

## MANCHURIAN TROUBLE CROWS

Japan and Great Britain Are Very Active.

### LATTER WILL BACK FORMER

If It Is Found Necessary as Situation Develops to Have Recourse to Ultimate Resources.

Victoria, B. C., May 30.—According to mail advices from Japan the Niroku Shimpu publishes very sensational news on the activity of Japan and Great Britain in connection with the Manchuria affair to the effect that in view of the unwarrantable action of Russia, despite strong warning given conjointly with Great Britain the situation has become no more bearable to Japan. Instructions have accordingly been issued to a certain army division and to two naval stations to prepare for emergencies. It is also stated that a secret note has been received from the British government to the effect that Great Britain is quite prepared to back Japan if it is found necessary as the situation develops to have recourse to ultimate measures in the final settlement of the Manchurian problem or even go so far as to take protective measures conjointly with Japan. This report is not found in any other Japanese paper.

### NO RADICAL ACTION.

Pekin, May 30.—Paul Lessar, the Russian minister, has returned after a visit to St. Petersburg. No radical action regarding Manchuria is expected, but the course of events indicates that Russia will enforce her policy there, notwithstanding China's formal refusal to grant her demands. The attempt to open new towns in Manchuria, to allow foreign trade is likely to fail. The diplomats are watching this feature of the situation eagerly, as being a test of Russia's influence. The Chinese continue to oppose the proposal, representing that they never intended to do so, and they add that under the present circumstances it is particularly undesirable because it would cause complications with Russia.

Although the treaty commissioners point out that the admission of other foreigners to Manchuria and the establishment of trading centers of other nations there would strengthen the opposition to the Russian advance, the American and Japanese treaties are likely to be signed without this provision.

### TROOPS NOT YET WITHDRAWN.

Tokio, May 16.—(Via Victoria, B. C., May 20.)—The invasion troops have not been withdrawn from Manchuria and the Japanese press shows deep indignation at the delay. While depicting any hostile counter demonstration, the leading papers commend the United States' attitude in the matter and assert the necessity of making China insist on the completion of the Manchurian convention.

On the 11th inst. a Peking dispatch said that Russia had "modified" her demands seven decrees to three, as follows:

First—The powers shall be prohibited from interfering with Manchurian affairs.

Second—No foreign troops shall be allowed to enter Manchuria.

Third—The mines and forests in Manchuria shall be protected by Russia and China.

It is said now that Russia will not

take any decided action until after the arrival at Peking of former Minister M. Lessar, who comes straight from St. Petersburg. The Russian fleet which arrived recently from Cronstadt is also said to need refitting.

In the meantime Russia has been making various mysterious movements of troops and warships, which by some critics are considered demonstrations to intimidate China into granting her demands.

### Earth's Surface Subsides.

Glasgow, May 29.—Alarming subsidence of the surface of the earth have occurred at Motherwell, which has a population of 20,000 and is the center of the Lanarkshire coal and iron district. The county hospital has been badly damaged, necessitating its partial abandonment. The high school has a wide rent in one of its walls, and the street-car powerhouse and many other buildings have been damaged. The subsidence are attributed to the mines beneath Motherwell.

### An Italian Murdered.

Kilspeil, Mont., May 29.—Word has reached here of the murder of an Italian railroad laborer near Rexford on the Great Northern cut-off. The Italian, with two fellow countrymen, went into a saloon at Rexford on Thursday to get their checks cashed. A man named O'Brien, who saw them get the money, waited for them a few minutes out of town and commanded them to throw up their hands. Two of them complied. The third reached for his gun and was shot dead. The highwayman robbed the two living men and rifled the corpse. A posse is in pursuit.

### Vanderbilt-Rutherford Marriage.

London, May 30.—The discussion regarding the granting of the Vanderbilt-Rutherford marriage license still continues. The Times this morning publishes correspondence which has passed between the Archbishop of Canterbury and L. T. Dibin, master of faculties. The archbishop wrote asking, as a matter of course, whether Mr. Dibin could corroborate the contention of Dr. Tristram, chancellor of the London diocese, that a bishop has no discretion in granting withholding licenses and that he is compelled to grant Mr. Vanderbilt's application. Mr. Dibin, in a long reply, says he is inclined to traverse Dr. Tristram's contention, but he added he had been master of faculties too short a time to be able to give a full statement regarding precedent.

