"A MIRACLE IN STONE."

THE above is the title of a work by around which the sun and its Dr. Joseph A. Seiss, to which we planets, with their satellites remade some reference in our recent volve. It is a great time article on "Revelation and the measurer, symbolizing star and examined at some length, after Great Pyramid." Since writing on sun periods and great spochs of hu. examined at some length, after that subject we have received the man history. It indicates some that subject we have received the man history. It indicates some book, and can cordially recommend similarity of design with that of it to all who desire further informa- the Mosaie Tabernacle in the wiltion concerning the history, con- derness, and bears the impress of a struction, scientific significance and Master Architect familiar with the religious symbolism of the most principles which underlie the wonderful stone structure on the mighty system of the physical uni-

verse. globe.

important of the writings of those travelers and savants who have made a specialty of pyramidal in-vestigations. It gives a chart or diagram of the Great Pyramid, howing its internal architecture, as well as its external proportions and relations to geometrical and as-tronomical figures and measure-tronomical difference also its essential difference for law matter has made a most power-the writer has made a most power-ful argument for the divine char-ful argument for the divine charshowing its internal architecture, as well as its external proportions and relations to geometrical and asnothing of its true design and sig- showing that its architect knew nification.

covers about 13 acres of ground. Its time of its construction, and that four equal sides slope inward to one modern savants of the highest attainments may learn something point at the top, about 30 feet of which has disappeared. Its full from the revelations of that wonoriginal height was 5,822 of our drons monument. To the Latter-day Baint who has inches. Each base corner is sunk studied the Book of Abraham, this into a socket, and the length of each of the sides, measured from the sockets, is a fraction over seven hundred and sixty-one and a half conviction that the illustrious patriarch and "father of the faithful" feet. It is the highest and vastest mountain of stone ever erected by was the inspired master builder of this extraordinary pillar, set up as human hands, so far as history records. It was originally covered a memorial and a witness for the with polished casing stones, but God of Israel in the latter times of will take place bere. The sub-skepticism and infidelity. is impecunicus, and the fact that he carried \$50,000 to Baltimore for Smith Weed to operate with, is not denied, but it will be urged that instead of Tilden furnishing this money it was supplied to Pelton by outsiders, who wanted Tilden made President, and that the latter knew PARIS, 1.-It is believed that Dutaure will yield to the urgent request of President Greyy and the republican senators and deputies and retain the premiership. nothing about it. That Tilden would not trust hite with funds is to be proved by showing that Pel-ton, in 1869, drew a \$5,000 check on Tilden & Company without au-thority, which he not discounted in Chicago, but which was dishonored TULLIDGE'S "QUEEN ELIZA

BETH." SALT LAKE CPTY, January 28th, 1879.

A Southerner's Views on the Next Presidential Campaign.

Dear Sir:-Hearing of the advent of your new dramatic creation. "Elizabeth, Queen of England," A prominent southern man, con-versing regarding the next presiand a number of us having been present at the successful reading of the same, lately given in this city, we take pleasure in congratulating you, as an author, on the birth of what we consider your noblest litno opinions ou finance which they will not surrender for the sake of success. We are opposed to the national banking system and desire what we consider your nonless lit-erary conception. We deem your "Elizabeth," postically and dram-atically, a production of unusual merit, of which not only yourself, but your fellow citizens in general may feel justly proud; and in view of this and that we learn it is your intention shortly to enturit it to re-established State banks. We want a currency that has neither want a currency that has neither wings nor legs, and that will stay where it is issued. "Admitting that this platform would lose New York and NewJersey," he said, "we could afford that, if we could carry Ohio, Indiana, Illinois, and perhaps Pennsylvania. The western States are as much opposed to the national banking system as we of the south. Our people in Ohio will make the satis-national bank platform in the State convention this year, and go to the people on that issue with Sherman as standard-bearer. If we win there the P.esigential election intention, shortly, to submit it to the approval of a British audience the approval of a British andience in the city of London, we desire to show our appreciation of your ability as an author, and your play as a master-piece, by requesting that Eliza beth be first produced upon the boards of the Salt Lake Theatre, to receive its initial triumph at the hands of its friends, and go abroad sustained by compliments and good wishes based upon a better know-iedge of its merits. Respectfully. win there the Presidential election

we have a year aliead to perfect new arrangements. If our anti-bank crucade fails in the west, we shall become the hardest of hard money, form alliances with the eastern democracy, and make a strike for New York and New Jer-sey. The one thing for which our people care more than anything else is the preservation of what we call our autonomy. We propose to man-age our local affairs in our own way and without the interference of the general government. We can rally our voters just as well under Bay-ard as under Thurman. If we fail is our western alliance, we still have a chance to unite with the eastern democracy, and make a
