It is Said That Sixty Per Cent of The City Has Been Destroyed.

NUMBER DEAD IS UNKNOWN.

Relatively the Calamity is Worse Than San Francisco's-Population in Hills-Food Scarce,

London, Aug. 19 .- In a cable from Nalparaiso without a date the correspondent of the Daily Mail says:

"Sixty per cent of this city has been completely destroyed. The death roll ds very heavy. There were 82 shocks iduring Thursday night and there have been 30 more since then. The tremora still continue. One hundred thousand people are homeless and destitute. Waher is giving out. Surrounding towns have been destroyed, and the railroad has been cut."

WORSE THAN SAN FRANCISCO. Valparaiso, Aug. 13, via Galveston .-

Proportionately the satastrophe here is considered greater than that which struck San Francisco. Valparaiso and neighboring towns are wrecked and partially burned and in all the towns of the Aconcagua valley conditions are similar. In the southern portion of Chile severe shocks were felt at Talca-Chile severe shocks were fell at Talca-huano, Concepcion, Talca and Zone, but there the disaster was not appali-ing. As yet no authentic news has been received from Santiago, although a courier is shortly expected. Quakes occur from time to time, but

are steadily diminishing in force. As estimate is as yet impossible, but it is believed that the former will exceed 1.000 in this and surrounding towns.

The authorities here have the situa-tion well in hand and have assumed distribution of food. Couriers have been dispatched both north and south for troops. Privisions and thousands of tons of flour, wheat and rice are held stores here and affoat. It is not believed a food famine will occur. Martial law has ruled in Valparaiso

since the first day of the shocks and the entire population is camping in the lopen. The only wire working is subterranean and sea cables of Cenaral South American companies, which marvelously escaped undamaged.

LOSS ENORMOUS,

Valparaise, Chile, Aug. 19.—At 7:52 o'clock last Thursday evening Valparaise experienced an earthquake of great severity and during that night \$2 shocks were felt.

Most of the buildings of the city are either burned or damaged. The loss will be enormous, probably reaching \$250,000,000. Two thousand persons build is considered to be a fair estimate.

killed is considered to be a fair estimate

of the casualties. Viena del Mar, three miels from Valparaise and having a population of over 10,000; Quirinu, 225 miles to the southward with a population of 25,000; Santa Limache, 15 miles to the north-west with a population of 6,500; Quillota, 25 miles to the northwest with a population of 10,000, and villages all

Most of the damage was due to fire. which started immediately after the first shock. The whole population is first shock. sleeping in the hills, the parks or the Food is very scarce. Milk costs two

Chilean dollars a liter, and it is almost impossible to obtain meat, even at high The rallways are all destroyed.

Rain, which began to fall immediate-Rain, which began to fall immediately after the first shock, stopped an hour afterward. The nights are very cold and windy, and the people sleeping in the open are suffering greatly.

The captain of a steamship which has arrived from San Francisco says the situation here is worse than that following the disaster at San Francisco.

DAMAGE AT SANTIAGO.

Santiago de Chile, Aug. 19.-It le known that eight lives were lost in this city by the earthquake, but it is believed that many persons were killed by the falling buildings, and that their bodies will be discovered later. Several persons became so pandestricken dur-ing the tremblings of the earth that they threw themselves from the balco-nies of their homes and were killed, The fires which followed the earthquake in this city were promptly extinguished, but while they lasted they added great-

ly to the terror of the people.

As all telegraph and telephone lines were more or less damaged, the exact situation throughout the country is not yet known, but advices have been re ceived to the effect that the towns of Viriage and Casa Blanca were entirely destroyed, and that San Fellipe, Rancagua, Milpilla and Llaaillaj were verely damaged. At Concepcion the shocks were severe and a number of persons were killed or injured. The towns of Rengo, San Fernando, Quillotta and San Antonio and many village are in ruins. All rullway service in the central zone is either interrupted en-

tirely or greatly delayed, and commerce is practically at a standstill.

In the city of Santiago much damage was done. Many public buildings, par-ticularly churches, were dismantled. The buildings of congress, the muni-cipal buildings, the normal school, th courts, the Peruvian legation, the residence of President Riesco, the central market, the prefecture of police and the Nation Telegraph office all were seriously damaged. The lines of the seriously damaged. The lines of the electric tramway system and electric light wires were short-circuited, interrupting street car traffic and plung-ing the city into darkness. The scenes at the hospitals and prisons during the excitement were distressing in the extreme. The prisoners tried to escape from the jails in the hope that they might reach a place of safety, and prison guards were obliged to fire into the air in order to intimidate and

quiet their panic-stricken charges.