### Big Fire in Chicago.

Chicago, May 30.—The three-story factory of Paul J. Semick & Co., manufacturers of butchers' supplies at Campbell avenue and Washington boulevard, was burned to the ground early today. Loss \$75,000.

### The Ferris Wheel to Be Sold.

Chicago, May 30.—An order has been issued in the circuit court directing that the Ferris wheel that stood on the Midway at the world's fair be sold after June 1 to the highest bidder, and if no bids are received it will be broken up and sold for junk.

### HEAVY PURCHASES OF GOLD

They Have Been Almost Unprecedented in Dawson.

Dawson, May 29.—Never before in the history of banking in Dawson have there been such heavy purchases of gold dust as yesterday, which was the banner day for gold receipts in the history of the Yukon. The amounts purchased by the two banks here, to say nothing of the hundreds of thousands left on deposit, aggregated in the neighborhood of half a million dollars.

Today the purchases are not quite so heavy as were those of yesterday, although for the two days they will aggregate from \$500,000 to \$600,000. This amount, in connection with the large amounts deposited at the banks for safekeeping, will aggregate upwards of \$1,200,000 worth of gold dust brought into Dawson from the various creeks in the short space of two days. Compared with this time last year, the receipts of gold at the local banks to date this morning for the two days they will aggregate from \$1,000,000 to \$1,200,000. The tone of confidence

Present indications are that the Yukon's output of gold this season will exceed that of last year by from \$1,000,000 to \$2,000,000. The tone of confidence

"THE NAME IS EVERYTHING."

Works, Camden, N. J. 26 John Street, N. Y.

### A RIP VAN WINKLE SLEEP.

Marguerite Boyenval Has Slumbered For Nearly Twenty Years.

New York, May 29.—Marguerite Boyenval of Tholier, near San Juan, who had been in a cataleptic state since May, 1883, has awakened, cables the Herald's correspondent. For some time past she had suffered from phthisis, and it is believed that the effect of the malady on her system contributed to her awakening. She moved her hand on Saturday for the first time and groaned slightly. When Dr. Charrie took hold of her arm she said "You are pinching me" and subsequently replied to questions by "yes" and "no." She was, however, in a state of great weakness and gradually sank, dying the day after awakening.

Marguerite Boyenval's lethargy was caused by fright. She had had a child, which died shortly after its birth under circumstances which led to the opening of an investigation. One day in May, 1883, while Marguerite was ironing a neighbor said to her: "The gentlemen are coming to arrest you." Marguerite had a series of fits and gradually fell into her long slumber.

In 1896 the girl was described as being white as a statue and corpse-like as a mummy, her body wasted away to almost a skeleton and her bones seemed to be covered with parchment instead of skin. The body was rigid and only the pulse beats showed that she was alive. She was sustained by washing her body in milk every day and pouring a few drops of milk or spirits into the sleeper's mouth through the nose.

Many prominent physicians visited the patient during her 20 year sleep.

### Railway Trainmen Officers.

Denver, Colo., May 29.—All the grand officers of the Brotherhood of Railway Trainmen were re-elected today. The list is as follows:

Grand master, P. H. Horsey, Galeburg, Ill.

First vice grand master, W. G. Lee, Lawrence, Kan.

Second vice grand master, T. R. Dodge, Chicago.

Third vice grand master, Val Fitzpatrick, Columbus, O.

Fourth vice grand master, W. T. New, Denver.

Grand secretary and treasurer, A. E. King, Cleveland.

Nine hundred delegates are in the convention, and the trainmen packing the galleries in the Coliseum cheered enthusiastically when the name of each officer elected was announced. A new ritual was adopted at today's session of the convention.

## NO SYMPATHETIC STRIKE WANTED

Declaration by Brotherhood of Railway Trainmen.

### UNANIMOUSLY APPROVED.

In Form of a Resolution—Has No Use For Organization That Breaks Its Contract.

Denver, Colo., May 29.—The first positive declaration of a large labor body against the sympathetic strike has been made by the Brotherhood of Railway Trainmen, now in national convention in this city. It was made in the form of a resolution, which received unanimous approval by the delegates, based upon the sentiments expressed in the annual address of Grand Master Morrissey. The portion of the address which inspired the resolution, and when uttered by the grand master, received ringing cheers of approval. He spoke as follows:

"The question of its ability to protect its working agreements is now a prominent factor in determining the responsibility of a labor organization in the business and employing world. The organization that represents employees in making an arrangement that is acceptable to them and shirks responsibility when individuals or rivals disturb the peaceful relations between employer and employee is not of the type that will command confidence in our progressive civilization and the enlightened trend of the relations between capital and labor."

