DESERET EVENING NEWS

Friday. May 15, 1868

LOCAL AND OTHER MATTERS.

CORRESPONDENTS writing for publication are requested to write on one side of the paper only. No notice can be taken of anonymous com-munications. Correspondents' names must in every instance accompany their communica-tions, not necessarily for publication, but as a guaraptee of reliability. THEATHCAL.-Last night "The Optican Brothers" was performed in good style,

though a little slow at times. Mr. Waldron made an excellent and effective representative of the brothers Franchi; Mrs. Weldron's Emilie was very good. Mr. McKenzie played a capital Chateau Ranoude Messrs, Lindsay, Margetts, Hardie, Merril, Neslen, Crowther and Mrs. Bowring sustained their several roles with their usual ability. During the dual scene in the third act, Mr. Waldron accidentally got his hand severely cut, and was compelled to use the left hand during the remainder of the fight. The fourth act presented some startling effects: the apparition of the dead brother in the chair from which the dying brother had just risen being not the least.

To-morrow evening Mr. and Mrs. Web dron make their inst appearance. The "Marble Heart" is selected for the occasion. a general wish having been expressed to witness Mr. Waldron's impersonation of Raphael, which he played here so successfully with Julia Dean. Miss Adams will appear as Marco, Mrs. Waldron as Marie, and Mr. Lindsay as Volage, the other characters being in good hands. This great play, so strongly cast, added to

the last appearance of Mr. and Mrs. Waldron, should draw a crowded house.

Due notice, the Management say, will be given of Madame Scheller's first appearance.

NEW PAPER .--- The first numbers of the Daily Democrat, published in Council Bluffs, Iowa, and edited by Alf. S. Kierolf, have come to hand. It is a fine looking, thirty-two column sheet, devoted to the interests of the New North West, and advocating the principles of the Democracy. There is much editorial ability displayed on the paper; and no doubt it will command a large circulation.

ANOTHER MURDER.-The Cheyenne Ar. gus tells of another deliberate murder, near Dale City, Mr. Geo. T. M. Davis, a brotherin-law of George Francis Train, being shot by a man named Brown. Bostow and Brown, two men who had been working for Lathrop and Gesner, got exasperated at having gone to Fort Saunders to get paid an amount due them and not finding Lathrop there as they expected. They returned from Saunders to Cambell's Kanyon, went into the store of the firm, and requested Gesner Morgan County, Utah, Fridays,... to go with them to the Summit and get the money due them. Gesner said he could not go himself, but Davis was going and he would see them paid. Bostow took hold of desner, when Day's said it must be stopped. for he would not have it going on in his store. Brown immediately raised a doublebarrelled shot gun and fired, tearing away the throat and jugular vein. Davis died almost instantly. Both men ran, but Brown was caught. A reward of \$500 is offered for Bostow. GOOD FOUNDATIONS .- This being the season when building fairly commences, we son when building, fairly commences, we would direct public attention to the importance of making good and secure founda-There has been more rain in this country for the past two years than there was before, and buildings which rest on foundations that are easily washed away, have been endangered. Several have fallen, fortunately with no serious socialents, du-ring the past Winter, and a repetition next Fall and Winter of the wet weather which we had last Fall and Winter, will bring a number more to the ground, In building security must be sought after, and houses should be erected to stand permanently not as temporary accommodations or shelters, Rock foundations should be laid up sufficiently high above the ground to prevent the washing away of 'dobies with melting snows. And builders should lay them up securely, not get through their work in any way, trusting to its being covered from sight by the wall which it underlays. If Seamless Sacks rock could be used entirely is would make, Cotton Yarn of course, the most durable structurer but where other material is used for a house, it should rest upon a solid and secure foundation.

CONCRETE .- As a good deal of interest is folt MELLON sly handed to us by Dr. Bernhisel, and

As we have no a man similarly th which all a box either la iarge enough to make m wall of one side of yo mix lime, one part; coarse broken sides until all the interstides are fit walls of a house, son

CRITICAL-George Nunn, who yesterday was thrown from a horse on East Temple Street, is reported in a very critical condition. He is attended by Drs. Anderson and Talt, The contusions in his head are of a serious character.

PERSONAL. - By sorrespondence from Bear Lake Valley, we learn that Elder C. C. Rich and family are well. Our humorous young friend Joseph C. Rich, had arrived safe in that remote region, and was designing to improve the quality and increase his quantity of brains by a deliberate and continuous application to fish diet. The "suckers" will suffer. "Them trout;" when will they arrive?

LOOKING WELL-By a gentleman just in from Cache Valley, we learn that the crops in tha valley and on the way down to this city are looking splendid, and if the "hoppers" will be satisfied with a moderate share, there will be a liberal harvest, Box Elder Kanyon, which was washed out by a cloud bursting last winter, is being repaired and the road put in good order again.

FARES REDUCED.-From T. F. Tracey, Esq., we learn that a reduction has been made in the
