MINING, BUSINESS AND STOCKS.

THE THE REPORT OF THE PARTY OF

MINING STOCKS CLOSE STRONG.

The Week's Business Was Large And the Market Healthy.

PRICES FLUCTUATED MUCH

Lower Priced Issues Were Favorites -Park City Stocks Closed Stronger While Century Weakened.

The session this morning of the mining exchange closed an interesting week's business in Utah mining stocks. During the week many issues were more or less active, while prices in not a few instances fluctuated widely and trading was about equally divided between the professional and outside traders accounts. The market on the whole displayed a healthy condition and a tendency to improve. The total business transacted involved 406,554 shares and \$262,875, as compared with 359,786 shares and \$249.555.90 the week pre-

Some of the larger and more conservative brokers predict a much improved market during the next six months and in their market letters advise the purchase of all the better class issues. These they predict will sell for much higher prices in the near future.

During the week just ended the lower priced lesses were to prove the series of the series where the series were the priced lesses were to prove the series were the series were

priced issues were in much demand and were subjected to much manipulation. California nad Century, Lower Mam-meth, Con. Mercur and Yankee were all heavily traded in and sold to lower figures. However the properties owned by these companies are at present in th fine condition that any bear movement met with small success and was of small duration. The several stocks named closed today very firm and with a tendency to higher figures.

Mammoth developed much strength and Daly Judge and Majestic were held very closely though in considerable de-The week closes on the following

ALTA SHIPPING SEASON ENDING.

Little Cottonwood Camp Experienced Much Increased Activity.

MANY PROPERTIES WORKED

Shipments Amounted to \$20,000 More Than 15 Mining Camps Were Prospected and Developed.

The most active season at Alta in many years is rapidly nearing an end and with about the first snowfall work will cease on all but a few properties. Supplies are now being taken in by those mine owners who intend to continue development work through the winter, while the last shipments of ore to be forwarded to market before next spring are now being prepared.

The famous old camp, which drew world wide attention to Utah in earlier days by its mines, productive of millions of dollars, has experienced new life and interest this summer.

More than fifteen properties were prospected and worked and men have been kept quite continuously on the following: The Albion, Grizzly and following: Lavinia, Montezuma, Flagstaff, Columbus, Homestake, Katherine, Darlington, Centennial, Emma, Reed and Benson, Oxford and Geneva, City Rocks and

several others. Shipments aggregating 700 tons or more and worth about \$20,000, were for warded to the local smelters, while almost as much more ore was mined in the course of development and not

shipped. Some of the larger Utah mining operators have this summer acquired hold-ings to the old camp and next season very much of a boom is expected.

ONTARIO DIVIDEND.

Stockholders Today Distribute Third Quarterly Dividend This Year.

The Ontario Mining company today dded another \$45,000 to its magnificent dividend record which now aggregates no less than \$14,872,000. The big com-pany has so far paid \$135,000 this year and will no doubt pay another 30 cent lividend in December.

Reports from the mine are to the effect that about 2,000 tons of very good ore is being forwarded to the smelters each month while the condition of the mine is very fair. The main shaft is hearly down to the 2,000 level and drifts will be started within the month from at level. The famous old Ontario is career yet and from all reports divi-dends can be continued at the present with perfect ease and safety inlefinitely.

BIG NEVADA PROPERTY. Campbell Mining Claims Are Being

Experted Now. Manager G. S. Holmes of the Knutsord stated last evening that some time next week he intends leaving for the Campbell properties in Lincoln county, Nev., which were recently acquired by nimself and Frank Knox for \$350,000. "We have 30 men now employed on the property," said Mr. Holmes, "and under the direction of two experts, sent

out by New York parties, the property, which covers an area of 12 miles, is being thoroughly examined and sampled. The work has been going on for three weeks, and will yet take time. I don't expect that we shall sell or form a company in less time than year as we want to know exactly that we have. The property is fairly what we have. well developed and shows gold, silver, copper and lead ores. It is located about 40 miles from a railroad, but within three miles of the surveyed lines of either of the new roads to California.

