Papers sent to subscribers by mail have the names stamped upon them, with figures opposite to indicate when the subscription will expire. For instance, John Smith, 4-11-7, means that John Smith's subscription will expire on the 11th day of the 4th month of this year, or November 11th, 1887. Subscribers will please notice the figures on their papers, so that they may know when their subscription expires, and also to know when to stop their subscription, the rule being to stop the paper when the subscription expires.

## LAST NIGHT'S NEWS

Terrible Destruction and Wide-spread Suffering by the Texas Cyclone.

A New Chinese God Received with Great Pomp in San Francisco.

Pryor Says the Supreme Court will Grant a Writ for the Anarchists.

Important Meeting of Stockholders of the Horn Silver Mining Company.

Washington Notes—The Cholera—The Country's Beer to Be Analyzed, Etc.

By Telegraph to the News.

Terrible Fire.

GRANENHURST, Ont., Sept. 23.—A terrible fire devastated the business portion of the village last night and this morning. The losses aggregate \$100,000. Small insurance.

Forty-five places of business and 88 dwellings were destroyed, and fully 50 families are without food and shelter. Supplies of food were received to-day from outside places, but there was not sufficient to go around. Assistance is greatly needed, and relief and shelter companies have been organized. The loss is placed at \$200,000, with trifling insurance.

Assistance Wanted.

LINCOLN, Neb., Sept. 23.—Secretary Sutton, of the Irish National League, has received advice from Sir Thomas Gratton Esmond, M. P., and Arthur O'Connor, M. P., have sailed from Queenstown. They came as a delegation from the National League of Ireland to obtain assistance. They will lecture in the leading cities.

Earthquake.

HAVANA, Sept. 23.—A severe shock of earthquake was felt in Santiago de Cuba to-day, the vibrations lasting half a minute. Two persons were injured and some houses damaged. Shocks were also felt in Yuantanamo and Manzanillo, and in Kingston, Jamaica.

THE TEXAS TEMPEST.

BROWNSVILLE, Texas, Sept. 23.—The telegraph several days ago gave notice of a hurricane southwest of Havana and moving this way, and for two or three days the weather indications showed the approach of the storm; though the barometer and tide in the Gulf gave warning of the coming of bad weather, this storm came with its immediate approach. At 9 o'clock Tuesday evening,

which had been blowing for several days increased in force with heavy gusts of rain and strong winds. The hurricane was on the town in full force, a velocity of 75 miles an hour. All night long it continued howling, being mingled now and then with the crash of a falling house or the sound of falling trees, the rattling of fences as they went over, or the shouts of those deserting their homes or imploring aid.

Monday dawned on a scene of desolation. Water filled the streets, through which the roaring north wind drove the like great waves of small ships. Fallen trees, ruins of houses and prostrate fences, all half submerged in water, rendered

passage difficult and dangerous. At 2:30 p.m. the wind lulled, and there was a momentary calm. The wind arose at intervals, but not severe, until this morning when it ceased. The duration of the storm may be said to be thirty-five hours. The rainfall was very heavy, 10.40 inches. The damage to the country outside the two cities is incalculable. Herds of cattle and sheep have been lost, and crops of cotton, corn and sugar cane were completely prostrated and destroyed. One rancher, on a small place, calculates his loss in Calton at \$20,000, and many others are equally heavy losers. The total of the losses will not be far from \$1,000,000.

While during the recent storm, the Brownsville's chief sufferers were among the poor. Between sixty and eighty jacks, or cheaper class dwellings, have been

BLOWN DOWN, and fully three hundred have been partially unroofed and rendered uninhabitable. The telephone wire from Saint Isabella is down, and it is not known how things are there. There is great suffering among the poor, many of whom are without residences. The river is again very high and overflowing its banks.

At Matamoros the narrow streets during the storm, were seas of water from ankle to nearly hip deep. Even in the more central parts of town the streets are all encumbered with debris. In this city about a dozen houses of the better class and fully one hundred and fifty or two hundred jacks were prostrated, while from four hundred to five hundred were unroofed or shattered. The

PUBLIC BUILDINGS and stores and the better class of dwellings leaked like sieves and are afloat. The unfortunate Incon district, south of Plaza Del Capilla, is again inundated. A large portion of the houses have fallen. The water has begun to waish deep. From 12 o'clock Tuesday night till noon yesterday the police, military and many citizens were engaged in saving the inhabitants and their effects. The suffering in the town and country is generally severe.

A New Idol.

SAN FRANCISCO, Sept. 23.—The Chinese residents of this city had a remarkable street parade in honor of a great idol, known as Tan Wong, brought from China. The parade was one of oriental magnificence, but was confined to the streets and alleys of Chinatown. The costumes, banners and oriental weapons, incident to the parade, were brought from China especially for this occasion.

There were one thousand Chinamen in the line and numerous women on richly caparisoned horses, the entire column presenting a

BLAZE OF COLORS.

The women wore long silk gowns, and at their sides walked attendants, holding high overhead banners of gold. The men in the procession carried antique war implements, long, gilt maces and elaborately-carved swords or spears, around whose points were coiled gilt lizards, snakes and flaming dragons. A number of tall banners that sprang twenty feet in the air preceded another heavily-armed battalion attired in the brightest yellow and carrying weapons no two of which were alike. Immediately preceding the mighty Tan Wong was a band of musicians sounding huge gongs and kettledrums, while a cody of cannoners followed, keeping up a constant fusillade of fire-crackers. Twelve worsted men clad in light yellow, carried Tan Wong, who sat in a high chair. About him and behind him, trod

ATTENDANT PRIESTS.

