

COMMERCIAL CLUB COMMITTEE LIST.

Names of Those Who Were Chosen
For the Ensuing Year to
Conduct Affairs.

APPOINTED BY THE PRESIDENT.

Six New Members Also Were Added
To the Roster by the Board
Of Governors.

The following board committees for
the year were announced at the meeting
of the Commercial club last night, by
President Holmes, the first name on
each committee being that of the chair-
man:

Admission and Grievances—C. S.
Strevell, C. A. Quigley, W. P. O.
Meara.

Finance and Auditing—L. H.
Farnsworth, H. P. Morris, S. Bam-
berger.

Reception—Heber M. Wells, J. W.
Houston, J. E. Dooly.

Rules—E. F. Holmes, Joseph A. Sil-
ver, J. G. McDonald.

House—J. J. Judson, C. P. Mason, S.
H. Love.

The following standing committees for
the year were then announced:

Advertising and Promotion—George
L. Nye, W. T. Benson, W. H. Booth,
J. W. Derrah, H. Clark, H. V. Croft, S.

Finance and Legislation—F. S. Rich-
ards, Louis Cohn, J. S. Critchlow,
Charles C. Dey, Edward S. Ferry, A.

F. Holden, Joseph A. Silver, J. W. Derrah,
David Keith, S. H. Love, R. P.
Merritt, O. W. Powers, Reed Smoot, J.

J. Weber, Heber M. Wells.

Arbitration—E. W. Wilson, S. H.
Auerbach, Charles S. Burton, F. A.
Dreghi, M. C. Fox, C. C. Goodwin, H.

P. Henderson, George T. Odell, F. E.
McGinnis, H. Pembroke, Ezra Thomp-
son, Samuel Weitz, Iulon S. Wells.

James D. Wood, E. D. Woodruff.

Immigration—J. S. Spencer, Joseph
Boomer, S. Y. Derrah, A. Foley, H. C.
Hoffman, L. H. Harding, H. U.

Myron, J. E. Oglesby, J. O. Reber, W.
I. Snyder, W. F. Snyder, J. J. Thomas,
N. Trowell, C. F. Warren, C. S. Wil-
liams.

John S. Branstorf, S. Bam-
berger, H. M. Crowther, John Derr, J.
S. Peris, F. P. Griddle, C. E. Hudson,

F. G. Jamney, W. S. McCormick, J. D.
Merritt, F. W. Francis, F. W. Gar-
dner, J. G. Goodwin, Thomas Homer,

J. H. Lovendahl, A. C. Milner, J. T.
Richards, C. S. Schmidt.

Lands—A. F. Doreman, W. H. El-
lington, Samuel Paul, Charles Read, R.
mond, Simon, O. J. Salisbury, A. H.

Tarbel, A. V. Taylor, A. L. Thomas, S.
H. Tuttle, A. H. Vogeler, C. A. Walker,
W. K. Walton, Ernest Williams, Thomas

G. Wimmer.

Manufactures and New Industries—
J. S. Critchlow, William H. Ihacoff,
R. S. Campbell, E. B. Jones, P. J. Mor-

ris, Jacob Moritz, S. W. Morrison, P.
W. Maken, George T. Odell, Frank
Pierce, Walter Scott, Joseph A. Silver,

W. L. McDonald, Thomas G. Webster,
L. M. Terry.

Commerce—John E. Dooly, S. H.
Babeock, P. L. Doran, D. R. Gray, J.
P. Gardner, Frank Knox, Jacob Moritz,

S. W. Morrison, Samuel Newhouse, J.
H. Patterson, H. Sherman, E. E. Calvin,
George V. Wallace, C. W. Whitley.

Oil and Gas—S. W. Shelp, J. Q.
Critchlow, W. H. Dale, Joseph Dede-
richs, J. J. Davis, W. H. Gray, W. H.

Myers, Max Ottenheimer, F. H. Officer,
Arthur E. Snow, Morris Sommer, F. A.
Timby, C. A. Walker, George H. Wood.

Public Improvements and Parks—
Foster Dawson, J. A. Clayton, George
L. Nye, J. E. Dooly, S. C. Ewing, W. J.

