um on Richards street has provided most unlone attraction for patrons of the rink next week, in the first of the rink next week, in the first sppearance in this city of the Lawler children. The children are David, axed 14 years, and Lillian, aged 11 years. For some line they have been on the vaudeville abreuit, but left it to perform at the various rinks throughout the country. Their per-formance consists of all sorts of dif-neult skatarial acts and the little girl does a screpetithe dance on rollers. This is a most difficult feat and few experts on the little wheels have at-tempted it. The children open their engagement Monday evening and will give exhibitions each evening during the week. the week.

Tin sign tricks may be turned with impunity when a city council is will-ing enough, and when an imor circle has fixed its control firmly enough. The men who hope through this clustion to become the actual rulers of Sait Lake are Jerry Durner. Joe Morris, Joe Co-hen, Joe Lippman, Herman Bam-berger, David C. Dunbar, Frank I. Seffit, and a few others whose potent-itality in the movement will be only slight. The list does not exactly fol-low the membership of the city com-mittee. Not much. Some men prefer not to go into conventions to secure their power to sway. Storey & Ciark uprights.

By swinging and bend-ing the plucky woman kept her balloon from going over, but all her frantle ef-forts to release her parachute falled. The hot air began escaping finally and the bag started toward earth.

While still high in the air the affair was carried a considerable distance by wind currents. When Lady Imau Alighted she collided with the Twenty-fourth ward meetinghouse. As she hit the roof her legs and body were bruised but fortunately no bones were broken.
