

BASEBALL MEETING THIS AFTERNOON

Organization of New League to be Completed.

SAMUELSON WAS POCKETED

Prove Roy and Oscar Julius Were Caught Napping and Lost Another Lap Last Night.

This afternoon representatives of Helena, Great Falls, Butte, Pocatello, Boise, Logan, Ogden and Salt Lake are to meet with President Critchlow of the Northwest league lately organized, and attend to matters of detail pertaining to the organization. It is not certain that Boise and Logan will come into the league but both towns have been invited to send a representative to participate in this afternoon's proceedings.

The meeting is held at Boardley's Tavern, and it is expected that at the conclusion of the same the question of baseball for the season of 1902 so far as the cities named are concerned, will be definitely settled. The meeting was called a few days ago by President Critchlow, and the situation is to be discussed thoroughly from Alpha to Omega.

The most important matter for consideration, and upon which hinges the success of the league, is the raising of rates. That disposed of, a schedule will be formulated and adopted. Those who are directly interested in the project believe they will have no trouble in securing reasonable rates for the season, and when that matter is disposed of all will be smooth sailing.

Both these matters will require some time and another meeting will be necessary unless the representatives decide to remain here and settle the business in one session.

LOST ANOTHER LAP.

Samuelson and Julius Were Caught Napping Last Night.

New York, Dec. 11.—Eight thousand people at Madison Square garden to see Walthour, fresh from a two hours' rest, try to steal a lap on the other riders in the six-day bicycle race. He was unsuccessful, but the crowd up to a pitch of great enthusiasm.

For a time it appeared that the Atlanta rider would gain the long-sought lap. For three miles he kept a terrific pace, one which it was said he was capable of maintaining for six days in six-day racing, was remarkable.

The racers were spread all around the track. Prentiss and Julius were passed in the order named by the flying Southerner, who was then relieved by McEachern, the latter following up the advantage gained by his mate. After an exciting meeting, McEachern let down, but Fisher relieved Chevalier and kept the pace hot. Changes came every few minutes.

When the men finally settled down to a slow pace, the fall-out began. A lap, McLaren, Samuelson, Julius and Fredericks had been lapped. Had McEachern kept up the gait set by his partner the team would have been a lap to the good. At this time soon after 5 o'clock the men were fifteen miles behind the record and were riding at a rate of about nineteen miles an hour.

At 10 o'clock there were 10,000 people in the garden, and the ring inside of the track was jammed. Howard Freeman of Portland, Ore., and Owen S. Kimble of Louisville, rode mile heats, best two in three, and Freeman won each time in 2:22.5 and 2:45.45. At the seventh hour, 10 o'clock, the leaders in the six-day contest were twenty-two miles and seven laps behind the record.

Butler left the track after midnight, declining to resume until the referee had given him back a lap which he declares was improperly taken away from him. The score at 2 o'clock this morning was:

Miles Laps.

McEachern and Walthour.....	1,422	5
Maya and Wilson.....	1,422	5
Newark and Monahan.....	1,422	5
Butler and McLean.....	1,422	4
Fisher and Chevalier.....	1,422	4
Lawson and Julius.....	1,422	3
King and Samuelson.....	1,422	3
Rabcock and Turville.....	1,422	2
Fredericks and Jack.....	1,422	1
Hall and McLaren.....	1,422	1

SOME SHOW YET.

Samuelson and King May be Able to Make Up the Lost Laps.

The many friends of "Billy" Samuelson and "Bully" King were greatly disappointed to learn that they had lost their place in the big six-day race at Madison Square Garden, New York, but many of them predict they boys will yet make up the lost distance and beat the record. The boys are steady and careful, they have a good chance to close up the gap between them and the leaders. Both of them are noted for their endurance and that's what counts in a race of this kind.

LOBSTERS INCORPORATE.

Ogden, Dec. 11.—The directors of the Lobster association decided tonight to incorporate with a capital of 250 shares of \$10 each. The delegates to the league meeting were instructed to favor the Lobster league proposition and the plan of having each association control its own grounds and for the local association to negotiate a lease for Glenwood park. The local association will also set apart 10 per cent of each game for a sinking fund for contingent expenses.

LABOR UNIONS.

The local Brotherhood of Carpenters No. 14 last night elected the following officers for the ensuing year:

Thomas Watkins, president; R. E. Currie, vice president; C. A. Strickland, recording secretary; J. N. Spalding, financial secretary; T. A. Busman, treasurer; Thomas Watkins, C. A. Strickland, R. E. Currie, J. N. Spalding, E. Hawhurst, Elias Price, M. H. Desmond and J. Mickelson, delegates to the Utah Federation of Labor.

