CLUB CHAT.

The Daughters of Utah Pioneers
will meet next Wednesday at Whitney
hall at the usual hour, 2 o'clock p.
m., when the initial session of the
season will be held. The feature of
the occasion will be a lecture on Mex-
ico by Hon. James H. Moyle, who has
recently visited there. An interesting
program is outlined for the season,
dealing with subjects pertaining to
pioneer days, and a large attendance

which is a special bignear of every
woman, thin or fat.

If a double chin has already made
its appearance, one of the best exer-
cises for remedying it is to lift the
head as high as possible, then from the
point of the chin with open hand
press firmly down, keeping the head
thrown backward at the same time.
Repeat the chin and throat frequently
with cold water. Another method is
to apply some good skin food, pick up
the flesh in tiny folds and roll it firm-
ly between the thumb and forefinger,
this having a tendency to dissolve
the excessive fat cells.

For green tomato pickle, slice
without peeling four quarts of
tomatoes; peel and slice a quart of
onions and put with these two cupsfuls
of sugar, a quart of vinegar, a table-
spoonful each of salt, ground mustard
and black pepper, and half a table-
spoonful each of allspice and cloves.
Put over the fire and stew until the
vegetables are tender, watching care-
fully that the mixture does not scorch.
This will be fit for eating in about two
months.

To Make Pickled Cucumbers—Slice
twelve large green cucumbers and boil
them in vinegar for an hour. Put aside
in the vinegar and prepare a further
pickle. Allow a half-table-
spoonful each of sliced scallions, grated
horseradish, turmeric, ground black
pepper, ginger, cinnamon and celery
seed, a teaspoonful each of ground
cloves, allspice and mace, a half-tea-
spoonful of red pepper and a half-
pound of sugar to each half-gallon of
vinegar; put in the cucumbers and sim-
mer for two hours. Take from the fire
and put into jars.

Beauty of grooming, correct poise
and ability to make the most of one's
good points count for more than a
beautiful face. Any woman with a
passable face may be attractive and
even be considered beautiful, if she will
cultivate the art of being well groomed.
"There are so many great things that
go toward making a well-groomed wom-
an," said a well-known beauty cul-
tivist. "The first thing we teach our
patrons is the proper use of the mirror.
We teach women to look hope-
ful, how to wear their clothes, how to
make their eyes shine, to lift the cor-
ners of their lips, and to observe what
a pleasing effect is obtained. After a
time this becomes a habit, and the
mirror watchfulness is no longer neces-
sary. Good nature is an essential to
a woman who would appear at her
best. Grouchiness, or ill-temper, is
her own worst enemy. Good nature
depends, of course, very largely on be-
ing well dressed, and a well-groomed
woman is nearly always sweet-tem-
pered."

nection that for many years has represented the best element socially as well
as large financial interests through the Drexel branch of the family. Miss
Biddle is a splendidly educated girl whose talents were carefully trained

OF INTEREST TO WOMEN.

Mrs. M. O. Burch of Woodward,
Oklahoma, has a lucrative law prac-
tice in her town. She is one of the few
women lawyers of the southwest.

Mrs. Taft believes in woman suffrage,
she has always believed in it. She says
that except in rare instances the in-
fluence of women on politics is for their
elevation. Mr. and Mrs. Taft are ex-
amples of true comradeship in married
life.

The Independence party of the state
of Illinois adopted a woman suffrage
plank in its state platform and nomi-
nated two women for the board of
trustees of the University of Illinois.
Mrs. Elizabeth Kirkpatrick of Chicago
and Mrs. Winifred Fay Godey of Joliet.

Chimes to the memory of Alice Free-
man Palmer have been placed in
Mitchell town of Chicago university.
They consist of 19 bells, the largest
weighing 2,234 pounds. Mrs. Palmer
for several years was connected with
the university and these chimes will be
a sweet reminder of this great woman.

Out of 1,700 children examined lately
in the District of Columbia, under the
new child labor law, 70 boys and two
girls were rejected because of physical
disability. The increase of physical
strength among girls and decrease
among boys has for some time attract-
ed the attention of educators. If this
condition continues for another gen-
eration, sound will be the strong sex
physically as well as morally.
