

TURKS MASSACRE MANY CHRISTIANS.

Men Crucified, Women Mutilated, Children Drowned—Eleven Hundred Persons Brutally Slain.

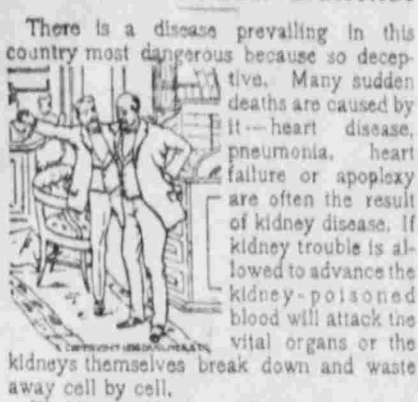

New York, Dec. 21.—A special to the Journal and Advertiser from Vienna says: Further reports of the Turkish massacre of Christians show that their instigator is a Mohammedan named Hatik Ismail, who brags of having slaughtered 200 Christians with his own hand.

ons means, their limbs cut off successively, and children were thrown into the river. The fends tortured the Christians at Ribaritz by slicing flesh from all parts of their bodies before killing them. A Greek orthodox priest was tied in a sack and pitched into the river at Genoviza.

FEARFUL ATROCITIES.

At Blutch, men were crucified on trees with stakes driven through their hands and feet. Women were attacked and then mutilated. Children were murdered by mutilation before their parents' eyes. Women were maltreated at Grumna before the eyes of their husbands, fathers and brothers, and then carried into the bondage of harems. Men were put to death slowly by vari-

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance it will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may also purchase a small bottle of the new discovery and a book that tells all about it, both of them for 25 cents.

The re-organization of the party that is necessary as the return to old principles, the first of which I believe is to make a decided stand on behalf of the people against any fresh attempt by the syndicate that exploits McKinley to loot the American people for his benefit.

Atlanta, Ga., Dec. 20.—Hon. W. J. Bryan, in a telegram today to the Atlanta Journal, declines to express himself upon ex-President Cleveland's statement which was published this morning.

Color Manufacturers to Combine. New York, Dec. 21.—A meeting of the Dye and Color Manufacturers was held at the Waldorf-Astoria in connection with the current plans for a consolidation of these interests.

"I think the former President is correct in his conclusion that it is not necessary for the party to put itself for re-organization purposes into the hands of some of those who deserted it. When the rank and file of the Democratic party were consulted more fully than in 1896 and 1900, we shall know better how to estimate his epitome of his own deliberations.

"I think Mr. Cleveland is right in saying that the rank and file of the Democrats could not be brought into the line to support an old antagonist. Taken all together, there is no answering Mr. Cleveland's arguments."

Representative Dearmond of Missouri says: "My idea is that Democrats can best help the party by taking every opportunity to work against the Republican party. I agree with Mr. Cleveland that it is not so much

THE FILIPINO POLITICIANS.

They are Planning a Measure of Island Self-Government.

WANT LOCAL SENATE AND LEGISLATURE. Also Five Delegates in the United States Congress.

Manila, Dec. 21.—Every mountain trail in Gen. Young's district north of the Abra river and between the coast and Dolores, has been followed up by the American scouts this month. A similar movement has taken place in the provinces of Union, Benguet, Le Panto, and the part of South Iloilo which lies south of the Abra river.

The leaders of the projected autonomy party have again visited the Philippine commission, and the platform proposed was discussed privately and in an informal way. The commissioners advise the elimination of a few minor features.

According to the plan the governor general appointed by the President would have the power to veto except in cases of a two-thirds vote of the legislature. The legislature would choose five delegates to the U. S. Congress.

THE QUARREL IN VENEZUELA. What the Government Has Done With An American Company.

New York, Dec. 21.—A dispatch to the Herald from Caracas says: President Castro has issued a decree announcing that the New York and Bermudez company's concession founded by Garter and entitled the company to mine all the asphalt in the state of Bermudez for 25 years, is annulled, and that the titles to the asphalt mines issued in 1888, are invalid.

The decree aims at depriving the company of its rights and properties. President Castro recognizes two titles, which cover a large portion of the company's asphalt land and which were granted to a group of native officials and promoters. These native capitalists recently sold these titles, while proceedings for their nullification were pending, to American speculators, who have induced President Castro, after much diplomacy, to issue the decree against the New York and Bermudez company.

