hocking Valley advanced 1@1½.

MONEY ANN BONDS.

PRESERVE YOUR TEETH

Good teeth and good health go together. Don't neglect, therefore, to give them proper attention. It isn't much trouble, simply clean them regularly with

IDEAL TOOTH POWEER And a good TOOTH BRUSH.

It doesn't cost much, either. The powder is 25c a bottle. The brushes 10c to 50c each.

Telephone 148.

C. M. I. Z. Drug Store,

112-114 MAIN ST.

Just below the Clock Corner.