Halloran, H. P. Holman, P. T. Hud-
dard, J. B. Coggriff, J. D. Murdoch, J.
Donnan Lewis, A. Richter, George W.

Know, Ezra Thompson, H. G. Whitney,
L. W. Morrison, Samuel Weitz—Her-
man Harms, Simon Rantberger, J. C.

Cutler, J. H. R. Franklin, L. C. Kel-
ley, C. W. Morgan, Albert Fisher, W.
P. Noble, Dr. S. G. Paul, J. H. Gray,

W. H. Myers, Max Ottenheimer, F. H. Officer,
Arthur E. Snow, Morris Sommer, F. A.
Timby, C. A. Walker, George H. Wood.

Public Improvements and Parks—
Foster Dawson, J. A. Clayton, George
L. Nye, J. E. Dooly, S. C. Ewing, W. J.

Halloran, H. P. Holman, P. T. Hud-
dard, J. B. Coggriff, J. D. Murdoch, J.
Donnan Lewis, A. Richter, George W.

Know, Ezra Thompson, H. G. Whitney,
L. W. Morrison, Samuel Weitz—Her-
man Harms, Simon Rantberger, J. C.

Cutler, J. H. R. Franklin, L. C. Kel-
ley, C. W. Morgan, Albert Fisher, W.
P. Noble, Dr. S. G. Paul, J. H. Gray,

W. H. Myers, Max Ottenheimer, F. H. Officer,
Arthur E. Snow, Morris Sommer, F. A.
Timby, C. A. Walker, George H. Wood.

Public Improvements and Parks—
Foster Dawson, J. A. Clayton, George
L. Nye, J. E. Dooly, S. C. Ewing, W. J.

Halloran, H. P. Holman, P. T. Hud-
dard, J. B. Coggriff, J. D. Murdoch, J.
Donnan Lewis, A. Richter, George W.

Know, Ezra Thompson, H. G. Whitney,
L. W. Morrison, Samuel Weitz—Her-
man Harms, Simon Rantberger, J. C.

Cutler, J. H. R. Franklin, L. C. Kel-
ley, C. W. Morgan, Albert Fisher, W.
P. Noble, Dr. S. G. Paul, J. H. Gray,

W. H. Myers, Max Ottenheimer, F. H. Officer,
Arthur E. Snow, Morris Sommer, F. A.
Timby, C. A. Walker, George H. Wood.

Public Improvements and Parks—
Foster Dawson, J. A. Clayton, George
L. Nye, J. E. Dooly, S. C. Ewing, W. J.

Halloran, H. P. Holman, P. T. Hud-
dard, J. B. Coggriff, J. D. Murdoch, J.
Donnan Lewis, A. Richter, George W.

Know, Ezra Thompson, H. G. Whitney,
L. W. Morrison, Samuel Weitz—Her-
man Harms, Simon Rantberger, J. C.

Cutler, J. H. R. Franklin, L. C. Kel-
ley, C. W. Morgan, Albert Fisher, W.
P. Noble, Dr. S. G. Paul, J. H. Gray,

There is no Substitute for

ROYAL

BAKING POWDER

Absolutely Pure

It is a Matter of Health

TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

A defective fuse caused a fire in the Assembly Hall, but the damage was slight.

It became known that 33,000 deaths had occurred from diphtheria in the province of Kharkoff, Russia, within a few months.

Great Britain increased its army and appropriated 2,000,000 pounds for the situation in the Sudan.

TEN YEARS AGO TODAY.

Chief Ignatio of the Southern Utes started for Washington to secure the removal of the Utes from Colorado into eastern Utah.

George W. Childs died at Philadelphia.

FIVE YEARS AGO TODAY.

The long expected battle between the American troops and Filipinos took place, the entire forces in the Philippines being engaged. The Utah Light artillery was prominent, silencing the native field pieces. It was in this fighting that Sgt. Harry A. Young, Corporal John Young and Private Wilhelm Goodman were killed.

Was the twenty-seventh day of the legislative session and McCune received 23 votes.

