

THE TRAGEDY IN THE ROYAL PALACE

Servian Government Too Busy to
Give Official Account.

HARD TO GET THE DETAILS

Only Officers Who Participated Could
Furnish Them—No Complete Re-
vision of Constitution Expected.

Belgrade, June 19.—The Servian foreign minister, M. Kallievic, talked to the Associated Press correspondent tonight with the utmost frankness. The minister explained the necessity of someone taking office in order to insure the continuance of the federal organization, after the violent coup d'etat. He was elected to office practically by force, but he was happy and willing to do his utmost for his country in her present distressed condition. He commented on the tranquillity which prevailed throughout the country, and even admitted that there had not been a single attempt at reprisals. It had not been necessary to change any of the provincial officers of the late regime.

Regarding the official version of the tragedy in the royal palace, the minister said the government was too busy now to draw up a document. Besides, only the officers who participated in it could give the details. He did not expect a complete revision of the constitution after the arrival of King Peter. Such changes as had been made were simply with a view to its easier working.

In conclusion, he expressed his confidence that the new regime would restore peace to Servia.

PROPOSED CONSTITUTION.

London, June 19.—The Times correspondent at Belgrade telegraphs that the Servian delegation has taken with it a draft of the proposed constitution which King Peter must sign before he is allowed to ascend the throne. It provides that the army shall take the oath to the constitution as well as the king, and releases both officers and soldiers from their oath in the event of the king violating the constitution. The deputies who elaborated the new charter, says the correspondent, have displayed a praiseworthy self-abnegation. Their daily pay will be raised only one-half from 10 to 15 francs.

I learn on authority, continues the writer, "that even on the night of the murder King Alexander had not yielded to the queen's wish to have her brother declared heir to the throne. On the contrary, he had intended to interview with himself published, disclaiming any intention to nominate his brother-in-law as heir-apparent."

KING PETER INTERVIEWED.

Berlin, June 19.—The Geneva correspondent of the Frankfurt-Zeltung interviewed King Peter today on the subject of the Russian note calling for the punishment of the murderers of King Alexander and Queen Draga. The new king said that concerned an international matter, and it should not be forgotten that the assassin had condoned the deed committed by the king. He gave a dispatch to the Berliner Courier gives an interview with Madame Petrovitch, the late Queen Draga's sister, in which she asserted that the king never intended to make the queen's brother heir to the Servian throne. Madame Petrovitch appealed to the premier, Count D'Anichin, for an audience with the Austrian emperor, with a view to taking action to restore her rights. She will ask for the intervention of the czar.

Pope Held No Audience.

Rome, June 19.—The pope did not hold an audience today much against his own wishes, as he said he would immediately be re-elected as pope. "I am not," he added emphatically. Indeed, a rumor that his holiness had had a relapse was already in circulation. The only reason for the suspension of today's audience was Dr. Laponi's wish that the pontiff should be in the best condition for the consistory, which is to be held next Monday. Dr. Laponi would like to stop all audiences by the pope until next Monday, but his holiness refused to accede to the desire, saying that it was his duty to go through it at all cost. The pontiff had ordered that the new cardinal, Archbishop Fischer of Cologne, and his suite, be admitted to see him tomorrow.

U. S. GRANT'S CANDIDACY.

As Yet He Has Not Announced His Desire for It.

San Diego, Cal., June 19.—U. S. Grant, when asked whether it is to be considered that he is a candidate for the vice presidency on a ticket with Mr. Roosevelt, said:

"I have not announced myself as a candidate for the vice presidential nomination, but I have known that some of my friends have entered the feeling that the position ought to come to this coast, and that I was probably as available a candidate for it as any other citizen of the United States. I cannot carry the great weight without the assistance of a western name, and I think he will favor some eastern man."

Commissioners Violate Postal Laws.

Butte, Mont., June 19.—A Great Falls special says:

Postoffice Inspector Beatty has discovered that the majority of the United States land commissioners in this section have been violating the postal laws by the use of franked envelopes which they have been having printed in their own names and using for official mail. The commissioners understood that they were entitled to do this, but it develops that they are subject to a fine of \$500 for every letter thus sent. It is not known whether charges will be preferred.

