

HARRIMAN PLANS COUPE IN OREGON

Numerous Surveys Being Run West and South Into New Territory.

FINE FORESTS, EXTENSIVE.

These With Mineral and Agricultural Tracts Make Building Imperative—To Beat Gould.

The report that the Harriman interests are planning to extend throughout Oregon to compete with the Western Pacific, is no old story—and one that has foundation. The Oregon Short Line and Oregon Railroad & Navigation companies have had their eyes on the big track, whose edges skirt the coast and north and have run no end of surveys across the country. One line dropped from the O. R. & N., from Pendleton down to Susquehanna in the heart of a vast territory rich in minerals, timber and unoccupied as a grazing and agricultural country. Another line has been run from the Oregon Short Line at a point near Ontario, Oregon, westward to Vale, then through to John Day country, and on to Susanville, the objective point. A second line from Ontario has been run in a southerly direction past Burns and on towards Klamath Falls, the objective point. The triangle formed by these two lines from Ontario is closed by a third run between Burns and John Day. With these lines completed, the Harriman interests will have opened up one of the richest sections in the country.

LUMBER CHIEF ITEM.

Any line will pass through extensive forests, great pine and other wood-growing zones shot all in directions and cities upon miles of level land, irrigated by streams and rivers galore, stretch along the projected surveys. It is explained that the building of these lines will be commenced at once and pushed ahead as rapidly as possible, in order to have the Western Pacific commence traffic between Salt Lake and Oakland. One of the greatest handicaps to railroad building throughout the west is the trouble encountered in obtaining ties, etc. It is highly important that the Harriman lines get through Oregon before the winter sets in, competing his store in. The announcement that Harriman is going to build into interior Oregon is more than a "railroad on paper."

RAILROADS HAVE COMPLAINT.

Government Wants Empty Mail Carsried by Mail for Citizens.

Chicago, Nov. 15.—The Tribune today says:

"The railroads of the country are protesting against an order of the post office department requiring them to handle empty mail equipment in the mail cars from Nov. 15 to Dec. 25. Protests have been sent to Washington and it is not known what the result will be. The question is whether the question will reach the courts."

This trouble arises out of the refusal of the government to include empty mail bags, blank postal cards and stamped envelopes in the mail during the recent weighing period. This reduced the total amount of mail matter 25 per cent, and as the roads are paid on basis of weight, it resulted in a loss to the roads of between \$10,000,000 and \$15,000,000. The action was in accordance with the new law providing that this empty equipment, as it is called, shall be sent by freight. For this transportation \$250,000 was appropriated.

The new order is addressed to all postmasters and employees of the railway mail service. It is explained that on account of the holiday rush it is deemed advisable to handle all empty equipment by mail instead of freight during the 40 days mentioned. Since this was specifically exempted during the weighing in period, the railway officials contend the roads not only

The Pure Drug Dispensary
112-114 South Main St.

We'll be performing the service free, but the freight departments will lose their proportionate share of the \$250,000 appropriation.

WHITNEY TAKES REINS.

Superintendent of New Division of U. P. Arrives at Ogden.

Special to the "News."

Ogden, Nov. 15.—W. G. Whitney, the new appointed superintendent of the new division of the Union Pacific from Ogden to Rawlins, arrived in Ogden yesterday to assume his duties. He was accompanied by Capt. Steven, who will make him acquainted with the various departments that will be under his charge. Whitney is well known among many of the railroad men of Ogden and his division, who welcome him to his position.

Mr. Whitney will make his headquarters at Ogden, a room in the Union depot building having been vacated for him, and his office turned over to Mr. Brown. The manager of the office force will be his, but not yet announced, but it is understood some of the clerical force of Mr. Botsford's office will be transferred to Mr. Whitney's office, and other clerks will be employed to take care of the work. Mr. Whitney will have charge of the entire traffic, so far as the distance of the division, having been increased considerably.

SPIKE AND RAIL.

The "Borax Smith" crowd is to build a branch line to Furnace creek road to make this spot available for mining and to open the mineral mines in the neighborhood. Railroad communication will then be within 16 miles of Greenwater.

C. S. Williams, commercial agent of the Borax Company, has returned from a special trip to the First Congregational church last evening by her exquisite renditions on the violin. Miss Powell is a very gifted and soulful in her playing, and the audience was won by the qualities of beauty, depth and purity.

