

LOCAL AND OTHER MATTERS.

THEATRICAL.—"The Lottery of Life," was given for the third time yesterday evening, and again attracted a good house. It will be presented this evening for the last time in its now complete form. A new Ferry-boat runs between New York and Brooklyn. We advise all who have not seen this exciting and interesting drama not to neglect this last opportunity. The effective scenes and tableaux in it, that follow each other in rapid succession, keep the audience in constant suspense, while the sparkling and witty dialogue, interspersed with sentiments, excite our mirth and create pleasant feelings. The acting has greatly improved since the first night. Mr. Graham has shown his qualities as an actor in the extremely difficult character of Terry, the swell, by the graceful nonchalance, easy manner, and the fine and subtle humor which he displayed. Mr. Lindsay plays the part of Alcazar with consummate skill, and Messrs. Margette and Hardie in their respective roles contribute largely to the success of the play. Mr. Howard as Robert Morant has also greatly improved. He possesses a good voice and gentlemanly bearing, and which is very important, he is perfect in his lines. To a great many of our theatre-goers the situations in this drama are new and interesting, and the different phases of life are portrayed with a strict fidelity to nature. The Management has again demonstrated by the production of "The Lottery of Life," in such a fine style, how much it deserves the patronage of the public. It is a play that is worthy to present the most attractive novelties. Hardly has one attractive feature passed away, until another one is produced. A great spectacular treat is now in course of preparation.

COMING HOME.—By letter from Elder Jesse E. Murphy to his father E. M. Murphy, dated Jonesboro, Ga., Jan. 8th, we learn that he intends starting from there on the 18th, with a company of over twenty persons. He expects to reach the terminus of the railroad about the 1st of February. Elder William C. A. Smoot will meet him at Kingston.

INFORMATION WANTED. BY JOSEPH HAYCOCK, of his brother SAMUEL HAYCOCK, who moved to St. Thomas, P. M. County, Arizona, about four years ago.

THE LECTURE at the 10th Ward school house, on Tuesday evening, Jan. 26th, will be upon "English Composition," by Elder Robert L. Campbell.

DIED. at midnight of the 22nd inst., at the residence of President H. Young, "Harrie," infant son of Hiram B. and Alice Clawson, aged seven weeks and five days.

CO-OPERATION at LEHI.—The people of Lehi, in compliance with the counsel given them in relation to co-operation, commenced a movement in that direction in July last. The results have been all that was anticipated, their effort having been crowned with the success of gathering around them Bishop David Evans, who called in yesterday, we gleaned the following particulars respecting it: They commenced taking stock, in twenty-five dollar shares, about the 15th of July last, and on the 28th opened their store with \$200 worth of goods, and procured fresh supplies as fast as they were needed. At the end of December a dividend was declared amounting to \$23.50 to each shareholder. They bought the whole of their goods of Salt Lake City merchants, sold them at Salt Lake retail prices, and cleared over 100 per cent. Since December the number of shareholders has been increased to about ninety. They intend to still sell their goods as cheap as they are in this city. The name of their store is the Lehi Union Exchange.

This movement on the part of the people of Lehi is praiseworthy in an extreme degree, and should induce the people of every settlement in the Territory to go and do likewise. It shows them that by co-operation they can supply themselves with all goods they may need at a price far below what they are now compelled to pay, and thus enjoy the benefits.

ACCIDENT.—Br. Wm. Leek, of Mill Creek, was brought in this morning from the Railroad, having had the misfortune to have his clavicle fractured from the caving of a bank. He was sent in by John W. Young, Esq., on whose contract he had been working, and placed in charge of Dr. Anderson, who gave him the necessary surgical attention, and hopes are entertained of his making a fair recovery from the unfortunate occurrence.

DIED. In this city, this morning, after eight weeks lingering illness, of mountain fever, Miss Augusta St. Clair, the well known lecturer on travels and education. Her funeral obsequies will take place tomorrow afternoon, at 3 o'clock, at the Ward Assembly Rooms. Friends are invited to attend.

POLICE.—George Dalton, for keeping a boarding house without a license, was fined \$10.

