LOSSES WERE FRACTIONS. REPORT ON THE MERCUR MINE.

An Explanation Regarding Payment of Reduced Dividend.

ONE OF \$25,000 DECLARED.

South Swansea Looking Well-Bich Assays from the Young America-Reported Exodus from Nome.

As forecasted in vesterday's "News" the directors of the Mercur Mining company met late yesterday afternoon and declared a quarterly dividend of \$25,-000, or 12% cents a share. It was fully support stimulating short selling. Fed. expected up almost to the last moment that the regular quarterly dividend of last night's level, and a number of \$50,000 or 25 cents a share would be paid, and the reduction came as a surprise to many of the stockholders. A very good reason is given for the reduced amount. The treasury is not in shape to pay out any more. Manager George H. Dern has issued a statement to the stockholders, which greatly lessens the force of the blow, which such a decrease might give. The statement is as follows:

"The declaration of a reduced dividend by the Mercur, at this time, will doubtless cause some surprise and dis-appointment to the shareholders, and it is due them to state the reasons for this action of their board of direc-

March pay-rolls have not been quite completed, so I cannot figure the exact amount of the expenses for the month of March, but I estimate that on the 20th of this month, when the dividend is payable, we will have about \$30,000 on

Reference to our annual report will show that on January 12th we had on hand \$45,376.02. Hence, we not only had no surplus, but we lacked about \$5,000 of having enough to pay our January dividend. This \$5,000 had to come out of the carnings of the first quarter of 1900. of 1900.

finished at the time of the annual re-port. Since the date of the published statement, we have completed our im-provements, and have paid out an addional \$9,000 to \$10,000 on this account. "In February, we made the changes at the mill, adding the new crusher and devator, and shifting some of the other machinery, which necessitated a shut-down of nearly a week. This, of course, curtailed our receipts by several thou-

count for our deficit, and but for these extraordinary circumstances, we should now be able to pay our regular divi-dend comfortably. But in addition to these facts it is to be stated that dur-ing a part of January and most of February, we had a run of "hard luck" at the mill. For no apparent reason, at the mill. For no apparent reason, the average values ran very low—something all mines and miners experience periodically. On top of this, we were bothered with poor extraction in the mill, due probably to more or less base and talcy ore. Naturally our profits were reduced considerably by these conditions. The naveless of the care onditions. The purchase of two car-

utlay of a large sum of money. From all of these matters, it is clear that the mine practically earned its regular dividend this quarter, but it was unfortunate in not having a sur-plus to fall back upon to meet its xtraordinary expenses

During the month of March we had very satisfactory results. We produced about \$50,000, and this without any extra effort to fatten the treasury. satisfactory values, and at the present 5 cents per share quarterly. Summer work has many advantages anyway, and I feel very confident that we shall have no trouble at all in paying a 50,000 dividend in July.

I am not making excuses, but stating reasons, for our decreased dividend and I believe our stockholders will not only agree with me that there is no becasion for alarm in this action of he directors, but they will appreciat the favorable showing made, and will approve of the policy of not paying out more money in dividends than there is up the shortage. I have no doubt but

We have not done much talking about | from San Francisco the mine lately, but it is only fair to inform the stockholders that the physical condition of the property has greatly improved during the past two months. We have paid considerable attention to developing our base ores and the result is that we find we have very much larger bodies of this materia than we had supposed, and the value of the mine has accordingly materially increased.

As for the proposed Mercur-Golden Gate consolidation, there is nothing new to give out yet. Nothing has been agreed upon, but the negotiations and work of examination are progressing nicely, and the outlook is favorable for the consummation of the deal.

SACRAMENTO MEETING.

New Board Elected-Roasting Plant to be Installed-Cash Balance. At the annual meeting of the Sucramento Mining Company held yesterday afternoon a new board of directors was elected, consisting of Glen R. Bothwell R. E. McConaughy and Fred J. Leon-ard, of Sait Lake: R. A. Deal, of Spring-ville, and G. S. Hanna, of Bloomington Ill. Glen R. Bothwell is president of the company and R. E. McConaughy will continue to fill the vosition of secwill continue to fill the position of sec

retary and treasurer.

As intimated in the last night's "News" the principal subject of dis-cussion was the installation of th rousting plant advocated in the pres-dent's report. This matter was decide upon and the board was authorized proceed at once to put in a roaster. The cach balance on hand amounts to \$17.

