

MR. SCHWAB AS MONTE CRISTO

His Reckless Expenditures Astonish All Europe.

JUST THROWS MONEY AWAY

One of His Strange Penchants is Special Trains—Is Called "The Mad American."

London, Nov. 6.—Charles Schwab, president of the United States Steel company, is now cruising about the Mediterranean and for the time being at least can indulge in eccentricities without alarming his friends or furnishing gossip for newspaper correspondents.

All England is gasping with astonishment at the tales which come from Rome of the doings of Mr. Schwab. His reckless expenditures form one of the chief topics of discussion in the continental papers which are arriving here.

The accounts of Mr. Schwab's queer doings are supplemented by a letter received by an American from a friend in Rome who has been a close observer of the steel millionaire's actions. This letter says that Mr. Schwab's reckless generosity has so excited the Italians that half the beggars of the Eternal City have about the hotel at which he is paying \$30 a day for his apartments. It adds that he seems never to rest. When not chartering special trains at fabulous prices, he is dashing about the streets at breakneck pace accompanied by his wife, his secretary, his physician and a masseur. In addition to purchasing two new automobiles of the most expensive pattern, he has paid \$1,000 for a small statuette. He has been altogether so profuse in his expenditures that even the greatest spendthrifts of Europe are wondering. These peculiarities are said to be causing the greatest concern among the stockholders of the steel trust.

The letter is said to say it is understood in Rome that Mr. Schwab has an interview with Pope Leo and that he is planning to donate a large sum to the church.

In conclusion the letter says: "Am afraid Mr. Schwab will not experience a rapid recovery. His friends and attendants are under a great strain, owing to his incessant recklessness. I understand he may be taken to Egypt or even around the world in the belief that a change of scene will prove beneficial. He is throwing money away like water."

"Italians never met such a man, and professional beggars regard his stay here as the chance of a lifetime. It is even doubted here that he will retire to his country. When he appears in public he attracts almost as great a crowd as the king himself. He is referred to everywhere as 'the mad American.'"

The continental papers comment on Mr. Schwab's fondness for special trains. It is said that this has become a habit with him, and that he has one in every occasion waiting with steam up to bear him to some point which he wishes to reach in a hurry. He never questions the cost and pays on the spot. It is said here that the steel king will remain in Europe until April.

Mr. Schwab, according to a message from Rome, chartered a steamer to take a ride on Lake Como. Up and down the lake the steamer was sent at full speed. He grew weary of this sport, went ashore and hired a carriage. For an hour he drove at a rapid rate then he decided to get another steamer. He chartered a new one and went another ride for an hour.

Another carriage ride and then a special train was in order. He wanted to go to Milan and the train was furnished to him for \$400. He sent a check, however, for \$10,000. The railroad officials returned all but \$400.

RECIPROCITY WITH CUBA.
Draft of Treaty Has Not Been Returned to Washington.

Washington, Nov. 6.—Contrary to the common understanding here, it appears that the draft of the Cuban reciprocity treaty has not yet left Havana on its return to Washington, but instead is now resting in a pigeon-hole in the desk of President Palma. The misunderstanding as to the location of the treaty arose from a statement from Minister Squires at Havana that he expected the treaty to be sent to

DOCTORS ENDORSE SWAMP-ROOT

For Uric Acid, Kidney and Bladder Troubles.

East Atlanta, Ga., March 1st, 1901.

Gentlemen:—While it has never been my habit or inclination to recommend remedies the ingredients of which are not all known to me, it seems as if I should make an exception in the case of Dr. Kilmer's Swamp-Root. My experience, so far as I have tested it in my practice, forces me to the conclusion that it is a remedy of the greatest value in all uric acid, kidney, liver, bladder and other inflammatory conditions of the genito-urinary tract. I now take pleasure in prescribing Swamp-Root in all such cases with a feeling of assurance that my patients will derive great benefit from its use. I shall continue to prescribe it in other cases in my practice with the expectation of the best results.

Very truly yours,
A. J. Hall, M. D.

