DEFINITE PLANS.

The definite plans for the Salt Lake

The definite plans for the Sait Lake meetings are rapidly maturing. Utah men, so far as they have been secured to take part on the program, have ac-cepted for the following talks: Dr. John A. Widtsoe, "The Possibili-ties of Arid Farming in Reclaiming the West."

Dr. E. D. Ball, "The Agricultural Col-lege Experiment Work in Arid Farm-

perience as a Dry Farmer. Howard Cox of Oasis, "The Gas En-gine in Dry Farming." R. J. Hyatt, weather bureau, "West-ern Precipitation in its Relationship to Dry Farming." Besides these talks, many will be made by government officials engaged in experiment work in arid land culture In the general distribution of speeches the aim has been to have one on each general subject both from a scientist and a practical farmer, who have worked in that particular field. As an instance of the way responses from other states outrun interest in Utah, letters received from W. H. Olin, committeeman for Colorado, indicate that he has thoroughly canvassed that state and that people are coming from every section of it.

#### VON BUELOW HOOTED.

The police were still trying to maintain order when Prince von Buelow drove up. His presence was greeted with loud and ironfcal cheers, accom-panied by much hooting and shouts of

we mant manhood suffrage." The police in the meantime had been strongly reinforced and fearing that he rising crowd would lead to violent disturbances, they decided to clear the approaches to the building. They drove the crowd before them into the side streets. As the people were being hustled away, they hissed continually. The police did not draw their weapons and no arrests were made. The mani-festants remained in the vicinity of the hubbles

When the debate on the suffrage westion opened, Prince von Buelow becared that the Conservative party sould not permit the solid foundations of the Prussian elective system to be shaken, and this statement was subto by Herr Malkwitz, spokes-

Herr Porsch, speaker for the Center Berry, said he was in favor of mansuffrage.

which trip the comptroller says can be easily made in 45 minutes. For this reason 19½ hours time at \$15 an hour was cut out of the bill. Dr. Flint's bill amounted to \$5,315. The bill of Dr. Carlos McDonaid was also cut \$255 for the same reason that the cut was made in Dr. Flint's bill.

MARK TWAIN HEAVY LOSER.

San Francisco, Jan. 10.—Following the decision of the district court of ap-peals yesterday setting aside the con-viction of former Mayor Eugene E. Schmitz, which may have a serious ef-fect on the prosecution of the San Francisco graft and bribery cases in which 441 indictments were returned, perhaps necessitating many changes in the plans of the district attorney and a complete re-alignment of evidence, much activity prevailed today among those associated in the prosecution. One of the significant features was a conference between Abraham Ruef, the former dictator in the policies of San Francisco, Epecial Agent William J. Burns and Dist. Atty. William H. Langdon in the latter's office and at request of the district attorney. None of the parties to the conference would give the slightest indication what the of the parties to the conference would give the slightest indication what the

give the slightest indication what the object and the purpose of the meeting was, but it may be said that the re-lease of Ruef on bail is one of the de-velopments that is expected as a pos-sible compromise between him and tho prosecution as results of the reversal of the Schmitz judgment which also pullifies the piec of rulity made by of the Schmitz judgment which also nullifies the plea of guilty made by Ruef. Far more scrlous to the prose-cution it is generally believed, was that appellate court's decision because of its applicability to Ruef than the setting aside of the conviction of Schmitz having the effect, it is said of prac-tically destroying the prosecution's hold upon the former political boss, who is regarded as the one, and the only con-necting link between the accused brib-ers and the board of supervisors. It was also freely said today that

ers and the board of supervisors. It was also freely said today that the district attorney's office regrets the action of Judge Dunne in sending Ruef to the county jail on Wednesday, and that this humiliation has not made him more tractable to the prosecution, which, on several occasions, practically conceded that without his testimony the trials of Patrick Calhoun, president of the United Railroads, Threy L. Ford, general counsel for the same corpora-tion, twice tried, resulting in one ac quittal and one disagreement an. quittal and one disagreement an others under indictment cannot by brought to successful conclusion.

# BURNED TO DEATH.

#### Emma Elrich, Waitress in a Hotel at San Luis Obispo.

San Luis Obispo. <sup>74</sup>A. I dis Obispo, Cal., Jan. 10.-Em-ma Elrich, a waitress undoubtedly perished in the flames that destroyed the French hotel last night. She was last seen by Manager Thompson as she was rushing to her room to rave her blochross. One had been at the French hotel about two months and the hore from Los Angeles, although her home is said to have been in Penn-s twents. Matager Thompson esti-mates the total loss at \$40,000. His property was not insured. The struc-ture was owned by Mrs. Fredericks with insurance of \$11,000. Several places of husiness were elightly damaged by smoke and water. Several places of husiness were lightly damaged by smoke and water.

