GENERAL STRIKE OF FRENCH SAILORS

Involves the Whole Country and May Completely Paralyze Commerce.

PENSIONS CAUSE OF TROUBLE

Government Bill Increases Them But Increase is Regarded as Inadequate-Tie-up is Complete.

Paris, May 31,-A general strike of sallors and others belonging to the French naval reserve, began at almost all the ports of France at daylight today, and threatens the complete paralysis of French commerce. The navigation committees are making energetic representations to the government, claiming that the movement is not directed against them, and saying that unless it is settled immediately it will cause untold injury to French commerce.

Unlike an ordinary strike, this move-

commerce.

Unlike an ordinary strike, this movement is not attended with bitterness, against the employers, or revolutionary feelings. The manifestations are made with the object of drawing the attention of the country to the strikers' cause. The naval reservists claim in a manifesto issued today, in which they asked the support of all classes, that it is impossible for the widows of seamen to support themselves and raise children on the pensions granted by the government.

The men are well-behaved, and as an instance of the sentiments back of the strike there is the fact that harbor watches have been provided by the strikers for all ships in port.

The government is fully affive to the importance of the movement, and it has made arrangements to assure the continuation of the maritime postal services and the transportation of perishable cargoes. The cabinet will hold a special meeting tomorrow in an effort to find a way to bring the strike to an end. Many persons consider that the seamen's union acted in this matter with undue precipitation and that all could have been arranged through a consultation with the authorities. Up to the present time the strike has been characterized by an unusual lack of disorder or violence.

The leading steamship lines are much embarrassed and have appealed to the government to take rapid steps to remove the cause of a state of affairs by which they alone suffer, although they are in no way responsible for the strike.

The naval reserves comprise nearly the enfire maritime propulation engaged.

The strike was declared by the executive committee of the National Seamen's union because the government's new bill increasing pensions from \$40.80 to \$72.50 in the case of seamen and from \$155 to \$200 in the case of captains, is regarded by the members of the union as being inadequate. The tie-up is almost complete at the Mediterranean. Atlantic and channel ports. The crews generally left their ships and the government commissioned the torpedo boats and torpedo boat destroyers to carry on the mail service with the colonies and with Mediterranean ports respectively.

The French Transatlantic Steamship company announced today that neither La Province nor La Gascogne would be able to sail for New York tomorrow, every man of both crews having abandoned their ships. Similar conditions prevail at Bordeaux.

officials of the French line have requested the government to lend them crews from the naval depots, but no reply has yet been received. Legally the companies are in a position to coerce the men, as, being members of the naval reserve, the crews are subject to heavy penalties for insubordination, but it is regarded as likely that they will try to effect a compromise. At Marseilles the sailors and long-shoremen struck almost to a man, and all the fishermen drew up their neta. The strike is as complete at Havre, but up to this evening the men had not

months:

"The month just ended was remarkable as being the second successive month of abnormally low temperatures over the middle and northern districts east of the Rocky mountains except along the immediate Atlantic coast. The record, combined with that of April, furnished a mean temperature lower by several degrees than the combined mean of the some two months of any previous year of which there is record. In the vicinity of Washington, D. C., the combined mean for April and Maywas 53.5 degrees, 5 degrees below normal temperature, while that of Mayalone was 58 degrees, also 5 degrees below normal temperature, and equal to the previous low record of May, 1883.

"The same general conditions also prevailed in greater or less degree from the middle Atlantic states and lower lake regions west and through the great corn and wheat districts, and were especially marked in the upper Mississippa vailey. In the vicinity of St. Paul the preliminary calculations, not entirely complete, indicate a mean temperature of about 48 degrees, 12 degrees below the normal temperature, and 4 degrees lower than the previous low record of

The ploneers traveled 5½ miles and haltest directly one-site or north of an old trading post, situated on the right bank of the North Fork. This trading post, was now in ruins—some few chimneys yet standing. The latitude of the left bank is 42 deg. 9 min. 24 sec. In the afternoon they traveled 6½ miles which brought them opposite Fort Flatte, or about 40 rods below, where they encamped, making 227½ miles above the junction of the North and South Forks. This camping place was about two miles from Fort Laramie, and William Clayton called it 543½ miles from Winter Quarters, which distance the pioneers had traveled in seven weeks lacking half a day, without accident, except the loss of two horses stolen by indians, and two others killed.

PROTEST AGAINST REDUCING GARRISONS.

Washington, May 31.—Upon his return to Washington, Secy Taft will find awaiting him a number of telegrams and letters from various points in the west, protesting against the reduction of military garrisons in that part of the country. Particularly strong remonstrances have come from Minnesota and Montana, where the senators and representatives have all joined forces to prevent the withdrawal of the artilleny from Fort Snelling, Minn., and the abandonment of Forts Assinniboline and Keogh, Mont.

In the absence of Secy, Taft, no re-

Keogh, Mont.

In the absence of Secy, Taft, no response has been made to these appeals, but it is stated at the war department that they cannot be heeded, as the movements ordered are deemed indispensible to the successful working out of the plans for the gradual abandonment of small useles posts and the erection of brigade posts, which will afford the troops necessary drill and discipling in the larger military formations.

Another reason for the change is the necessity of meeting the new conditions created by the division of coast and field artillery and the formation of the latter into regimental organizations.

AMERICANS NOT INVOLVED.

Washington, D. C., May 31.—Another dispatch today from American Consul Paddock at Amoy, China, stated that the dissatisfaction is spreading. This is taken to mean that the mutiny of soldiers is growing stronger. American interests thus far are not involved.

KASPAR'S MURDERERS.

Two of the Armenians Wanted as Such Have Left the Country.

New York, June 1.—Two of the three Armenians who are wanted in connection with the murder of Father Kaspar, have left the United States, according to Capt, McCafferty of the detective bureau. He learned yesterday that John Mooridan and Paul Sarkisian had been seen in a Canadian town, where they have been since last Saturday, two days after the murder was supposed to have been done. The body was found in a house in West Thirty-eighth street on last Sunday. The two men mentioned hired a room in which the priest's body was found in a trunk, Two men have been detailed from the detective bureau to go to the Canadian town and Capt, McCafferty expects to hear today that the Armenians have been arrested.