Gentlemen:—I have prescribed that wonder remedy for kidney complaint, Dr. Kilmer's Swamp-Root, with most beneficial effect and know of many cases by its use. These patients had kidney trouble, as diagnosed by other physicians, and treated without benefit. Dr. Kilmer's Swamp-Root effected a cure. I am a liberal man and accept a specific wherever I find it, in an accepted school or out of it. For desperate cases of kidney complaint under treatment with unsatisfactory results I turn to Dr. Kilmer's Swamp-Root with most flattering results. I shall continue to prescribe it and from personal observation state that Swamp-Root has great curative properties.

Truly yours,
L. Barstow, Irish, M. D.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney ailments, because they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.

Sample Bottle of Swamp-Root Free by Mail.

EDITORIAL NOTE.—If you have the slightest symptoms of kidney or bladder trouble, or if there is a trace of it in your family history, send at once to Dr. Kilmer & Co., Binghamton, N. Y., who will gladly send you by mail, immediately, without cost to you, a sample bottle of Swamp-Root and a book telling all about Swamp-Root and containing many of the thousands upon thousands of testimonial letters received from men and women cured. In writing to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say that you read this generous offer in the Salt Lake City Daily Deseret News.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one dollar size bottles at the drug stores everywhere. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

day following the sending of his message. Cuban habits of procrastination, rather than any disposition to actually refrain from entering into treaty relations with the United States, are supposed to be the reason for the delay.

In view of the fact that the treaty has not yet come here, nor has Mr. Squires had a look at it. It follows that the United States government is officially ignorant of the changes that the Cubans desire to make in the convention. Of course, generally, these are known to be connected with the increase of the rebate to be allowed on Cuban sugar and tobacco entering the United States, and there are indications that the administration may be willing to yield slightly on this point if no unreasonable delay is exhibited in the negotiations on the part of the Cubans. The rate of rebate proposed in the original convention is 20 per cent, and it is gathered that the Cubans want 50 per cent. This rate cannot be allowed, in view of the belief that Congress would certainly not sanction such a cut in duties, but between these figures there is so wide a margin on a basis that might be acceptable to both sides.

The cooling station matter is, for the time being, held in abeyance. The 10,000 tons of coal belonging to the United States navy now lying in a

warehouse at Tricoma is being diminished according to the needs of the navy in Gulf waters, so that the Cuban complaint of the existence of an American naval station in Havana harbor is adjusting itself without friction, and, indeed, it is said that the matter has not been officially mentioned lately.

AMERICAN HEIRESSSES.

Modus Operandi of Exchanging Them for Foreign Noblemen.

Berlin, Nov. 6.—The relations of Baron von Muenchhausen, with the so-called marriage syndicate, which financed his journey to the United States in 1898, to obtain a rich wife, have been made public through a prosecution for blackmail, brought by the baron against Hermann Pincus, Moritz Mendelssohn and Adolf Meunier, who were three tradesmen who were members of the syndicate. The trial has just come to its close.

Baron von Muenchhausen is a member of a famous German family which dates from 1537.

The testimony showed that an ex-convict named Essler, living in Stuttgart, telegraphed to Frau von Quitzow, a noble woman residing in Berlin who undertakes to obtain wealthy wives for army officers, saying that if she had a titled officer in active service for an American fortune of \$500,000, he would let her know. Frau von Quitzow put Essler in communication with Baron von Muenchhausen, who is a lieutenant in the Prussian army.

The baron, according to statements made in court, agreed to give Essler 5 per cent of the money of the heiress he was to wed in the event of the marriage taking place, and he signed conditional bills for \$25,000. On these bills Essler realized money in Berlin from a number of groups of persons, including Pincus and the two Mendelssohns, and Baron von Muenchhausen was notified with the cash with which he paid the expenses of his journey to the United States.

Essler's partner in this adventure was a lady's maid who had been formerly in the service of the rich American woman referred to by Essler. She preceded the baron to the United States to negotiate the marriage, but her efforts were unsuccessful. The name of the heiress in question was not disclosed in court. Baron von Muenchhausen did make the acquaintance of Martha Washburn Recket, a widow of moderate wealth, whom, according to the German papers, he married Dec. 23, 1898. Since his marriage the baron has been living with his wife on his estate near Schwobin, Hanover.

On his return to Germany Baron von Muenchhausen had to reckon with the holders of his bills. A compromise was negotiated with Pincus and the Mendelssohns, who surrendered their paper on the payment of small sums. Baron von Muenchhausen afterwards the matter was brought in court. Pincus and the Mendelssohns were acquitted of the charge.