Pope Won't Receive Loubet.

Vienne, June 19.—The Vienne Tagblatt announces that all efforts to induce Pope Leo to receive President Loubet in his official capacity have failed, and the pope has decided to refuse. The president would have been received privately had he been received. It is expected that President Loubet's visit to Rome will be postponed until 1904.

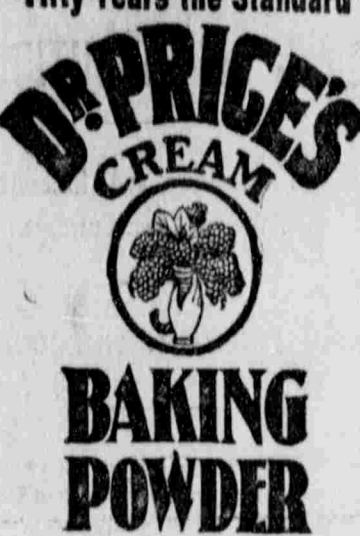

JAPANESE DIET.

Owing to Press of Bills the Session Was Extended Three Days.

Tokio, June 19.—San Francisco, June 19.—(Correspondence of the Associated Press.)—The term of three weeks of the present session of the diet expired on June 1, but in view of many important bills introduced, the session was extended to June 4, an imperial ordinance.

The naval expansion bill was approved unopposed by both houses. Marriage to thus raise a victory but his compromise with the cabinet has cost

Only four cases of plague have occurred at Yokohama in five weeks and there is no hint of the disease spreading in the face of the drastic preventive measures taken by the authorities. There were 117 cases of plague last week and 18 deaths in Hongkong. The number of cases to date is 675.

The Uraga Dock company on May 24 suspended the construction of the remaining coast guard boats for the United States government and will, it is said, carry out a wholesale dismissal of employees at the Uraga yard in a few days. The event is due to the fact that the first two vessels sent to Manila have been found defective by the civil government. Mr. Tsukakura, president of the Uraga Dock company, who went to Manila the other day, was told by the government that the authorities would not take delivery of the vessels unless the Uraga company reduce the cost of the vessels by 20,000 yen a piece.

A dispatch from Hongkong says: The Chinese who were arrested here for the murder of Young Kue Wan, one of the leaders of the reform party, in January, 1901, have been convicted and sentenced to death. The evidence reviewed by the Chinese government sent to Hongkong with the order either to kill or kidnap the reformers. Young Kue Wan was then deliberately killed by a school teacher. The central police station. The murderers have been afterwards created mandarin officials received monetary rewards and given official positions in Canton. The Chinese who were the empress of Japan was duly celebrated on May 20.

DESPERATE LOVER'S DEED.

Shoots His Sweetheart in a Coney Island Music Hall.

New York, June 20.—Made desperate by the repeated refusals of Olive Foster, a concert hall singer, to marry him, Ed. McKinney, a young man of this city, has shot and probably fatally wounded the girl as she sat in the crowded balcony of a music hall in Coney Island. McKinney was seen running toward the girl and upon the outlaw's failure to stop, took careful aim and brought him down with a shot through his hip. McKinney died three hours after being shot.

McKinney is the third one of the four prisoners who participated in a general break from Glasgow jail June 6, to meet violent death and their escape has cost five lives.

William Hardee, under sentence of death, Jack Brown, James McKinney, and a prisoner named Pierce, broke jail after killing Jack Williams, the guard. Hardee was killed in battle with the posse Monday night. McKinney was shot and killed Posseman Charles R. Hill.

Jack Brown was recaptured by the posse Monday night. He was taken from a mob and lynched. Pierce has been lost track of, and it is believed has succeeded in getting out of the country.

CATTLEMAN BATTLE.

One Killed and the Other Very Seriously Wounded.