J. J. Daly, J. E. Dooly, W. J. Halloran, L. S. Hills, J. J. Judson, Thomas Kearns, Frank Knox, S. Merrill, L. Charles Miller, J. W. Neil, S. Newhouse, Water and Electricity—E. F. Holmes, G. H. Barnes, Isaac Barton, J. F. Ben-

nett, J. H. Brown, J. P. Cahoon, L. M. Carro, S. F. Penton, E. A. Greenwood, R. C. Keyes, C. F. Kiehl, L. C. Keasey, J. C. Lynch, R. Nicol, G. W. Snow.

Irrigation—G. C. Lambert, George Austin, W. W. Chisholm, J. M. Cannon, A. F. Doreman, B. P. Grant, William Nelson, E. C. Richmond, F. S. Rich-

ards, J. K. Shaw, D. S. Taggart, F. A. Timby, W. K. Walton, A. H. Woolley, J. H. Young.

Fire Protection and Insurance Rates—William A. Nelson, James Chipman, G. E. Forrester, J. W. Houston, A. L. Jacobs.

These six new members were added to the club roster by the board of gov-

ernors. Volney Anderson, Everard Bierer, Jr., Dr. Daniel Le May of this city; Moses C. Davis, Provost; Lucian D. Deal, Springfield, and D. A. Dupue of Eureka, Colo.

WHERE DOCTORS AGREE.

When a patient is under the doctor's care for some months with constantly varying symptoms, but ever increasing weakness from the loss of flesh and strength by the ravages of disease, all doctors will agree that the first gain of flesh indicates a change for the better. The best flesh and blood maker is Dr. Williams' Blood and Nerve Tonic. Dr. Williams' Blood and Nerve Tonic, both old and young, a better medicine was never made. It turns the food you eat into strong, red blood, making solid flesh and muscle at the rate of 1 to 3 lbs. per week. It is sold by all druggists for 50c per box, or 2 for \$1. To overcome the effect of over-indulgence or dissipation use this medicine. For sale by Z. C. M. I. Drug department.

MURRAY CHILD LOST.

Four-Year-Old Thomas Peck Wanders From Home and Disappears.

Little Thomas Peck, aged 4, son of Henry Peck, an employee of the Murray smelter, mysteriously disappeared on Big Cottonwood road, three miles east of Murray, and the police believe he was kidnapped. The child was playing in front of the house at noon, and shortly thereafter, the mother noted that it was some time since she had seen the boy, and essayed to hunt him up. He was not to be seen, and none of the neighbors could give any information as to his whereabouts. The father at the smelter and the police were notified, and the country pretty well gone over, but without avail. Some people, however, held that the child merely wandered off, and will be eventually found.

NEW PASTOR NAMED.

Rev. Renj. Young of Denver Coming to First Methodist Church Here.

Bishop Cranston and the local cabinet of Methodist pastors decided last evening on the successor to Rev. J. C. Bickel, pastor of the First Methodist church in this city, who has been made superintendent of the Arizona mission. The Bishop announced the new man for this city to be Rev. Benjamin Young, the present pastor of the Asbury Park Methodist church in North Denver. Mr. Young arrived in this city late yesterday afternoon in response to a telegram from Bishop Cranston, and held a consultation with him early in the evening, and after an hour's talk the Denver divine concluded he could make the necessary arrangements to come. The appointment of Mr. Young came as considerable of a surprise to the large number of people gathered in the First Methodist church to give their new Utah mission superintendent a warm welcome. Mr. Young returns to Denver tomorrow morning, to close up his affairs there, returning to take active charge here the last Sunday in February.

Mr. Young is 35 years old, is a graduate of Grant university and the University of Wyoming, and was engaged for several years in evangelistic work in Wyoming before being called three years ago to his Denver charge. He was for four years pastor of the First Methodist church in Cheyenne, and chaplain of the state senate. Mr. Young's work in Denver has been highly successful, and he has made a good impression last evening in his brief address to the people in the Salt Lake church. He spoke of his

APPLICATIONS FOR IRRIGATION.

Petitions to Appropriate Water
That Have Been Filed With
The State Engineer.