ASSAULTED BY A POLICEMAN
Pres. McDonald of Am. Labor Union Seriously Hurt.

Denver, Nov. 6.—President Daniel McDonald of the American Labor Union is seriously ill from the effects of a blow on the head which he received on election day. He was standing with Secy. W. D. Haywood of the Western Federation of Miners, when Special Policeman James Brumer came out of a saloon and attacked them. McDonald was struck on the head with a revolver and Haywood then shot at the officer, the bullet striking his left arm.

No Chance for Addicks.
Wilmington, Del., Nov. 6.—Complete returns from Sussex county show the election of Thomas W. Jefferson (Dem.) by a plurality of seven votes over George E. Magee, an Addicks Republican whom earlier reports declared elected. There are 22 members of the legislature and the vote on joint ballot will be 27 Republicans and 24 Democrats, the result in the Ninth district.

As a result of the business of the academy was turned over to him by Commander C. E. Connelan, who has been acting as superintendent since the departure of Commander Wainwright.

Oklahoma Homesteader Murdered.
Guthrie, Okla., Nov. 6.—As a result of the prolonged war being waged between the cattlemen and homesteaders in western Oklahoma, another murder has been committed. G. W. Lane, a prominent figure among the homesteaders, was called to his door and shot dead, the murder occurring near Shirley, in Dewey county. A prominent cattleman named John Jay has been arrested, charged with complicity in the crime. Mrs. Lane, the murdered man's wife, L. E. Smith, March Long and William Johnson were also brought in by the officers.

ALASKA GOLD OUTPUT.
For Last Ten Months Nearly Nine-million Millions.

Washington, Nov. 6.—Director of the Mint Roberts today made public his final statement of the gold output of Alaska for the last ten months. These figures, which are based on the receipts at San Francisco, Seattle and the Selby refinery, show a total of \$18,570,975, as follows: Klondike (Canadian), \$13,861,495; Nome, \$5,008,980. This total is something over \$4,000,000 in excess of the Alaska output for the entire calendar year 1901. The figures for that year being \$14,573,575.

In the output for the last 10 months is included \$250,000 expected to arrive from the Klondike before Jan. 1, and \$1,550,000 expected from Nome.

CASTRO HAD NO VICTORY.
Report that Venezuela Rebellion Was Over Was False.

Willemstad, Island of Curacao, Nov. 6.—The report of a great victory over the insurgents spread by the government of Venezuela was incorrect. The priests refused to ring the bells of the churches in celebration of the alleged defeat of the Matos forces, and the police were compelled to ring them. The revolutionary army simply withdrew from San Mateo on Friday last, passing through Villa de Colera, going towards Cura which commands the road to Los Teques, where 2,000 revolutionists are now engaging a government force which protected the executive of Venezuela, whose whereabouts is now unknown.

The revolutionary force at Los Teques is not strong enough to capture that place, but is awaiting reinforcements from Cura.

Gen. Matos still has 5,000 men under his command, opposed to the 5,000 troops commanded by President Castro. For the last five days there has been no communication by rail or telegraph with Los Teques or with the scene of the fighting in that locality. The government of Venezuela is making great efforts to obtain reinforcements and to send food to President Castro's troops.

Three bridges on the German railroad near Los Teques have been blown up. Must Release U. S. Consular Agent.

Port of Spain, Island of Trinidad, Nov. 6.—The United States gunboat Marietta arrived yesterday at Barcelona, Venezuela, in order to compel the revolutionists there to release the United States consular agent, Ignacio H. Balz, who was arrested for refusing to subscribe to a forced loan. Mr. Balz is the richest man in Barcelona and a man of high position. The treatment to which he has been subjected is only an incident similar to many others which have occurred in every part of Venezuela.

The seaport town of Higuera, Venezuela, was occupied for three hours yesterday by forces landed from the Venezuelan gunboat Crespo. The landing party is said to have caused great damage to property owned by Spanish and French residents and the French warship D'Estree has left La Guayra to investigate the matter.

The Dutch cruiser Holland and the Italian cruiser Giovanni Bausan have arrived at La Guayra.

Edge Tool Makers to Consolidate.
New York, Nov. 7.—A consolidation of leading manufacturers in this country of axes and certain lines of edge tools, is in prospect, according to the Journal of Commerce. A meeting of the various parties in interest has been held in this city but nothing official was given out.