"While the question of the protection of the labor contract is in its infancy and education of the great mass of the unionists along these lines is necessarily slow, still we predict that we shall see the day when we will regard the contract breaker, whether member or non-member, with as much contempt as we now do the scab."

Reports of other grand officers have been received and accepted by the convention.

### Prominent Filipino Arrested.

Manila, May 29.—Following the seizure and examination of the books of the Democratic Labor union the government today arrested President Dominador Gomez, a prominent leader of the union, and a number of other leaders in the field, forming the basis of the brigandage charge.

The union has a membership of 15,000, and is affiliated with the nationalist party and is strongly in sympathy with the insurgents. The arrest of Gomez has excited the natives and will increase the feeling of unrest in Manila, which has been disturbed lately by reports of the landing of arms. The situation, however, is not serious.

### Child Poisons a Family.

Los Angeles, Cal., May 29.—Frank P. Ward and wife and five visitors at their home have been poisoned by a child, who had put rat poison in their food several days. It developed today that Gladys Millard, aged 11 years, whom the Wards had taken into their home on account of her friendless condition, had put rat poison in their food several days. She confessed, saying she wanted to see how they would act, and so enjoyed the first effects that she repeated the poisoning the next day.

### Bruce Price Dead.

New York, May 30.—The death is announced here, in the Herald's obituary column, of Bruce Price, a resident of New York, aged 53 years. Mr. Price, who was president of the architectural society of America and a member of many prominent New York clubs, was one of the best known architects of the United States.

### FAMINE IN KWANG SI.

Consul McWade Says That It Is Most Appalling.

Hongkong, May 15 (via Victoria, B. C., May 20).—Consul McWade of the United States writes that the famine situation in Kwang Si is appalling. Agents from Canton are buying up hundreds of women and girls for sale in Hongkong and elsewhere in the famine stricken districts, where they are sold to secure food. Hundreds are dying.

The people are uttering many anti-foreign threats and much alarm is felt in the district.

Plague has recurred at Yokohama. A stoker of the steamer Kagoshima Maru from Bombay was quarantined, with plague on May 1 and on May 12 two fatal cases of plague occurred in Yokohama. The area in which the plague victims lived has been quarantined.

Military authorities in Formosa have commenced an expedition against bandits. In a severe fight a Japanese soldier was killed and several wounded. Six bandits were killed and a large number wounded and captured.

A thousand blacksmiths are on strike at Nagasaki and the iron works have been closed. The Canadian exhibition at Osaka was awarded the first prize for general arrangement and excellence of samples shown. The exhibition still attracts great attention.

### KENTUCKY IS INJURED.

By Exaggerations About Conditions In Jackson Says Gov. Beckham.

Frankfort, Ky., May 29.—Col. Roger D. Williams, in charge of the military forces at Jackson, has been here this afternoon for a conference with the governor. Gov. Beckham said today: "I have just been in communication over the long distance telephone with Col. Williams, who is in Lexington. The situation has been exaggerated, and our state is being done an injury. No reinforcements of troops have been requested or is needed."

### Tons of Mail Matter for Dawson.

Vancouver, B. C., May 29.—Between 20 and 30 tons of mail matter, dispatched by parcel post from eastern points to Dawson during the past winter is lying stored at the Vancouver post office awaiting the raising of the embargo placed on that class of matter during the close season of navigation on the Yukon. This accumulation of mail will be shipped north on the steamer Princess May, which is scheduled to sail June 2. On that date the mail of all classes of mail destined for the Yukon below White Horse will be forwarded, the service being maintained to the close of the Yukon river navigation.

# The Doctors Who Cure.

## Salt Lake City's Leading Physicians and Expert Specialists.

We Treat and Cure

## CATARRH, \$5.00 A Month.

All Medicines Free.

And all diseases of the eye, ear, nose, throat, lungs, stomach, liver, kidneys, bladder, bowels, skin and blood, including all chronic diseases of men, women and children.

VARICOCELE, BLOOD DISEASES AND ALL WEAKNESSES OF MEN.

DR. G. W. SHORES.