There have been several return shocks of slight intensity. These shocks have served to continue the shocks have served to continue the broken and the water poured through state of public alarm and a state of the streets. There is even lack of

The Pure Good Tea

Imported and packed only by

M. J. BRANDENSTEIN & CO. San Francisco, Cal.

panic still prevails. The astronomical bservatory, however, has given out statement to the effect that it does not appear possible that there will be epetition of the severe shocks. night many persons slept in the tramway cars, in carriages and in the open air in the public squares and streets. The government has taken steps to restore order. An inspection of all houses left standing has been ordered. distribution of relief supplies to those n need. A troop of cavalry has been sent to re-establish communication

The alarming news first received by the government from Valparaiso as to the situation in that city has not been confirmed, but it is known that nu-merous buildings in the vicinity of the port were destroyed and that there have been severe fires in the Aimendral quarter. The mayor of Valparaiso sent word that he did not know the number of killed or injured, but he believed that they were numerous. Firemen left Santiago yesterday for Valparaiso to aid in extinguishing the fires is reported to be burning. Several travelers who have just arrived here from Valparaiso say that reports of the situation in that city were exaggerated. An employe of the telegraph service sent word from Salto, near Valparaiso confirming the news of serious fires in the Almendral quarter. This em-ploye also sent news that the Spanish-Italian bank was destroyed by the earthquake. A traveler who came here by express train tells that when the rain was near Las Vegas, about half way between Valparaiso and Santiago, the cars were shaken violently and the engine nearly left the track. A stop was made and the terrified passengers alighted. Later they proceeded to Lai Llai, which they found in almost total

All lines of rallway to the north and the line of Tacla are greatly damaged. In the city of Santiago a majority of the victims of the disaster were residents of the poorer sections of the city. where many small houses were thrown to the ground. Several deaths from nervous excitement and heart disease are reported.

CONSTERNATION REIGNS.

London, Aug. 20.—In a dispatch from Santiago de Chile, dated Aug. 19, the correspondent of the Tribune says: "Consternation reigns here. All business has been suspended. The people are bivouacking in the public

"It is anounced officially that 55 persons have been killed and hundreds wounded. Buildings in every block have been damaged. The prisoners in the jails mutinied, but were overpowered by the troops. Cerro Santa Lucia, a precipitous hill in the center of the city, has partly collapsed. The archbishop's palace, the ministry of the interior, the palace of congress, the buildings of the municipality, the national library, the university and the military barracks all were severely damaged, as also were several churches. The cathedral, however, was not injured. The damage here is estimated at \$6,000,000. The people have been forbidden to enter

churches, the schools or the theaters." ACCOUNTS EXAGGERATED,

Santiago, Chile, Aug. 19.-The latest news brought in here by refugees from Valparaiso contradicts some of the exaggerated statements there, but shows, however, that the catastrophe was unusually severe. Sener Groz, one of the refugees, relates that the first shock in Valparaiso was very prolonged and threw the en-tire city into indescribable panic. Peo-ple crowded the streets and the squares crying and lamenting. The first shock also threw down a number of buildings. The second shock was more severe and resuited in the crumbling of most of the buildings in the Almendral quarter.

Immediately after the second shock the entire city was plunged into terri-fying darkness. This, however, did not last long, for the scene of destruction was soon lit up by the fires that broke out in this quarter. the flames, Senor Groz continues, came The people were in a state of terror. many believing that the end of the

world had come Among the buildings destroyed were the Victoria theater, the Bella Vista railroad station and the Club de Se-tembre. Most of the severe damage was done on the lower ground reclaim. e dfrom the sea.

the Church of La Marced, as well as a large part of the buildings on Victoria street, were destroyed.

Masses of material blocked the streets. The known dead does not exceed 100, according to the best esti-

mates. Among the dead is the wife of Admiral Monti,

The hill surrounding Valparaiso suf-fered but slightly. More than \$0,000 persons have taken refuge there.