The new company probably will be known as the International Axe and Tool company, and will have an authorized stock capital of about \$30,000,000. It is also proposed to issue bonds, which will bring the total up to something like \$1,000,000. It is said the new enterprise will be incorporated under the laws of New Jersey in the course of a few weeks.

Companies in the following cities are likely to be included in the combination: New York, Alexandria, Ind.; Lewiston, Pa.; Dunkirk, N. Y.; Warren, Pa.; Ridgway, Pa.; Cateraugus, N. Y.; Gas City, Ind.; Philadelphia, Pa.; Pittsburg, Pa.; Wheeling, W. Va.; Cohoes, N. Y.; Cleveland, O.; Winsted, Conn.; Louisville, Ky.; Huntsville, Ala.; Oakland, Me.; Auburn, N. Y.; Jonesboro, Ind.; Evansville, Ind.; and St. Catharines, Ont.

Besides merging the plants of the large manufacturers of axes, hatchets, scythes and other tools, prominent manufacturers of handles and grinders are a constituent part of the proposed company. At the same time, it is intimated that some steel manufacturers, from whom the combine can secure its raw material, may also be affiliated.

Yale Students Must be Swimmers.
New York, Nov. 7.—Every student entering Yale will become an expert swimmer if he cannot advance good reasons to be excused from taking swimming lessons, says a Herald dispatch from New Haven. The faculty has found that 10 per cent of this year's entering class cannot swim.

A rule has been passed to permit swimming lessons to be given for the required gymnasium work, and directing that students who are not proficient in this line must be instructed.

Ayer's Sarsaparilla

If you feel run down, are easily tired, if your nerves are weak and your blood is thin, then begin to take the good old standard family medicine—Ayer's Sarsaparilla. If constipated, use Ayer's Pills. Two grand family medicines. Sold for 60 years.

J. C. Ayer & Co., Lowell, Mass.

shield, while the navy department's flag had seven red stripes and six white ones. The matter was referred to the president, but he sent it back to the department for decision. While Acting Secy. Darling has not formally decided the matter, he inclines to follow the state department.

PHILIPPINE CHURCH TROUBLES
Some Serious Troubles, Nearly Approaching Riots, Experienced.

Manila, Nov. 6.—The Pandacan church has been the scene of serious disturbances, approaching riots, and many arrests have been made. A portion of the congregation announced its intention, a week ago, of joining the Philippine Catholic church, and the pastor, Father Sorondo, preached a sermon rebuking the dissenters. It was asserted that Father Sorondo, during his sermon, violated confessional secrets, and he was later attacked in the streets. All those concerned in the disturbance were arrested. The dissenters then took possession of the church, but the priest dislodged them. The dissenters recaptured the building and on Thursday "Bishop" Aglipay, the leader of the dissent movement, celebrated mass before a large crowd.

Later the dissenters drew up a deed of gift transferring the property to the government and offered the deed to Gov. Taft, with the keys of the building. The governor replied that the church belonged to the Roman Catholics. He advised the dissenters to surrender it, suggested an appeal to the courts if they thought they had rights in the case, and strongly counseled them against disorder.

The dissenters accepted his advice and surrendered possession of the church. During the quarrel crowds of natives surrounded the edifice, and a strong detachment of police alone prevented a serious outbreak.

CHANGES AT ANNAPOLIS.
Capt. Brownson Succeeds Comdr. Wainwright as Superintendent.

Annapolis, Nov. 6.—Capt. Willard H. Brownson, who arrived here last evening, was officially received as superintendent of the naval academy today. The officers and professors attached to the academy assembled in front of the reviewing stand and the battalion of midshipmen was paraded and presented to the new superintendent. Midshipman G. A. Radford, acting adjutant, then read the orders assigning Capt. Brownson to the academy and the ceremony was perfected. Capt. Brownson walked to the administration building and the direction of the business of the academy was turned over to him by Commander C. E. Connelan, who has been acting as superintendent since the departure of Commander Wainwright.

Oklahoma Homesteader Murdered.
Guthrie, Okla., Nov. 6.—As a result of the prolonged war being waged between the cattlemen and homesteaders in western Oklahoma, another murder has been committed. G. W.
