ROUND MOUNTAIN, NEVADA.

MANY PEOPLE MAKE MISTAKES

B—U—T

Very Few of the People Who Invested in Legitimate Mining Enterprises in Nevada Made Mistakes

WE DON'T GUARANTEE YOU A MILLION DOLLARS

B—U—T

If You Invest Money With Us, We Do Guarantee That You Will Receive Careful, Conservative, Economical Management,

AND A SQUARE DEAL.

For the Present We Are Confining Our Operations to That Wonder of Gold Camps,

ROUND MOUNTAIN!

BECAUSE WE KNOW ROUND MOUNTAIN OFFERS THE BEST OPPORTUNITIES.

Round Mountain has progressed faster, has more producing mills, and today has the best showing for its age, of any camp in Nevada. At present, not in prospect. BUT NOW. There are eight producing mines, two mills, a five mile pipe line supplying all the water needed, over five thousand feet of development work in the mines. A thriving town, large business houses, a bank, hotel, and a stock exchange organized; and remember, that Round Mountain was discovered but nine months ago.

We are not cranks on Geology, etc., but we do know that a certain formation called porphyry has made good in Nevada's big camps and we have this formation at Round Mountain; and, most essential, we have the values.

The character of the ore bodies, the formation, etc., is an exact counterpart of that great gold camp, Goldfield.

There is another feature to which we desire to call your attention, and it is a highly important one; i. e., the kind of men who are interested in Round Mountain.

We have such successful and practical mining men as, Mr. J. P. Loftus and Mr. J. R. Davis, who have done more real mining and developed more producing mines than any other two men in Nevada.

Mr. J. P. Sweeney, who has not only mined successfully in Colorado, but has also made an immense fortune in Goldfield.

John S. Cook president of John S. Cook & Co. Bank, which institution has on deposit at all times at least \$5,000,000.

James Lindsay of the State Bank & Trust Co. Reese Wampler, well known throughout Montana, Idaho and the north as a conservative mining man.

W. H. Clark of Gibraltar fame, who is considered one of the shrewdest operators in Nevada. And we could mention many others.

We honestly advise anyone to buy the following Round Mountain stocks at the market as a safe investment:

ROUND MOUNTAIN MINING, AROUND	\$1.00
ROUND MOUNTAIN FAIRVIEW, AROUND38
ROUND MOUNTAIN EXTENSION, AROUND20
ROUND MOUNTAIN SPHINX, AROUND38

Of course we want you to buy them from us, but buy them and make big profits.

They are being operated by expert mining men and are all producing mines, not prospects, but mines that are producing NOW and eternally will pay big returns.

There is another opportunity to make money in this great gold camp outside of buying stocks. We refer to the lots that are being sold in the town. Many fortunes have been made by purchasing lots in new mining towns; the men who bought early in the days of Goldfield, Tonopah, Rhincliffe, and Manhattan, have made from 100 to 2000 per cent.; many of the lots purchased in the early days of the above named towns for \$100 are now selling from \$5,000 to \$40,000, and you have the opportunity to make large profits by buying lots in Round Mountain.

We will send you prices, upon application.

The Round Mountain Leasing Company is a Winner and if You Fail to Secure From Us Information About it You Will Miss a Golden Opportunity.

We will always be glad to hear from you and your letters will receive our prompt attention. We are on the ground and our advice will cost you nothing.
