SUNDAY SERVICES.

Discourse by Canon Joseph E.
Taylor at the Tabernacle Yes-
terday Afternoon.

Religious services were held at the
Tabernacle, Salt Lake City, Sunday,
October 14th, 1892, commencing at 2
o'clock p.m., President Angus M.
Cairns presiding.

The choir sang the hymn com-
muning:

Saints with their voices flowers,

With all their hearts and showers.

Prayer was offered by Bishop H.
V. Sheets.

The choir sang the hymn:

Agst we meet around the board

Of joys our increasing Lord.

The Priesthood of the Twelfth ward
affiliated in the administration of the
Bacrament.

CORPORATOR JOSEPH E. TAYLOR
was called to address the congregation.
He said the people had been well informed upon
the principles of our holy religion. No
man could teach the Latter-day Saints
the principles of the true Gospel, as
their education, unless inspired by the Holy Ghost. Our
elders went forth to preach the Word
to the nations of the earth. They
might spurn their testimonies and re-
ject their words; but those who did so
were condemned of God for it. There
was a great difference between a man
speaking according to his own under-
standing and comprehension, and
delivering his own opinions, against
the declarations which were made
under the inspiration of the Holy
Ghost.

He had no doubt that very strong
impressions were made upon those who
attended the meeting. Confidence in
the truth of the gospel was increased
by the First Presidency, the Apostles and other brethren, some of the
subjects they dwelt upon being of par-
ticular interest to the Latter-day Saints.
It had not been their desire to
make any consistency in the efforts to
get through with this earth and lay down
our bodies at an early period of our
lives. He had always believed that the
spirit and body united, and that the
spirit of man was of good that
when separated, the spirit in the
spirit world were there waiting
for the resurrection of the body to enter
them again. They might become possessed of
a greater degree of influence than their
peoples could without the intercession.

There was more involved in the
Word of Wisdom, the consequences
were more than we understood, and
we did not understand the power of the
Holy Ghost to enable us to comprehend
what was fully designed by God
in giving that word, though
He served the Prophet, unto the
people, that we might have
the power to preserve the commandments
and keep them pure. God designed that
we should improve in the propagation
of our species, that our offspring,
physically, mentally and spiritually,
might be in advance of the past
generations.

The speaker said he knew of nothing
today existing in the midst of the
Latter-day Saints which prudently
and with confidence between them
and man that was not of God's own
design, which was also referred to at the
Conference. He earnestly counseled
the people not to mortgage their names,
and to be slow in making foolish
speculations.

He said he should be a more
righteous man if he could be
practiced for many years past. Some
persons through a mistaken allusion
to hope, and without making proper
calculations, believed that the world
was about to end. Doubts and
anxieties. They trusted too much to some-
thing turning up to enable them to meet
their obligations. Having discovered
the wrong we had done in making
such calculations, we should be
more careful in the future, but we
should not let our fears overtake us.
The question is, can we do better?
If we do not, let your love be filled
with compassion, long-suffering and
closeness. Give your brother a chance
to redeem himself, and take under
advantage of him. Let us stop today,
and have a positive advantage over
ourselves, and be more independent
of ourselves. That man was the
more respected in a community who
paid his one hundred cents on the
dollar. He looked forward to the time
when we would be able to give
to live in the world, and be
which must be observed by God's people
—referred to what was termed mult-
ed order.

It was a mark of a serious lack of
faith in God that man did not believe in
the right and in who failed in this
respect should be condemned before the
Lord, even though he did not lose his
fellowship among his brethren; moreover,
he was not able to do his duty to
the man who was responsible
to him as a law of God given for his
salvation.

Speaking on the building of temples,
Elder Taylor exhorted the saints to
have faith in God, and to trust in His
providence. urged them to give
treasury of their substance toward the
completion of the salt Lake Temple
April next. He likewise dwelt upon
the importance of temple work upon
the dead.

In the glorious future before the
Latter-day Saints never enough, but
sufficient both on the right hand and on
the left, will be present to the fight with the arch angels, mightier
than seven and continuous on to
eternal life. Against the hosts of evil
came the righteous ones, and after
fighting for them, the saints, now
resting till their overthrow in the face of
the strength and courage overcame the
evil and had way of doing things—
they triumphed, for justice, and truth.

to begin that in them which was
beginning all ends.

in conclusion the speaker prayed
that the blessings of God might rest
upon this people.

The choir sang the anthem "God be
merciful unto us and bless us."

Resolution by Bishop William H.
Prusina.

FROM MILLARD COUNTY.

A Complaint Against Sheep.—Politics
Sir the Postmaster, Rural Air.

(Special Correspondence of the News.)

MILLARD, Millard Co., Oct. 13.—Our
country is in a state of
commotion and ferment over politics.
We have had political "shamrocks" of
both parties to visit us, and try to convert us to their own views, while local
politicians are airing their lungs and
boasting west to an extent that would
almost lead us to believe it was the only
crisis left in the wide world regarding
thinking or talking about.

We have had a sort of sleep during
the past few weeks for they have
been involved in one noisy affair after
another. We write so fast that it has
caused among the inhabitants of
Millard an amount of epidemic ob-
session that has alarmed us. First we had
nightmares from which four dealers re-
sulted; then material never and
nothing more than complaint may be
said of them.

Now comes the sheep industry, a
most useful and profitable one to the
community, but where the owners are
as neglectful as devoid of all friend-
ship, the result is certain to be a
disastrous one to the lives of their neighbors
by persistently fouling our water,
they become an abominable nuisance,
and it is about this something was
done to protect us from their cruelty.

On Monday week in the Transient.

The sheep have come in a way which
will be declared, it is desired, to be
redulously unsatisfactory, causing a loss
of \$100,000.00 a month, but President
Kruger says that we will not tell the
Lord's day for trifles.

A girl in her room, says the philan-

opists, is good to look at, in her second is
used to make up, in her third is good to
talk to.

The sheep crop in Washington
Washington here has a high grade,
and the price is \$1.00 per pound, and
is the most abundant field that of the
state of England, Germany and New
York state. The sheep here has not
made its devastating presence felt in
western Washington, and must be
brought there as it has been brought
elsewhere. On account of this past
the lamb yield was reduced to 30 per
cent of what had been expected last
year, and had the rate of 10 per cent, it
would have been that the revenue from
sheep would not be above \$100,000.00. Hege
has received more than a dollar a pound
in the past; late the prices have run
from twenty cents to thirty cents. To
produce them cost less than ten cents a
pound in Hersey.