CAUSED HIS WIFE'S DEATH. Princess Could Not Face the Disgrace Brought by Her Husband.

New York, Dec. 21.—A dispatch to the Journal and Advertiser from Odessa says: Princess Vladimir Eristoff, wife of the noted swindler prince who fell into disgrace, has committed suicide, leaving a letter saying she preferred death to dishonor.

Eristoff, after being deprived of his commission in the Imperial guard and banished from St. Petersburg, went to Odessa, where he gained the hand of the daughter of General Kriloff, who did not know his disgrace.

ENVOYS MEETING STORMY.

Secrets of Foreign Ministers in Pekin Are Given Away.

Brutality of Germans in China—Stories of Pillage by European Troops.

Peking, Dec. 21.—Yesterday's meeting of the foreign envoys was protracted and somewhat stormy, owing to the desire to discover who discloses to the Chinese what every minister has pledged to keep secret. Li Hung Chang invariably knows within two hours of the close of a meeting what has happened.

London, Dec. 21.—"All the governments have approved the British amendment," says the Peking correspondent of the Morning Post, "and the demands will be presented to Chinese plenipotentiaries, without any suggestion of an alternative."

"On many grounds the Germans are gaining a worse reputation for severity than the Russians ever had. The country is practically in a defenseless state, moreover, because Count Von Waldersee will not allow Chinese troops to do anything, and the foreign troops are absent or engaged in looting."

"In consequence of an appeal from the magistrates, however, the prisoners were liberated in return for the payment of 2000 taels. This punitive expedition was in defiance of the understanding that no communications should be taken pending the negotiations. The Germans are said to have looted the place."

Steamship Line to Manila.

San Francisco, Calif., Dec. 21.—San Francisco merchants will try to obtain direct steamship communication between this port and Manila. The San Francisco board of trade has petitioned the Pacific Mail Steamship Co. to run their vessels to Manila, as an alternative to the established route at Hongkong with the Pacific Mail and carry Philippine freights. The present arrangement is unsatisfactory to the merchants at Manila who do business with San Francisco.

Big Rice Trust.

New York, Dec. 21.—Several meetings of the American Rice Growers' Distributive company, limited, the \$15,000,000 company recently incorporated in Louisiana, have been held here this week to complete organization of the company and discuss future plans. The permanent board of directors has not yet been finally made up. All of the preferred stock has been issued, and somewhat less than half of the common will buy rice from the growers and sell it on its own account.

The government has not decided yet on whether to offer it. It is awaiting a letter giving full details of the proposal.

BLACK OUTLOOK IN SOUTH AFRICA.

Situation Regarded in London With Deep Alarm—Kitchener Wants 30,000 More Men—Fears of Rebellion in Cape Colony.

New York, Dec. 21.—A dispatch to the World from London says: Midnight—the general outlook in South Africa is regarded as blacker than at any time before since the Boer war began.

Persistent reports are circulating in the political clubs of a widespread rebellion in Cape Colony. This is believed to be the cause of Lord Salisbury's gloomy speech on Tuesday.

WANTS 30,000 MORE MEN. The situation is regarded with deep alarm as it is feared that Lord Kitchener's supplies are in danger of being cut off.

Lord Kitchener is said to have sent a dispatch demanding 30,000 more mounted men as essential to the security of British positions in South Africa. No practicable scheme for providing these reinforcements has yet been framed by the war office.

ALARM AT CAPETOWN.

Capetown, Dec. 21.—The situation in the northern districts of Cape Colony is more serious. Fully 2,000 Boers have invaded that section. Grave fears are entertained that Dutch sympathizers will join the rebellion, and that this will spread. Although there is no fear as to the ultimate result, the lack of a sufficient number of mounted troops is felt by the British. The enormous waste of horses in South Africa was never fully appreciated until now.

BRITISH EXCITEMENT.

London, Dec. 21.—Considerable activity is now manifested at Aldershot. A large draft of mounted troops will be ready to start for South Africa January 4th, while others have been notified to hold themselves in readiness for the same destination.

According to the Capetown correspondent of the Daily Mail, writing yes- terday, the treason court, sitting in Coleburg, was obliged hurriedly to remove to Capetown with the records and documents, owing to the vicinity of the invading Boers.

"The Coleburg district," says the correspondent, "is seething with anti-British excitement. A recrudescence of rebellion is perceptible in the district

MOVEMENTS OF BOERS.

