Chicago, June 19.—Five thousand freight handlers in the employ of the railroads in Chicago probably will re-ceive wage advances amounting to \$250,000 annually within the next few days. The St. Paul road yeaterday offered its men a 7 per cent in-crease in pay and other roads are pected to follow the example. The St. Paul employees at a meeting last night practically accepted the wage offer, although it is less than the advance demanded by the union, which was about 12% per cent. Copenhagen, June 19.—An interest-ing romance attachés to the reported engagement of Prince Eugene Thomás and Villy Larsen, a Danish actress. The prince is a relative of the Princess of Schasmberg-Lippe, being thus con-nected with the Danish royal family. His fiance is poor. The young people met in Vienna three years ago. The prince fell instantly in love. He traveled extensively striving to forget the actress, but when she arrived un-expectedly in Copenhagen recently, Prince Eugene proposed and was ac-cepted. The fact which stands out most clearly is that Germany is entirely isolated in the en-tanglement of alliances and agreements to which the European and Asiatic nations are parties, except in the case of the old triple alliance, which is no longer regarded as being the powerful factor in European politics, which it formerly was. The Angle-Spanish and Franco-Spanish agreements, which are entirely distinct although following the same lines, are no utilned in the dispatches April 20, when Great Britain denied that the visit of King Edward had any political sig-nificance.