Thin Hair

You can't expect a half-starved child to prosper. Neither will half-starved hair prosper, either. Growth demands food. Then feed your hair. Feed it with Ayer's Hair Vigor, the only genuine hair-food.

"My hair was falling out rapidly, and my head was nearly bald. I then began the use of Ayer's Hair Vigor, and less than two weeks stopped my hair from falling out and made it grow rapidly. It has done wonders for me."

Ruth Lawson, Detroit, Mich.

H. All druggists.

J. C. Ayer & Co., Lowell, Mass.

of Labor and the International Boot and Shoe Workers' association.

The Amalgamated Cutlery union, to secure a quorum last night on the occasion of the special order for election. The business was consequently deferred and those who were present voted to impose fines upon all those absent who could not give a good and valid reason for their non-appearance.

THREW UP HIS HANDS.

Footpads Relieve W. K. Ross of \$23 Last Night—Important Clue.

Because he refused to throw up his hands when ordered to, two bad highwaymen thrust two ugly looking guns into the face of W. K. Ross, a teamster employed by the P. V. Coal company, and informed him that unless he obeyed forthwith they would be compelled to send him on a little jaunt through the clouds.

It happened near the corner of Third North and Fourth West about 8 o'clock last evening and before Ross could count twenty ten he was relieved of a bundle of cash amounting to \$23.

The police were immediately notified but the robbers made their escape. They did not leave their address, and perhaps they needed them for themselves. Strange to say, this is another of the long and the short of it. In other words, one of the highwaymen was shot and the other fled. These men seem to be doing a rushing business as they have been heard of in Kansas City, Denver, San Francisco and all through the northern states. In all of these cities, robberies have been committed by a "tall man and a short man." This is regarded as a good clue on the part of the police are working on it.

LEONARD EXTRADITED.

Gov. Wells Signs Papers for His Release to Nevada Authorities.

A requisition from the governor of Nevada for delivery to Sheriff Jake Johnson of Lincoln county, of the person of Thomas Leonard was yesterday afternoon honored by Gov. Wells. The sheriff left last night for Nevada with his prisoner. Leonard was in jail at St. George. He is one of fifteen who were indicted in November for attempting to branch a negro at the mine. The fact that the negro was the "wrong man" did not prevent his being strung up by the neck three times. Seven of the men were now serving life sentences. Leonard, however, escaped, also Jim Morrison, who has been captured at St. Albans, and refuses to go back to Nevada until a requisition papers are granted for his surrender.

HURRYING TROOPS TO TONK, INDIA.

New York, Dec. 12.—A dispatch from Calcutta to the London Times and the New York Times states that the military situation on the Waziristan frontier is such that six native battalions and one mounted battery have been sent to Tonk. It is, however, not considered necessary to organize a field force. Gen. Egerton is commanding part of the frontier force. His staff has been ordered to fly. Flying columns will be told off to harry the Mahaudis.

To Develop California Iron Mines.

San Francisco, Dec. 12.—It is announced that an eastern syndicate which has acquired extensive iron mines in Malheur county, and is now proposing to expend about \$15,000,000 in their development and the erection of smelters and a steel plant. A ship yard for the construction of steel vessels may also be established. The syndicate is also to be called the California Midland, is to be built from the mines to some point on the San Francisco bay. This will cost \$15,000,000 and work of construction will begin early next year. This information is given to the Chronicle by Gen. W. H. H. Hart, a prominent attorney who represents the syndicate, the members of which are not named.

Galveston Bondholders to Meet.

New York, Dec. 12.—A conference will be held in this city on December 17 of Galveston's bondholders to discuss what steps are necessary to meet Galveston's financial difficulties, says the Journal of Commerce. Galveston has failed to pay interest on some of its bonds, and the default was made on December 1, when the city was unable to meet the interest on the forty-year limited debt bonds of 1881, in default to this about \$400,000 in interest and principal. The result of this was the opening of negotiations with the bondholders and a proposition submitted to them. The result of this was the opening of negotiations with the bondholders and a proposition submitted to them. The result of this was the opening of negotiations with the bondholders and a proposition submitted to them.

EASY TO FIND

When you find a medicine that makes your regular food taste good, when you find a medicine that strengthens a weak stomach—then you know you're going to put some flesh on.

Scott's Emulsion does these things. We recommend it whenever the system needs more flesh. If you are thin and able to eat begin regular doses. That's your part. Scott's Emulsion will do the rest. Not flabby—but solid flesh.

ROY KAIGHN MUST ANSWER FOR CRIME

Preliminary Hearing Shooting Case Closed Last Evening.