MACKAY COMPANY'S PLANS. New Smelter Has Greater Capacity Than Was Expected.

Arrivals from Mackay, Ida., that very important and extensive changes in the plans of the great Mack-Mining company are now in course of formation.

The management only recently its fine new smelter fired up and while everything worked as if was found that the plant has a greater capacity by far than was expected Also, that over the ten mile railroad enough ore cannot be handled to supply the demand. It is stated that the increased capa-

city of the plant will simply enable the company to make more copper bullion and to smelt the immense quantity of ore new blocked out a little quicker. But to do this an overhead tramway is going to be built at least part of the way from the mines, which are located in an air line only a few miles from the smelter. The mountainous character of the country necessitated a railroad ten miles long and with so many curves that over on hour is rein making the trip. It is expected that with this change made the company will speedily get on a most satisfactory earning basis

ORE AND BULLION.

Week's Settlements Again Show Very Good Increase.

Ore and bullion settlements on the open market in this city during the past week, as reported by McCornick and company total \$443,100, as compared with \$360,400 last week. Besides the above total Highland Boy and Bingham forwarded to eastern refinerles, The ore and bullion settlements in this city for the past four weeks ex-clusive of Highland Boy and Bingham Con., bullion worth \$500,000, amounted

WEEK'S TINTIC SHIPMENTS. Show Gratifying increase in Tonnage - Other Notes.

Special Correspondence. Eureka, Sept. 20.—The shipments from the Tintic district are increasing being shipped this week than last, the Dragon Iron mine taking the lead with The Centennial Fureka and Grand Central with 17 cars each; Gem-ini, 12; Eureka Hill, 16; Carisa, 8; Yan-or peasant had named his son "Emile." inl, 12; Eureka Hill, 10; Carisa, 8; Yan-kee Con., 6; Bullion Beck, 5; Uncle Sam and Alaska 4 each: Mammoth, 3: Ajax, 2 and Martha Washington, 1, making a total of 115 cars. One bar of bullion was shipped from the Mammoth mill. Development work at the Biathe mine in Death Canyon, West Tintic, is pro-

gressing very satisfactorily to the shareholders. Supt. B. F. Fleiner, who has charge of the property, states that the prospects for a great mine in that end of the district are very favor-

R. S. Robertson, superintendent of the Annie Laurie group of claims in North Tintic, is hard at work sinking a winze in a body of quartz and iron and with depth has no doubt about the result. depth has no doubt about the result. The tunnel on the property is in 300 feet and the appearances at the claims are such as to give every promise of a great future for the Annie Laurie property and her adjacent neighbors.

The builders of the new ore bin for the Grand Central mine have all the frame work completed and the roof and outside iron on the building will be completed as soon as the lumber ar-rives which is expected in a few days. Workmen are now engaged in erecting the towers which will support the ca-bles of the new tramway. A coal bin which will hold two cars of fluel and an elevator to hoist the coal to the tramway are to be constructed at the terminus of the railroad track.

The Gemini mine has been making its usually heavy shipments of high grade ore this week, and another big divi-dend is in sight for the stockholders. The ore bodies to the north, from which the big shipments are being made, are increasing in size as work progresses, with no diminution in their riches, and it begins to look as though the Gemint will be one of the very big mines of Utah. Owners of properties in the vi-cinity of the Gemini workings are beginning to bestir themselves in view of the recent big developments.

PARK CITY SHIPMENTS.

Average Tonnage Forwarded - California Sends Good Concentrates.

Only an average tonnage of ore left the Park City bonanza this week, California came forward with a consignment of very nice concentrates and the total shipments aggregated 3,883,449

As reported by the Mackintosh sampler the shipments were as follows:

Anchor 254,290 California 154,420 Total 5,383,440

MINING NOTES.

Silver is quoted in New York today at 51% and copper at 11%.

Tonopah ores to the extent of six carloads, valued at nearly \$25,000, will be marketed today.

Mammoth concentrates to the extent of two carloads will be forwarded to the smelters today.