That portion of the city where are the customs house and the city hall was not seriously damaged. A large majority of the houses are not fit for The storehouses of the habitation. ustoms house are almost totally destroxed.

The water pipes of the city were

Is to love children, and no home can be completely happy without them, yet the Is to love children, and no ordeal through which the ex-

pectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread.

Book containing valuable information mailed free. the event safely and with but THE BRADFIELD REGULATOR CO., Atlanta, Ga.

water for drinking purposes. Provisions are lacking and hunger is beginning to make itself felt.

The government has ordered its war-ships stationed at Talcahuano to bring at once to Valparaiso the most needed necessities of life.

The people of Valparaiso are utterly exhausted. They are awaiting the re-establishment of the railway service to

SUN SPOT THEORY. London, Aug. 20 .- Most of the private . dispatches received in London concerning the disaster in Chile give the impression that the earthquake was less serious than at first reported. They are, however, all very brief and mostly of a personal nature.

The Chilean legation has received no official advices, but over a score of telegrams from residents of Valparaiso and Santiago have reached the legation through friends of officials living in London. All these are cheerful in tone and indicate that the lors of life was not so serious as the initial reports in-

Sir Joseph Norman Lockyer, director of the solar physics observatory, Kensington, in an interview, said it was a remarkable fact that the earthquakes at San Francisco and Valaparaiso synchronized with sun spot maximum, and that in 1894, when there were many serious earthquakes, the same condi-tions obtained. It was not yet fully known whether there were laws controffing the recurrence of carthquakes, Sir Joseph continued. It was a point certainly worthy of investigation, but such investigation would involve ex-pense. The chief work in this direction, he added, was now being carried on by Germans,

FIVE HUNDRED DEAD.

Santiago, Chile, Aug. 20 .- Five hundred persons are dead at Vaiparaiso as a result of the earth take shocks ac-cording to the latest advices based on the reports of refugeer who reached this city this morning.

The monetary loss at Valparaiso runs into the millions. Six or eight other cities have been destroyed. The railroad, street railway, telegraph, and systems are thoroughly de-

20. Madame Mont, wife of Admiral Mont, who was reported killed, is alive, but seriously injured. It is expected that the street railway and lighting systems in this city will be restored

PANIC SUBSIDING.

Lima, Peru., Aug. 19.-The latest news from Valapraiso is to the effect that the panic is subsiding. The man-sion of Mr. Edwards is about the only building remaining on Victoria street. It is estimated that the number of dead in Valapraiso will reach 1,00. The dead in other places are: At Quillota, 39; Limache, 179, and

Petorcia II. Among the killed at Valparaiso were the director of the Lyceum, Charles Hosselan, and family.

CONDITIONS BETTER.

Buenos Ayres, Aug. 20 .- The cut-off in the Santiago telegraph line has been repaired and hundreds of private messages have been received. They report everything in a satisfactory condition there and say the people are not

Refugees who are arriving at Sanlago from Valparaiso on horseback and who left there during the worst panic bring wild stories concernig the number of deaths by the earthquake and fire. These refugees say the deaths number 10,000, and that there are 60,000 refugees in the mountains.

A reign of terror prevails and there are horrifying scenes in all parts of the city. The squares are full of people who have been driven from their homes. Thousands are praying in the streets

and many have gone mad.

The only name yet given of any of the dead is that of Senator Frederick Varela, a prominent leader of the radical party. Only one small section of the port

Chile and Tarapaca bank, and the newspaper ElTertieroare known to have been destroyed. The report seems to be confirmed also that the custom house has been destroyed. The government has declared an in-

orks was saved, the buildings of the

definite period of mourning.

One rumor, which is not confirmed and is believed to be untrue, is that the dead number 11,000 and the injured relief subscriptions

opened in Buenos Ayres today. The Jocky club gave 10,000 pesos. The Argentine government will pass an appropriation for the relief of the sufferers. USING DYNAMITE.