Frank Hope appropriated a coat without asking the owners permission, for which he was fined \$30.

TROUT SPAWNING.—"Observer," writing from St. Charles, Bear Lake Valley, says: "As fish-culture is likely to become a specialty among the people of Utah, I wish to publish some observations concerning the time when the spawning season begins in the latitude of New York trout spawn about the middle of October, or the first of November. If he had said in the north, instead of 'latitude,' perhaps the expression would have been correct. The season of spawning sometimes lasts four months; though mostly but three months. One large creek flows into Bear Lake, in which the spawning season begins about the first of December, and ends about the first of March. Several other creeks flow into the Lake, (the water being colder) but in them they begin to spawn about the first of April. The time varies with the early and late spring weather. In Bear River the spawning season commences the first of September, but in its tributaries about the first of June. The difference is no doubt caused by the water in the main stream being muddy until the tributaries become low."

MORE GOODS.—Messrs. Dunford & Sons have received another addition to their stock of goods. Stocks are tolerably complete now in our principal business houses; though there is still a large quantity of goods back on the road.

SANTAQUIN F. R. SOCIETY.—Brother D. S. Andrews, of Santaquin, writes concerning the Female Relief Society of that place, which held its quarterly meeting recently, and gave much satisfaction to those interested in its work. A few days previously the Society had a picnic and ball in the school house, which was tastefully decorated for the occasion. They cleared \$300 over expenses, and gave an evening's delightful enjoyment. Progress and prosperity characterize Santaquin.

MONK OF THEM.—Eldredge & Clawson have had an arrival of stores, very seasonably. Goods kept coming along.

WEATHER.—By Deseret Telegraph Lines, we learn the state of the weather at the points named: Logan; clear and beautiful. Wellsville; fine and pleasant. Ogden; clear and pleasant; thawing. Kayville; very pleasant, sun shining warm; Payson; quite pleasant, snow two inches deep. Nephi; clear and pleasant. Panguitch; very fine, with light snow; show four inches. Mt. Pleasant; fine, with four inches snow on the ground. Moroni; clear and cold, no snow. Gunnison; clear and cold, little snow. Fillmore; beautiful morning, sun out quite warm, snow from three to four inches. Cove Creek; very fine, but cold; severe frost last night; four inches of snow. Beaver; very warm and pleasant, looks some like spring. Panguitch; cold, but pleasant, no snow on the ground. Coalville; quite mild and pleasant, sun shining, no snow. Tokerville; clear and pleasant, no snow. St. George; warm and pleasant, roads dusty, thermometer 45°. People have been busy in their gardens, planting early peas, &c., for the last ten days.

MEDICAL WORK.—We have before us a new subscription book, "King's New American Family Physician," containing a vast amount of information in familiar language free from the mystical terms in which physicians endeavor to hide their knowledge of the law of nature, and the causes of disease, and which would be prevented were the same attention bestowed upon the cause, nature and treatment of disease that there is on subjects of much less importance. If people would thoroughly study the law of nature, which governs the human system, and seek for a knowledge of the various medicinal herbs, barks, roots, &c., testing their virtue in cases of disease, they would often prolong life and preserve health. No less than three hundred and seventy forms of disease, including diseases of women, children, chronic diseases, as well as those of a surgical nature, are described in Dr. King's work, with the modes of treatment. A description of one hundred and thirty diseases, with the causes, symptoms, and the remedies for some two hundred and fifty valuable compounds with much other matter of a highly useful and practical character. Every family would find a copy useful. Mr. Traver, a resident of this city, has been appointed agent for Utah. Our citizens will be called on in a few days when an opportunity will be given to secure the work.

By Telegraph.

SENATE.—The President presented the credentials of James A. Bayard and Thomas F. Bayard, Senators elect from Delaware. Drake, by the unanimous instruction of the Committee on the Pacific Railroad, reported and asked for an immediate consideration of a resolution, declaring it inexpedient for Congress to authorize any subsidy in Government bonds to any railroad enterprise not authorized by existing laws. Edmunds objected and the resolution went over.