Colonel Dorsey and Frank B. Cooke have returned from a tour of Beaver county properties.

On the mining exchange yesterday transactions involving 88,843 shares and \$37,200, were recorded. Ore and bullion settlements in this

city yesterday as reported by McCornick and Co., amounted to \$76,700. Manager Geo. H. Dern of the Con. Mercur has returned from the mines

after some days' careful inspection of operations there. Manager Richard Alff of the Caribou Mining company operating in the American Fork district, has again left

for camp. Seven more carloads of Grand Central ore were released from the pler today as was also one carload of Bullion-Beck.

Manager Loose of the Grand Central came up from the south last evening. He reports the tramway to be rapidly nearing completion. Samuel Newhouse is scheduled to

reach New York from Liverpool morrow and to continue his journey westward within a week or

A. S. Conner has returned from Park valley and reports the Brooklyn mining property to be looking especially encouraging at present. Colonel Heffron of the Bingham Con.

reports two car loads of copper-gold-silver bullion (120,000 pounds) to have been forwarded east this week. It is reported that the ore zone has

been encountered in the Richmond-Anaconda ground which is being worked by the La Reine company.

Contractor Burke of the firm of Dederichs and Burke, has gone to California o superintend work on the Red Cross Mining company's new mill for two weeks or more.

The new offices of the Majestic Copper Mini ngeompany in the Dooly block, will be ready for occupancy ear-ly next week and will be presided over by Secretary Jos. Henshaw.

Superintendent Frank Janney of the Bamberger's De Lamar proposition came in from the mines last evening, and reports everything being hurried towards a condition of productiveness.

The Taylor and Brunton management today reported the following shipments as having been sampled: Eight cars of ore and two of concentrates from Tintic, and six cars of ore from Tono-

Manager McIntyre of the Mammoth believes that the recent gold strike in that property above the 1,300-foot level is a very important one. He describes it as a strong body of quartz, of per-manency and excellent values. The old mine is truly a wonder.

The New Mercur company which owns the Geyser-Marion property at Mercur, has levied an assessment of two cents a share, or \$4,200, which will be used to pay the company's debts and to do some assessment and development work.

"EMILE" AND "NICHOLAS."

Ever since the French and Russian alliance was definitely concluded it has pleased the Parisian to christen his son Nicholas, and respectfully inform the Tsar of the occurrence. Sometimes. came a little gift in return, or a letter, and the Parisian rejoiced and felt friendlier than ever toward Russia. But few Russians returned the compliment by naming their sons after Felix Faure. There are not many "Felixs" in St. Petersburg and Moscow-for although the late president really made the alliance he was unpopular at the Russian court and thought little of by

M. Loubet, however, has won the esteem of the Tsar and the heart of his subjects. Constantly is he informed and, says the Figaro, M. Loubet, with characteristic kindness, never fails to forward a word of thanks and a little gift. So are there scores of "Emiles" in Russia and scores of "Nicholases" in France.-Paris Correspondence London

STOCKS WERE IN ACTIVE DEMAND.

At Opening Prices Were Carried Up All Around.

THINGS WENT BOOMING

Until Hank Stat ment Appeared Which Turbed the Whole Market hownward.

~~ New oYrk, Sept, 20. - There was an active and well distributed demand for stocks at the opening which cariled prices up a fraction all around. Strength was renewed in the stocks which figured most prominently in yesterday's rise, including Canadian Pacific, Illinois Central; New York Ceneral; Pennsylvania, Great Northern preferred, and St. Paul. St. Paul made the maximum advance, touching 198%. The improvement in these stocks had a sympathetic effect on the entire list. but the western and Pacific and southern stocks did not make much response. The disclosure that the reserves of the banks showed a deficit of \$1,642,050 below the legal requirement turned the whole market downward on active dealings. St. Paul lost all its gain and earlier gains all around were wiped out. The closing was active and easy.