Opposite the piano, Maurice Eisner appeared, and he was given a generous share of the applause. The program included almost everything desirable in the way of variety from the Grieg folksongs to the pyrotechnical Vieuxtemps Concerto in D minor, ending with a masterly rendition of "The Campbells are Coming."

Mr. Eisner played with depth of feeling Chopin's Major Nocturne. In a frank and delightful recital in "Hungarian Rhapsody." The audience was delighted with the concert, which was one of the most pleasing of the university lecture course entertainments.

Saturday Specials.

\$1.00

\$3.00

\$5.00

FIRST TABLE: Gives the choice of more than 20 styles of College Hats.
SECOND TABLE: Same
as material, trimming
order or size stock hat
worth up to \$6.00 each.

Entitles you to 27.20 worth
of material, trimming
order or size stock hat
worth up to one week

THE SPECIALLY trimmed \$1.00 hats this week are the best values we have ever offered, all New shapes, trimmed in the latest novelties.

BANKS' Millinery And FUR Store,

116 South Main Street.

It is to be a mirage while others conclude that it was yesterday's train."

Johnnie Treeshula, formerly of the Rock Island who has become a cigar salesman is around visiting friends in this city before starting out on his travels to Idaho, Utah and Montana, not Nevada, first reported. These states are his old territory so he goes out on a familiar path. Johnny is the proud possessor of a letter from Mr. Brown, assistant general freight agent of the Rock Island, in which the Rock Island bids a regretful adieu to its old-time freight huster.

CHARMED LARGE AUDIENCE.

Mme. Powell and M. Eisner Appear at Congregational Church.

Mme. Maude Powell charmed a large audience at the First Congregational church last evening by her exquisite renditions on the violin. Miss Powell is a very gifted and soulful in her playing, and the audience was won by the qualities of beauty, depth and purity.

Opposite the piano, Maurice Eisner appeared, and he was given a generous share of the applause. The program included almost everything desirable in the way of variety from the Grieg folksongs to the pyrotechnical Vieuxtemps Concerto in D minor, ending with a masterly rendition of "The Campbells are Coming."

Mr. Eisner played with depth of feeling Chopin's Major Nocturne. In a frank and delightful recital in "Hungarian Rhapsody." The audience was delighted with the concert, which was one of the most pleasing of the university lecture course entertainments.

WANTS CASHIERS' CHECKS.

Objection to Issue Because of Great Amount of Work Entailed.

A local lithographing firm has in preparation an order for \$50,000 worth of cashier's checks in small denominations. These may be printed in circulation—and they may be.

The bankers are anxious to do this because of the great amount of work entailed. If the entire issue was circulated, it would require 50,000 signatures. This is the objection of the bankers—the additional labor necessary to put them into circulation.

The demand for the checks of smaller denomination comes from the merchants who have been called upon to make change for the holders of the new temporary currency. They have been told that there is a heavy tax on the banks for silver, that there is a condition approaching a shortage in silver—though there is absolutely no shortage of money in local banking circles.

JOHNSON A POSSIBILITY.

If one man more than another has looked up as strong presidential material during the recent elections that man is Tom J. Johnson of Cleveland.

The fact that Johnson was able to defeat Theodore E. Burton for mayor of Cleveland in the face of determined opposition on the part of all the big corporations of that city, as well as in the news of late that Burton was known to have the native support of President Roosevelt, speaks volumes for his political strength and it is now asserted that in the event of his selection by the Democrats as their candidate for the presidency, the latter will be compelled to accept the nomination for the presidency, although there are many who believe that he may have some sort of a plan whereby at the eleventh hour he may succeed in inducing the Republican party to accept George B. Cortelyou.

This club was established originally for Bryan in his presidential race. Its activities are expected to be followed by others throughout the country, so that by the time the convention has assembled it is quite possible there will be as many popular candidates in the field. With the showing made in Cleveland by Johnson against the presidential candidate T. E. Burton, the friends of Leut.-Gov. William Astor Chanler, who have been earnestly hoping him for the presidency have now completely disappeared. In fact, so it is claimed, the Chanler boys are only the "sons of a few small-bean politicians," knowing that Chanler has an unlimited bank roll saw the opportunity for helping him to spend it.

VALVE BUCKET SHOPS.