Capetown, Dec. 21.—A government memorandum issued this evening makes the following announcement: "The principal seat of action has been transferred to the northern part of Cape Colony. Early on December 16th a large body of Boers crossed the Orange river toward Burgersdorp. A British force followed, to avoid which the Boers turned westward and occupied Venterstad December 18th, but they evacuated the town the same day on the approach of the British and marched in the direction of Steynsburg.

"The Boers, however, have been intercepted and find difficulty in moving in any direction. Steynsburg, Burgersdorp, Stormburg, Rosendal and Naauwpoort are all strongly held by the British and the Orange river has risen considerably in their lead.

CUT COMMUNICATION.

"Another 2,000 Boers crossed the river, making for Coleburg, but on the dispatch of a British force they diverged and occupied Phillipstown December 19th, cutting the telegraph wires between Phillipstown and Houkikraal. Early this morning a large portion of these Boers reached Houkikraal station and cut the line there.

"Considerable reinforcements have been sent to De Aar and Hanover, and it is expected that further invasion will now be stopped, except in the case of scouting parties, which may slip through to Raid Cat and obtain much needed supplies.

"Hitherto there has been very little fighting as the Boers, in every instance, have retired before the British. They took our garrison of twenty men at Venterstad prisoners, but the Magers' fontein garrison repulsed their attacks, inflicting heavy loss after some hours' fighting and a refusal of a demand to surrender.

"It is probable that of the two invading forces the former is a part of Dewet's commando and the latter consists of the Boers hitherto operating in the west of Orange River colony, and a number of rebels."

QUEEN VICTORIA IS VERY FEEBLE.

Accounts of Her Good Health Not in Accordance With the Facts—She Has Been Seriously Upset by the Death of Her Grandson.

New York, Dec. 21.—A dispatch to the Tribune from London says: Although all accounts of the queen's health which appear in print are favorable, what is published is not in accord with what is whispered in West End circles. The queen's appetite, which has always been good, is reported to have failed, and other signs of the increasing burdens of years are mentioned. She is described as having aged rapidly during

the last few months, and as being exceedingly nervous. Her repose, which cannot be dismissed as drawing room gossip, indicate real anxiety and solicitude in the queen's household in regard to her health. There is, indeed, reason to believe that the queen, while bearing up with her old-time courage and spirit under her recent family misfortunes, has been seriously upset by the death of her grandson while in service in South Africa.