It is impossible to avoid recurring igain to the evil state of Italian monu-nents of antiquity. The effect of the ill of the Venetian campantle in wakng up the country to the dangerous andition of its treasures, is very far rom being exhausted; and the question continues to arouse the greatest inter-

The last slarm is sounded at Pisa, where the famous leaning tower, the dome, the Baltistero, and the Camposanto are all found to be in a more or less threatening condition. The lean-ing tower, it is true, only exhibits a few cracks, which do not yet cause any im-mediate anxiety, though they cannot afford to be disregarded. The Camposanto, however, is suffer-

ing from decay in the internal parts of the lower courses, and the corresponthe lower courses, and the correspon-dent of the "Tribuna" goes so far as to say that any violent storm might bring it crashing down.
In the cupola of the dome it has been

In the cupola of the dome it has been discovered that water penetrating through the bases of the pinnacles has entirely destroyed the enamels of the Four Evangelists, while the inner plaster has been so loosened as to endanger the supports of the roof. Lastly the roofs of parasitic plants have forced their way between the ribs of the cupola of the Baltistero, and instant attention is demanded.—Rome Correspondence London Leader. minimum minimum

BUSINESS NOTES.

One of the most surprising features of the past few weeks in financial cir-cles has been the indifference with which our money interests have viewed the stringency in New York. Nothing could better illustrate the growing incould better illustrate the growing in-dependence of the west in money mat-ters. Not very long since a flurry like that which the New York market has recently sustained, (when money shot from 6 per cent to 20 per cent per an-num) would have set western finances all in a tremor. Now such flurries pass almost unnoticed. The tide of our de-posits is probably at high water mark at the present time and probably there at the present time, and probably there never was a time when so much money was hunting investments in Salt Lake as at the present. This is illustrated by the quest for local securities, which keeps up unabated. The main activity of the week has again been in Utah Sugar, which advanced to \$17.50 per share, over a thousand shares having been sold at that rate. As already recorded in the "News," the sugar fac-tories of the state will be operating in full blast next week, Ogden and Logan having already started, and the crushing operations beginning at the Lehi plant Monday morning.

Following are the latest quotations of | Stocks: | Deseret National bank | \$285.00 | |

Building permits issued during the week were as follows: Robinson Bros. Co., Fourth South between Seventh and Eighth east, factory building, \$2,000; Albert White, 438 H street, brick cot-tage, \$1,500; R. H. Hardy, Ninth South between First and Second East, brick cottage, \$1,500; J. P. Gardner, 128 Main street, alterations, \$1,000; Anna Cracroft, Eighth East between Seventh and Eighth South, frame cottage, \$300; and Eighth South, frame cottage, \$300; Ludwick Lew, Fourth North between First and Second West, brick cottage, \$1,900; Ludwick Lew, Fourth North be-tween First and Second West, frame barn, \$100; Joseph E. Taylor, 250 east First South, double brick residence, \$5,-000; Wm. S. Naylor, 971 east Tenth South, brick residence, \$4,000; Mrs. May Garrick, Fourth North between Third and Fourth West brick cottage, \$1,000 and Fourth West, brick cottage, \$1,000; E. M. Davies, Fourth South between Eighth and Ninth East, brick cottage, \$1,500, Total, \$19,300.

The week has been quiet, if not positively light in financial circles, and banking men say there has been no distinctive feature.

Insurance men call attention to the fact that the removal of two prominent fire insurance companies from E. H. Peirce's agency is not a board and non-board matter, as one of the morning papers states, and that the change was made because the companies did not approve of Mr. Peirce's ways of doing business, particularly in the matter of writing policies at low rates when high rates should have been quoted.

Salt Lake Bank Clearings

Salt Lake City \$ 3,421,960 Totals U. S. 2,496,579,672 43.3 Outside New York 800,017,507 30.0 Totals Canada 47.838,430 28.9

of burnt wood were presented

SOCIAL AND PERSONAL. Yesterday Miss Forence Dow entertained at a delightful garden party at her home, about 39 of her friends being present, Ping-pong, musical games, and dancing were the features of the afternoon, which was spent on the lawn Miss Laura Bird was the prize winner in the guessing contest, and souvenirs

guest. Miss Lena Preston and Mr. Chris. Diehl were guests of honor at a dinner given last night by Mr. and Mrs. Harry S. Knight at their home. The dec-orations were in red and the place cards were in red and the place cards were pictures of Miss Preston on burnt paper. Covers were laid for ten.

