read there as much as a cow needs a

After getting the desired permission began to dig a trench. He dag up far as a certain old tree, and at that the moonlight one night, he was digging; but as it was known that seen digging; but as a was known that he had procured permission to open a road, no suspicion of his real object awake the curiosity of anybody, and it was not unit his sudden departure from permission of a Franch ship, that had ermula in a French ship that had an bought for cash by him, a poor that people began to wonder at udden acquisition of wealth and his souther he had been searching for decide that he had been searching for Kidd's treasure, buried there nearly two

sturies before. Suddenly he ceased his labor upon trench and ended his work just at trench and ended his work just at tree, where he had been seen dig-time, where he had bought the French warning he had bought the French and children. I have learned that and children. I have learned that and children. I have learned that ant to Canada, but he never re-d here. To my mind he carried with him the treasure of Cap-

a Kidd, the pirate. In St. George lived many people in 165 who kept small drinking places, be of them is in that trade now. One, is still a resident. At the time the civil war in the United States, while the blockade runners were prices to descent this man and enting St. George, this man and eife kept a small saloon, the wife ing as barmaid. It was well kept, two people won the confiof their customers among the e runners, many of whom de-

there were no banks and no certificates | silence, leaving shortly after with or of exchange to be had. The greater | without the objects of their search." of exchange to be had. The greater number of these depositors pover re-turned to claim their deposits. One man left a large sum with the couple, and it was some years after that a demand was made upon them for the funds, but they had forgotten all about it. The money never was paid.

"Near my store a few years ago a man was having a foundation dug and sawed out for a new house. One day while digging a workman came across a box buried in the ground years before. The 'boss' had his watchful ey-s upon it ond ofter sanding the diver on a it, and after sending the digger on a long errand, carried the box to his own home, afterward cautioning the work-

man to say nothing about it. "A new resident of Tuckerstown leased a farmhouse and a small farm leased a farmhouse and a small farm from the occupant for a good round sum. Upon coming into possession ne hired a laborer to aid him in digging at a corner of the farm pearest to the ocean. On the second day, while the man was throwing up the dirt and his employer watching his movements, he came across a wire stretched through the trench.

The laborer was sent away for the day and the employer continued the work, with the result of another lucky find of treasure, for the finding of which he had a map before hiring the Two days later the new occupant farm. of that farm disappeared by steamer for New York.

"Spanish doubloons have been found in the earth all over the islands, par-ticularly at Spanish Point, in large and small quantities. Strangers nave come here by the score with maps and tools

TREASURE IN A CAN.

Frederick G. Boggs, a merchant of Bermuda and a native of St. George, now doing business there, said: "It is a matter of history that these islands were frequented by pirates, who, for better security, burlend their treasure in the ground rather than take it with them on their dangerous voyages, but expecting to return and unearth it when their work was done. During the cen-turies millions of pounds have been buried in the earth, and most of it still iles hidden there. The blockade run-ners left a great deal of money buried here left a great deal of money buried here. In the last years of the blockade we were visited by yellow fever, and of the hundreds who died most were strangers. All crews on vessels were paid here in gold and sliver, and, as this was bulky and heavy to carry, there was only one reasonable supposi-tion chout it which were the upposi-

tion about it, which was that it was buried here for safety. 'Such discoveries have been kapt as

"Such discoveries have been kept as secret as possible, because such ind-ings must go by law to the Crown, where they are held for the owners for a long time. After years of waiting half of what remains goes to the finder and the rest to the crown. Prize money was distributed here in the war of 1812. I have been told stories of many find-ings here in St. George. "John Fox, once an alderman, a mas-ter carpenter and shipwright, died in ter carpenter and shipwright, died in the seventies. He was of undoubted in-

tegrity and truthfulness, having the confidence of all the people. He told me that several times when he was d their money with this couple, as | with which to prosecute their search in | young he had noticed a stranger strell- | ously about there, prodding the ground

of the civil war. Suspicion was aroused, as he was shy of notice and acted mys-

teriously. Apparently he was in quest of something, and he was uncommuni-cative. A short time after he disap-peared, and it was found that he had

some to New York. "A week after his departure Alder-man Fox, with some friends, one day, handing on the shore from a fishing ex-cursion, noticed the cave called 'Judy's Hole,' and one of the party suggested that they take a look into it. 'This cave was near the cemetery, and it was in this vicinity that the stranger had been within the cave they found an iron safe which had been forced open and a hole in the ground, from which it had spanish Point road, near the cottage

a hole in the ground, from which it had been dug by the stranger. "I knew Heller well, and I knew all about buying the French vessel and sailing away to St. John, N. B. In St. John the tide rises and falls forty feet. One day after Heller's arrival there his French bark, the Haleyon, had her stern broken by the tide and uhe was sold by her owner. The buyer broke her up and found in the run many bars of eilver, but inst its white role. of silver, but just to what value no man but the finder ever know. Heller brought a large tract of land near St. John, called it Hellerup and influenced many of his countrymen to go there and settl

