BERLIN LETTER.

The Emperor's Trip—William and Frederick—Bismarck Minister Phases.

BERLIN, April 19.—As the Emperor starts tomorrow upon a tour of various points of the country, which continues until the end of the month, a council was held today to consider the ministerial program. Although the government officials now pretend to ignore the press, reliable communications are obtainable when the ministerial program is concerned. In this way it is known that the council considered the measures relating to reform in the educational system; the abolition of the remaining May laws, and to the strike movements.

THE LATE EMPEROR.

William and Frederick article which appears in the *Freeman's Journal*, leader of the *German Liberals*, attacking Bismarck, has raised a crop of rumors, which are of absorbing interest here. The *Freeman's Journal* article, which the ex-chancellor is unable to ignore, is a long and detailed account of the late emperor's life, and is a most interesting and valuable contribution to the knowledge of the late emperor's life. The article is a most interesting and valuable contribution to the knowledge of the late emperor's life.

SYMPATHY WITH BISMARCK'S POLICY.

leads it to play into the hands of his enemies. The truth is that Bismarck summed up the editor of the *Freeman's Journal* in a most interesting and valuable contribution to the knowledge of the late emperor's life. The article is a most interesting and valuable contribution to the knowledge of the late emperor's life.

A number of cable dispatches and letters from leading American periodicals and papers have been received at the American legation, asking Minister Forde to use his influence to get a contribution of any kind from the ex-chancellor. Bismarck, however, prefers to maintain absolute silence and to let the world decide for itself.

On Thursday, Phelps, American Minister, gave a dinner to Chancellor Von Caprivi. The committee of best root sugar refiners has resolved, in view of the increased cost of manufacture of sugar owing to the rise in the price of raw material, to demand that the government continue the export bounties.

In accordance with the decision of the Hamburg senate, all men employed on state works who take part in the demonstrations on May 1 will be discharged.

Pork Packers on Strike.

Boston, April 19.—A strike for an advance of wages was inaugurated at John Squire & Co's big cold-packing establishment in East Cambridge this morning. Between seven and eight hundred are out and the factory is practically shut down.

The Pope on the Labor Problem. LONDON, April 19.—The *London Herald* prints a report of an interview with the Pope. In discussing the labor question, his Holiness struck upon the necessity of "improving the moral condition both of workmen and employers. He said he intended to form a committee in every diocese in the world, whose duty it would be to call the workers together on every day and night and discuss their duties and their mutual obligations. He said he intended to form a committee in every diocese in the world, whose duty it would be to call the workers together on every day and night and discuss their duties and their mutual obligations.

Chicago Carpenters. CHICAGO, April 19.—Contrary to expectations the carpenters' strike was not settled tonight. A conference was held tonight between a committee of the strikers and of the new local carpenters' organization. President O'Connell said that if the members of the new organization might simply assume the membership of the old organization, which they could give work to 2000 men, it would be necessary, the strikers thought, to increase the membership so as to put at least 4000 men to work before a settlement could be reached. The union finally resolved to proceed with an attempt to increase their membership. President O'Connell said that if the members of the new organization might simply assume the membership of the old organization, which they could give work to 2000 men, it would be necessary, the strikers thought, to increase the membership so as to put at least 4000 men to work before a settlement could be reached.

Forest Fires in Connecticut. PLAINFIELD, Conn., April 19.—Forest fires have been doing damage near here, and many farm-houses are threatened. Nearly 5000 acres are burned over now, and the fire is beginning to burn out.