Mrs. Arthur Brown gave a delightful supper last night in honor of Maud Davies.

Miss Pauline Terhune leaves today for the east to enter Smith college. Mrs. Allen G. Campbell is in the city for a few days and during her stay will be at the Knutsford.

Mrs. L. L. Terry and Mrs. Akers will give a luncheon at the Alta club next Thursday.

Mr. Paul St. Tatel of Cincinnati, Ohio, and son of ex-Mayor Gustave Ta-fel of that city, arrived here last week, as a guest of Harry A. Gibson. Mr. Howard, the Denver harpist, and Mr. Skelton, were entertained at the Commercial club at dinner last Thurs-day evening by Prof. J. J. McClellan.

Mrs. W. C. Hall entertained at dinner last night in honor of Mr. Willingham of Atlanta, Ga., Mr. and Mrs. Sheriy of this city and Miss Kelly of St. Louis, The table decorations were profuse and beautiful.

The wedding of Miss Minnle Alice Bartch and Mr. William Hawes Child will take place on Tuesday, Sept. 30.

ARBITRATION IS NO PANACEA.

Has Not Value in Labor Troubles Some Think it Has.

SO SAYS CARROLL D. WRIGHT

Proper Way Is for Both Sides to be Fair and Decent and Settle Their Differences Themselves.

Ccicago Sept. 20 .- "I do not think that arbitration is the panacea for la-

bor troubles that some persons seem to

consider it" said Carroll D. Wright,

United States commissioner of labor,

last night. "That is why I did not recommend it in my recent report on the coal strike." Mr. Wright is on his way to Minneapolis, where he will deliver an address on "Is there a solution to the labor question?" before the national

convention of employers and employes next Monday and which will be addressed by President Roosevelt next The practical, and to my way of thinking, the proper way to settle la-hor troubles," said Mr. Wright, "is for both sides to be fair and decent and settle their differences themselves. They ought to be able to do this bet-ter, and certainly can do it with far more mutual satisfaction than by

The commissioner does not take a hopeful view of conditions on Pennsylvania.
"I cannot say when the strike will

ing outsiders step in and settle their

nd," he declared. Speaking of President Roosevelt's position in the matter, Mr. Wright said:
"I know that the president was, and
is, exceedingly anxious for the strike to be settled. But I know also that his position was and is most difficult, because if he stepped in it would be charged that he was using the power and influence of his official position in favor of one side or the other. It is for this reason that he has done more than he has.'

To Preach Against Sunday Trading. Chicago, Sept. 20.—Upon the request of the Retail Clerks' association, min-isters in all sections of the city have agreed to preach against the evils of Sunday trading. They have set aside Sunday, Sept. 28, as the date for their sermons and the services will be at-tended by delegations of clerks, who will distribute literature among the worshippers.

To Move into Bartholin Residence,

Chicago, Sept. 20.—Judge Dunne has granted to Frederick Bartholin, half brother of William J. Bartholin, who killed his mother and flancee, permission to move into the residence at 4310 Calumet avenue, where the aged woman was strangled to death and where
Minnie Mitchell may have been killed.

At the end of 30 or 40 days, if a
proper showing be made, Judge Dunne
promises to remove the receiver for the property

The property is mortgaged for \$4,500. The objection to the removal of the re-ceiver was based on the fear that relic hunters might attack the property.

Actress Claims a Fortune. New York, Sept. 20.—At a hearing in Long Branch, N. J., witnesses have testified in behalf of Laura Bigger, contesting the will of Henry M. Bennett of Pittsburg, that he was married to the actress in Hoboken on Jan. 2, 1898, and a child was born. It was considered that the actress, who had been his secretary and received about \$300,000 under the will, had greatly strengthened her claim to the entire fortune estimated at \$1,000,090, alleging that she was his widow.

FRIDAY'S RECITAL.

