Demands Election of Honest, Capable And Disinterested Officials and Repeal of Ripper Bills.

Philadelphia, June 4.-The executive committee of the committee of the 70, the reform organization which took a prominent part in the gas lease fight, and which had a ticket known as the "City party" in the field at the last city election, issued its declaration of principles tonight for the coming local political campaign. It says:

"The main end which this committee has in view is the good government of our city by the people and for the people. To accomplish this result it proposes to devote its best efforts as fol-

lows:
"First—To the election of honest, capable and disinterested officials, and to this end it will aid the constituted authorities by every means in its power in purging the assessors' list and in the honest enforcement of the election

"Second—In advocating personal reg-istration in obedience to the mandate of the people which the recent legisla-

of the people which the recent legislature so openly disobeyed,
"Third—In advocating the repeal of the amendments to the Bullitt bill, which serve to nutilate the best character we ever had. (The recent legislature amended the city charter so that after Mayor Weaver's term expires councils and not the mayor shall have the power of appointing and removing the directors of the departments of public safety and public works).
"Fourth—In insisting upon the following principles in the administration of city affairs: That the police shall be entirely disassociated from pol-

tion of city affairs: That the police shall be entirely disassociated from polities; that tenure of office in city departments shall not be dependent upon political contributions; that all contracts and proposals for the use or disposition of the city's franchises shall be given the largest publicity and ample time for contribution. The declaration urges all citizens to organize under the platform of the "City party," and, continuing, says:

"The committee is not advocating

municipal or private ownership, free silver or gold standard, Socialism or aristocracy, tariff or free trade, or anything else except honest officials, fair elections, the repeal of the ripper bills and a 'square deal' for every-body."

#### Dead Still in Gunnison Tunnel.

Montrose, Colo., June 4.—Although it is certain that dead bodies are still buried beneath the debris of the cavein at the Gunnison irrigation tunnel, which gave way last Tuesday, the work of clearing away the wreckage has been practically abandoned until something can be done to prevent further sides. The ground has loosened nearly to the surface, about 60 feet, and the dirt falls into the tunnel as fast as the bottom of the pile is taken away. The odor of decaying flesh fills the tunnel, making it a for the men to work,

#### WILL NOT YIELD TO RADICALS.

Government Determined Not to b Swerved from its Puposes by Naval And Military Reverses.

St. Petersburg, June 5, 2:19 a. m.-The Russian government has shown that if has not weakened in this hour of disaster. Instead of yielding to the stormy demands which the Radicals hoped Admiral Rojestvensky's defeat would force the government to grant, the emperor issued a ukase Sunday conferring greatly increased powers on Gov. Gen. Trepoff, making him assistant minister of the interior in place of Maj. Gen. Rydzefsky, who is made a senator; also chief of the department of police and commander of the corps of the gendarmerie.

Gen. Trepoff is given the right by he ukase to close all assemblies and congresses, to suspend indefinitely all societies, leagues and other bodies manifesting pernicious activity, and to take all other steps necessary to preserve order, so as to prevent interfering with the established regime and to suppress the revolutionary propagands.

This ukase, which entrusts almost dictatorial powers to the head of the imperial police to control the agitation now almost peremptorily demanding a constitutional representative government and the surrender of the vital principles of the autocracy, and to put down the disorders which the revolutionists are threatening the country makes him responsible to the emperor The document is of the deepest imsin, and indicates that the government, while steadily proceeding in its plans for the fulfillment of the imperial prom-ises contained in the rescript of March 3, is determined not to be swerved from its purpose by the pressure of military and naval disasters, but in its own time and as speedily as possible to give the nation the legislative body on which the Bouilgan commission has been working. In it may perhaps also be read the intimation that the war will continue and that the question of peace will not be submitted to a zem-

sky sobor. According to the Russ, the result of the labors of the Bouligan commission, which has now been printed and sub-mitted to the commissioners, does not embody a definite plan for the organization and function of a new government-al body, but rather a collection and al body, but rather a collection and classification of the necessary data for the formation of an assembly giving alternative views of the various points in the dispute and leaving the final diference in the hands of the ministers.

The material gathered by mission has been grouped under six heads. First, a historical survey of the forms assumed by popular repre-sentation in Russia from the fifth to the sixth century; second, consideration of the effect of the summoning of a popular assembly of the country under present circumstances; third, the extent to which suffrage shall be granted, whether on universal, educational or property qualifications, and whether classes and occupations should be rep-resented; fourth, the extent of the assembly's right to interpellate minis ters; fifth, the extent of the assembly' rights over the budget, and, lastly what provinces of government should be removed to the competency of the

assembly.

Thus nothing regarding the "imperia douma" has been predetermined. Min-iser Bouligan reserving the right to give his opinion to his co-ministers.

#### DIVORCES DEFENDED.

Rev. Minot J. Savage Thinks on Whole They Are Welcome.

New York, June 5,-In a sermon a the Church of the Messiah, Rev. Mino J. Savage has expressed the belief

that on the whole a large number of divorces at the present time are altogether to be welcomed.

"They are," he said, "nearly always in the interest of oppressed women, giving them another opportunity for a free, sweet, wholesome life. There are cases where the divorce laws are abused but not nearly so many as the ministers of a great many of our churches seem of a great many of our churches seen to imagine.
"Law does not make marriages. Th

"Law does not make marriages. The church does not make marriages. Men and women, if they are ever married, marry themselves. All the law can do is make a clumsy attempt to protect; all the church can do is to recognize and try to conservate a fact which already exists. But if there is no marriage, then it is desecration to keep up the sham."

not heard from my government and request time to make repairs."

Gov. Wright then said that according to his construction of the neutrality laws, the Russian vessels could remain long enough to make necessary repairs and after these were finished, they must leave within 24 hours or dismantle and intern. Rear Admira! Enquist requested permission to bring his ships behind the breakwater for repairs. This request was granted him and the ships will be moved Tuesday