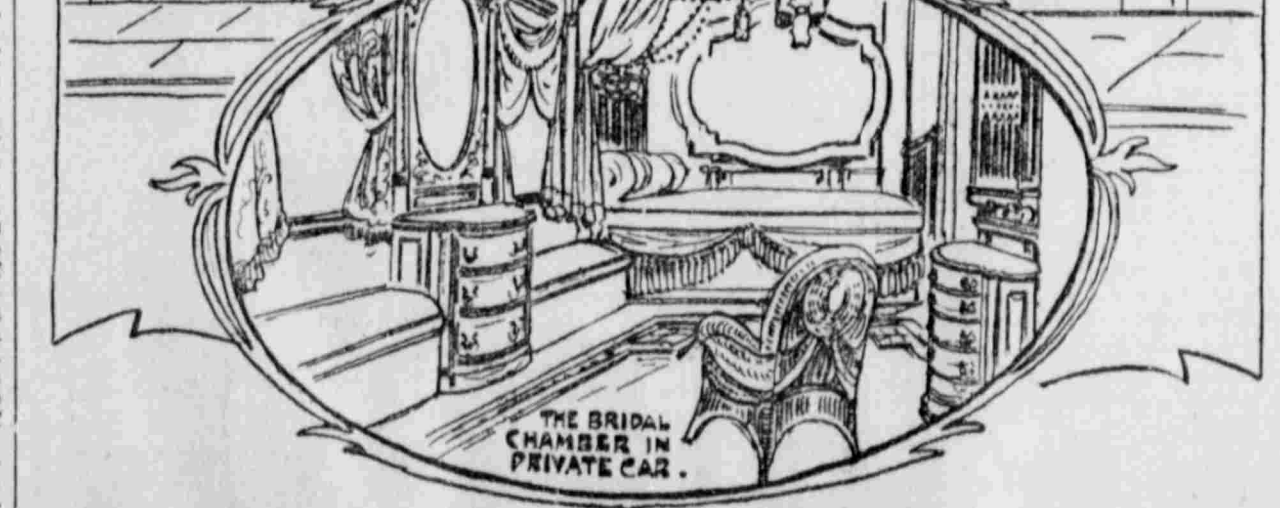

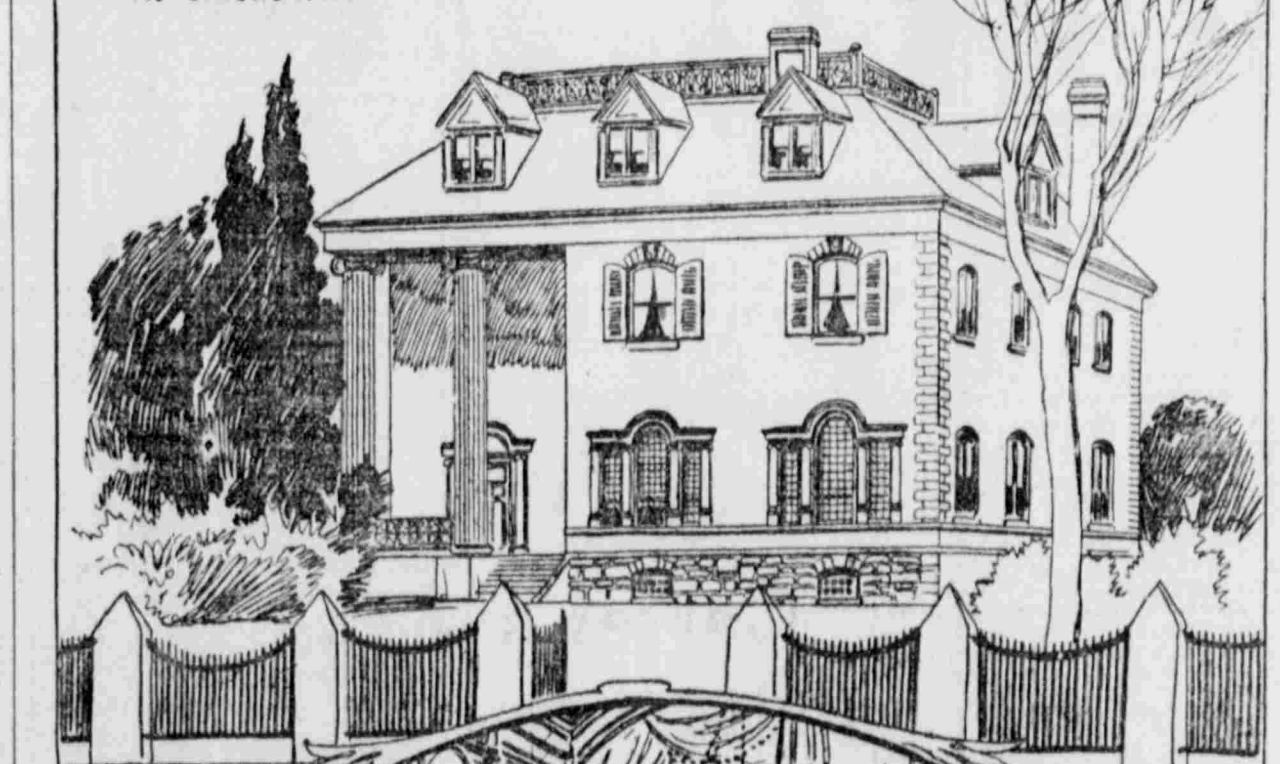

COMMENTS ON CLEVELAND.

What Prominent Men Have to Say of His Advice to Democrats. Some Agree With Him, and Some are Very Conservative—Bryan's Opinion.

New York, Dec. 21.—The Herald today publishes the following comments on ex-President Cleveland's statement in regard to the Democratic party: Richard Olney, secretary of state in the Cleveland administration—"I have read an abstract of the article, but I do not care to discuss the subject now. I would prefer to wait until I have read the article in its entirety before expressing an opinion, if I have any to express."

"I think the former President is correct in his conclusion that it is not necessary for the party to put itself for re-organization purposes into the hands of some of those who deserted it. When the rank and file of the Democratic party were consulted more fully than in 1896 and 1900, we shall know better how to estimate his epitome of his own deliberations."