BAIL ALLOWED TO REMAIN.

Defendant Ordered Held to District Court on Charge of Attempt to Murder Haynes.

It was close to 5:30 yesterday afternoon when the preliminary hearing of Roy Kaighn, charged with attempting to murder William S. Haynes, came to a close. The case will now be passed up to the district court and the preliminary hearing will have to answer before that tribunal to the serious charge. In the event that Haynes' wound proves fatal, the charge is murder in the first degree will probably be preferred.

All the witnesses summoned yesterday were not called upon to testify and after the cross examination of Chief Hilton the prosecution rested and the defendant was then advised to go to the district court on the charge.

The defendant was then advised to go to the district court on the charge. The defendant was then advised to go to the district court on the charge. The defendant was then advised to go to the district court on the charge.

After the "News" report closed last evening, Barratt gave Judge King an illustration of how Kaighn pulled the gun from under his coat and fired. The next moment he said it was not a fact and he would like to take the "Illustration" back and give the correct one.

"Then you were trying to deceive me," then," demanded the judge, "replied the witness.

Clerk J. H. Burton of the Knutsford was called by the prosecution and said that on the day of the shooting Kaighn called at the desk and asked witness to hand him a map where Haynes was sitting when Kaighn came in.

"Did you have any talk with Kaighn or hear him make any statements?" asked Mr. Loofbourou.

"I did not," answered the witness.

Counsel for the defense then took the witness in hand and answering Judge King, he indicated on the map where Haynes was sitting when Kaighn came in.

"Did you see the defendant pointing a gun at this man Barratt?" asked Mr. Loofbourou.

"Who helped Haynes to his chair?" "Mr. Hennehan."

"Who carried Mr. Haynes out to the ambulance?" "I don't know."

By Mr. Loofbourou—Where was the defendant when the officer took charge of him?

"I don't know," answered the witness.

Mr. Burton was then excused and Mrs. Hemphill was called. The lady is a stenographer at the hotel. She testified that she saw the defendant and Haynes on the settee, but did not know what they were talking about. She may have heard whispering but that was all.

Her attention was attracted by a shot. When she first saw the gun it was in the defendant's left hand.

"Did Mr. Haynes have a gun?" "No, I don't know."

Kaighn remained on the settee after the shooting. Witness did not hear Kaighn make any statement.

"Yes, he would be counsel for defense, she said she did not know where Kaighn was at the time she went to lunch. She did not know Haynes at that time.

"How long after you were seated did you hear the report?" "About 5 to 7 minutes."

"You don't know then what either of the men were doing?" "No, I don't know."

"Did you hear Mr. Haynes say anything?" "I heard him say, 'I am shot!'"

Chief of Police Thomas H. Hilton testified as to the conversation he had with the defendant on the afternoon of the arrest. Judge King questioned this line of testimony going in but his objection was overruled by the court.

The chief said he asked Kaighn why he shot Haynes and the defendant replied that it was none of his (Hilton's) business, but added later that he hoped the chief would die, and that he had it in for him.

Answering Mr. Hoffman, the chief said he did not know just who was present at the conversation with the exception of one of the officers, the clerk, sergeant and Mr. Penrose of the "News."

NEW STAR FOR AMERICAN FLAG

Oklahoma Territory to be Raised To Dignity of Statehood.

POPULATION ENTITLES HER.

Senatorial Comment on President's Message—Last Days of Industrial Commission—Public Buildings.

Special Correspondence.

Washington, Dec. 9, 1901.—The state of Oklahoma is next on the list, and while there will be efforts to admit Arizona and New Mexico it seems to be generally understood that one statehood bill will pass and that will be for Oklahoma. Already this territory has a sufficient population to entitle her to two congressmen, making her equal to half a dozen states and superior to as many more in the matter of representation. There never was any reason for denying statehood to Oklahoma in the last Congress, and especially after the census was taken and it was shown that she had a population fully equalling her to equality among the states. Delegate Fyan, who has represented the territory for many years, is already pushing his bill for admission and has received promises of support from those who share his opinion. It is expected that the committee of both houses will report the bills without any great delay, and the only opposition anticipated will be from those who want to include the other territories in a general omnibus bill.

HAS HAD EXPERIENCE.

Some time after the President's message was read to Congress I heard a group of senators discussing it. "I like what he says about the army," remarked one. "What has he been in the army and ought to know something about it," was the reply. "Now," what he says about the navy suited me," another said. "What has he been in the navy and ought to know something about it," was the reply. "Now," what he says about the navy suited me," another said. "What has he been in the navy and ought to know something about it," was the reply.
