Bidding at \$1.15; Selling at \$1.15.

LOCAL AND OTHER MATTERS.

THEATRE.—A large attendance at the Theatre last night, and the performance was very satisfactory. In the life of an Actor, the role of "Violet" was played in a charming and effective manner by Miss Adams. Mr. Wilson's rendition of "Grimm" was excellent, and well deserved the call before the curtain which he received at the close of the play. Messrs. Graham, Dudley and Malen and Miss Kent also played their parts with ability. The trombone solo, by Mr. Monahan, and the baritone solo, by Mr. Harris, were both enjoyed.

Tonight the performance will commence with the "Maid of the Mountains" with Mr. P. Margulies as Joseph. Then follows the "Mountain Song," which is a romantic scene, and gorgeous final tableau; the whole concluding with the favorite and very favorable illusion "The Shadow of the Past." Tomorrow night Miss Jean Walters takes her farewell benefit.

SCIENCE.—The severity of good butter in this market, situated in a superior agricultural and stock raising country, is something surprising. A good article is being sold at fifty cents a pound.

TESTIMONIAL CONCERT.—To-night, commencing at eight o'clock, at the Institute, the testimonial concert to Mrs. Haydon will be given. The Lake Choral Union will sing two choruses, and besides Mrs. Haydon's own performance, which, of course, will be the feature of the evening, Mesdames Waterbury and Menckler, and Miss Helen Gordon, and Lillian Murphy, and Messrs. Cutting and Derry and Master Reinhardt will take part in the entertainment.

WATER RELIEF.—A gentleman who is exceedingly fond of reading and study labors under great difficulty on account of his drought falling rain. He has been a couple of hours at a time he has to stop on account of not being able to distinguish the letters. Under ordinary circumstances his eyesight is clear, and he is able to distinguish objects as well as the majority of people, even at a long distance. Spectacles are a great aid to him, enabling his eyesight to hold out longer than it would without, but he desires us to ask through the News if any of our readers could suggest any simple remedy that would be likely to afford him relief.

By Deseret Telegraph.

Indian Run Over and Killed.
LOGAN, April 17.—Last night, about ten o'clock, the train coming from Mendon to Logan, ran over an Indian, who was lying on the track, instantly killing him, his head being crushed under the wheels.

Those on the train noticed that something was run over, and they stopped the train. The Indian was found, and brought him to Logan.

A FIRST CLASS RAILROAD.—Chicago is one of the great railroad centers of the continent. Lines radiate and diverge from that point and to all points of the continent. To secure traffic and passengers there a railroad must be first-class, for the competition is so keen that a poorly equipped, or ill-managed, or equipped road cannot prosper. When these facts are understood it will be perceived that it is no trifling praise to say of a railroad running out of Chicago as we can of the LOUISIANA, MISSISSIPPI, SHORT RAILROAD, that it is an excellent one.

It is the quickest time between that point and its terminus. On this line quicker time is made between Chicago and St. Louis than over any other road. It is every respect a first-class road, and the only road on which a Dining Saloon car is run in connection with the regular trains.

The Pullman sleeping cars on the road are also of the best and latest improved type. Mr. James Charlton is the General Passenger and Ticket Agent at Chicago, and passengers who may make his acquaintance will find him a courteous gentleman, admirably fitted for the position which he holds and a thoroughly experienced railroad man.

DEATH.—Another child of Mr. James Bourne died of smallpox today. This is the third death within the last two weeks in Mr. Bourne's family. His wife and two children, a son and a daughter, are now down with the disease.

A NEW POSTOFFICE.—A postoffice was opened yesterday in Sugar House Ward, W. C. A. Snoot, Esq., postmaster.

A SUGGESTION.—Here is what appears to be a sensible suggestion from Brother Charles N. Smith, of Rockville, Kane Co., which he forwards under date of April 17th.

"The appearance and probable increase of small pox in our settlements is calculated to excite much anxiety. The healthy attitude of our mountain home and our free access to the surrounding world will undoubtedly result in the disease spreading to the valleys of the Old World. Yet it is the manifest duty of all the citizens of the Territory to see that the leading characteristics of the disease, together with such precautions as are necessary to be observed, accompanied with simple remedies that may be brought within the reach of all. His fatal effects might be materially checked, and much unnecessary suffering avoided."

MULE STEALING.—Last night a man named Smith was brought from Little Cottonwood by G. L. Farmer, and lodged in jail, for present safe keeping, there being a charge against him for stealing mules. The case was to be heard this afternoon, before Justice Clinton.

JUROR BARBAROUS.—This juror appeared in the Third District Court this morning, and the fifth of eight was administered to him by Chief Justice James B. McKean and he can now be said to have entered upon the duties of his position as a juror in the Third District Court of the Territory.

SPRING AND SUMMER DISEASES.—As the hot season is approaching it may not be out of place to offer a few suggestions with regard to the diseases generally prevalent at that time of the year. W. W. Hall, M. D., of New York, publishes a work entitled "Health by Good Living," which contains much sound sense on the subject of how to attain to and maintain good health as well as a book of a similar character we have never seen. Here are a few words from H. about summer diet:

"As the object of eating is to maintain strength, and to keep warm, carbonaceous or warming food is not as much needed in summer as in winter, and more than much food should be eaten in warm weather as in cold. And as carbonaceous foods compress fats and fat meats, and cause and increase the flow of bile, wheat, corn and molasses, butter and oil, reason dictate that these should be sparingly used in summer time, and nature, by her instincts, bids that they be less used in the summer months, because that these shall succeed, each other in their season with their delightful variety."