Rio De Janeiro, Aug. 13.—The free use of dynamite, according to dispatches received here, was very effective against the progress of the fire at Valparaiso. The firemen were thorough a control when the fames were oughly exhausted when the flames were finally subdued. Hundreds of people took refuge on the ships in the harbor. It is stated that a new danger is

threatened by the volcano Wonin, which has become very active. There are indications from the reaused great damage throughout the Andean region. It is probable that there has been considerable loss of life and destruction of property at remote points which have not yet been heard from. All of Chile was apparently af-fected by the shocks as well as numerous points in Argentina in the vicinity

of the Andes. THOUSANDS PPERISHED. Paris, Aug. 19.-A dispatch from Buenos Ayres confirms the reports of the destruction of Valparaiso. It says 11,-000 persons perished. The fire which followed the carthquake prevented the rescue of the victims. The Hotel In-

gles collapsed, burying all its occu-

A cable dispatch to the Herald from Lima, Aug. 19, says:
A subscription has been started at Iquique and will be started at Guayauit and Lima for the victims of the earthquake in Chile. Among the victims at Valparaiso are Rector Lycelo, Charles Hossellan and family Deputy Ramon Leon Silva, Enrique Blanco, and Robert Courts and family

DROWNED IN THE SURF AT LONG BEACH

Los Angeles, Cal., Aug. 19.—A boist-erous turf, accompanied by a danger-ous undertow, along the southern California beach resorts this afternoon took the life of one awimmer and nearly caused a second tragedy.

Henry Newington was drowned off

the foot of Golden avenue, Long Beach. He had gone in awimining with a friend and the latter's small son, while the women of their party sat on the sands and watched them tumbling about. Both men suddenly realized that they were being swept beyond their depth and called out to each other. The friend, though greatly weakened, succeeded in reaching shore and gave the alarm, but he was too Just as a lifeboar put out to Newlington's rescue a big breaker took him off his feet and buried him under tons of water. He was not seen again, nor was his body recovered.

At Venice, Paul Conway of Los Angeles, a powerful man and an excellent wimmer, left the protection of breakwater and swam to a point half a mile from shore. There he became exhausted in the rough brakers, and his frantic struggles were seen by peo-ple on the pler, who notified the bath house life guards. While one of these. Ed Burns, with three or four other persons, struck out to rescue Conway persons, struck out to rescue Conway, the latter's father, mother, brother and sister stood on top of the breakwater and cheered them on. All of the rescuers but Burns turned back. He finally rescued Conway after the drowning man had sunk twice. Burns had to subdue Conway by force before he could bring him ashore. Five thousand people cheered the guard when he staggered ashore with his unconscious burden. Conway weighs 200 noveds: Barn 160

TWELVE PERSONS LOSE THEIR LIVES

In Water Around New York, Most Of Them Being Bath-

SOME HEROIC RESCUES MADE.

Swimmers Imperilled Their Lives to Rescue Others, Thus Saving Many.

New York, Aug. 19 .- Twelve persons lost their lives in the waters about New York today. Most of the victims were bathers. A number of Rerolc rescues of Imperiled swimmers were made and these reduced what otherwise would have been a much larger death list.

Three persons were drowned in a group hear Manhattan Beach in a manner that could not be ascertained and the police of the Coney Island station are conducting an investigation, only eyewitness to the drowning disap-The victims in this instance were

Merris Grosse, Martin Anderson and an unknown bather, 25 years of age. Harold Sellers, 25 years of age, was drowne while diving with his father from a launch in Jamaica bay. The father dived frantically in the hope of rescuing his son and continued to plunge into the water until he became ur from exhaustion and was with difficulty rescued and resuscitated.

William O'Keefe, 24 years of age, was browned in Gravesend bay, becoming exhausted while swimming far from John Bisinski, 9 years old, of Jersey

City, was drowned while swimming in the Hudson river. William Hill, 26 years old, of Long Island City, while swimming in the East river, became ill and was drowned. The bodies of two unknown men were found floating this afternoon in the East river. One was supposed to be the captain of a sand

Albert Haggenborn, 26 years old, of Brooklyn, was killed tonight when he dived from a balcony 20 feet high into five feet of water in the swimming tank at a pleasure park in Coney Island. His neck was broken. Edward Moore, 7 years old, was drowned in the Hudson while trying to

climb aboard a barge. Even Remsen, 25 years old, was drowned off Yonkers.

SEVEN PEOPLE DROWNED.

Minneapolis, Aug. 19.—The water laimed seven victims in the head of

the lakes region today.

While bathing at Lake Minnetonka, near here, Ralph Strole, aged 22, and a man named Baker were seized with cramps and were drowned. Frank Zutter, aged 23, and his broth-r, William, aged 21, while bathing near Kibbing got beyond their depth and