POMEROY. from the Committee on public lands, reported a bill to grant lands to aid in the construction of a railroad from Mississippi River to Yankton, on the Missouri. This bill transfers the grant to the McGregor and Sioux City Railroad.

STEWART introduced a bill relative to refunding gold and silver bullion at the mints. The bill authorizes the Secretary of the Treasury to receive refined gold and silver on deposit at the mint in payment therefor, and to deliver imported bars at such rates as the director of the mint may prescribe.

FRIDLAND addressed the Senate in reply to Mr. Tilton's argument on the bill to punish the collection of illegal taxes on railway passengers.

AT the expiration of the morning hour Wilson offered a joint resolution to drop from the rolls all army officers absent without leave.

WILSON offered a joint resolution re-appointing Agassiz regent of the Smithsonian institution; passed.

HOWARD, from the Pacific Railroad committee, reported a joint resolution, directing the Secretary of the Treasury to receive and withhold from the Union Pacific, and from each of its branches government bonds to the extent of three thousand per mile security, for the completion of the several lines, according to the provisions of the laws; to be reserved until the president shall certify that the road is so completed, and to be determined by a special commission. Laid on the table.

THE Senate resumed the consideration of Sherman's Railroad bill, which after the amendments of yesterday were adopted, was passed. The bill merely authorized the construction of a railroad from Washington to New York. Pending the question, an amendment was offered by Doolittle, requesting the consent of the Legislatures of the States through which the road will pass. Doolittle addressed the Senate, opposing the bill on constitutional grounds. He said the bill proposed a system of legislation, which would subject the Government to the control of mammoth corporations, having neither bodies to be kicked nor souls to be damned.

HOUSE.—Kelly introduced a bill to establish an assay office in Montana, and to convert the branch mint at Denver into an assay office, and relative to refining gold and silver bullion at the United States mints; referred to the Coinage Committee.

GRISWOLD introduced a bill to diminish the fluctuations in gold, and to provide for a return to specie payments; referred to the Committee on Ways and Means.

THE bill provides for the issue of gold notes, redeemable in gold, and for all government dues, not to exceed \$350,000, a year, to be paid in gold, or in redeemable greenbacks at the average gold value. The House resumed the consideration of the Denver Pacific Railroad bill. Logan offered a substitute for the bill, and after some discussion the subject went over for the day.

THE Speaker announced that, tomorrow, Butwell would call up the proposed Constitutional amendment with respect to the suffrage, for debate during the day.

THE death of Mr. Hinds, late member from Arkansas, was announced. After eulogies by the members of the Arkansas delegation the House adjourned.

CONGRESS.—The House has withdrawn from the senatorial contest, the Hon. D. S. Pratt was elected by a joint convention at noon. Pratt, St. Hendricks, Co. absent and paired.

NEW YORK.—The jury in the case of Blaisdell and others, charged with defrauding the revenue returned a verdict of guilty.

THE Times says Seward is arranging for an extended tour upon the expiration of his term. The journey will be to California, and thence through the republics of South America.

NEW YORK.—A fire tonight, in the block shop of J. W. Allen, destroyed some rare old volumes; loss \$2,000.

MCLAREN, convicted in the U. S. Circuit Court to-day, of aiding and abetting Blaisdell & Eckel in their whisky frauds, was strongly recommended to mercy by the jury.

BALTIMORE.—At a meeting of the trustees of the Peabody Fund to-day, a report was read showing that in West Virginia, during the past year, three thousand school houses have been erected, and one normal school opened, and a second was only waiting funds to pay the salaries of teachers. In general, for every thousand dollars given from the fund, six thousand were raised by the people, exclusive of the amount paid for school houses. In Arkansas a deep interest is felt in education, and many schools have been established. Gratiifying accounts are also received from other Southern States.

GEN. GRANT offered a resolution to transmit a copy of the proceedings of the body to Mr. Peabody, as a token of their grateful remembrance. Adopted. Resolutions of condolence to the general agent of the fund were passed, and the Board adjourned.