57: *7. The total receipts during th
year amounted to \$100,088,97, from which
the deduction of \$25,000 paid in divi dends during the year, and \$72,491,99 for operating expenses, leaves a balance of \$2,507.70 from the year's run. With the amount of \$15,065.70 on hand in cash and cyanides at last meeting, the total | W. L. Andrew, who has been in Bos-

n hand amounts as stated, to \$17,572.77 Abount 760,000 shares were represent d at the meeting and a vote of con-dence in the management was adopted efore an adjournment was taken

NEW INCORPORATIONS. A Gold Mountain Company Organ-

ized-Primrose Amends its Articles. The Providence Gold Mining Com-The Providence Gold Mining Com-pany was filed yesterday afternoon with the county clerk. The capital stock is \$30,000, divided into 300,000 shares of the face value of 10 cents each. John Meyerhoffer is president of the company; W. F. Rowe, vice presi-dent; F. W. Brokjier, treasurer and dent, F. W. Brogjer, treasurer and secretary; who, with Samuel Ryser and Anton F. C. Gatheroy, form the direc-torats. The company owns the Swit-zerland and other mining claims in

zerland and other mining claims in Gold Mountain mining district, Plute county, this State.

The Primrose Mining Company has filed an amendment to its articles in the county clerk's office, by which the capital stock is increased from \$20,000, divided into 200,000 shares of the par value of 10 cents each, to \$25,000, divided into \$25,000 shares of 10 cents each. The number of directors is also increased from five to seven. reased from five to seven.

WASHINGTON COUNTY MINES. Reports of Matters There by St. George News.

E. M. McArthur left for his mining claim yesterday accompanied by a Salt Laker, who came down expressly to look

The local manager for the St. George Copper Mining Co., George Lawrence, states that he expects the smelter to resume running about the 16th inst. Harry Jennings came in from the brand Gulch mine Wednesday, and left or Salt Lake City Thursday. He reorts everything looking first-class at

Thursday morning over forty laborers went out to the Chloride to work on the Arizona and Utah extensions. Two caroads of horses, cookhouse and other supplies were also sent out. Over one hundred men and forty or fifty teams are now at work on the grade.-King-

nan Miner. George Moore, manager of the Consolidated Kansas City Smelting & Re-fining company's Salt Lake offices, ar-rived in St. George Friday, the 29th inst. Moore is reticent regarding the obble time at the Dixle mining propert He left here for Deer Lodge Friday.

REGARDING NOME.

A Canadian Paper Says There Is an Exodus of Disappointed Men.

The Rosland (B. C.) Miner has the following to say of the Nome fever which is spreading so rapidly: "We never placed any faith in highly sensation, purposely exaggerated reorts of huge profits, stated to accrue to he industrious gold-seeker on the sands bout that bleak and barren Alaskan oint, Cape Nome, Though doubtless limited number of men there made ist season fair finds, they usually pai heavily enough for them in general dis-comfort, heavy cost of living and im-paired health, whilst many others re-

urned with little but bitter experience, "Yet certain Alaskan transport and especiall in Seattle-have continued picture the Cape Nome region as a veritable El Dorado, where thousands may pick up wealth from literally gold-en sands. Thither, accordingly, went many early this year, to find little but disappointment, the gold got being too small in aggregate value to repay the heavy cost required for transportation, and for the buying of the ordinary necessaries of life, and at the same time remunerate them for large risks run of munerate them for large risks run of snyder improvement of permanent disablement or even death ty are still pending.

"The result of this is the beginning already of a big exodus of badly disap-pointed men from Cape Nome, an event which will, we trust, so far at any rate as Canada is concerned, prevent all but a very few at the most from spending probably fruitless quest of gold on Alas. ka's inhospitable foreshores."

AGAIN EXTRACTING ORE. Connection Made With Old Work-

ings of Grand Gulch Mine. Word has come from the South that a force of men have ben put to work taking out ore at the Grand Gulch mine in northern Arizona. After shipping a number of cars from the 50 foot lev which averaged 45 per cent copper, t management found it necessary to a new shaft to a depth of 100 feet. W the shaft was being pur down a 5 f vein of rich copper are was encounted of which nothing had been previous known. A crosscut has been run a d tance of 70 feet from the bottom of t shaft to the vein and an upraise of feet was made to connect with the workings, affording at the same time splendid air connection. The vein has been proved bigger and richer with depth and a phenomenal output of rich copper ore may now be looked for.

SHOWS GOOD VALUES.

