Nob Engaged Batteries at Close Range but Were Driven Off-Fighting in Many Places.

London, Feb. 20 .- A message to the Exchange Telegraph company, from Barcelona, via Perpignan, France, says a fierce battle has been fought between the troops and the rioters in the suburb of Barcelona, known as Sano. Before the engagement, the cavalry and infantry had been posted in the most dangerous points and a field battery had been located on the plaza, from which vantage point the guns could sweep the surrounding streets. When the final clash with the troops occurred, the artillery was brought into action and raked street after street. The rioters engaged the batterles at close range, but were finally driven off. It is reported that 500 persons were

killed or wounded on both sides. The entire neighborhood was wrecked by the shells. The ruins caught fire and this completed the destruction. Further fighting is reported at Mat-

Washington, Feb. 20 .- With the exeption of a few minutes given to rouline business, the senate today devoted its entire session to the Philippine question

Mr. Patterson of Colorado, one of the minority members of the Philippine ommittee, delivered his first extended speech in the senate and was given a most attentive hearing. He discussed principally the sedition laws enacted

by the Philippine commission, vigorously attacking the authority of the commission to enact and enforce such laws. He maintained that Congress alone has the power to put in force enactments of that character. He compared information furnished by the executive departments of the government

with some of the statements of Gov. Taft in his testimony before the Philippine committee, with respect to the capabilities of the Philippine peovalue of the animals on farms and ranges constitute over 93 per cent and those on farms 7 per cent. He asserted that if the 6,000,000 of

Christians in the Philippines were Prot-estant Christians, the crucities practiced on them by the American author-ities would have to stop, as no member of Congress would be able to with stand the wrath of the Methodista Baptists and Presbyterians of this country Mr. Nelson of Minesota and Mr. McCumber of North Dakota supported

the administration's policy in the isl-ands. Mr Patterson discussed at length the report made to the navy depart-ment by the two officers who made a tour of many of the provinces of the islands. The report, he insisted, re-peated positively the statements that the Filipinos were not fitted for indeindence and self-government. Sentiment for independence might be

stamped out by a great army, contin-ued Mr. Patterson, but such a course would be one of perfldy and infamy, Statchood, he said, was what the Fed-eral party demanded, and he asserted that it was by representations which led the Filipinos to believe they might eventually achieve statehood that the ntelligent Filipinos were induced to submit to American control. The situation now was, he said, that Congress could work its own will upon the Philippine islands and their people. In conclusion, Mr. Patterson referred to the fact that 6,000,000 of the people of the islands were Christians. "But,

Attempt to Rob a Mexican Bank.

Mexico City, Feb. 30 .- A daring and foolhardy attempt was made to rob the London and Mexico bank, one of the strongest financial concerns in the City of Mexico, by an unknown robber, who after killing the cashier and sceing that he would be captured, blew out his

own brains. At an hour when business was slack and when no one but employes were in the bank the robber entered the build-ing, and unobserved made his way to the vault near which was the cashier, whom he covered with a pistol and de manded that he give up the money in his custody. Upon the cashier's refusal the robber fired, the bullet striking the cashier in the head, killing him in-

stantly. Other employes made a rush for the robber, who fired three shots at him without effect. The men continued to advance, and seeing that his capture was inevitable, the robber turned his pistol on himself and sent a bullet throug his brain, dying instantly in

The dead robber had no papers of articles on his body that would serve to identify him, and other than that he was an American, nothing is known of him. He was well dressed, wore a full beard well trimmed, and was about 45 years ald. His general appearance was that of a well-to-do business man

The young couple had been friends for years, but differences in religion, youthfulness and paratal objections prevented them from be oming married, Today Sutton and his mother visited the girl's home and were shown to he room by her mother. After a short stay the parents retired to another room, leaving the lovers alone. A few min-utes later several shots were heard The two mothers hastened to Miss Ger trude's room, where they found her lying dead in hed with a bullet hole over her heart and another through the right hand. Sutton left the house im-mediately after the shooting and fell from exhaustion from his own bulletwound, a block from the girl's home.

Long Will Resign, Knox Remains

Washington, Feb. 20 .- Now that the Schley matter has been settled official-ly it is understood that Seey Long feels he is at liberty to curry out the project cherished by him to retire to private life. However, this is not expected to ensue at once, for there is no certain knowledge of what may follow in Congress, notwithstanding a belief by the administration that the case is now settled beyond revival. Therefore it is understood that the change in the cabinet circle will not take place be-fore the adjournment of the present

"DEAR MADAM :--- I am suffering from inflammation of the ovaries and womb, and have been for eighteen months. I have a continual pain and soreness in any back and side. I am only free from pain when lying down or sitting in an easy chair. When I stand I suffer with severe pain in my side and back. I believe my troubles were caused by over-work and lifting some years ago.

"Life is a drag to me, and I sometimes feel like giving up ever being a well woman ; have become careless and unconcerned about everything. I am in bed now. I have had several doctors, but they did me but little good.
