WEEK AMONG THE BROKERS

Exchange Operators.

MARKET RATHER UNSTEADY

The Range of Prices Has Been Lower Sales Amounted to 217,855 Shares, Which Brought \$178,820.50.

The mining stock market was not full of vim during the past week. On some ganization of another oil and asphaltum lays the sales were extremely light; on company in this state. The proposed thers they were fair. But prices have company will undertake the exploitauicd unsteady and in a good many intances ended up lower. This was par-icularly so with Daly-Judge, which has aropped off \$1.25 per share since Mon-lay. Daly-West started in at the becinnig at \$42.75, the closing bid this trencon was \$42.50. During the week, icwever, the stock stiffened up conderably and only fell a little short of being sold at \$44 per share. Daly teld about even. Lower Mammoth has pen rather fractious. On Monday foreon the last hid made was at 44 centr. n succeeding days the stock went up-on the toboggan and got down to a ow ebb. This morning a reaction name about. The first stock offered vas taken at 38 cents; the price stead-ity advanced and when the last bid was registered during the regular call uyers were ready to pay 42 cents for On the open board it sold at 47 ts. There is no reason assign-for the sudden change other manipulation. Grand Cenan manipulation. Grand Cen-al has been inactive. May Day osed lower. California is weaker; entury pulled through unchanged; ow York is about the same. Con-lidated Mercur has not yet recovered

om a bear attack; Wabash is slight lown, but shows indications of stif-Victor Consolidated is 2 cents while Yankee Consolidated is all f 6 cents per share under Monday's But little trading was done in th roustrial stocks. The sales of the week ounted to 217,855 shares of the value

Consolidated Mining company. Failing health is assigned as the reason, his 1 \$178,820,50. The quotations and sales of today duties here having been very confining the Bingham Copper and Gold and the Bingham Consolidated companies from their very inception and in fact he

OPTION TAKEN FORMATION OF ON WILD BILL OIL COMPANY

Business Was Light Among Stock Another Undertaking to be Launch- A Big Consolidation May Be Efed Shortly.

> CONSIDERATION NOT GIVEN PROPERTY NEAR PURITAN.

> > Option Taken by J. W. Taylor-Ohio Parties Are Interested-Important Beaver County Transaction.

A deal was closed yesterday in this city which may lead up to the formation of another gigantic mining enterprise for Beaver county. The property involved in the transaction is none other than that now under operation by the Wild Bill Mining company, Mr J. W. Taylor, manager of the Ima Mining company, for himself and eastern associates, has secured an option on the ground which calls for the immediate delivery of the entire property, after Mr. Taylor first saisfies himself that the titles are correct. With Mr. Taylor in the deal, are J. F. Hatcher and George F. Twitchell, prominent manufacturers of Columbus, Ohio. The same parties are the owners of the Hub group of claims which is situated adjoining the Burning Moscow and other noted claims owned by the Wild Bill company. In addition they have ac-quired other claims, giving them ter-ritory amounting to about 25 in all. Mr. Taylor said this forenoon that if the titles are found alright that it is the intention to effect a consolidation of the entire property and to soon inaugurate a vigorous campaign. The Hub group, he states, can be worked

ery advantageously from the Will The Wild Bill company once placed a valuation of \$200,000 upon its property, but whether the officers held out for that price or not could not be learned. The announcement has been made of the resignation of Col. Henry G. Hef-

HORN SILVER REPORT. Expenditures Exceeded the Receipts

Last Year by \$20,698. The annual report of the Horn Silver Mining company, was received in this city yesterday afternoon. The financial statement makes the following ex-

The receipts from sales of ore were: \$109,707; other sources, \$7,001.; total,

The disbursements during the past year amounted to \$137,406, thereby showing a deficit for the year of \$20,-698: but at the end of the year there was a cash balance on hand of \$58,703,

and \$8,047 worth of supplies.

The amount of ore mined was 12,15) tons, of which 4,549 tons was shipped to market in the crude, while 7,610 tons mine in Bingham today. The underwent treatment in the mill. first-class crude ore brought \$41,644: the copper ore sent to market, \$35,397 and the concentrates, \$29,583. The metalic contents of the ore consisted 203 ounces of gold: 112,813 ounces of silver: 717,353 pounds of copper, and 3,657,-062 pounds of lead.

