## O. S. L. CO. SUES FOR HOT SPRINGS

Railroad People Claim Celebrated Sanitarium Was Included in Original Land Grant.

### SHORT WAY TO MAN'S HEART.

Why Abraham Parker Married at 80—Sleepy Passenger Jumps from Car Window—News Briefs.

Ogden, March 26.—A suit that will create a great deal of local interest is that which has been filed at Brigham City, Boxelder county by the Oregon Short Line Railroad company against the Utah Hot Springs Sanitarium company, which is owner of the Utah Hot Springs, nine miles north of this city. The action is brought by the railroad company to perfect their title to the property, upon the allegations that the hotel and improvements are upon the plaintiff's property. They further allege that the old land grants of 1859, from Congress included this land. The sum of \$2,000 is claimed for damages for the detention of the property which is valued at \$100,000.

Since the filing of the complaint in Boxelder county, which was necessary as the bulk of the property is located there, the defendant company alleges that it has discovered evidence to the effect that the property upon which the hotel and improvements are located, is not in the grant by the government. The defendants further allege that the railroad company did not follow the surveyed line, especially where a slight cut or curve could be eliminated. In this case the defendant alleges the railroad company encroached upon what became the property of the defendant.

The outcome of the case will be decided with interest on account of the interests involved. The Hot Springs

### WEDDING PERMITS.

Marriage licenses have been issued by County Clerk Dye to the following couples: George H. Randolph of Ogden, and Emma R. Rowe of Monticello, Utah; Leslie Fuller and Alice Burnett, both of Ogden.

### SHORTEST WAY TO A MAN'S HEART.

The above was the statement made by Parker yesterday afternoon, when he and his bride of two days went there to have a deed conveyed to the bride all of the property in the groom's name in this city.

On Tuesday, when the couple secured their license at the clerk's office, the bridegroom said that they had business to transact at the recorder's office. When they arrived there Mr. Parker asked one of the clerks to draw up the deed conveying all of his property to his bride. Accordingly, the deed was drawn up, and was recorded yesterday.

## DEPUTY SHERIFFS AND NEGROES HAVE A BATTLE

Guthrie, Okla., March 25.—On the scene of the famous Creek Indian uprising of last year, at Hickory settlement, two negroes were killed, many wounded and 49 negroes captured in a battle between 20 deputy sheriffs and 100 negroes. The fighting began last Wednesday afternoon and continued with interruptions until 1 o'clock today.

A posse of five deputies went from Henrietta 18 miles to the negro settlement to arrest cattle thieves thought to be concealed in a negro's house. The deputies were met at the outer edge of the camp by a party of armed negroes who refused to allow them to enter. The deputies persisted, and were fired upon. Outnumbered, the five men fled.

A few hours after the first clash, a larger posse, heavily armed, reached the settlement. Someone fired a shot, and the fighting was on. When night fell the excitement increased, and negroes roamed through the woods, firing guns and yelling.

The fight continued as a series of duels throughout the night, the negroes retreating gradually from tree to tree as the deputies advanced, firing. Reaching the settlement the negroes barricaded themselves in their huts and could not be dislodged.

At daybreak firing ceased, and neither party made another move until 10 o'clock, when the deputy sheriffs renewed their attack. About 300 shots

were fired in the last encounter, when two negroes were killed and Deputy Sheriff Rowley was injured.

At the first onslaught the negroes were dislodged and fled. The posse pursued and captured 49.

The Place to Buy Your Bed

GOLD DUST will take the grime and smut, grease and dirt from your pots and pans in a twinkling, leaving them as clean as when new

GOLD DUST is so far ahead of soap for cleaning pots and pans, that the woman who does not use it is really doing about twice as much work as necessary. The soap merely cleans off the surface, and does not dig deep after the germs of decay which accumulate on pots, pans and kettles which are in constant use.

GOLD DUST does more than clean—it goes to the very heart of things, kills every germ and sterilizes your cooking utensils. It makes them sanitariously clean and safe.

GOLD DUST does the work in just half the time that it can be done with soap or any other cleansers.

GOLD DUST is a vegetable oil soap in powdered form which starts to work the moment it strikes the water; it cleans quickly, easily and thoroughly.