Recent Assays from the Young

America Run High in Gold. Some excellent assays are being reat Tuscarora, Nevada. The last two returns showed the presence of \$25.50 \$2.40 in gold. These were taken from These were taken from an upraise off the 200-foot level. One assay taken from the top of the upraise that the Mercur could pay \$50,000 this month, and earn enough in the next quarter to make up the deficit, and pay the full dividend in July. But in values are taken is said to be blocked the first place, that would not be good business policy, and in the second place, we do not want to get our from the same distance on its same distance on i we do not want to get our treasury into that sort of condition with the prospect or amalgamating the Mercur vith De La Mare's Mercur Mines. rival of certain pieces of machinery

THE SOUTH SWANSEA.

Supt. J. V. Wheeler Reports the Mine to be in Excellent Condition. Supt. J. V. Wheler of the South l'intic district and reports the misensational changes at the mine. W ate of about 50 feet a month. Tork is being done by hand, wh takes the process slower than if maine drills were used. Connection w made some time ago with the eld workings on the 400 level, since which time shaft has been put down about for deeper. The mine is said to be in a condition to send out a great ly increased output as soon as the ne shaft enables the management to

ton for several weeks past, expects to get home during the next few days. Sales of Horn Silver stock are report. ed in the Engineering and Mining Jour-nal at \$1.25 and \$1.15 in New York last

The Taylor-Brunton sampler reported for the past two days, 14 cars of ore from Tintic, one from Stockton and one from Nevada,

Washington County News: E. M. Mc-Arthur left for his mining claim yester-day, accompanied by a Salt Laker, who came down expressly to look over the property. H. A. Cohen is back from Mercur,

where he has been on business connected with the Golden Gate-Mercur reports needed by Capt. De Lamar, who is in Italy. W. H. Nutting, who has charge of the construction of the Bingham Cop-per and Gold company's new smelter, went out to Bingham Junction today to see about letting the contract for grading the smelter site,

James Andrus of St. George, who has been in the city for several days past, expected to leave for home today. Mr. Andrus is one of the original

of the Dixie group of copper claims. A party of Kansas City capitalists have been looking over the Red Wing and York properties in Bingham and are much pleased with the merits of the two properties in which they have made

Austin Reveille: J. F. Mitchell has returned to Salt Lake City after a visit of several days. He is expected back the first of next week with a party of mining men who will make an examination of the New Pass mines.

Price Advocate: It is said that Uncle Jesse Knight of Prove, who lately bought a coal mine north of Price some eight miles off the Grundtvigs, will let the same lay idle to hold as an invest-ment. He believes it will become more valuable as the years go by. J. T. Breckon left today for Gold

Mountain to inspect the Annie Laurie mine. Messrs. Kimberley and Huck, the purchasers, have gone east, and it is said that W. G. Filer will follow them e- in a few days. Negotiations for the of Snyder Improvement company's proper-J. R. Snively, of Kansas City, has re-

Mr. Snively leaves for his home with samples of Deep Creek ore which he will use in advertising the country and nducing capital to enter the promising Grand Valley Times: The copper

ties have been developed far enough t opper ore, ranging from three to t per cent in copper and considerable silver. It is mostly a deposit in sand stone and is difficult to smelt intematte. A leaching process, or a mechanical, of extracting the metal is needed to make it a paying proposition. There are several processes offered, but the existance of processes do no good unless they are put in practice

A SALE OF SOAP.

++++++++++++++++++++

TERE'S NEWS for Soap buyers, and most everybody needs soap. We've been lucky, and want you to share it. We run across this soap and t bought it in such quantities that I we're able to sell it at 35c a box— which is about 15c less than such soap goodness ought to bring. It's made by the maker of the celebrated 4711 soap. There are odors to choose from. It's going fast-better step quick. And while we're selling soap, we're filling prescriptions just 4

street, (Postoffice corner).

THE MEALS ARE ALWAYS GOOD.

The train is crowded with agreeable surprises, but it is in the dining car that one is most impressed with the Burlington's superiority. Now, without being too atterly dainty, I am ex-ceedingly particular about my meals, and about the way they are served. For breakfast all I want is eggs, rolls, and coffee. In a Burlington dining car I am able to get just what I want, just what I would have at my own table, and for the small sum of fifty cents. The exquisite neatness of the napery makes a good meal taste all the better." Interview with a Denver merchant. Two trains a day from Denver to the the Chicago Special at 9:00 a.m.; the Vestibuled Flyer at 10:00 p. m.— Omaha, Chicago, Kansas City, St. Louis. Through sleepers daily.