GEN. GRANT called to-day on J. J. Stewart, who is nominated as Minister to Russia. The Herald's Washington dispatch says the Wells, Fargo investigation committee had a number of witnesses before them yesterday. Among those examined was I. S. Casement of the U. P. R. R. He testified that an accumulation of mail matter along the route took place when the old contract with Wells, Fargo, & Co. expired, before the new one was made.

MR. SPAIDS, son of the man who was the lowest bidder for the contract, testified that he and his father offered to carry the mails for \$700,000 less than Wells, Fargo, & Co., but they could not get any satisfactory answer to their letter. Mr. Tilton, a banker at New York, seems to have been the backer of Mr. Spaid's corroborates his statement. The same dispatch says it seems to be generally understood that Leonard, the colored Congressman from La., will not get a seat in the House.

NEW YORK.—A law case is reported, wherein a decision of Judge Bull was overruled by the Court of Common Pleas.

FOREIGN.

NEW YORK.—The steamship South America brings Rio dates to December 23.

ON the 5th inst., Conas performed a flank movement throwing 50,000 of the allies above Viñeta. A battle near Argostina ensued, which resulted in driving the Paraguayans out of the works defending that place, and large captures. The allies suffered severely. Operations were immediately continued. In an attack in Viñeta, made on the 11th, the Paraguayans were again routed, and only 200 escaped. The capture of war materials is large. The allies escaped to Viñeta. The fleet is reported on the way to Ascension.

BRUSSELS.—Leopold, Ferdinand, Prince Royal of Belgium, died yesterday, aged 10 years.

HAVANA.—The insurgents have been repulsed in an attempt to burn the city of Manzanillo.

PARIS.—The Conference has selected Walewski to convey the protocol to Athens. He will be instructed to wait five days for an answer from the Greek Government.

RIVIERE DU LAMP, Canada.—The Merchants Canada Hotel was burned this morning; three merchants' children and Mr. Wallace were burned to death, and a number of others injured.

NEW YORK.—Yesterday, Shipping Gazette says a bark has arrived in Liverpool, which left America, December 13, having aboard thirty-eight of the shipwrecked crew and passengers of the Hibernia.

TORONTO.—In the Whalen case, before a full court, to-day, the Judges refused to grant a new trial. Whalen's counsel applied for leave to appeal to the privy council of England. After consultation the court decided to deny him to grant the appeal, and so far as the Canada courts are concerned the law must take its course.

HAVANA.—23.—The Spanish frigate Leontada arrived yesterday from Cadiz. While near the Canary Islands the crew mutinied. At one time it was feared the trouble would assume serious proportions, but it was suppressed by the determined conduct of the ship's officers. The mutiny was caused by a supply of bad water, and the excitement of the crew over events in Spain.

LONDON.—The adherence of the Greek Government to the protocol adopted by the Conference of Paris is now considered certain. The Custom House in Rio Janeiro has been entirely destroyed by fire.

BOLIVIA.—The journalists of this city have held a meeting and adopted an address to General Grant, asking him, as President elect, to propose to Congress the passage of a bill establishing an international copyright law between the United States and Germany.

NEW YORK.—The Herald's special at Havana says the revolutionary leaders, having determined to move westward, have decided Count Valmadesa by opposing his march with a small force, while the main body, composed of men moving toward this city. It is reported that the Government has received a dispatch stating that the rebel General Quaresma, with a large force, has arrived in the vicinity of Villa Clara. Steamers have been engaged to bring back the forces of Count Valmadesa.

A Rio Janeiro letter of December 23d, confirms the account of the rout of Lopez and his army at Viñeta. The Brazilian loss is placed at two thousand, but it is understood that the Emperor admits it to have been much heavier. Argentina has not yet been attacked. But division was marching against it. Minister McMahon is reported to have come to an understanding with Lopez. The steamer Wap was returned to Buenos Ayres.

AN Australian letter fully confirms the reported massacre at Poverty Bay, New Zealand, by the natives. Thirty-

three whites and about twenty friendly natives were killed, and a prosperous settlement on their blotted out.

Special Notices.