Gallery of Tabernacle Well Filled-The Numbers Rendered.

The gallery of the Tabernacle was

well filled last evening on the occasion of the regular recital, and the crowd was a very appreciative one. Miss Maud Reese-Davies, the soprano that accompanied Sousa and his band the past few seasons, was to have rendered a number, but sent Organist McClellan word during the day that she could not fill her appointment, and there was disappointment when this was made known to the audience. When notified of the inability of Miss Davies to be present, Mr. McClellan at once set about to supply a number which would be equally attractive and he secured Mr. Howard, harpist, and Mr. Skelton, violinist, who rendered a solo each, and in conjunction with Mr. McClellan played 'Eligie' for violin, 'cello, harp and organ, the 'cello part being played, with good effect, upon the great organ. Mr. Howard played Oberthur's "Son Without Words" and won hearty ap plause for his neat work upon the gold-en instrument. Mr. Skelton played in rare style the "Intermezzo Cavelierra Rusticana." The The organ numbers were "March of the Villagers," (Fumagalii); Aria from "Mignon" (Thomas); "Moment Musical," (Schu-

bert), and Wely's celebrated "Offertory The only thing to mar the enjoyment of the occasion was the rudeness on the part of some people, who began to break for the doors while the last number was being played. The organist stopped abruptly and the audience caught on to the meaning of the action and began to applaud vociferously. The rarties dropped into seats as soon as they could and the number was performed to a most orderly house. That Salt Lake people were largely in the majority among these disturbers is re-

well known soprano from Washington, D. C., will assist. WHEN COURTESY FAILED.

At next Friday's recital Mrs. Nelvin,

The following was heard at the corner of Broadway and Forty-second street the other day as the rain was pouring down in torrents. Two people, a gentleman with an embreila over his head and a young woman without one, stood waiting for an uptown Broadway The gentleman, who was a mem er of the company playing in a near-

drenched condition, stepped up and re-

drenched condition, stepped up and re-spectfully addressed her. "Pardon me," he said, "but may I offer you a part of my umbrella until the car reaches the corner?" "Sir!" exclaimed the dripping lady in indignant tones, "I don't know you." "Well as to that," answered the actor nonchalently, "I'm probably taking as much of a risk as you are," and moved a few steps away just as the heaviest downpour came upon them.—New York

Clipper.

Another Week of

Shoe Selling.

The crowds have been so great at our \$2.65 sale the past week that hundreds of people cou'd not get accommodated on this have decided to conaccount we have decided to con-tinue this sale for another week, SEE OUR WINDOW.

Fruit and Other Crops. Special Correspondence. Indian Valley, Washington, Co., Idaho, Sept. 16 .- This part of the Union Stake of Zion is no longer a branch. On the 7th of this month we enjoyed a visit from President F. S. Bramwell and his counselor, L. J. Jordan, when we were organized into a ward. Geo. W. Rose was sustained as Bishop with Geo. H. Horn and J. W. Baxter, Jr., as counselors. The new meeting house was also ded-

feated.

so, in the interests of the Relief socie-ty. In this organization Sister Mary Baxter was chosen president, with Eliza Griffin and Elizabeth Judd as counselors.

To say that we had a time of rejoicing but poorly states the case. Three meetings were held. All were well attended, the meeting house being full. Traveling Elders John E. Lee of Ran-dolph, Utah, and Banks of Soda Springs

Sister Emma C. Rushton was here al-

were here to enjoy the conference.

SPLENDID CROPS. The crops in this vicinity are fine as The crops in this vicinity are fine as they have ever been. Fruit trees are loaded with fine fruit, many breaking under the great weight. Melons, tomatoes and such like are exceedingly fina. The mountains have been full of buckleberries; many people took an outing thither all coming back loaded down with this luscious fruit.

The health of the people has been splendid here this season, for which we are truly thankful.

are truly thankful.

Next Sunday we expect Stake Superintendent of Sunday Schools Grant
Geddes to visit our school. Our school
is doing well considering all things.

The "News" is a very welcome visitor