THUNDER MOUNTAIN STRIKE. Important Find Reported Near the

M. T. Tavart and G. J. Underwood, operating a group of five claims in . Thunder Mountain, which they located ledge of quartz that carries free gold in such quantities that a conservative estimate of its value, according to results obtained from panning, place the average above \$40 per ton. The ledge is known to be wider than the breast of the tunnel, as only what is thought to be the foot wall has been exposed. There is showing a good four feet of ore that is heavily mineralized, the alues being uniformly distributed.

The property is situated about three is believed to be the main mineral belt unning from Indian creek across the district toward the northwest. This assumption is based on the fact that the country rock is mostly granite, the ledge running parallel to a wide dyke of porphyry that cuts through the for-

ORE AND BULLION. Contractor Halterman has struck

McCornick & Co. Report Settlements Amounting to \$481,300.

FORTY-SEVEN MINES.

Paid During the Month of March \$27,308,103 in Dividends. A Boston paper says: Forty-seven companies identified with the minera industry of the United States paid \$27. 308,103 in dividends during March, mak. ing the total for the first quarter of the year \$45,601,706. While the monthly record is the largest for a year past, there is a decrease of \$2.454.967 for the quarter compared with the corresponding period of last year. This decrease is the result of smaller dividends by gold, silver and copper mines. Owing to the improvement in the price of copper, silver and lead, however, there is more activity in the mining states of

a large increase in dividends by com-panies mining these minerals is looked for this quarter.

INDEPENDENT SMELTERS. Valley Plants Dispatch Ten Cars of

Bullion This Week. The shipments of copper bullion to the eastern refineries by the indepen-dent smelters during the week, aggre-gated 10 cars. The United States plant dispatched three cars, 182,074 pounds the Highland boy, four ears, 242,000 pounds, and the Bingham Consolidated the balance, averaging about 60,000 rounds to the car.

SANTAQUIN FIND. Crown Jewel Property is Developing Quite Satisfactorily.

J. A. Jacobson returned yesterday from Santaquin, where he is conducting development work upon the Crown Jewell group of claims, recently acquired under option from his brother, A. O. Jacobson and A. N. Larson.

Mr. Jacobson has had his forces at work sinking a shall which has not work sinking a shaft, which has now reached a depth of 30 feet. The result of the work performed thus far has been very gratifying. The vein at the beginning measured only 6 inches in

width: It now extends across the bot-tom of the shaft and carries values, Mr. Jacobson states, of 30 per cent lead, 24 ounces silver and \$2 gold.

About the Yampa. Last Tuesday the preliminary survey fer a bucket tramway from the Yam-la's Carr fork dump to the Rio Grande lepot was begun and that the tram-way will be built this spring is among way will be built this spring is among probabilities. The line as thus far determined will run about 75 feet west of that of the Highland Boy. Its construction would indicate, first, that a large smelter for the Yampa down in the valley has at length been decided upon, as the result of later development. nts; second, that reduction works!! not be needed at the mine, and third, If the tramway is hurried to completion, it will be because it is wanted at once so that ore can be for varded to market cheaply pending smelter construction.—Bingham Bulle-

New Incorporation Filed.

The articles of incorporation of the Irus Gold Mining company were filed in the county clerk's office today. Its capital stock is \$500,000, divided into shares of the par value of \$1 each. O. J. Salisbury is president; Grant H. Smith, vice president; G. F. Putnam, secretary; John W. Donnellan, treasurer. The company owns the Nevada The company owns the Nevado lode and a bond and lease on the Irus. Irus Nos. 2, 3, 4, 5 and 6 lode claims in the Eagle Valley mining district, Lincein county, Nevada.

Senator Lewis' Buy.

Senator Lewis has purchased the Campbell estate's interest in the Moni-tor, Red Warrior and Florence groups, in Star district. The consideration, it is stated, is \$55,000. It is understood that these properties will all be taken over by the new company that is to be organized. It is believed that the senator has also added the Attas group to possessions, as he wired instructions last Saturday for five men to be put to work on the property. These are some of the choicest properties in Star district,-Milford Times.

MINING CONCENTRATES.

Newton Dunyon is now in charge of the Daly-Judge mine and mill at Park City. He exercises supervision over both. Supt. F. W. Sherman of the Daly. West mill, has been assisting in getting the Duly-Judge plant to working prop-erly since the recent change in mill of-

LOCAL BANKS ARE CAREFUL.

Extreme Caution on Account of Disquieting Eastern Conditions.

DEPRESSION IS PROBABLE.

Nevertheless Utab With Her Diversified Interests Has a Better Outlook Than Ever Before.