SCIENCE FOR SALT LAKE CANAL.

Proposed to Irrigate 5,000 Acres, Part
Of Which Land is in City Lim-
its—Other Projects.

The following applications to appropri-
ate water have been entered with
the state engineer, within the last 60
days:

By John A. Jones, of Murray, for 31
second-feet of the water flowing from
what is known as Spring Run on the
south side of Big Cottonwood creek, a
short distance northeast of Murray. It
is proposed to divert the water at the
dam, which is now across Big Cotton-
wood creek about a quarter of a mile
west of Spring Run. The water will be
conveyed through a canal the same
for an aggregate distance of about six
miles and used for irrigation purposes
on about 5,000 acres of land, extending
from a line one mile south of the Tem-
ple, five miles to the west, and for one
mile east and west of Main street.
This water will also be used for gen-
eral domestic purposes, and for water-
ing live stock within the area described.

James Wilcox of Farmington—For
five cubic feet per second for the surplus
and flood waters of Farmington, or
Big Creek, to be used for irrigation
purposes. The applicant proposes by a
canal to be constructed and will be
extended by taking in a large area
from which the level of the Great Salt
Lake has receded. In order to consummate
the latter part of the project it may be
necessary to utilize some of the old
salt ponds for storage of the fresh
water. It will, however, require con-
siderable time to wash the salty de-
posits from these basins, and to leach
the mineral from the receded lands be-
fore they will be susceptible of irriga-
tion.

By W. M. Stookey, A. R. Derge
and A. J. Stookey—10 second-feet of the
water from Big Spring, otherwise
known as Warm Spring, situated in
Tooele county, about 15 miles north-
west of Dravestille; the water to be
used for irrigation upon 1,250 acres of
land adjacent to the springs. The water
will be used for watering live stock and
for general domestic purposes.

By Alexander McGinniss of West Jordan—For all of the flow from 10 small
springs in Box Elder county, and 30
miles south of Terrace station on the
Southern Pacific railroad. The water
will be piped from a storage reser-
voir a distance of about 4,000 feet,
where it will be used to supply steam
boilers in the operation of the Copper
group of mining claims in New Found-
land district, for general domestic pur-
poses, and for irrigating 10 acres of
land during the irrigation season.

By Henry Walsh of Park City—For
all of the flow from an unnamed spring
situated on Bonanza flat, water to be
piped for a distance of nearly one mile
to the Boulder basin mine, to be used
for supplying steam boilers, and for
general domestic purposes at the mine.

By Angus M. Cannon, Jr.—For four
second-feet of the water from Hot
Spring in Box Elder county, and 30
miles south of Terrace station on the
Southern Pacific railroad. The water
will be piped from a storage reser-
voir a distance of about 4,000 feet,
where it will be used to supply steam
boilers in the operation of the Copper
group of mining claims in New Found-
land district, for general domestic pur-
poses, and for irrigating 10 acres of
land during the irrigation season.

By Henry Walsh of Park City—For
all of the flow from an unnamed spring
situated on Bonanza flat, water to be
piped for a distance of nearly one mile
to the Boulder basin mine, to be used
for supplying steam boilers, and for
general domestic purposes at the mine.

THE ATTRACTIVE GIRL.

Her Sweet and Unaffected Ways.

MUCH has been written about
"the American Girl" and the
reasons for being pre-eminent
in the world. In bringing up girls
mothers can't be too careful to let their
daughters develop all their natural
charms to the utmost. She is most at-
tractive who is sweet, unaffected, cordial
and unconscious of self. Such a kind
of girl will not have to run after men.
The men will save her the trouble. She
will be courted by many men if she
holds herself with a sort of unconscious
dignity and unaffectedness. It devolves
upon a mother to talk to her daughter—
to make her a confidant—not only about
these matters in early girlhood and when
they are blossoming into womanhood,
but she should advise her about her
physical make up and her special organs.

FROM MAIDENHOOD TO WOMANHOOD.