In long black satin robes that swept

the ground. They were accompanied by incense bearers, whose censers were hung from the ends of long red poles. Following Tan Wong, was a dragon 175 feet long, and described as the most gorgeous ever seen in America. It was supported by 40 worshippers. This monster opened its mouth, writhed its body and by appliances known only to the Chinese, kept up the general outward appearance of being possessed of life and as though desiring to devour the spectators viewing its contortions. The idol will be placed in the Joss House to-day to be worshipped.

The Holland Budget.

HAGUE, Sept. 23.—In the second chamber to-day Herr Blom presented the budget for 1888. The deficit is estimated at \$5,125,000, which will make the total of accumulated deficits to \$10,400,000, chiefly due to the expenditures for the great public works.

The Sugar King.

NEW YORK, Sept. 23.—The Tribune will say: Claus Spreckles, the California sugar king, arrived yesterday. Spreckles' trip to Europe was to ascertain how best sugar is made in Germany. He intends to introduce the industry into California and expects to make the United States the greatest beet manufacturing country in the world. In Germany he purchased 30 tons of beet seed, which will leave there in December.

Dead.

NEW ORLEANS, Sept. 23.—A cable dispatch from Chateau Giron, France, announces the death of Archbishop F. X. Leray, of the diocese of New Orleans. He was ordained in 1888. His province included Alabama, Arkansas, Louisiana, Mississippi and Texas.

The Anarchists.

CHICAGO, Sept. 23.—Lucy Parsons, wife of the condemned anarchist, was arrested this afternoon. The charge against her is violating the city ordinance, prohibiting the distribution of handbills on the streets. She was requested by the officer to desist, but she refused, replying that she was amenable to the laws. A great crowd followed the policeman and his prisoner to the station. There she offered her circulars to every one, not excepting Police Captain O'Donnell. Continuing to refuse to stop distributing the circulars, she was locked up. The penalty for her offense is a fine of not less than \$5, nor more than \$15. The circulars were copies of Parsons' address to the public, published in yesterday's papers.

NEW YORK, Sept. 23.—Captain Black had a long consultation with General Pryor to-day, and the latter took charge of the anarchist appeal. He has not seen the records, but says from Captain Black's notes he has no doubt they will show so many errors that the Supreme Court will surely grant the writ.

Horn Silver Affairs.

NEW YORK, Sept. 23.—A meeting of the stockholders of the Horn Silver Mining Company was held here to-day, on a call by Allen C. Washington and Alexander C. Simmons. Mr. Washington stated that the object of the meeting was to secure a sufficient number of proxies to be used in the election for directors held at Frisco, Utah, October 4th, to secure the choice of such men as would oust the present management. He said that 25,000 shares held in England, proxies for 60,000 had been mailed to Mr. Washington.

In explaining why it would be best to change the management, Mr. Simmons said that the stock was divided into 40,000 shares at the par value of \$25; they were quoted now at 75c. in 1884.

PRESIDENT FRANKLIN issued a call loan for \$184,000, which had been increased until it amounted to \$650,000. It was estimated that what had become of this money had invariably been refused, as was also the case with the money of the mines, which had been valuable had become apparently worthless. In order to obtain this information, it was necessary for an investigation of the books and mines to be made, but this would not be allowed by the present management. After the meeting Messrs. Washington and Simmons claimed that the record and proxies to the Grand Lodge were considered and sustained. General communications regarding the plea for holding the next annual meeting were read, and after a spirited contest, a resolution was adopted to adjourn sine die at 11 in the morning, and the session adjourned until 9 a. m. to-morrow.

The Odd Fellows.

DENVER, Col., Sept. 23.—The fifth day's session of the Sovereign Grand Lodge was called to order at 9 o'clock, and immediately took up routine business, of no general importance. The decisions rendered by Grand Sire White during the recent report to the Grand Lodge were considered and sustained. General communications regarding the plea for holding the next annual meeting were read, and after a spirited contest, a resolution was adopted to adjourn sine die at 11 in the morning, and the session adjourned until 9 a. m. to-morrow.

Bad Beer.

ST. LOUIS, Sept. 23.—A special from Washington to the Westliche Post says Commissioner of Internal Revenue Miller is going to have the beer of all the leading brewers in the country analyzed by a competent chemist, and give as his reason therefor the many complaints in the press and to himself against the quality of many beers in the market, it being claimed they are adulterated with chemicals very injurious to health. He will procure samples, not from the brewers, but from the retailers, and hopes to be able to show what the people drink.

The Investigation.

NEW YORK, Sept. 23.—Judge John M. Thurston was next called. He was appointed assistant collector to the Union Pacific for Nebraska in 1875. Before his regular appointment he had done service for the company in assisting to have reconsidered by the Nebraska legislature a bill that was injurious to the company's interest. Witness stated that the people of Nebraska do not like railroads and the members of the legislature vie with each other in

OFFERING BILLS that are detrimental to the railroads. Witness' duty was to meet anti-railroad people and argue with them in reply to the question of Governor Pattison regarding certain vouchers, witness said that money had been used in "stumping" two counties to prevent opposition to the railroad's coming. There was no attempt to buy votes then or at any other time.

General John C. Fremont took the stand. He said General Ewing and others paid \$200,000 for the Leavenworth, Pawnee & Western Railroad in 1868. There was scarcely any construction there. In 1864 the general retired, receiving about what he paid. He never had any hand in

BUYING VOTES.

At his own request, General Thomas Ewing then took the stand and made a lengthy statement respecting his connection with the Leavenworth, Pawnee & Western Railway and especially in reference to certain vouchers alleged to have been made in aid of the passage of the first Pacific Railroad law. He was connected with the road as a director about one year but never had any active part in its management. What few contracts he had any knowledge of were made in consideration of legitimate services. If there were any others he had no knowledge of them whatever.

(Continued on Fourth Page.)

## DESERET WOOLEN MILLS CO.