In a short and interesting talk this morning, with Cashier E. W. Wilson of the Bank of Commerce, on the local business situation, he said:

"The financial outlook for Salt Lake City and Utah is certainly good. The advance in price of wool helps the sheep men, as the advance in copper, lead, and silver will increase the put of the mines and profit of the min-Heavy snows the past winter insure large crops for the farmer, and good summer ranges for the stock Barring strikes, mechanics of man. all kinds will have steady work at good wages during the coming year as a large amount of building and im-provements are in contemplation. In Salt Lake City there is a good demand for money, which the banks are taking care of with a degree of conservatism and caution caused by the unreliable eatsern financial conditions. For the past six months there has been going on a general stock liquidation made necessary by over speculation and ex-cessive capitalization. Too much business is being done on too little cap-ital, and a still further depression in the stock market centers may reasonably be expected. While Utah never seemed to promise so well—with her sugar plants, her mines, her live stock, her agricultural interest, and her railroad possibilities—yet all should keep their business affairs on a sound and safe basis, ready to meet a money stringency that might be brought on through sympathy with eastern conditions less favorable than our own. do not anticipate anything other than a gradual re-adjustment which will leave the country at the end of this year upon a more substantial basis than the first of the year found it. To charge "Prosperity" with the present money stringency in the east seems a peculiar proposition, but too much peculiar proposition, but too much prosperity alone is the trouble."

BUSINESS NOTES.

The week has been a fairly active one in commercial stocks, the main activity again having been the sugars. Amaignmated common advanced to 101. Utah preferred to \$9.95 and common to \$4.17. Consolidated Wagon is strong, its dividend of 1% per cent on the preferred being paid yesterday. good many eyes are now on Idaho Sugar and there have been frequent transfers at \$12.90 and \$13.00 per share. The laying of the corner stone of the new factory at Idaho Falls Tuesday next, and the attendant core property and the attendant core property are supplied and states. tendant ceremonies are sure to attract

Sait Lake stands fortieth in the list of cities whose bank clearings are quoted today in Bradstreet's weekly report. The figure given is \$2,649,903; a decrease of 21 per cent over the corresponding week of last year.

The stringency of the New York and Coston money markets is being felt as far west as this city, and it is learned at the local banks that eastern money can be had only on gilt edged security at 7 per cent on call. This is due to a number of causes including the decision in the merger case, over speculation, the innumerable strikes, and disturbed industrial and commercial conditions generally. It is claimed that while this will not continue long, it does for the time affect new enterprises, making it difficult for them to secure the finan-cial sinews of war for material development.

The Lawrence Insurance Agency, of this city, filed its articles of incorporacapital stock is \$5,000, divided into 500 shares of the par value of \$10 each. Henry W. Leawrence is president; J. Frank Judge, vice president and secretary; Charles W. Lawrence, treasurer.

A local architect reports 63 buildings process of erection in this city in the hands of architects, and nearly same number of small or moderate dwellings going up that are being handled by contractors, without the as-sistance or supervision of architects. It is claimed that where an architect does not supervise there are likely to b faults on construction, such as under windows, too much sand in the mortar, unequal levels of doors and windows, the use of stone that will not stand the weather, and errors of that

According to statements from the owners, the chances in the matter of the reconstruction of the Central block, are that the building will be restored to the condition in which it was before the great fire. There is not that unanimity of opinion between the owners likely to result in any radical improvement of the property.

The board of public works awarded this morning the Liberty park green-house contract to F. M. Hamlin at his proffered price of \$7.793. The work is to be done in four months.

Local architects regard with satisfaction the announcement that a brick firm in this city proposes to set up a terra cotta plant costing \$50,006, as this will reduce largely the cost of building construction. They hope also that before long a blast furnace and rolling mill plant may be set up in Iron county, so that it will no longer be neces-

sary to send to Illinois for steel goods, and pay enormous freight charges on the same.

Messrs. Ware & Treganza are completing plans for a \$7,000 double-house for George Cameron to be erected on H street between Second and Third. The structure will be 42x42 feet, two stories high, and contain 14 living rooms.

Building permits for the week were issued as follows: D. M. Lindsey, 424-6 State street,

Address G. G. WRIGHT, Box 200, Idaho Falls, Idaho.

WOOL SEASON NOW FAIRLY ON

Shearing Under Way in All Sections of the State.

CLIP WILL BE A CLEAN ONE

Storms Have Had a Beneficial Effect In This Respect-Ruling Price Fourteen Cents.