The panic which has shaken Wall street to its very foundations has apparently spent itself and while its effect is being reflected in many parts of the country, some good has already come out of it and more will undoubtedly follow. One effect noted is the introduction of a corporation to convert into savings banks, a scheme which should meet with universal approval, as it would go a very long way toward softening the feelings of the cent. great upheaval in the financial world that has been the almost entire width out of "bucket shop," which do so much in the way of robbing the treasury. In the words of claming this undesirable element the Consolidated Stock Exchange of that city has taken a most aggressive part and the result of its efforts has been made apparent in the depression by London, in which the court that the business of Hugh & Fries was a downright swindle. So far as the general banking situation is concerned, a demaske. Another good effect of the needed improvement has taken place and people as a rule have recovered their heads. However, the stock market, while better than it was, does not show any signs of permanent improvement.

WANTED, A STATION MASTER.

"Look here!" said a gentleman to a railway station master. "don't you think that thing is rather dangerous where?"

"Ah!" interrupted the official addressed, who had just been pranged, "you've got to be a barrow, have you?"

"What's going to happen to the place where I ought to stand, I suppose?" might I go on, and ask your opinion about the position of the booking office. Do you think that the signal box is in the right place?" Shouldn't the station master's house be shifted a little?"

"Any opinion you would like to express, sir, shall have immediate attention."

The traveler turned away, and the station master turned around triumphantly to the guard of a train waiting in the siding.

"Ho! ho!" he laughed, "did you see the sport I had with that old mutt? I soon had him up."

"I'm not so sure of that," replied the guard. "He's the traffic manager!" Pearson's Weekly.

DESERET EVENING NEWS FRIDAY NOVEMBER 15 1907

NO "OFF YEAR" IN NEW YORK POLITICS

Hearst Has Been Eliminated as Factor in Democratic Councils of Empire State.

DELEGATION AGAINST TAFT.

Late Panic Has Effect of Closing "Bucket Shop," Which Judge LaFollette Declared to Be Swindles.

MORE VALUABLE THAN OAK.

Government Forest Service Has Plan For Reforestation Which Will Extend Its Life.

Special Correspondence.

New York, Nov. 15.—Though generally looked upon in the light of an "off year" in politics, the recent shooting has possessed more far-reaching importance than bearing upon the future than has appeared on the surface. In the first place, the outcome of the election in New York City has demonstrated beyond all shadow of a doubt that Charles F. Murphy is in complete control of the Democratic party, and that in all probability he will be able to control, not only the delegates to the next state convention, but also those to the national convention. The results have likewise demonstrated that Hearst has been entirely eliminated as a factor in state and national politics. It has been patent to the leader of Tammany hall and his followers that the organization was doomed to completely lose its grip on the political situation, in this state and the country at large if the Hearst party were allowed to go on as it had been, and therefore all their efforts were bent to the overthrow of this formidable foe.

Realizing that in the event of success the Independence League would supplant the regular Democracy in its position of second place on the official ballot, the managers of the wily giant left no stone unturned to forestall any such possibility, and instead of trying to become the real Democratic party in the Empire state, Mr. Hearst has now been relegated to the position of the regular party. The New York delegation to the Republican national convention, Timothy L. Woodruff, chairman of the Republican state committee, James W. Wausau, speaker of the last assembly, William Barnes, Jr., member of the Republican state committee, and Herbert Parsons, president of the New York county Republican committee, all of whom are thoroughly informed on the situation, will visit the president and convey this information to him. Whether or not the president will take heed of the hint from the New York Republican leaders remains to be seen, but it is presumed that he will not insist on carrying Mr. Taft upon his back from the Empire state. It is equally certain that the president will not favor the candidacy of Governor Hughes, chiefly for the reason, no doubt, that the latter is popularly supposed to represent the corporate interests against which Mr. Roosevelt has been waging such a bitter warfare. With Mr. Taft evidently out of the race in so far as the New York leaders are concerned, and with the administration organized to do its best for him, it is probable that the president will be compelled to accept the nomination for the presidency, although there are many who believe that he may have some sort of a plan whereby at the eleventh hour he may succeed in inducing the Republican party to accept George B. Cortelyou.

The demand for the checks of smaller denomination comes from the merchants who have been called upon to make change for the holders of the new temporary currency. They have been told that there is a heavy tax on the banks for silver, that there is a condition approaching a shortage in silver—though there is absolutely no shortage of money in local banking circles.