TAFT TO TALK. Washington, Jan. 10 .- Secy. Taft left

Washington this morning for New York, where he will deliver an address oday at Cooper Institute on the sub-oct of capital and labor.

The secretary's speech has been pre-ared with great care and is expected o prove particularly typical and inter-sting in view of the desire of the labor lement to have him amounce his posi-tion on these important subjects.

New York, Jan. 10 .- The Brooklyn bridge crush, which has for years been the wonder of all who looked on it

shield.

from outside and bane of the existence of traffic superintendents, policemen and officials, as well as those who had nightly to suffer from it, is over, ac-cording to the statements made last cording to the statements made last night by those who have tried to regu-late it. The new subway tunnel under the East river to Brooklyn ended its first day last night with success to its credit. It is estimated that 140,000 passengers went through the tubes and that means 140,000 who on other days crossed the bridge. Here 5:00 to 6:00 that means 140,000 who on other days crossed the bridge. From 5:09 to 6:30 o'clock last night 27,000 passed through the tube according to the estimates of Supt. Hedley of the Inter-Borough company. Supt. Reeves of the Brooklyn bridge operating department, estimated that there was a falling off of \$5,000 passengers an hour during the rush time on the trains and it is estimated time on the trains and it is estimated that the falling off on the surface cars which cross the bridge was at least 35 per cent.

blocks with a good income and little outlay. Kelly's home is two blocks from the cement works of the Illinois Steel com-pany at Buffington, where a \$3,000,000 plant grinds slag and converts it in-to Portland cement. When the wind blows off the lake clouds of cement-laden dust envelop the Kelly home and the Kelly truck farm. The owner, in the hope of saving his garden greens, recently constructed an immense shield of the billboard type at the rear end of his lot, facing the cement plant. When the cement dust comes his way it strikes the board and falls in a pile at the base of the shield.

# **TOO MANY PHYSICAL WRECKS**

FOR ATHLETICS

## He Would Debar Students from High Honors Until They Have Sound Bodies.

Chicago, Jan. 10 .- Prof. Dudley A. Sargent of Harvard, makes a unique plea for the uplifting of college athletics and physical culture in an article, "Compulsory physical education," published in the January number of the School Review issued from the University of Chicago press yesterday. He advises that "no student should be given honors in his studies unless he has attained a certain grade in his gymnastics or athletics." He draws this conclusion after criticizing the pothis conclusion after criticising the po-sition of college faculties which forbid students to take honors in athletics unless they have a creditable standing in their studies. "This requirement," writes Prof. Sar-

gent. "would insure the conscientious student against sacrificing his health in view of raising his scholarship, which at the present time he is likely to do on account of the keen compatition to which he is subjected."

#### FAVORS ATHLETICS.

Dr. Sargent believes physical culture and athletics should be included in the required curriculum. "Under the head of physical training." he continues. "I of physical training. The continues, i should be glad to see included all forms of physical activity, including music, vocal and instrumental, drawing, painting, and modeling, and all forms of manual training, dancing, skating, Swimming, rowing, bicycling, military deill\_all forms of calisthenics, ramea. drill-all forms of calisthenics, games, plays, and the various forms of athletic sports.'

## ENTRANCE EXAMINATIONS.

#### Severe Ones Prevent Many Poor Girls From Getting Education-

Northampton, Mass., Jan. 10.-That severa entrance examinations prevent many poor sirls from obtaining a col-lege education and deter marriage is

many poor girls from obtaining a col-lege education and deter marriage is stated in the annual report of President L. Clark Seely of Smith college. In part, the president says: Most of the able men come from the poorer classes, it would be both a pub-lic and a private calamity if it should become harder for poor boys and girls of ability to gain the mental culture they desire. It would be a still greater loss if postponing the time of gradua-tion family life should be impaired. The longer marriage is dolayed the less likely men are to marry. A college education should not contribute to the modern tendency to celibacy. An in-ferior quality of scholarship is produced where the pupil is hurried over so much ground so much that one study obliter-ates the impression made by another. Physicians compiain that entrance re-quirements seriously interfere with normal physical development. Not enough time is left for rest and out-door exercise. door exercise.