## Home Cures by Mail.

Do not despair because you live at a distance from the city. Drs. Shores' new system of HOME TREATMENT Makes it easy to get expert advice and treatment at home. Their new symptom blank covers every symptom of disease, which enables them to diagnose your case and tell you what your trouble is, what can be done for you, and what the cost of a cure will be. WRITE for their new symptom list and take advantage of the FREE EXAMINATION. Whether you take treatment or not, the advice costs you nothing.

### WEAK MEN.

If you suffer from any of the weaknesses or diseases caused by excess of exercise—ARE THE VERY PERSONS WE WANT TO TALK TO.

We have proved our skill in curing all CHRONIC diseases by publishing thousands of voluntary testimonials of home people, giving names, pictures and addresses.

WE CAN'T PUBLISH OUR CURES IN PRIVATE DISEASES. Because it would betray confidence. Hence we have to prove our skill in this class of troubles in another way. This is our plan:

## DRS. SHORES & SHORES,

Lyon Block, 56 W. Second South, Salt Lake City.

OFFICE HOURS—Week days, 9 a. m. to 4 p. m. Evenings, 7 to 8 p. m. Sundays and holidays, 10 a. m. to 12 noon.

## CHAMBERLAIN'S PLAN ATTACKED

Sir Edward Grey Picks Up Glove Thrown Down.

### AN INVIDIOUS DISTINCTION.

Says Colonial Secretary Played on a Big Trumpet and Premier Same Tune as a Small Flute.

### DEFENSE SCHEME COMPLETED

Takes in Atlantic, Pacific, Gulf and Great Lakes Coasts.

Washington, May 30.—The naval general board has completed its elaborate scheme for the defense of the Atlantic, Pacific, gulf and great lakes coasts of the United States. Admiral Dewey declares the scheme to be "vitally important to the country at large." This purpose is to approximate an impenetrable defense of the entire coast line of the United States and its foreign possessions.

Acting Secy. Darling has signed the instructions to the commanders of the 12 naval districts into which the country has been divided regarding the establishment of a permanent basis of naval patrol. The duty of the patrol will be to secure and forward information and to communicate with ships at sea. The treasury, war and agriculture departments will co-operate with the navy in this work. The signal lines of the coast signal service put in operation during the war with Spain will be followed. Special naval patrol stations, life saving stations, light-houses and light ships, army signal stations, coast stations of the weather bureau and auxiliary scouting, lookout or patrol ships, all will be called on to participate in the scheme and at appropriate stations, telegraph, telephone, cable and wireless means of communication will be provided and kept constantly in working condition. The naval militia to a large extent will be called on to make up the naval patrol crews.

### VENEZUELAN PORTS CLOSED.

Minister Bowen Makes It Appear There Is No Technical Blockade.

Washington, May 29.—A cablegram has been received at the state department from Minister Bowen relative to Castro's decree closing some of the Venezuelan ports. He makes it appear that there is not a technical blockade, but it is said at the state department that the decree would have about the same effect as vessels will not be permitted to enter the closed ports. Mr. Bowen's cable is as follows: "Six ports are not blockaded; their custom houses are suppressed temporarily."

"Steamers from Europe have 30 days' grace; sailing ships 60 days."

"Steamers from United States 15 days; sailing ships 30."

"Ten days for all vessels from Demerara and the Antilles; two days from Trinidad and Grenada."

"All counting from June 1."

"Guantanamo and Sagua included in customs house of La Guayra; Guaira, Cacao Colorado and Ciudad Bolivar in that of Carapano and Coro in that of Puerto Cabello."

Minister Bowen also called that the government at Venezuela has captured the port of Barquisimeto, midway between Puerto Cabello and La Guayra, which the insurgents have made headquarters for a long time past.

### Sentenced for Delaying Mail.

Denver, Colo., May 30.—John C. Wood and Alexander Allison, charged with delaying the United States mail by dispatching a Union Pacific engine at Deer Trail, Aug. 6, 1902, have been convicted in the United States court and fined \$100 each. The alleged act was claimed to be an outgrowth of the boiler-makers' and machinists' strike.

OUR MOTTO: A low fee, quick cure, mild and painless treatment. Call or write.

DR. A. J. SHORES.

### PAY WHEN CURED.

We cure you first and then ask a REASONABLE FEE when you are cured. You can depend upon our word; any bank in Utah will endorse it; thousands of patients have endorsed it. NOW WE WANT TO CURE YOU—with the distinct understanding that we will not demand a FEE until we cure you. This applies to all weaknesses of men. We absolutely cure Varicocele, or it don't cost you a penny. Consultation and advice FREE by letter or in person. CALL OR WRITE.

