The scarcity of water at the present time for irrigating purposes renders it necessary that the use of sprinklers for lawns should be limited during the balance of the present month and the month of September. To avoid the necessity of issuing

time cards as was done last year, recommend that lawn sprinkling for the term above named be confined to the hours between 7 o'clock p. m. and 7 o'clock a. m. It is hoped that all persons interested will see the necessity of complying with this arrangement, and
