

From Temple Bar.
TOD MUCH REAL.

(CONTINUED.)
Immediately surrounding this fanatic were about fifty men, apparently well armed. They fired a volley which might have deprived us of our leader, if he had not jumped down a time and rushed toward the gate. They had nearly gained the *terre de point* when our word of command came out, clear as a bugle call:

"Number One—ready—fire!"
"Number Two—with revolver—ready—fire!"
"Number Three—ready—fire!"

"Number One and Number Two—with your guns—ready—fire!"
"One and Two—ready—guns—left hand barrels—fire!"

"Number Three—ready—fire!"
"Number Four—ready—fire!"

"Number One and Number Two—with your guns—ready—fire!"
"One and Two—ready—guns—left hand barrels—fire!"

MOTHERS, READ THIS!

THE

EUREKA DIAPER!

IS JUST THE ARTICLE NEEDED BY EVERY MOTHER WHO CONSULTS THE HEALTH AND COMFORT OF HER CHILD.

THE EUREKA DIAPER is designed as a shield to protect from moisture the clothing and bedding of children, and also the clothing of those who have the care of them. It is made thoroughly waterproof, there being no sewed seams, the threads of which rest when exposed to moisture.

THE EUREKA DIAPER is so constructed as to fasten below the stomach, and to conform to the shape of the child's body; therefore it is not liable to fall off, and consequently securing the linen diaper in its place, at the same time giving perfect ease and comfort to the child. One of the many advantages of the Eureka Diaper is, that the danger and trouble of using pins is avoided; another is, that it permits a free circulation of air. They are manufactured in four different sizes, so as to suit the age and growth of the child, No. 1 being the smallest and No. 4 the largest.

We call the attention of our Lady Friends to the Newest, Finest and Most Exquisite Hamburg Edgings and Insertions.

A GOOD KID GLOVE, AT LOW PRICES.

PEOPLE'S VERDICT

Over Half a Million sold and in use!

4,000 made and sold per week

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are no longer used, owing to their being partially or utterly impracticable.

The SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best sewing Machine in existence.

It is simple, compact, durable, beautiful, quiet, light-running, and capable of performing a range and variety of work never before attained upon a single machine; using either a No. 1 or No. 2 needle, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachment for Hemming, Folding Tops and Cabinet Cases, regular to the SINGER Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, and from the plainest to the most elaborate patterns and finish. The Machine is made in plain or highly ornamented with pearl and gold to correspond with their taste or colors.

The SINGER uses a SHIRT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the SINGER Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive the Shuttle in a race, thus causing great wear, and requiring oil, and soiling the thread and goods.

On the SINGER, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always ready for use, and sewing which is not the case with any other. Many other Machines have a fixed tension, and so are many of their new peculiarities and supposed advantages.

The SINGER is the

Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age, and unlimited capital, it is now the most perfect and reliable of all sewing Machines. All the Very Latest Inventions and Improvements, such as the only Machine which sews on all kinds of heavy and light materials, from Cotton, Linen, etc., and run in the most perfect and reliable manner without trouble to the operator.

SINGER'S

New Manufacturing Machines

Gives the most satisfactory results of any other class as the new Family Machines. These old and well-tried Sewing Machines are applicable to all kinds of heavy and light materials, from Cotton, Linen, etc., and run in the most perfect and reliable manner without trouble to the operator.