"Another interesting find was on the Serpentine road, in Pembroke parish. From the best authority I have heard of the stranger who wandered mysteri-

WALKER'S STO

can tell more about that discovery, but none so much as he who went away with the treasure. He had a chart, but it was several days before he could locate the place of hiding, and curioslty was excited by his strange move-ments. Here is what the Gazette said on May 1, 1894;

A rumor that somebody had found treasure at Spanish Point having been freely circulated about Himilton, in-quiries, with a view of publishing such facts as we could ascertain about the matter, elicited but scant information. The report, however, is not without foundation, as may be gathered from the following: Some three weeks ago several holes were discovered bored in of the late Christopher Scon. The number and position of these holes indicated an objective point in view of the borer, and a close examination disclosed that that point had been successfully reached in the shape of a small vault built of stone under ground

This vault had been opened, but whether anything had been removed from it is, of course, mere matter for conjecture. Foster M. Cooper of Southampton, owner of the property on which the excavation was made and who subsequently visited the spot, in-forms us, in reply to a letter asking for information: "I visited the spot, as it in on my late wife's property, and found a place open about six feet long and three feet wide, apparently built up on three sides with stone, but could not tell if anything had been removed be-

ing about on the north shore, below the military cemetery, where the yellow fever dead were buried before the close tells of the treasure found, and many

WHAT THE MAYOR KNOWS.

The mayor of St. George, Joseph Ming Hayward, was clerk of the coun-cil for thirty years, and for the last twelve years he has been mayor. He is a man of undoubted veracity, and an encyclopedfa of knowledge relating to the Bermudas.

"Boried treasure?" said the mayor, "Well, sir, I think that the soil of this colony is the richest in the world, outside a gold or a diamond mine, and even as far as those are concerned the earth here contains gold and sliver al-ready coined by various nations. I

have heard a great deal about the find-ing of buried treasure and believe that most of what was buried still remains here in the earth, eh? The relations which I have held toward the people of St. George have constituted me the last person to whom a finder of buried treasure might come and tell of his

luck, because it would be my duty to seize it for the crown. "Alderman John Fox was a man who "Alderman John Fox was a man who would not life. I was born at Judy's Hole, and so were my ancestors for 300 years. I knew Sovereign Heller and knew of the receipt of the letter by Postmaster Taylor. Just before Heller began digging that trench he got per-mission from the board, of which I was clerk, to build a road up to his little house from the main road. One day I was passing the place where he was

went away a rich man, in his own ship, it appears that he came across a wind-foll of some kind."

IN THE WRONG CHINA.

A salesman in a local chinaware cotablishment is responsible for the following:

"A day or two ago," said he, "a lady came in the store and began to examine some fine cups and saucers. Nothing suited her. At last, however, she found some that pleased her, and, smiling in-nocently, said: 'Now, these are very nice, and I like the way they are made, with different names on them. If I could find some with the names I want I would take them, but all I see read "Tom and Jerry,"" -- Memphis Scimetar.

In pulmonary trouble, the direct action of BALLARD'S HOREHOUND SYRUP upon the throat, chest and lungs, immediately arrests the malady, by relieving the distress, cutting the phlegm and freeing the vocal and breathing organs. Price 25 and 50 cents. Z. C. M. I. Drug Dept.

The worst after effects of Influenza arise from deranged functions of the liver. Clear the blood at once with HERBINE, for it will strengthen the liver to withdraw from circulation the biliary poisons. Price 50 cents at Z. C.

EMBROIDERIES.

THE QUESTION of whether it pays to buy embroideries in January was settled long ago. Not alone on account of the wonderful selec. tion to be had from a fresh and very complete new stock entirely displayed, but as well the SMALLER PRICES, which are a direct result of immense ordering. As these lots are sorted and sold out you will face an advance of a third higher prices, for embroideries are among the things on upward price scale. Our order for this sale was placed last June, so escaped, but reorders will have HIGHER PRICES THAN YOU'VE EVER KNOWN ON EMBROIDERIES. Choose the summer needs this week.
