

October 6, 1893.

LOCAL AND OTHER MATTER.

Contributors writing for publication are requested to write on one side of the paper only. The name of the contributor must be given. The name of the contributor must be given. The name of the contributor must be given.

THEATRICAL.—Our friends in to Confession will have an opportunity of seeing the new old English comedy of "Wild Oats" this evening, with Mr. Margretts as Rover, the Strolling Actor. This comedy is one of the most laughable that is put upon the stage, it stirs up the risibilities of any audience and sends them off in good humor with themselves and the rest of mankind. "The Lost Child" is the farce, with Mr. Margretts in the great specialty of the disarranged "parent," whose agonizing grief strikes all beholders to the most exuberant merriment. Miss Clive the favorite young actress appears between the pieces and will make "von leetle pax." She is always an attraction. The entertainment cannot fail to crowd the house.

AROUND.—We noticed Col. Head's residence, this morning, respectfully besieged with a large delegation of Little Soldier's hands and braves. It comes as natural for an audience to ascertain where the agent lives as does for water to run down hill or any thing else that is natural. The Colonel's liberality towards the noblereds have made him immortal in their book of fame.

ANOTHER CHALLENGE.—I propose to fight Con Orem or Jimmy Rwyer "or any other man," on the following terms, viz, to wit, and so forth. I shall expect the party accepting my challenge to deposit in Goddard's office one hundred bushels of potatoes or as many more as they can stand and leave the same to my credit. Not being acquainted with the new rules of the London prize ring, and being of a religious turn of mind, I shall fight according to the rules laid down in the Bible—regulating pugilistic encounters. That is I shall have the privilege of striking my opponent (with a pair of brass knuckles) on one side of the face, after which he shall turn the other and so continue until one claims to best manhood shall be thorough tabernacle. Any other little arrangements that are necessary to be understood and provided for, can be arranged through the City Police.

MAMMOTH.—George W. Thurmmond, writing from Lehi, on the 3rd, tells of a mammoth squash, which he considers sufficiently large to take a position alongside the Bear Lake monsters and huge "Dixie" peaches. The squash in question was grown by Billie Dawson, of that ward, and its dimensions were two feet nine inches long, four feet nine inches in circumference in the middle, and 1894 pounds, in weight. The seed came from California, and the grower has more of the same kind. The general health in Lehi is good; and the spirit of progress is apparent among the people.

MORE EMIGRANTS.—By the courtesy of President Young we are enabled to publish the following telegram:

New York, Oct. 5, 1893.
President Young.—Forty-three adults, sixty-one souls, started from here on Saturday, and will be at the terminus in six days. I leave on Wednesday evening, all well.
H. B. CLAWSON.

CONFERENCE.—Conference commenced this morning at 10 o'clock. Notwithstanding the fact that many who would otherwise be present are at work on the grading of the U. P. R. R., there is a very large attendance. From the number of brethren in town from the extreme settlements, we should judge that the representation from distant points is unusually large.

EARLY AT IT.—Our friends of the butchering conjunctiveness were in the market "bright and early" this morning, awakening the echoes around chop blocks at 3 a.m. Having mercilessly dealt death, in all its horrid reality, to various and sundry one-eyed, beaver-eared, and members of the porcine family, they viewed their work of death with equable temper, and invited all to "have a cut" before the hour for commencing services in the Tabernacle. They calculated to re-commence operations at a quarter past four this afternoon; "which, it is their intention" so to do during Conference.

FULL.—East Temple Street to-day presented one of those crowded scenes daily witnessed on Broadway, N. Y. A perfect sea of human beings, including all colors, from the gay and festive Caucasian in his stove-pipe hat and broadcloth, to the picturesque Pima, as he gaily rides along, astride of her well-packed pony.

PROGRESSING.—A gentleman from Sharp & Young's camp, at Devil's Gate, Weber Canon, reports the mountains in that vicinity gradually disappearing. He says the men have three square meals a day, and are thoroughly fitted for tackling anything earthy. Six casualties have happened to one old black mare who runs the cart on an eighty foot dump. Six times she has gone over the embankment—cart and all, and from human appearances, is capable of enduring many more.

CALLED.—Judge Wright, of Brigham City, called and "swapped a few stories" with us to-day. His Honor, though not so robust in stature as we have seen him, enjoys better health than in years previous, is very comfortable in spirit, and says he doesn't think he could improve the world's wagging if he was chief engineer himself.

ALL RIGHT.—We understand the mail service between the world and Bear Lake has been resumed, the contract having been awarded by the P. O. Department to Gen. C. C. Rich for one year via Franklin, Cache county. Instead of the former route from Huntsville. The promptness of DeleGate Hooper in this matter will be appreciated by his constituents in Rich county.

Special Notices.

FOR SALE.—A large family carriage, to be seen at Faust & House's Stables.

MEAT MARKET.—The Butchers have concluded to open every day during Conference at 3 a.m., close at 10 a.m., and open again at 4 p.m. The public will please take notice.

WANTED.—At this office, clean cotton and linen rags. People in the city who wish to dispose of them will please bring them on Monday and Fridays.

Teams wanted to haul lumber from Little Cottonwood. Apply to Folsom & Romney.

WANTED.—A few cords of red pine wood at the Paper Mill.

GUYOT'S WALL MAPS

Geographies.

No other Geographer living understands the relations of the physical features of our earth so well, or knows how to present them to students with such simplicity and clearness as Prof. Guyot.

Prof. Guyot, the author of "The Earth and Man," is one of the ablest physical geographers in the world.

I have examined Guyot's Geography, and desire to say, in all my experience as a teacher I have never found a system of Geography so well suited to the wants of pupils.

During my experience as a teacher I have always regarded the teaching Geography as dry and tiresome. Happily so I now view it differently since teaching Guyot. The beauty and simplicity of the style in which he presents the subject, cannot fail in creating a love on the part of the teacher and scholar.

I have delayed giving my opinion upon Guyot's Geographies until I should have thoroughly tested them in the school-room. I have no hesitation in pronouncing them the best works upon the subject that I have ever used.

I am happy to give my favorable opinion of Guyot's Geographies. The practical simplicity is such that classes of all grades readily become interested, and the Science of Geography, heretofore so repulsive to many, presents great attractions in the new dress.

In the judgment of the Faculty of this College, Guyot's Geographical series is far superior to any other that has yet been offered to the public.

We have used Guyot's Geographical Series in our classes, and can confidently say our scholars have a better knowledge of the Science of Geography than they could have gained in one year from any other text-books. We are delighted with it.

Charter Oak Cooking Stoves were first introduced to the public in the year 1852, and at once took the lead, and have ever since grown in favor, until there are now a GREATER NUMBER SOLD DAILY than any Stove in the market. Over ONE HUNDRED THOUSAND are in daily use, and we offer every stove as reference, wherever it may be found. When our new patterns were made, all recent improvements were united, and we confidently offer the

NEW CHARTER OAK

AS THE

Heaviest, Best Constructed, Most Uniform and Quickest Baking Stove in the market.

The Charter Oak is the cheapest first-class stove ever made. Two eight foot stoves, with and without Extension Top, sold wholesale and retail by
