

ward. Commander Sharp (reading)-The two leading enemy's ships were well first, standing in for the Maria Teresa, on her starboard bow; yes, sir. "Now in the copy printed on the Brooklyn what is the bearing of those ships?" the Colon and the Vizcaya, all three of which we engaged, but just as soon as the enemy stood to the westward put

heim to port, swinging (a little interline here), clear of the Texas, so as to Commander Sharp (reading)-The bring the starboard battery to bear and stood parallel to the enemy." two leading ships were well on her starboard quarter. It says "quarter" WHY LOG WAS CHANGED. Vixen's log. "Then the Brooklyn is placed fur-ther shead by the printed copy of the log, is she not? "Either further ahead or the ships of the Spanish fleet further astern; yes, "In the entry made at 11:45 a. m. it

appears from your log that the Brook-lyn bore one point on the port bow of the Vixen does it not?" Commander Sharp (reading)-The Brooklyn one point on the port bow

about three niles. In the notes Brook-lyn one point on the starboard bow distant about three miles. "What is the effect of the differences

between the copy of the log book and the notes?"

"The copy of the Brooklyn printed notes would put the Brooklyn further in shore or the Vixen further out, sir, as the case might be."

Mr. Raynor-Do you remember that when you handed to Commodore Schley the typewritten transcript of the Harlow notes from which the pamphlet was printed, that you said: "Commodore Schley, these are the true notes of the fight, which will stand." "I have no recollection of using such language."

In response to questions Commander Sharp said that according to Lieut. Harlow's notes as recorded in the Vixen's log, the flagship New York had come up about an hour and fifteen minutes after the Cristobal Colon had surrendered. The record read that the New York had arrived there three to five minutes after the arrival of the Vixen which had been at 2:25. The court here asked a number of

questions. By the court-What signals, if any, were made on the Brooklyn from the ncement to the end of the battle of July 3?

"The Brooklyn had holsted the sig-"The Brooklyn had holsted the sig-mal knemy attempting to escape." That is in the notes. There may have been others, but I do not find any here." By the court-At the time the Brooklyn commenced to make the

turn you have referred to, how near to her was the nearest vessel of the enemy? "I could not estimate with and defl-

which you acted when on blockade when off Santiago. "My impression is that I received my

instructions from Commander McCalla to go inside the line of vessels and to the seaward of Santiago about two miles. That is for the 29th, 30th and 31st of May.

SIGSBEE RECALLED.

correct the official copy of his testimony of yesterday, but before he proceeded Mr. Raynor asked him what Capt. Sigsbee was then recalled to Mr. Raynor asked him whether, "In view of the state of the weather and the sea on May 26 ships could have could with safety to them."

Capt. Sigsbee replied: "Possibly, yes, on the evening of the 26th, but at risk of danger to the ships. The weather had somewhat abated, and I cannot may that it would have been impossi-

Capt. Sigsbee also made an addition to his statement of yesterday, concern ing any statement that he might have made to Admiral Sampson of any one else, to the effect that Commodore Schley was blockading Santiago harboa twenty five miles out at sec. He said: "I did not and never have stated that Admiral Schley was blockading twentye miles out at sea.

Mr. Hanna then handed to Capt. Sigabee a press copybook containing the oro himself in response to which he had proceed to Santiago to meet the fiving squadron. The dispatch read. "Proceed at once off Santiago. The Epanish fleet is reported there. Comnunicate occasionally." Capt. Sigshee said the dispatch was

correct. He was then excused.

LIEUT. DOYLE'S STORY.

When, Capt. Sigshee left the witness stand he was succeeded by Lieut. James J. Doyle, who was watch officer on board Co.amodore Schley's flagship, To his the court assented, and Mr. Samoa.

The witness then stated that the original entry in the log had made it appear that the helm was put to star-board instead of to port, as it ap-pears in the permanent log. The change, he said, had been made on the 5th of July, two days after the action

action Asked why he changed it, Mr. Doyle

"I changed it after I had a discussion with Sharp. I had been under the impression, as I have stated, that we had turned with a starboard helm. Sharp was aboard the Brooklyn on July 5 to luncheon with us and I had a discussion with him that day on that subject. I think that is the time

to four miles, and said there wer picket boats on the inside of the line. I changed it. "Do you know whether the navigator had then signed the log as correct?"

"I do not, sir." "Why were the interlined words put

"They were put in, I think-in fact, I know-at the suggestion of some per-son-probably the navigator. They were put in evidently after the log was written up, because they are in-

batteries.

erlined." "About how was the ship heading at that time-within the quadrant of a circle southward to westward, north-ward to eastward?" "We were headed at the beginning of

the battle in shore; that is to say, the head of our ship was probably about north, and as soon as the Spanish ships came out and I got on top of the port turret the ship was then moving ahead and turning with port helm, because the Spanish ships were a little on our starboard bow, but we were making

the port battery and started to swing first and brought the port battery into action. Now, then, we must have continued around there, as I know now but when I was in the starboard turret we lost sight of the ships, because they were on our port bow."

EFFECT OF PUTTING THE HELM APORT.

"The effect, then, of putting the helm aport, emitting the interlined words, in order to bring the starboard battery to bear, would be to send the vessel through more than 180 degrees, would it not. in turning?"

"Certainly, yes; we were headed about northeast, and that would mean more than 180 degrees." "The cheaper way would have been to put the helm to starboard, would

those who were guilty of the looting. Nova Scotia Provincial Elections.

It not?" "I am not prepared to say." "If the ship were headed northeast and the chase was going nearly west, or on a westward course?" "Yes, you could make the turn in that way." "Do you of your own knowledge

know of anything to prevent your turning?

When I was on top of the starboard turret it looked very much to me as though we were going to have a general melee or mix-up with the Spanish ships."

'How far were they from you at that time?" "When we took them up on the

starboard quarter after we made part of the turn, as I remember the range, it was 1,400 yards."

"How do you verify that range?" "I have no way of verifying that. We had to take the range given us." ton returned all the liberals with hand-some majorities. The contest in Colchester was a spirited one. Two Halifax capitalists. B. F. Pearson, liberal, and "What I mean by verifying is as to whether or not shots were fired at that range and how they fell." John F. Stairs, conservative, ran. and Pearson was elected. The new house

"I did not see the shots I fired at that range: I fired one, I know." Mr. Raynor then took the witness and asked him if it were not true that

the change in the log was not due to an error on the part of the witness and to no desire on the part of anybody to faisify the facts. "Absolutely," was the response.