### CUTTING DOWN SALARIES.

Postmaster General Payne Makes a Very Sweeping Order.

Many Offices Held That Had Not Been Authorized by Law.

Washington, May 29.—As a result of the thorough overhauling of the rosters of the postoffices throughout the country Postmaster-General Payne today announced his approval of instructions reducing the salaries of assistant postmasters of 14 second class postoffices to 50 per cent of the salaries of the respective postmasters. Among these are Ponce and San Juan, Porto Rico, and East St. Louis, Ill. He has found 26 officials in the postal service who hold office under designations not authorized by law, and directed that their positions be changed to conform to the law governing them. They were in New York, Boston, Brooklyn, St. Louis, Washington, Louisville, St. Angelo and Chicago, and 11 other offices.

Among these designations were unauthorized by law are "superintendent of stations," "auditor of stations," "inspector of stations," etc. Violations of the law which fixes the maximum salary of clerks in second class postoffices at \$1,000 a year, except in the case of assistant postmasters, will be corrected at Leadville, Colo., and three other places.

The investigation disclosed eight post-offices at which in all were 13 clerks receiving more than the salaries to which their designated position as "assistant" entitled them, and in these cases the following statements were directed but this does not apply to assistant postmasters in offices of the second class. It is believed the basis of compensation should be uniform in all offices of the first and second class, hence this order. The total amount saved to the government by this order will be \$2,500 a year. In seven offices where there appear to be eight persons who were receiving more than the law allows for the positions which they occupy, there may be some explanation of this fact, but in any event an order has been issued reducing the compensation to the amount authorized by law. In other offices there are persons employed under designations not known to the law. There is no doubt of the activity and the efficiency of these persons and they are properly employed but wrongly classified on the payroll, and the postmasters have been instructed to change their designations to the proper title.

Samuel A. Groff, who was arrested Wednesday for complicity in the Madison bribery case, appeared today before United States Commissioner Taylor and renewed his bond of \$5,000 for his appearance June 8, when he and his brother will be given a hearing.

### Too Great a Risk.

In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

# A Society Woman Must

Devote the most thoughtful attention to her personal appearance.

Nature does her best to make all women attractive so do not oppose nature.

Make the most of your natural charms and above all try to beautify and preserve your crowning glory.

### THE OTHER NAME.

Attractiveness is the other name for beautiful hair, which every woman may have. It requires great care and perseverance in the treatment, but the wonderfully pleasing results that follow fully justify the trouble, to say nothing of the future when the hair will retain its abundance and glossiness, even to a ripe old age. Like a plant, the hair must be entirely free from disease breeding germs, for if the dandruff microbe has entered the hair follicles all the sunshine in the world is of no avail. The hair will appear lifeless, dull and lusterless, followed by itching of the scalp, and, finally, falling hair. The first treatment is to destroy the dandruff microbe, at once, with Newbro's Herpicide. The healing and beautifying influence of this wonderful compound is little short of marvelous; clear and pure as the mountain snow, it cools the fevered scalp, destroys the germ of hair growth, and sends the blood circulating to the hair roots, where nature's restoration must begin. As a delightful hair dressing, it is

dressing Newbro's Herpicide easily leads the world, especially among fastidious and discriminating people. Its purity and freedom from oil, grease, or sediment imparts to the hair the most charming distinctiveness, while its antiseptic action makes it the equal of sunshine in its life-giving properties. Try it; a single trial is convincing.

### THE MAN IN THE CASE.

No woman should be satisfied to stop with the preservation of her own hair, while a brother, father, husband or son is losing his. Whirling through the vortex of business strife, thoughtful and considerate of all but himself, frequently exposed to "infected" hair-brushes, and wearing a hat that could not be improved upon as a microbe incubator, this person certainly needs the thoughtful care of someone, if baldness is prevented. Try a course of Newbro's Herpicide; it has benefited thousands, and if the first application is not satisfactory we will refund your money direct.

### A Delightful Hair Dressing.

### WARNING!

The success of Newbro's Herpicide has caused the market to be flooded with so-called dandruff germ destroyers. Don't expect satisfactory results from something the druggist assured you was "just as good." Conscientious druggists never recommend substitutes. Applications of Herpicide at principal barber shops. Price, \$1.00 at leading drug stores, or direct from THE HERPICIDE CO., DETROIT, MICH.

### It Stops Itching of the Scalp Almost Instantly.