By Monday the wool season, as far as Utah is concerned, will have caught its stride and will be on the road to being in full swing. Today, weather permitting, shearing was to have commenced at the big pens at Black Rock and Milford, while at Fairfield, Price, Indian Canyon, Manti and Sterling bperations have been under way for the past few days.

Despite the rumors of heavy losses that have been in the air after every big storm during the past severe winter, the outlook for the Utah flockmasters is decidedly brighter than last year. If the storms have done nothing else they have effectually removed tons of sand from the fleeces and the verdict is, this arly in the season, that cleaner wool has nver before been shipped out of Utah to the eastern market. The ab sence of a preponderance of grit and burrs is exceptionally marked.

When it comes to the output, the opinion of growers and buyers is diversified. The general estimate is that it will be lighter than last year, but the advance in price will make up for the falling off in weight. At a conservative estimate the Utah clip will be betweent 12 and 13 million pounds. what will be the clip in Idaho and Wyoming is a matter of speculation, conditions in those two states have been about the same as in Utah. The ruling price will be in the neighborhood of 14 cents. A number of contracts were made early in the season for clips on this basis, but the subsequent action of the railroads in advanc ing the rate to Boston 181/2 cents has made buyers shy and the predicted 15 cents has only been extended to a favored few. However, the J. R. McKinley clip at Fairfield was sold yesterday to the Provo Woolen Mills company at fraction over 14 cents. Some growers who have not had to call on the loca anks for advances during the winter maintain that the price will yet touch 15 cents, or even higher. Needless to say the little army of eastern and lo-cal buyers now on the ground is not en-

Taken all in al ithe outlook for the flockmasters of Utah this season is decidedly bright and will in turn have the effect of stimulating other branches of business

BUSINESS OUTLOOK MOST CRATIFYING

Late Frosts Caused Some Damage During Week.

CROP PROSPECTS ARE GOOD.

Eastern Retail Trade Heavy - Less Complaint About Lack of Transportation.

New York, April 10. R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: "Aside from the prevalence of strikes and possibilities of further interruption to industrial activity next month on this account, the busi ness outlook is most gratifying. Late frosts caused some damage early in the week, but lower temperatures did not continue and in most sections agricul-tural products had not advanced sufficiently to suffer materially, while the prospects are bright for large crops and heavy sales of fertilizers testify to extensive operations.

"Despite some unfavorable weathers, eastern retail trade has been heavy and jobbing activity in summer fabrics indicates expectation of a vigorous con-sumption as the season advances. There is less complaint regarding deliveries, due to better traffic facilities. Railway earnings in March increased 13.8 per cent, compared with jast year, and 24.1 per cent, compared with 1891.

'Undue significance has been attached to the recent reduction in prices of southern pig iron, and throughout the country a tendency to delay placing contracts is noticed. No other cut in quotations has followed and in the trade it is believed that after the temporary uneasiness there will be a resumption of the buying on the former liberal scale. Finished steel is eagerly sought and there is increased activity in outdoo. work. Makers of merchant pipes, tools, agricultural implements and all kinds of machinery have more business than can be handled promptly. The pig iron output has bounded upward with the better movement of fuel, and in a short time production will be at the rate of 20,000,000 tons annually. These figures are the better appreclated when it is remembered that they are more than double the maximum year's output prior to 1899.

"In the textile industries there were still adverse factors, notably the labor controversies in the cotton mills. Beyond a probable revival of export pur-chases for China there is no increase in the sales of cotton goods, both sellers and buyers waiting some more definite information as to the future. Another rise in cotton material threatens a shutdown at several mills which have light

supplies and few contracts.

"Manufacturers of men's heavy-weight woolens and worsteds receive few orders except for filling out sample lines, and the situation is practically unchanged. Thus far fall business is below normal, and clothiers are not seeking large supplies of material. Wool has been fairly steady since the month opened, but none of the March decline was recovered. New business is small at eastern factories, but this is seasonable, and no apprehension is felt. Moreier than a year ago and activity is as sured for at least two months after work begins on fall contracts. Quota-tions are firmly held and local jobbing trade is brisk

"Leather is in better demand, the strike at Chicago tanneries stimulating purchases. Domestic hides have lost ported skins are also somewhat cheaper Staple products are irregular as the season advances and speculation has again become a prominent factor. 'Failures this week numbered 197 in the United States, against 198 last year, and 15 in Canada, compared with 19 year ago.'

BANK CLEARINGS.