Holbrook, Ariz., June 19.—News reached here of a desperate battle between cattlemen on the Apache Indian reservation, 10 miles south of Holbrook, in which Henry Barrett was killed and Coleman was probably fatally wounded. Both are prominent cattlemen, and have lived in Apache country for many years. Only meagre reports are obtainable, but it appears that the men became involved in a dispute over their respective grazing permits on the reservation, which are only issued at certain times in the year and are of considerable value. Only a limited number of cattle being allowed on the reservation. A duel with six shooters followed, in which Barrett received three wounds in the abdomen, from which he died within a few minutes after the shooting. Coleman was shot through both thighs and was also badly bruised about the head by a bullet from Barrett's six shooter. Coleman was still alive at last report, but there is very little hope for his recovery.

ATTACKED BY A LEOPARD.

Mme. Morelli, Trainer of Wild Animals, Nearly Killed.

New York, June 20.—Madame Morelli, trainer of wild animals, has been nearly killed by a six-year-old leopard which she was training, in one of the cages of an animal show at Coney Island. The animal leaped on her back from behind and before it could be driven off had torn at and scratched the woman almost fatally. Madame Morelli was finally rescued by a man who fought the beast off with a pitchfork.

London, June 20.—It is stated on good authority, says the Odessa correspondent of the Times, that Finance Minister is preparing to lend the assistance of the treasury to the execution of a project to construct an entirely new harbor at Odessa at a cost of £2,500,000. The new harbor will greatly expedite the loading of vessels.

Cable Will Soon Be Finished.

San Francisco, June 20.—Within a week the last link of the Commercial Pacific cable will be laid between San Francisco and Manila and the United States will have direct cable communication with its Philippine possessions. The cable ship Colon reached Midway Island yesterday, completing the link between Guam and Midway and immediately on its arrival the Anglia departed for Honolulu to close the last gap in the trans-Pacific cable. A distance of 1,160 miles, Supr. Harrington of the Commercial Pacific Cable company stated today that he believed the Anglia would accomplish the voyage in six days, spinning out the wire rope en route.

THIRD DESPERADO NOW LIES DEAD

James McKinney, Escaped Convict,
Shot to Death.

TOOK REFUGE IN ICE HOUSE

Girl Discovered Him—Tried to Kill
Her, but Cartridge Missed Fire—
Her Father Ended Him.

Butte, Mont., June 19.—A Glasgow special to the Miner says James McKinney, the last of the Glasgow fugitives who broke jail June 6, was shot to death tonight after he had made an ineffectual attempt to kill Miss Darnell, who discovered him hiding in her icehouse. The shell stuck in McKinney's rifle, and while he was endeavoring to extricate it, the girl's father appeared with a rifle and shot the outlaw through the arm. The fugitive then made a dash for the brush, but another shot from Darnell's rifle brought the desperado to the ground. McKinney lived three hours after being shot.

The morning following the killing of Hardee and Hill, the posse started after McKinney and tracked him to the Darnell ranch, about 30 miles from Glasgow. About 6:30 in the evening, one of Darnell's daughters went to the icehouse for some ice, and noticing that the hay covering the ice had been disarranged, called for her father to come and arrange it. When Darnell entered the icehouse, and seeing an old convict lying in the ice, he picked it up. As he did so McKinney sprang to his feet. The girl, taking in the situation, started for the door. McKinney, seeing her coming, raised his rifle to shoot her, but the cartridge missed fire, and the bullet struck the door. McKinney then grabbed his rifle and shot McKinney through the arm. Darnell then called to McKinney, who was running toward the brush, to halt and upon the outlaw's failure to stop, took careful aim and brought him down with a shot through his hip. McKinney died three hours after being shot.

NIP IT IN THE BUD.

That such is the case has been conclusively proven by scientific research. Prof. T. H. the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market. The young husbands are reported to be so thick now that they arise from the ground in clouds upon being disturbed. This condition is said

to extend over a large territory of range country. The grass, which has attained a very good growth, already begins to show the work of the insects, and stockmen say that it is likely that within a few weeks the range will be practically denuded of all vegetation.