The crucial epoch of a woman's life
is the change from maidenhood to
womanhood. It involves the whole body
and manifests itself in the nervous dis-
position at this time. If womanhood
live close to nature, did not wear cor-
sets, live in heated atmospheres, be-
coming subject to taking cold easily, she
would drift into womanhood naturally
and without suffering. Owing, however,
to our modes of living and the forced
condition of a young girl's brain, the
pelvic organs and the brain take up too
much of the blood and other organs
are left without sufficient nourishment.

In this way girls become delicate and the
tissues are not sufficiently nourished.
Many a mature woman traces back her
troubles and her bad health to this early
period. Often the strain is too great and
for this reason proper precautions should
be taken. Perhaps the mother or daugh-
ter have some delicacy about talking
with their home physician on these
matters. It is then best to consult by
letter with a physician of recognized
eminence, who has had a medical train-
ing, fitting him for the practice of medi-
cine. It would be very foolish for one
to consult some woman who had not a
particle of medical training in prefer-
ence to a physician who is bound on
honor not to divulge the confidences re-
posed in him, and whose training has
been thorough in the study of anatomy
and materia medica, coupled with a wide

experience during nearly half a century,
which puts him at the top of the profes-
sion. Such an one is Dr. R. V. Pierce,
who is at the head of that magnificent
hospital in Buffalo, called the Invalids'
Hotel and Surgical Institute. You can
write him without fear or favor for he
keeps strictly confidential all letters
sent to him and he charges nothing for
his medical advice, answering in a
straightforward and truthful manner.
He will not advise anyone to take
medicine unless it is positively indicated
by the condition of the patient. Dr.
Pierce says in his Common Sense Medi-
cal Adviser: "I believe that hygienic
measures for the young girl are most
important. Fresh air and sunshine are
always in order. Exercise is especially
indicated for the girl who is pale and
anemic. Furthermore cleanliness of
body, externally and internally is cer-
tainly to do no harm. Make it a prac-
tice once a week to take some mild laxa-
tive." One of the first little liver pills
on the market and also the best is Dr.
Pierce's Pleasant Pellets—still enjoying
public favor today. They are found
for sale almost everywhere, particularly
advised by the honest druggist unless
he has a pill of his own make to sell.

These "Pellets" of Dr. Pierce are en-
tirely vegetable and do not gripe or
injure the most delicate system.

Sick women are afforded the opportu-
nity of a lifetime, for the makers of
Dr. Pierce's Favorite Prescription now
offer \$500 reward for women who can-
not be cured. Backed up by over a third
of a century of remarkable and uniform
cures, a record such as no other remedy
for the diseases and weaknesses peculiar
to women ever attained, the proprietors
of Dr. Pierce's Favorite Prescription
now feel fully warranted in offering to
pay \$500 in legal money of the United
States, for any case of Leucorrhea,
Female Weakness, Profluvium, or Falling
of Womb which they cannot cure. All
they ask is a fair and reasonable trial of
their means of cure.

"Favorite Prescription" makes weak
women strong, sick women well. Accept
no substitute for the medicine which
works wonders for weak women.

MOTHERS AND DAUGHTERS
should have a medical book handy, for
knowledge is power. A standard work
is the People's Common Sense Medi-
cal Adviser, by Dr. R. V. Pierce, M. D.
Send 31 one-cent stamps for the cloth-
bound book, or 21 cents for the paper-
covered volume. Address Dr. R. V.
Pierce, Buffalo, N. Y.

Colored Wash Goods

French flannels, all colors in polka dots, stripes, imported
Persian designs, silk and wool Bedford cords, French serges
in black and white stripes and silk and wool French. In-
cludes. None of these goods have sold for less than 75c a
yard. Today only.....

Cotton oxfords in stripes, polka dots and small figures,
spring weight and extra widths. 50c quality.....

Shirtings and shirt waist materials in German and French
patterns, French flannels and muslins, all of which are im-
ported. These fabrics were bought from the factory. The
values are from 50c to 75c. Today.....

Non-shrinkable Scotch flannels for boys' waists, men's
shirts and ladies' shirt waists in stripes and plaids, can still
be had at.....

All cotton mercerized waists in stripes, plaids, gun met-
als, etc.,
